BETTING EVEN MONEY ON THE ANNUAL REGATTA

But Harvard Money is More Abundant and Harvard Confidence Growing.

THOUSANDS SEE RACE

Harvard and Yale Meet in the Annual Regatta on the Thames River This Afternoon.—"Harvard Will Sweep the River" Was the Cry of the Crimson Army Today—Crews Will Receive Inspiration From the Splendid Setting and a Magnificent Struggle is Expected.—The Best Crew Will Win and There Are No Excuses Now.

(By J. W. McCONAUGHEY)

New London, Conn., July 1.—With the betting steadily at even money, but a heavy preponderance of Harvard money in sight and Harvard confidence growing with every hour, Harvard and Yale meet in the annual regatta on the Thames river today.

"Harvard will sweep the river," was the cry of the crimson army today, and the expert river men who have followed the work of the two camps at Red Top and Gales Ferry echo the chorus.

If there is anything in the inspiration of a splendid setting there will be a magnificent struggle this evening. When the two shells leap into the course from the railroad bridge the banks of the river for miles will be alive with thousands of spectators.

Observation trains with thousands more of spectators on the canopied cars, will follow them on each side of the river. Undergraduates, alumni, society folk, and business men have come miles or hundreds of miles in trains, automobiles or steam yachts to see the eight men of the Blue and the eight of the Crimson in the breathless four-mile struggle up the Thames.

Whatever excuses the coaches may find for defeat after the race is rowed, there are none now. The best crew will win. Both crews brought their own water with them from their home camps and they have come through their training work without injury or illness. It will be eight perfectly conditioned men in each boat and four miles of open water in front of them. It will be a race.

A repetition of last year's one-sided exhibition is not anticipated. Despite the "bear stories" that came out of New Haven early in the year, Yale undergraduates and alumni to a man believe in their boat.

Yale's rowing coaches are decidedly impressed with the Harvard eight, as it went on its final time row. Coach Kennedy said:

"Harvard's time was very fast. Indeed, Harvard has a first rate crew."

Of the other two races of the day, they are generally conceded to be an even break. The wisecracks have touted the Harvard freshmen crew as unbeatable, while the Yale four is well liked by the form players.

Five to four on the "Red" seems to be the common odds offered against Yale this morning. And then too, when it came to the toss for position on the course, Harvard won the position in each of the day's three races. He chose the west course, nearest the racks of the Vermont Central.

The four-oared varsity race was started at 10:32. Harvard shot away with a magnificent long, steady stroke that took her right through the water in variable ups. Yale was less steady, took a later stroke and splashed the water good deal.

Following is the official time for the race: Varsity four: half mile—Yale 3:08; Harvard 3:12.

1-2 mile: Harvard 6:25; Yale 6:29.

1-3 mile: Harvard 10:04; Yale 10:09.

1-4 mile: Harvard 13:14; Yale 13:23.

1-5 mile: Harvard 16:18; Yale 16:27.

1-6 mile: Harvard 19:22; Yale 19:31.

1-7 mile: Harvard 22:26; Yale 22:35.

1-8 mile: Harvard 25:30; Yale 25:39.

1-9 mile: Harvard 28:34; Yale 28:43.

1-10 mile: Harvard 31:38; Yale 31:47.

1-11 mile: Harvard 34:42; Yale 34:51.

1-12 mile: Harvard 37:46; Yale 37:55.

1-13 mile: Harvard 40:50; Yale 40:59.

1-14 mile: Harvard 43:54; Yale 44:03.

1-15 mile: Harvard 46:58; Yale 47:07.

1-16 mile: Harvard 49:62; Yale 49:71.

PRESIDENT AND PARTY RETURN

(By Leased Wire to The Times)

Washington, July 1.—President Taft returned from New Haven, Conn., shortly after ten o'clock this morning. He, together with Mrs. Taft and their son Charley, will leave here Saturday afternoon for their summer home at Beverly, Mass. Miss Helen Taft left here this morning for New York, where she will be met by Henry W. Taft, her uncle, and his family, who will join Mr. Silas Witherbee and Miss Mitherbee. They will all proceed to Lake Champlain Saturday, where Mr. Witherbee has a large house-boat, and where the tercentenary of the discovery of Lake Champlain is to be celebrated July 5-6. Charley Taft will join the party there and his brother Robert will also probably do so.

