THOUSANDS CROWD THE FAIR GROUNDS AND VIEW EXHIBITS AND MIDWAY

Largest Crowd That Has Ever Been on the Grounds There Today

A JOLLY CROWD

Every Regular Train and Many Special Trains Bring Crowds into the City From All of the Surrounding Towns—Crowds Are Jolly and Happy and Are Being Handled Remarkably Well—The Attractions Are All Interesting and the Places Exceptionally Good—The Exhibits of the Local Firms Are All Pretty and Well Arranged.

Thursday is always the day of days at the Great State Fair and the great influx of visitors from all points that have been pouring into the city all the week has added to make this one of the largest crowds that have ever been on the grounds. It is impossible to estimate the number, probably more than forty thousand.

With ideal weather, and a specially orderly crowd, the conditions have been especially favorable to a successful Fair. And the story is still being told on every hand of the preeminence of this over all others. With no unruly crowds there has been no accidents, only a narrowly averted one yesterday when Mr. Will Taylor was thrown from his sulky by the horse bolting the fence.

The crowds are being handled remarkably well today and are pouring in and out of the gates without any trouble, while the cars are managing them beautifully.

The races and free attractions are claiming thousands of spectators, the race track being lined all day, while around the grand stand is the most congested point. It has been one sea of faces all day.

The throngs surge up and down the midway and there seems to be no thinning in the ranks, for as soon as some leave others pour in.

The free attractions yesterday afternoon were pulled off most successfully. The high wire and trapeze artists and the four aeroplanes in the two balloons receiving the enthusiastic cheers of the crowd.

Local Exhibits. In passing through Floral Hall the first thing one notes is the number and excellence of the exhibits. Every little corner is utilized. On entering the main doors of the hall; the central space is occupied as usual by the exhibit from the State School for the Blind. The basketry, bead work and fancy work of the students makes one of the most interesting of all the exhibits and brings quick sales.

Circled around this in the four corners are Kimball's pianos and organs, the music there all day being enjoyed by the hurrying crowds, the Geological Survey exhibit, with an array of North Carolina stones that took prizes at the large exhibitions; Hick's soda fountain, one of the most popular places with the thrifty crowd and the most attractive place for the women, the pantry supplies.

The central space in the east end of the hall is occupied by the two fountains, O'Quinn and Stelmets. Both exhibits are beautiful, the mass of palms, ferns and flowers are especially refreshing after the dust of the midway.

A. & M. College has its usual place and it is an exhibit that not only Raleigh, but the whole state, feels pride in. The different departments are equally well represented, the textile, mechanical and electrical engineering, the whole making a brilliant display.

On the opposite side Kimball's Business College also has its usual stand and is proving an attractive place. Passing through the lower end of the hall some of the exhibits that will attract notice are: Dobbin and Searles' dry goods store, with a big array of beautiful druggists, the central showcase being tastefully decorated.

The Singer Sewing Machine has a creditable display, ladies being kept busy all day doing fancy sewing on the machines.

Mr. R. L. Green's paper handling and picture establishment is also well represented.

William's art store has one of the most beautiful exhibits in the hall.

Ward Hardware Company has a striking exhibit, the shiny chrome, proving a contrast to all the other goods.

The Great exhibit outside of the

machinery and agricultural department is that of Royal and Borden, who have an ideally furnished home.

Crossing over into the Machinery Hall, some of the most attractive exhibits are found, among them being the Caraleigh Phosphate and Fertilizer Company, Wake County School Farms, R. E. Prince Real Estate, Job P. Wyatt has a specially large exhibit of farm implements. Many of the near by farms and counties from all over the state are well represented, some having beautiful exhibits, and a most tempting array of good things, giving visible proof of the richness of the products of the Old North State.

Among the exhibits of carriages and buggies, John Evans and Barber and Towler are represented. These, together with lunch rooms and stands of all sorts of wares have crowded Floral Hall to its limit.

The parade went out today about 11 o'clock, swelling the crowd that made Hillsboro street a congested thoroughfare. It is remarkable the safety in which these crowds have been transported all day.

TOMORROW'S PROGRAM.

Friday, October 22—At 9 a. m., examination of Light Harness Horses, Champions of all kinds of Live Stock, Parade of Horses and Cattle at 1 o'clock p. m. Concerts by Third Regiment Band and Blind Institution Band. Free attractions in front of grand stand. Races called at 1 o'clock p. m.

