New York Cotton. New York, Oct. 9.—The cotton market this morning opened steady, 2 to 7 points higher. An accumulation of overnight selling orders induced by yesterday's close here temporarily offset strong cables and the advance here was not up to Liverpool's lead. Once these orders were disposed of, however, the market immediately turned stronger and was soon selling 10 to 11 points up.

THE TIMES' DAILY FINANCIAL STORY

(By CHARLES W. STORM) New York, Oct. 9.—Wall Street sold stocks freely during the early trading today because of the expectation of an unfavorable bank statement that would probably show a loss in cash of about \$7,000,000. As a result of this selling standard shares declined from 1 to 2 points with Union Pacific and Steel Common under the heaviest pressure. Steel broke through 87 or 88 points under the high record of the early part of the week. Union Pacific sold at 203 1/2 (a net loss of 1 1/2 points from the closing figure of yesterday).

In spite of the weakness of Union Pacific there was a good demand for Southern Pacific. As a result of fresh reports of an early stock issue by Pennsylvania those shares were steady. The company is expected to issue about \$80,000,000 of new stock in the near future. A further decrease is reported by the committee on car efficiency of the American Railway Association.

In the curb market speculation continued excited in LaRose and Nipissing. Both stocks held steady at about the closing figures of yesterday. American shares were generally lower in London because of the evening up contracts by professionals previous to the publication of the New York bank statement which they believed would be very unfavorable.

New York Cotton Letter. (By W. B. Hibbs & Co.) New York, Oct. 9.—Heavy rains of one or two inches in Texas at about a dozen points, with temperatures down to near the light frost stage in the northern part of the state, stimulated bullish sentiment this morning sufficiently to prevent Liverpool from responding to our decline of late yesterday, and on this our market was bought and bid up to 10 points in early trading. The advance carried January to 13.32; March to 13.34 and May to 13.44. Despite free realizing by local traders and some evidence of further selling by some of the leading bulls most of this improvement was maintained up to close.

There is talk of the big shorts not having fully covered as yet, and also rumors that certain of the bull interests in control of the October option are contemplating squeezing that month by taking up all the cotton their contracts call for, and bidding its prices up during the next fortnight on the shorts. The stock of cotton here is now about 36,000 bales, but may be increased before the end of the month to 50,000 bales. A manipulated advance to much extent of March and May options would start a lot of cotton here from nearby Southern points and thus materially increase present low stocks.

THE COOK-PEARY CONTROVERSY Will Be Discussed by National Geographic Society at Meeting Monday. (By Leased Wire to The Times) Washington, Oct. 9.—A meeting of the board of managers of the national geographic society is to be held in its quarters in the Hubbard Memorial Hall, Sixteenth and M. streets, northwest, Monday, at which time the Cook-Pearry controversy is to be gone over and discussed as much in detail as the facts now in the possession of the board will permit.

A meeting of the executive committee of the board was to have been held yesterday, but was postponed by President Willis L. Moore, of the society, in order that the entire board might be given an opportunity to participate in the discussions simultaneously.

EDGAR W. MIX LOSES TROPHY Paris, Oct. 9.—Word was received today from Berne, Switzerland, that Edgar W. Mix, the American balloonist who made the great flight from Zurich to Warsaw, a distance of 63 miles, has been disqualified as the winner of the international trophy.

It is claimed that Mix descended at an intermediate point in Bohemia and this disqualified, according to the rules of the race.

Mix is due to arrive in Paris today, does not, apparently, yet know of any such action by the Swiss Aero Club. He stated before leaving Berlin that some boys had caught hold of the dangling anchor rope of his balloon near Prague and had pulled the car with in a few feet of the ground. He protested so vigorously however, that they let go, he says.