ELIOT TALKS ABOUT THE BOOKS

(By Leased Wire to The Times)

Boston, Mass., July 1.—President Emeritus Charles W. Eliot, of Harvard, today told a reporter that had been paid for picking out the thirty books for the "five foot shelf" to be published by a New York concern. He declared he had personally selected the volumes. "I selected this list of books at the request of the publishing house," said President Eliot. "It was a commercial enterprise upon their part, and I entered into it because I had another motive as well as any personal profit. My motive was the cause of education. I believe that all who read these books will be permanently benefited. For this work, naturally, I was remunerated. How much I received I don't care to make public.

"The Bible and Shakespeare were omitted from the list at the suggestion of the publisher. The reason, of course, is that most people have read the Bible and Shakespeare. This list was originally intended to be a fifty-book list. Now any good edition of Shakespeare would take five volumes. The Bible would take three volumes, and these would be eight gone out of fifty. The list of books as mentioned is very incomplete. I expect when the task is finished to issue twenty more titles. I will try and confine the list to sixty books."

THE DEFICIENCY APPROPRIATION BILL

(By Leased Wire to The Times)

Washington, July 1.—The house committee on appropriations today will begin the preparation of a deficiency appropriation bill, the total of which, it is now believed, will approximate a million dollars.

Included in this bill will be an appropriation of \$25,000 with which to pay the traveling expenses of the president. Other items the bill will carry are: \$80,000 for the equipment of hospitals at Ellis Island; \$300,000 to pay the expenses of this government's participation in the Brussels' exposition of 1910; \$106,000 for special assistants to the department of justice; \$12,723 to pay the salary of Oscar B. Hundley, who served for some time as United States district judge in Alabama, but whose nomination failed of confirmation by the senate, and \$4,600 to pay for the safe-keeping of the emergency treasury notes authorized by the Vreeland-Aldrich emergency currency law of the last congress.

THE NEXT STRUGGLE

After Corporation and Income Tax Features Are Disposed of Will Be Over Drawback Feature.

(By Leased Wire to The Times)

Washington, July 1.—After the corporation and income tax amendments to the tariff bill are disposed of the next struggle which the leaders will have with their measure will be over the drawback feature. It is expected also that the customs court provision which is entirely new in a revenue measure will provoke some opposition and that the maximum and minimum clause will not escape without a protest from the democrats and progressive republicans.

While there is less of politics in these provisions than in the schedules they are so widely different from the terms of the house bill that they will require consideration and explanation.

THE TIN PLATE WORKERS ARE OUT ON STRIKE

Fifteen Plants Crippled or Utterly Tied up Last Midnight

STEEL PLANTS AFFECTED

At the Offices of the Amalgamated Association It Was Said This Afternoon That the Strike Order Was Obeyed With General Unanimity.—At Newcastle, Where Men Were Expected to Line Up With the Company the Walkout Was General.—President of the Amalgamated Association Satisfied With Results so Far.

(By Leased Wire to The Times)

Pittsburg, July 1.—Fifteen plants, with a total capacity of over 190 hot mills were crippled or utterly tied up at midnight last night by the strike order that went into effect at that hour in the Union Sheet and Tin Plate Mills of the United States Steel Corporation, according to the claims of the Amalgamated Association of Iron, Steel and Tin Workers, after receiving reports from every storm center during the night. The total number of men on strike this morning exceeds 7,000. The Amalgamated officers claimed that not one of the plants in dispute will be operated today and as an indication of the unanimity of opinion on that point the test vote at Newcastle where the men from 50 mills took a secret ballot and only six voted to continue at work.

