By Lessed Wire to The Times.) Washington, Sept. 20-Officials of postoffice department are much sed with President Taft's speech dersing postal savings banks. It cans that the administration will make this question an issue in the house, and that it will force Speaker Cannon to show his hand.

Several bills providing for postal savings banks were introduced in the house during the extra session, but they were not taken up for consideration because there were committees appointed to which they could be referred. However, these bills are now before the committee on postoffice and post roads, of which Representative Weeks, of Massachu-setts, & banker, is chairman. Mr. Weeks is known to be opposed to the postal, savings bank scheme, as is also Speaker Cannon. With such opposition in advance it is very evident that President Taft will have a lively fight to get this pet measure through the house

The postal savings banks will no doubt be a leading feature in the president's message and also in the postmaster general's report.

THE KIND OF ENUMERATORS.

Farmers and Crop Reporters for the Census of Agriculture. (By Leased Wire to The Times.)

Washington, D. C., Sept. 20-For ty-five thousand enumerators out of the estimated grand total of 65,000, will be engaged April 15th, next, in gathering the required information peerning agriculture for the thirteenth Becennial U. S. Census. Director Durand purposes making every effort to secure progressive farmers and crop reporters for these places. mendations of Chief Statistician Le-Grand Powers and the advisory board of special agents composed of proressors of economics and farm experts who have been assisting in the formulation of the schedule of inquiries concerning farm operations and equipment. It is believed that the selection of this class of men, already familiar with statistical methods of securing data and reporting it in comprehendible form, will add greatly to the efficiency of the census and to the scientific value of the information obtained. Director Durand does not anticipate any difficulty in procuring numerators of this kind as there are in every state of the union hundreds of crop reporters acting for the department of agriculture, representatives of state boards of agriculture,

The agricultural schedule which is to be placed in the hands of these enumerators is nearing completion by the census bureau. The advisory board, who are acquainted with practical agriculture, its varying conditions, and who are active in their respective states in assisting the farmers to improve their farm methods, have been most earnest and no effort is being spared to make the schedule as simple as possible, and yet secure the greatest amount of important information concerning agri-By means of the census schedule

accurate statement of the total numalso the improved area, number, and size of farms. On account of the growing importance of tenancy in many parts of the country, considerable information will be secured as to whether farms are operated by owners, tenants or hired managers. Information about the value of farm, buildings, and other permanent improvements; and of the farm equipment, both machinery, implements, and live stock, will be secured.

An important part of the schedule will be that enabling a study of the crops and crop products of 1909. The enumerators will ask about areas, tobacco, rice, hemp, potatoes, broom- painful mistake. corn, etc. By-products, like flax straw for tow and twine; and such menufactured products as wines, cider and vinegar, dried fruits, sugar, syrup, etc., will not be overlooked by

the questions in the schedule. The inquiries concerning live stock and their stock products, also include cattle, work animals, sheep and goats, at the time of the enumeration are to be secured in some detail, taking into consideration ages, sex and use of animals. Furthermore, data will be secured relating to the number and value of each species of animal raised, purchased and sold, and the quantity and value of animal proand cheese, wool, eggs, honey and

TRYING TO STARVE.

Man Arrested in the Long Island Murder Case Refuses to Eat.

(By Leased Wire to The Times) New York, Sept., 20-Augustus Schwartz, the boarder in the Nelson home at Central Islip, L. I., who is under arrest in connection with the killing of Irving J. Nelson, the democratic committeeman, is trying to die by starvation in the East Islip jail. He has not taken a mouthful of nourishment since his arrest.

"Do you want to die?" asked Jailer Havens, when Schwartz refused his breakfast today.

"Yes; I want to die," he moaned. By means of the census schedule "My best friend has been killed. an effort will be made to secure an Why should I want to live?"

ber of acres of land in the farms of to prevent any attempt at suicide. A the country, by states and countles; failer watches at the door of his cell day and night. He is not allowed knives or forks, and even his bed is stripped of linen so that he cannot make a rope to strangle himself.

Meantime there are many important new developments in the great Long Island mystery. The police discovered today that when Schwartz was arrested in the early morning after the tragedy he did not wear a single article of clothing that he had on the night before.

Not Mrs. N. A. Spence.

Through the similarity in names quantities produced and value of Mrs. Annie Spence, wife of Mr. Neal crops, in the case of all the principal Spence, whose death occurred last crops grown in all parts of the United week, has been confused with Mrs. States. STARTLING SITUATION

(By Leased Wire to The Times) Washington, Sept. 20—A startling uation has developed as the result. tuation has developed as the result of taking of stock of the forestry re-sources of this country, according to Freadwell Cleveland, expert in the bureau of forestry, in a bulletin made public today entitled "The status of forestry in the United States."

It has shown, Mr. Cleveland declares, that we are still destroying the forest as we use it; that we are taking from it every year three and a half times as much wood as is added by the new growth that less than one-third of the growing trees felled by the lumberman is ever used at all; that one-eleventh of all the forests is swept by fires every year, and that on the average, since 1870, forest fires have yearly cost \$50,000,000 in timber and fifty lives.

ABDUL HAMID A MANIAC.

mever felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends,"—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.
Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsoficited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Hermit Many Former Sultan Loses His Mind Entirely—Remarkable Cure Prescribed.
Salonica, Sept. 20—Haunted by the vision of his beautiful harem favorite, whom he slew just before being sent into exile, ex-Sultan Abdul Hamid has become a raving maniac and the guard over him was doubled today to prevent him from committeing suicide. The former sultan roams through his villa muttering and railing, allowing no one to venture near him.

The most remarkable cure ever attempted has been prescribed for the former ruler. A carpenter shop is being constructed near his villa so

being constructed near his villa so that he can employ himself at work. Abdul frequently employed his spare time while sultan by doing wood cutting, and the workshop has been constructed in order to offer his mind distraction. The days of Abdul Hamid are apparently numbered. Broken in mind, health and spirit he is living an unhealthy life, frequently going for days without eating or removing his clothing. He imagines everyone a spy and suspects the servants of trying to poison him. His entourage is constantly exposed to brutal treatment and the freaks of his bad hu

.ue former sultan's memory has gone entirely, and, upon hearing the name of Drilderu, his loyal follower and former vizier, mentioned, he exclaimed:

"That dog is a spy."

A plan to release Abdul and attempt to reinstate him in his former power has been given up on account of the feeble condition of his health. News of his death is expected at any

THE PRESIDENT'S MESSAGE.

Will Devote Considerable Space to the Interstate Commerce Law.

Washington, Sept. 20-In his mes sage to congress in December, it was earned today, the president will devote considerable space to the Interstate Commerce law and the railroad rate law. President Taft has requested the attorney general, Secre tary Nagel, Commissioner Prouty and Representative Townsend to consider the features of the Interstate Commerce act, the Sherman anti-trust act and the railroad rate act with the view of preparing needed amendments so as to make those acts conform to changed conditions. The president is staisfied that these acts are far from perfect and that if enforced as expected by some of the courts, great hardship would follow and much harm be done to legitimate enterprises.

This legislation, it is asserted, will be pushed by the president, and these facts he will place in his message cannot but have a potent influence, it is believed, on the national law-makers.