Completing the work of judging the exhibits and all other unfinished work of the fair.

Circus. Marshals' Ball. Races.

Fourth Day—October 22. 2:25 pace \$300 2:32 trot 300 2:14 pace 300

Race Entries. Class 2:14—Pace. Ashland Bird, entered by H. R. Tyson, Newark, N. J. Maxim Direct, entered by D. Lockhart, Orlando.

Black Bird, entered by Ed. Haywood, Chicago. Nigger Boy, entered by S. Brasswell, Portsmouth, Va. Paul, entered by West View Stock Farm, Winston-Salem.

Class 2:25—Pace. Red Top, entered by West View Stock Farm, Winston-Salem. Irish Lad, entered by M. E. Doyle, Lynchburg, Va.

Billy Burton, entered by Virginia Breeding and Training Association, Radford, Va. Steto, entered by Virginia Breeding and Training Association, Radford, Va.

Ella Miller, entered by Bean Bros., Richmond, Ky. Rocky Mountain, entered by L. Dean, Augusta, Ga.

Class 2:22—Trot. Fred Patchter, entered by West View Stock Farm, Winston-Salem. School Boy, entered by M. E. Doyle, Lynchburg, Va.

Igo, entered by J. G. Steth, Newark, N. J. Virginia Boy, entered by Geo. M. Harden, Raleigh.

Col. D. entered by Geo. M. Harden, Raleigh. Aurelia, entered by Virginia Breeding and Training Association, Radford, Va.

John W. entered by L. Dean, Augusta, Ga. O. K., entered by D. O. Cannon, Johnsons, N. Y.

John A. entered by Ed. Haywood, Chicago. Dit, entered by S. D. Brasswell, Portsmouth, Va.

FRISCO'S BIG HOLIDAY AT IT'S HEIGHT

An Immense Pageant Description of California and Her Resources

WERE 200 FLOATS

Two of the Biggest Features of the Festival Were Included in Today's Program and Great Crowds Throng the Streets—An Immense Pageant, Descriptive of the Civic and Industrial Life of California—20,000 Uniformed Men in Line and 200 Floats, Blossoming With Pretty Girls and 100 Bands of Music.

(By Leased Wire to The Times) San Francisco, Oct. 21—San Francisco's big holiday reached a climax today. Two of the biggest features of the festival were included in the program and long before the mists had cleared from the bay the streets were alive with an eagerly expectant throng. The first official event on the program, and one that has been looked forward to since Don Gaspar Portola made his triumphant entry through Golden Gate harbor, was the Portola parade. It was an immense pageant descriptive of the civic and industrial life in California and the necessary coloring by an imposing military and naval display. There were 20,000 uniformed men in line, 200 floats, blossoming with pretty girls and fantastic figures, and 100 bands of music. One of the interesting entries in this mammoth parade was the American flag which was one of the principal features in the Hudson-Fulton fete in New York City. The immense flag, borne by more than 100 men, attracted universal attention. The grand climax of the day's festivities comes in the evening when 10,000 persons take part in the official Portola masquerade ball in the auditorium. It will be one of the most spectacular events of its kind ever held on this coast. Spanish dons will be there in gorgeous costumes, charming señoritas in gala attire, piquant Parisiennes, in fetching dress, burlesque circus characters and buffoons and horrors without number.

From 8:30 to 11:30 p. m. there will be a grand illumination of warships in the bay and from 9 to 10 p. m. a pyrotechnic display in Union Square. The street illuminations will last from 7 p. m. to midnight.

THE WEATHER. Forecast until 8 p. m. Friday: Partly cloudy tonight and Friday, warmer to night.

For North Carolina: Partly cloudy tonight and Friday.

WEATHER CONDITIONS. The weather is cloudy over the eastern, southern, and extreme northern portions of the country, with the center of the principal disturbance moving rapidly eastward over the Lake region. Precipitation has occurred from the Lakes to the Gulf with some heavy rains in eastern Mississippi and western Alabama. Rain is falling this morning at Charlotte, Augusta, New Orleans, Pittsburg, and a number of points in the Lake region. Temperature is above normal in the Gulf States, Tennessee, and the Ohio Valley.

The conditions are favorable for partly cloudy weather in this vicinity tonight and Friday; warmer tonight.