The steel corporation plants affected by the strike are:

- Tin plate—Greer, Newcastle, 20 mills; Shenango, Newcastle, 30 mills; Sharon, 20 mills; Labelle, Wheeling, W. Va., 10 mills; Laughlin, Martins Ferry, O., 23 mills; Humbert, Connellsville, Pa., 6 mills; American, Elwood, Ind., 28 mills; Anderson, Ind., 7 mills; Moorewood, Gas City, Ind., 8 mills. Total 142 mills.

Sheet Steel Mills—Aetna Standard, Bridgeport, O., 23 mills; Guernsey, Cambridge, O., 11 mills; Muncie, Ind., 7 mills; Piqua, O., 4 mills; Struthers, O., 6 mills. Total 51 mills.

At the offices of the Amalgamated Association it was stated this afternoon that the strike order to tin plate workers was obeyed with general unanimity. At Newcastle, where tremendous pressure was brought to line up the men with the company, the walk out was general. The same is true of Sharon, Pa., and Marion Ind. At the latter place the American Sheet and Tin Plate Company is prepared to make desperate efforts to resist the strikers, and has announced that it will open its idle factories in Indiana and run them non-union at Gas City, Anderson, and other points.

"We have every reason to feel satisfied with what has been accomplished," said President P. J. McArdle, of the Amalgamated Association. "The company is badly crippled."

Secretary John Williams said: "Every plant of the American Sheet and Tin Plate Company where our men were employed is either idle or in such a bad condition from lack of men that it is not worth while trying to operate them."

Officials of the American Sheet and Tin Plate Company say they believe they can secure workers to take the strikers' places in a few days.

AGREEMENT NOT SANCTIONED.

Between Russia and China as to Administration of Affairs at Harbin.

(By Leased Wire to The Times)

Washington, July 1.—It is not expected that the United States or other nations directly involved will sanction in its present form the agreement recently reached between Russian and Chinese official boards for the administration of affairs at Harbin, Manchuria.

There has been much controversy between the two countries at that point touching the imposition of taxes, policing, of the city, and other questions. Diplomats attached to the European embassies in Washington, where copies of the agreement have been received, have examined the document, and the opinion has been expressed that further consideration and modification of the instrument will be necessary.

The Russians have claimed that the attitude of the railroad authorities at Harbin in no way involves the question of Chinese sovereignty.

AN INHERITANCE TAX WILL BE PUT IN TARIFF BILL

Will be Substituted for the Taft Tax on Income of Corporations.

HOW IT WILL BE DONE

When Payne Tariff Bill is Enacted Into Law It Will Not Contain the Taft Tax on the Income of Corporations Is the View Expressed by a Leading Republican Senator—Inheritance Tax Was Recommended by the President and Its Substitution for Corporation Tax Will Meet With His Approval.—Corporation Tax Was Only Brought Forward as Last Resort to Defeat Income Tax.

(By Leased Wire to The Times)

Washington, July 1.—When the Payne tariff bill is enacted into law it will not contain the Taft tax on the income of corporations, but instead will provide for an inheritance tax, said a prominent republican senator to-day who ranks as a lieutenant to Senator Aldrich, the leader of the senate.

According to the senator the Taft corporation tax amendment, which is now before the senate, will be voted into the bill because the president has requested it, but when the tariff bill is sent to conference the house inheritance tax, also recommended by the president in his message to congress March 15, will be substituted. This, it is said, will meet with the approval of the president, as it will be in keeping with his recommendation. If the senate should vote down the corporation tax amendment it would be considered by the country as a rebuke and a slap at the president, but its adoption would be an endorsement just as will the substitution in conference of the inheritance tax. Of the two forms of taxation the inheritance tax is more popular with the country. The truth is, as stated by administration senators, the corporation tax was only brought forward as a last resort by President Taft and Senator Aldrich to beat the income tax, and in this, it seems, they have been successful at least for the present.

The senate met at 10 o'clock. Senator Borah, of Idaho, continued his speech against the corporation tax. Quoting the late Senator Platt, of Connecticut, Senator Lodge and others, to show the injustice and unconstitutionality of such a tax when it was proposed eleven years ago, Senator Carter, of Montana, inquired about the changed attitude of the minority which at that time supported the tax.

