Look for the Big Sign, 215 Fayetteville Street.

MORRIS GOLDSTEIN, Manager.

State Board of Agriculture in Session Today

600, paid, leaving \$20,000 still due. Inspection of fertilizers show the goods to be generally as represented. The multiple registration of brands of the same contents under different names gives much unnecessary work. It is recommended that some limit be put upon number of times same brand is registered.

Cotton-seed Meal.

There has been considerable complaint as to amount of hulls contained in cotton-seed meal, some representing it as much as 1-3. The meal is not sold as warranted so much meal and so much hulls. The guarantee is 7 1/2% ammonia and where it is feed meal that it contains such an amount of nutrition. It is bought upon this without regard to proportion of hulls and meal. Fertilizer inspectors have been required to do work in feed control, and they have been found very efficient. It is cheaper than employing a chemist in general work. There has been many violations of regulations in both cotton-seed meal and feed stuffs, which have rendered necessary extra visits of inspectors. The policy has been adopted of requiring the offenders to pay extra costs which this occasions the department, whether violation is intended or not.

The test farms have made advances along many lines that are of great value to the farmers. Much of this is published in the February Bulletin each year.

Feeding beef cattle has been con-

ducted profitably both at Statesville and Edgecombe farms. If the farmers of these sections can be induced to go largely into this business it will give a fine market for the cattle of our mountain country, and on the farm for provisions raised in the lower sections.

Considerable work has been done in the veterinary division in the eradication of cattle tick, and giving attention to diseases of animals wherever reported. The interest in dairy demonstration work is growing greatly each year, and demands much of the time of the force.

The soil survey, in co-operation with the United States government, has been conducted in Pitt, Roberson, and Caswell counties this year.

The work in the field and the office in entomological and horticultural divisions has been much extended, accounts of which will be found in their reports.

No branch of our work has been more beneficial or acceptable to the people than farmers' institutes. Work is being arranged in much larger scale than before for this summer.

It is recommended that each employee of the department have an appointment for the commissioner stating date of commencement of service and salary.

That each officer notify the commissioner of intended absence of more than 24 hours.

That the secretary be made purchasing agent for the department and all supplies needed be issued on requisition.

That all circulars and reports from the department shall be approved by the commissioner.

INVITATIONS FOR MR. TAFT.

Gets Three Invitations Today to Attend Different Meetings.

(By Leased Wire to The Times) Washington, June 2—President Taft received three invitations today. One from Benjamin L. Wiggins, vice-chancellor of the University of the South, at Swanee, Tenn., to visit the institution; Representative Taylor, of Colorado, asked the president to visit Denver in August, during the meeting of the trans-Mississippi congress, and Rev. L. B. Bates, father of the governor of Massachusetts, invited the president to attend a Sunday school picnic at Point Pines, ten miles from Beverly, Mass., when Mr. Taft is there during the summer.

Tabernacle Norfolk Xcurston, June 8.

KNAPP AND NEILL ARE BACK IN WASHINGTON

(By Leased Wire to The Times)

Washington, June 2—Chairman Knapp, of the Inter-state commerce commission, and Labor Commissioner Neill returned from Atlanta, where they assisted as a federal board of conciliation in settling the strike on the Georgia Railroad. They expressed their belief that all danger of disorder was past.

"If there is any trouble about the details," explained Mr. Knapp, "the questions will be submitted to arbitration."

Chairman Knapp and Commissioner Neill will report personally to the president.

YOUNG MAN A SUICIDE.

Richard A. Gray, of Maryland, Drinks Carbolic Acid—Was Temporarily Deranged.

(By Leased Wire to The Times)

Washington, June 2—Richard A. Gray, son of Judge Gray, of Charles county, Maryland, and member of a well-known Maryland family, killed himself this morning by drinking carbolic acid at his home.

He had been suffering from a mild form of melancholia and had been under the care of a physician for some time. It is believed he was temporarily deranged.

OFFICIALS ROB ROAD.

Mystery of Systematic Robbing of Railroad Solved—Officials and Employes Arrested.

(By Cable to The Times)

Odessa, June 2—The mystery surrounding the systematic robbing of the Moscow and Tiflis Railroad for two years past, during which booty aggregating \$12,500,000 has been stolen, has been solved, after a long investigation and today two high officials of the road and 155 other employes were arrested as the thieves.