L. A. DENSON, Section Director.

NEW WINDOW GLASS COMBINE

Pittsburg, Pa., Oct. 21—Consolidation of all "hand made" window glass companies of America, representing a property valuation of from \$5,000,000 to \$10,000,000 will be consummated today at an all day session in the Fifth Pitt Hotel of owners of factories from New Jersey to Kansas and a straight-out fight will be made against the American Window Glass Company's machine-made product.

The new company will be known as the Imperial Window Glass Company, capitalized at \$250,000.

United States Waterways Commission.

after. It has been proven that water transportation is cheaper and sometimes swifter than the railroads. If stated that they had been much impressed.

"We shall assemble in Washington prior to the opening of congress," he said, "and make up our report. We found vessels penetrating every part of Germany, France, and Spain in Austria, Great Britain, Norway,

and Sweden the tinliest river is looked we improve our rivers in the west they will help our fortunes in the east. A ship subsidy bill of some character will be passed the forthcoming winter. Congress either will attempt to restore our flag or we might as well quit doing business in South America, in China, Japan, and in the countries just beyond us on the Atlantic."

Special Meeting Will Be Held Friday Afternoon to Take Official Action. Society Has Employed Counsel to Find What Legal Rights Are in Prescriptions—Society Stands for Prohibition But Not for Indignities.

(Special to The Times.) Greensboro, N. C., Oct. 21—A special meeting of the Guilford County Medical Society will be held in this city Friday afternoon for the purpose of taking some official action in regard to the recent prosecutions of physicians for giving whiskey prescriptions to patients and ascertaining just what the rights of the doctor is in giving a prescription to either a patient or himself.

The physicians of the city are thoroughly aroused over the recent action of the city authorities and the method used in procuring evidence against a member of the society, and at the meeting Friday a resolution condemning this action and expressing the indignation of the society at the indignity imposed upon the profession will be presented.

For the purpose of ascertaining just what the legal rights of the physician is in giving prescriptions to either a patient or himself, the society has employed counsel to meet with them and advise as to the proper legal proceedings to be taken in having the matter thoroughly tested in the courts.

A prominent member of the society, asked yesterday as to the probable action to be taken, said: "The officers of the society have received numerous letters from both laymen and physicians in every section of the state, condemning the action of the local authorities in the recent prosecutions, and the Guilford county society feels that some action should be taken immediately, together with arriving at a full understanding of the rights of a physician in giving a prescription. The society is thoroughly in sympathy with the prohibition laws, but they do not propose to stand for such indignities to be practiced upon its members. The physicians of the city do not object to the chief of police inspecting the prescriptions or having them published monthly, but they do protest against papers in criticizing and commenting upon them when those making the criticism know nothing of the matter."

That Greensboro's \$75,000 for better schools will find its pattern in the Durham illustrations is a new item which appears to have all reasonable basis from experience of that city's men to Durham citizens.

Recently a committee of that city visited Durham and went down to (Continued on Page Two)

Henderson Visited by Couple of Slick Gentlemen

Sold Several Houses and Lots to Mill Operatives and Skipped—Left for the South is Thought From Letters They Failed to Take—Confederate Veterans November 6th.

(Special to The Times) Henderson, N. C., Oct. 21—Thieves and swindlers have infested Henderson the last two weeks and several of our people have suffered to a considerable extent. The first part of last week two strangers made their appearance on the streets, purporting to represent an association whose headquarters was in Philadelphia, under the name of Pennsylvania Construction Company. They claimed the object of the company was to purchase lots, erect dwellings for purchasers in consideration of a stipulated sum being paid, thereby giving the purchaser the benefit of the credit of eight years in which to pay the full amount. Several mill operatives made investments and paid the required amounts, papers were drawn after which the ostensible agents skipped the town to parts unknown, leaving board, lodging and livery bills unpaid. The principal in the transactions was known here as J. B. Biggs, was about forty-five years of age, his right arm having been broken, being badly set was considerably bent, but was not discernible under cover of the sleeve. He is thin; weight, 135 pounds; height, 5 feet 7 inches. The accomplice is a young man of twenty-six years of age; weight, one hundred and thirty pounds; height, five feet 10 inches. He claims to be from South Carolina, which is probably correct, as letters in the coat which he hastily left indicate. They left ostensibly for the south, but may have gone to Lynchburg or Richmond.