Senator Bailey, replying, said his attitude was not changed; he was still for an income tax, but if he failed to get it would vote for the corporation tax. Answering a question by Senator Root, he said he believed the corporation tax to be constitutional, that congress had the power to levy it, and that it could also assess a tax on all red-headed men if it saw fit.

Continuing, Senator Borah said the present arguments were not against the constitutionality, but rather in opposition to the desirability of the tax. Senator Bourne, of Oregon, followed Senator Borah, supporting the corporation tax. He said that its chief value lay in the publicity feature which would be the beginning of the federal solution of the trust question, which combination, he declared, had come to stay. He said President Taft had advocated a corporation tax last fall and had not accepted it as had been charged at the instance of Senator Aldrich or any one else, in order to defeat the income tax.

MISTAKEN FOR LEON LING.

Prominent Nicaraguan Arrested by New Orleans Authorities.

(By Leased Wire to The Times)

Washington, July 1.—A prompt expression of regret probably will be made by the New Orleans authorities if Colonel Pasos, a retired officer of the Nicaraguan army, who was mistaken for Leon Ling, the Chinaman wanted in connection with the murder of Elsie Sigel, should make his arrest an international issue and bring it before the state department.

How he happened to land in New Orleans is a mystery to Mr. Espinosa, the Nicaraguan minister, who expressed the opinion today when he read the New Orleans dispatch, that the case must be one of mistaken identity. The minister has not heard from Colonel Pasos.

THE GRAND JURY INDICTS TRUST

(By Leased Wire to The Times)

New York, July 1.—The federal grand jury today brought in nine indictments against the sugar trust. The indictments were presented to Judge Hand in the United States circuit court and arrests of sugar trust officials will follow. One of the indictments is against the American sugar refining company as a corporation. The other eight are against its officers and agents.

Individuals indicted are Washington B. Thomas, president of the trust; Arthur Doller, Charles H. Senn, Charles Lyster, George H. Frain, directors; John E. Parsons, chief counsel for the trust; Thomas B. Harned, counsel for Adolph Segal of the Pennsylvania sugar refining company and Gustav E. Kissell, agent for the trust.

The indicted men were given until next Tuesday to plead to the charge of violating the Sherman anti-trust law.

WATERS-PIERCE COMPANY PROFITS

(By Leased Wire to The Times)

Dallas, Tex., July 1.—Robert E. Eckert, state receiver for the Waters-Pierce oil company, has made public his official monthly report covering operations from April 22, the date on which he took charge, to May 31. The assets of the company in Texas are shown to be worth \$1,852,143.37. The net profits of the business as shown by the cash balance for the five weeks the state receiver has been in charge approximate \$70,000. This average would make for the year net profits of \$728,000.

The public has known all along that large profits were made by the Waters-Pierce company and since the state took charge the expectation has been that the price of oil would be lower, but on the contrary it has been made higher. The Texas company recently increased its price for oil 2 cents a gallon. The state receiver is charging the same price for the Waters-Pierce product.

This has caused much criticism of the state's course.

North Carolina Postmasters.

(By Leased Wire to The Times)

Washington, July 1.—Fourth class postmasters were appointed today as follows: North Carolina—Jupiter, William R. Tillery.

CHINAMAN MET DEATH IN HIS SHOP

New York, July 1.—A Tong war which is the outgrowth of the Elsie Sigel murder mystery began today when Ung Yaw, a Chinese laundryman, was strangled in his shop in the basement of 124 Stanton street. The Chinaman's body was found today by Sadie Markowitz, a three-year-old child. The man had been dead only a few hours when his body was found. There were signs of a terrific struggle in the rooms he occupied. There was evidence that he had been attacked by two or more men. He undoubtedly fought desperately for his life, because tables and chairs were overturned and crimson stains on the walls told how he had leaped about, even when mortally wounded, in an effort to save himself.

