SUPREME COURT MONDAY
Unusually Large Docket For This Term

Suit Against the American Tobacco Company Comes Up Next Tuesday.
Case to Determine Whether Company is a Combination in Restraint of Trade.

Washington, Oct. 9—The fall term of the United States supreme court convenes next Monday. At least one member of the august tribunal will not be in his accustomed seat when the court meets at noon. Associate Justice William Moody, of Massachusetts, it was announced at the office of the supreme court clerk yesterday, will not be able to sit. Justice Moody has been in ill health for some time. It is also reported that Associate Justice John Marshall Harlan, of Kentucky, may be prevented from being present Monday. He, too, has not been enjoying good health since the court last adjourned. The docket of the supreme court is unusually large for this term. As an illustration of this 23 cases are set down for Tuesday next. Two of them are very important. One is the suit of the United States against the American Tobacco Company, the big "trust-busting" case that Attorney-General Wickersham has been preparing for some time. The other is the suit of the Southern Pacific Railroad against the Interstate Commerce Commission, to prevent it from enforcing certain freight rate mandates.

The attorney-general will not appear for the government in many of the cases, but the department of justice will be represented by Assistant Attorney-General Ellis, or Solicitor-General Bowers. Mr. Wickersham, however, will personally conduct the government prosecution of the tobacco trust. James McReynolds, former assistant attorney-general, will assist Wickersham in this case.

The government case against the trust is to determine if the American Tobacco Company is a combination in restraint of trade. Lower courts have held it to be such. Some phases of the decisions of the lower courts, however, were not satisfactory to the department of justice and the case before the supreme court is not only the appeal of the company, but also of the government. The lower courts held that United Cigar Stores were not parties to the original suit, but the department of justice holds to the contrary, and must be so included.

In this case the government is seeking to have the American Tobacco Company thrown into the hands of a federal receiver, for the purpose of making sure that the combination is dissolved. The American Tobacco Company is a huge holding company, which has control of a large number of tobacco and related corporations. The suit to dissolve is based on the claim that the company is operating in violation of the Sherman anti-trust law. If the government should win this case there is little doubt that it will also be successful in the suit for dissolution of the Standard Oil Company, now in the lower federal courts in St. Louis. If the government loses both cases it will practically nullify the Sherman law.

TRINITY COLLEGE GLEE CLUB.

To Be Organized Shortly for Annual Tour—Class Officers Elected.
Trinity College, Durham, N. C., Oct. 9—The sophomore class met this morning after chapel and chose the following officers to serve during the term of 1909 and 1910: Mr. W. M. Muse, Jr., of Durham, president; Mr. Frank Cooper, of Statesville, vice president; Mr. Hal McCoy, of Asheville, was elected athletic representative.

The freshman class alone remains to elect their officers. This will probably be done tomorrow.

The first meeting of the Trinity College Glee Club was held this week in the Craven Memorial Hall. The object of this meeting was to try out new voices. A great many aspirants were on hand and from the showing made the first night some good material will be secured for the annual tour, which takes place a week or two prior to Christmas. It is hoped that the club will not do as the club of last year did. Namely: to get stranded on the road and have to walk into camp.

The meeting of the Science Club, which was to have been held Tuesday night, has been postponed until Monday night, when Prof. Flowers will deliver an address on "Simon Newcomb," who recently died.

Mr. J. S. Wrenn, of Siler City, came over to the Park to be present at the "Tombs" initiation. Mr. Wrenn was business manager of the "Chronicle" last year and now is with Wrenn Bros. at Siler City.

NATURE TELLS YOU.

As Many a Raleigh Reader Knows—Too Well.

When the kidneys are sick, Nature tells you about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills. Raleigh people testify to this. Mrs. L. H. King, 318 E. Cabarrus St., Raleigh, N. C., says: "I can speak in the highest terms of Doan's Kidney Pills, having used them with the most excellent results. I suffered considerably from dull backaches, frequently accompanied by pains across my loins. I was convinced that my trouble arose from disordered kidneys, as the secretions from these organs were unnatural and too frequent in passage. When I heard of Doan's Kidney Pills, I procured a box from the Bobbit-Wynne Drug Co. and began using them as directed. They benefited me at once and after I had taken them a short time I was cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

SHOW FROM CUBA.

Application Received Today for Space on Midway at Fair Oct. 18-23.

The State Fair management today received an application for space on the Midway from one of the biggest shows in Havana, Cuba. This gives some idea of how the reputation of the North Carolina Annual State Fair is spreading.

In this connection it might not be amiss to mention that several remarkably excellent shows from Canada have been already booked for the great week of October 18-23.

By the way, the aggregation of shows this year will be nothing short of marvelous, among them being the Merrimac and Monitor show of Jamestown celebrity; Ferrari's famous trained wild animals; the Flea Theatre, showing fleas drawing carriages, fighting duels, riding bicycles, juggling, operating a carousel, performing stunts on slack wire, pantomime ballet, running races, riding in automobiles and other things too numerous to mention; the Infant Incubator; Kemp Sister's Wild West Show; the famous London Ghost Show, to say nothing of the innumerable free attractions given every day during the week, including the Great Davenport, dashing over an 80-foot high wire on a wheel of fire; Frees and Gannett as Happy Hooligan and Loucian Ann in the box car trick, and as aerialists and trapeze and roman rings; the novel balloon race, two balloons ascending to dizzy heights and each dropping two parachutes at the same time; wind up with the Wild West Show, winding up with the attack on the overland stage coach by wild Indians.

In short, it might not be out of place to say that paid shows and free attractions will have more in them than three circuses combined.

Many people delude themselves by saying "It will wear away," when they notice symptoms of kidney and bladder trouble. This is a mistake. Take Foley's Kidney Remedy, and stop the drain on the vitality. It cures backache, rheumatism, kidney and bladder trouble, and makes every trace of pain, weakness, and urinary trouble disappear.—King-Crowell Drug Co., Fayetteville and Hargett streets.