At a meeting of Camp Wyatt Confederate veterans on the fourth Saturday in September, arrangements were made for meeting of the camp at the court house on November the 6th. Addresses will be delivered by Hon. T. T. Hicks and Capt. J. R. Clark. The Daughters of the Confederacy were respectfully invited to be present.

FREIGHT JUMPS TRACK.

Middletown, N. Y., Oct. 21—East-bound freight train No. 78 left the track at 3:05 o'clock this morning half a mile west of Guyard, the engine plunging down a thirty-foot embankment.

The United States Waterways Commissioners, who returned in advance of the rest of the party, from a two months' inspection of the waterways of Europe. From right to left they are: Senator Gallinger, of New Hampshire; Congressman Dalzell, of the Pittsburg District, and Senator Simmons, of North Carolina. Acting as spokesman for his companions, Senator Gallinger refused to discuss the commission's conclusions, but

after. It has been proven that water transportation is cheaper and sometimes swifter than the railroads. If stated that they had been much impressed.

DURHAM'ALL AT THE GREAT STATE FAIR

Banks and Mercantile Houses All Close up and the People Come to Fair

DURHAM'S SCHOOLS

Changes in the Staff of the South Atlantic Quarterly—Negro Woman Charged With Infanticide—Bridge Club Elects Officers—Committee From Greensboro Visits the Durham Schools—Baptist Minister Ordained—Mr. Nowell Changes Position.

(Special to The Times) Durham, N. C., Oct. 21—Durham pays Raleigh an unusual compliment today when business practically stops and the city goes down to the Fair for a day. The banks announced this morning that there would be no business and upon the strength of it, everybody shut up shop and left. Two down-east trains are counted upon to do the traffic business today, and the first one this morning, despite the prophecies of rain, had its load. It is said that last year 3,000 people went from here to Raleigh and though there may not be so many this time, there are enough to prove that times are prosperous and that everybody likes the Fair.

The Trinity College South Atlantic Quarterly announces some still changes of interest. Until the resignation of Dr. Edwin Mims from the Trinity faculty, he and Dr. W. H. Glasson edited the high-class literary publication jointly. The going away of Doctor Mims calls for a new editor and Dean E. P. Few, of the faculty takes up the work. Professor R. L. Flowers goes to the head of the paper as president and manager of it. It means to fill that same delightful niche that has characterized its several years of the past.

Dixie Johnson, a young colored woman, is in jail charged with the murder of her infant but a few days old. The woman has been under surveillance several days, but being unable to leave the house, she was not arrested until Tuesday night, when she was taken, officers were kept about the place to prevent any running away and when the physicians gave permission to move her, she was brought up street and placed in prison.

The woman's crime is that of poisoning her child of nine days of age. She doesn't admit having committed the crime, but when asked why she did it, answered that she did not know. She says she is married but her husband does not live with her and the reasons for putting the infant away are manifest.

It appears that the baby was brought to its death by carbolic acid, but little of which, however, she was able to get in its mouth. There were marks of the caustic on its mouth. She will be held for murder and will be tried at the next term of court. She doesn't intimate what person shares the crime with her.

At the Tuesday evening meeting of the Bridge Club, Mrs. Alphonsus Cobb was hostess and a business meeting was held. This meeting followed the tournament which was played with the pleasure of the game as the chief incentive. There were no high scores to tempt the envy of the creatures of ill luck, and no pretty little trinkets to give the game the immortal criticism of "gambling," just a pretty ladies contest by pretty ladies and refreshments of the most delicious preparation and serving, were after the contest.

The election of club officers followed. Miss Lila Wright was chosen president and Miss Joe Taylor secretary-treasurer. Collection for the cards was taken and new members were ballotted for. Mrs. T. Edgar Cheek, Mrs. H. A. Best, Miss Annie Louise Vaughan and Mrs. W. T. Best were chosen. Mrs. Strickland, a sister of the hostess, was present. Those who were guests were: Mesdames Jones Fuller, J. M. M. Gregory, Paul Taylor, T. E. Cheek, H. A. Best, W. T. Best, Miss Lila Wright, Joe Taylor, Lottie Sharpe, Leslie Peay, Jean Venable.

That Greensboro's \$75,000 for better schools will find its pattern in the Durham illustrations is a new item which appears to have all reasonable basis from experience of that city's men to Durham citizens.