An organization which extended the entire length of the line and comprised employes high and low, in all branches of the service, was uncovered by the police. Valuable merchandise was made away with without the slightest clue to the thieves or their methods being left behind, and the loot was marketed as skillfully and secretly as it was stolen.

The police are confident that in today's arrests they have cleaned up practically the entire gang.

FEDERAL COURT PROCEEDINGS

Federal court resumed its sittings this morning at 9:30. The following cases were disposed of:

U. S. vs. Claud Cheek, Durham county. Illicit distilling; continued to November term.

U. S. vs. B. B. Lowe, Harnett county. Three cases of illicit distilling, consolidated and tried together by jury. Verdict, guilty in each case. Judgment reserved.

U. S. vs. Brock Laws, Durham county. Illicit distilling. Jury trial. A juror was withdrawn and a mistrial ordered. The defendant was held for the western district and ordered to file bond.

U. S. vs. John Lawter, Moore county. Illicit distilling. This case came over from yesterday. Verdict, guilty of aiding and abetting. Judgment reserved.

U. S. vs. W. T. Petty, et al., Chatham county. Illicit distilling. Continued to November term. Petty was requested to file bond.

U. S. vs. Job Palmer, Lee county. Illicit distilling. Defendant pleaded guilty as upon information filed. Judgment suspended on payment of costs.

U. S. vs. Richard Gattis and Atlas Durham, of Durham county. Defendant waived bill and pleaded guilty and entered prayer for judgment. Judgment was reserved.

U. S. vs. Norman McKnight. Violation of the postal laws. The defendant pleaded guilty and was sentenced to eighteen months in the federal prison at Atlanta.

U. S. vs. Arthur Williams, Franklin county. Violation of postal laws. Defendant pleaded guilty and entered prayer for judgment, which was reserved.

At 2 o'clock P. M. the court adjourned to meet tomorrow morning at 9:30.

Shortage in Bank.

(By Leased Wire to The Times) Lewiston, Idaho, June 2—National Bank Examiner Claude Gatch is authority for the statement that a shortage has been discovered in the funds of the Lewiston National Bank. The stockholders have made the alleged shortage good. It is said to have been \$137,000.

ZEPPELIN GETS BACK WITH SHIP

(By Cable to The Times)

Berlin, June 2—Count Zeppelin's damaged airship landed at Friedrichshafen at 6 o'clock this morning after a slow night flight from Goepfingen, where it crashed into a tree on Monday, staying in the forward compartment of the gas tank. The arrival of the great dirigible at its floating quarters on Lake Constance marks the end of the greatest balloon flight on record during which one thousand miles were covered with three interruptions and a new record for continuous flight was established.

CLEAN UP DAY IN SECOND WARD

The work of cleaning up the city goes merrily on in the second ward today. The big trash wagons were on the go this morning at an early hour and before every house heaps of rubbish awaited them. The whole city is entering heartily into the work and is doing it with a spirit that speaks well for Raleigh. When the week is over Raleigh will be a spotless town. The mayor, Prof. Harper, Mrs. Moffitt and their cheerful band of workers are to be commended on the excellent showing they have made and when the work is finished the whole city will owe them a debt of gratitude.

Tomorrow is clean up day in the third ward.

RALEIGH BOY STANDS HIGH.

Mr. Alex L. Feild Wins Honors At State University.

Mr. Alex L. Feild has returned from Chapel Hill, where he has just finished the work of the sophomore year in the State University. Mr. Feild has taken high stand at the university. This year he won the Greek prize and was so proficient in the department of physics that he was appointed assistant in that department under Dr. Patterson for the coming year.

Mr. Feild is only eighteen years old and his work is a credit not only to his parents, Col. and Mrs. A. J. Feild, but to his native city and the teachers who fitted him for college. He was prepared for his college course under Prof. Hugh Morson, in the famous Morson's School of Raleigh. He graduated from Morson's School at the age of fifteen and one year later entered the university. He won the scholarship medal in both his junior and senior years at Morson's School.

Not Begging.

In view of the fact that a great deal is being said of "begging" on the part of the fire department and that a great deal of begging is actually being done, Rescue No. 1 wishes it understood that it has done no begging and will not do any. If any friend of the company wishes to help it, the company will appreciate it, but is not going to subject its friends to any annoyance.