Several points in the murder lead the police to believe that it has some connection with the Elsie Sigel mystery. Papers found in Yaw's room showed that he belonged to a Chinese Tong, or secret society. There were also newspaper clippings bearing on the Elsie Sigel case.

SHOT BY DREAMER.

William Wright Shoots Charles Tozier—Said He Was Asleep.

(By Leased Wire to The Times)

St. Louis, Mo., July 1.—William Wright, acquitted Wednesday of complicity in the murder of Constable Young in a political feud several months ago, shot and fatally wounded Charles Tozier, his best friend, early this morning.

The shooting took place in the home of Mrs. Marie Mohrie, widow of "Yellow Kid" Mohrie, who was shot and killed a few weeks ago while a jury was being drawn to try him for the Young murder.

A policeman found Tozier staggering on the street. He was taken to the hospital where he refused to say who shot him. After great pressure Tozier admitted Wright shot him. Wright was found at home in bed. He said he awoke while he was asleep and

THE NEW CHIEF POLICE ENTERS UPON HIS DUTIES

Presented With a Beautiful Gold Badge by Admir-ing Friends.

AN UNUSUAL CEREMONY

Justice Harry Roberts Arrested and Brought Into Court by Chief Stell on the Charge of Conspiracy.—J. W. Bailey, Attorney for Justice Roberts, Uncerth the Conspiracy. Draws a Line Between Good Conspiracies and Bad Ones—Badge a Very Beautiful One—Judge Stronach Publicly Thanks Acting Chief Beasley For His Services to the City.

All that takes place in the police court is not imposing fines, sentencing offenders to the roads, or for want of sufficient evidence, turning a defendant loose.

There are sensational proceedings sometimes which attract the curious to the court room and again public interest draws an attendance of Raleigh's good citizenship to see that justice is meted out without fear or favor; but an unusual and unique proceeding took place this morning, when Raleigh's new chief or police entered upon the active duties of his official position.

Just before court was opened the city attorney asked the court to issue a capias ad testificandum for Justice H. H. Roberts. The process was issued and placed in Chief of Police J. P. Stell's hands to be by him personally served, and in a few minutes the chief returned and delivered Justice Roberts at the bar of the court.

Justice Roberts requested Judge Stronach to permit him to look at the process. It was handed him and after reading the writ Justice Roberts said:

"May it please your honor:

"Upon reading this process, I take it I am brought to the bar of your court to reveal certain things which apparently touch closely upon the elements of a conspiracy to temporarily impede the proceedings of this honorable court. Be that as it may, to me, however, it is a pleasure to appear before your honor, and I will say that it is doubly so, for that I believe it was brought here by the first official act of Raleigh's new chief of police in serving a process of your court."

"It may be true, perhaps, that I conceived a scheme, the doings of which, as I have stated border closely upon the material elements of a conspiracy, still the overt act is yet to be enacted, and that I may not commit myself or those associated with me in this scheme, it may be proper and prudent that I should say no more without the advice and direction of my counsel, Hon. Josiah Williams Bailey, who will present, with your honor's indulgence, the nature of the scheme, its purpose and make known to your honor the result of the conspiracy, if such it be."

Mr. Bailey arose and addressed the court:

"May it please your honor:

"I take it that Raleigh's new chief of police has made an auspicious beginning in discharging the duties of his position. He has begun by bringing 'justice' into your court in the person of Raleigh's popular and upright justice, Harry H. Roberts. As to the conspiracy with which my client, the eminent justice, stands charged we deem it best to plead guilty. And I give you notice that before this trial is over we will have turned the tables on our chief of police and he will find himself in need of counsel—or, at least, of some one to speak for him.

"We have, indeed, pleaded guilty of conspiracy; but we ask the court to consider that there are two kinds of conspiracy—one against the peace and dignity and welfare of the state and of this kind of conspiracy we are innocent. The conspiracy of which we are guilty is the conspiracy of admiring friends, who, out of the confidence and respect they have for our new chief of police, headed by my client, have conspired to purchase and present to him as a testimonial of their confidence and esteem, a beautiful gold badge. It is given in recognition of his high position and the sheriff's office and the confidence
