ADVANCE ON CAPITAL IS UNDER WAY

Two Insurgent Forces Have Started For Managua by Different Routes

WILL END THE WAR

Each Division Numbers About Three Thousand Persons and They Are Expected to Unite Before Managua in Six Days—Their Appearance Before the Capitol, it is Believed, Will End the War—Peace Negotiations Have Not Been Officially Abandoned, But There is Little Hope For Agreement—Madriz Has Resorted to Wholesale Conscription.

(By Cable to The Times) Bluefields, Nicaragua, Jan. 3—Couriers from Rama today brought word that the advance of the insurgents on the capital by two routes had begun. This double expedition is expected to bring the insurgent forces to the gates of Managua within six days. Each division numbers about 3,000 troops. Their union outside the gates of Managua and the subsequent battle will undoubtedly end the war.

Although the peace negotiations between General Estrada and President Madriz have not been officially abandoned, it was admitted here today by high officials of the provisional government that there was little hope for an agreement, as Madriz is looking to force terms that mean little short of surrender.

General Chamorro, with the troops he marshalled at Rama, is advancing on Greytown, held by a small force. Chamorro's division will proceed to Managua via the San Juan river and Lake Nicaragua. It is expected. The other force is headed over the Managua trail, through the Chentales mountain district. It is commanded by General Matuly.

General Fornos Diaz has been apportioned to meet Madriz's commissioners, if they come here in peace plans.

Madriz Resorts to Conscription.

(By Cable to The Times) Managua, Nicaragua, Jan. 3—President Madriz, in his efforts to assemble a force to oppose the advance of the insurgents, has resorted not only to special war levies, but to wholesale conscription. The coffee plantations of the west coast are tied up, when the crop should be picked, by lack of laborers, the workmen having been drafted into the government army. These plantations are for the most part controlled by Germans.

Suffering is intense among the lower classes because of the drain on men and supplies made by the war. Three thousand government soldiers have been wounded or killed and the situation is yet unchanged. Lack of laborers has resulted in a wide shortage of food.

Another regiment was today sent to Acocoya, where the government hopes to check the advance of the Estradans on the capital.

FELL FROM A LADDER.

Mr. W. D. Lawler Received Very Painful Injuries Saturday.

While at work in Exchange street last Saturday, Mr. W. D. Lawler, a sign painter, fell from his ladder to the pavement, receiving very painful injuries, which will keep him from his work for several days. The ladder broke, causing him to fall a distance of about 12 feet, landing on his left shoulder and arm, resulting in several bad bruises and sprains.

BOMB EXPLODED IN TENEMENT HOUSE

(By Leased Wire to The Times)

New York, Jan. 3—A Black Hand bomb exploded in the tenement at 316 Christie street today, throwing into panic more than 100 men, women and children. The lower part of the building was partly wrecked. In the last month G. Gursico, who runs a baker shop on the ground floor, has received three threatening letters. The first demanded \$1,000; the second \$2,000 and the third \$5,000.

Carolina B. Martin and Counsel.

Mrs. Carolina B. Martin and her counsel, who are making a strong fight against the charges that Mrs. Martin and her two sisters, Mrs. Mary Sneed and Miss Virginia Wardlaw, are guilty of the death of Okey Sneed, who was found in the bathtub of a house in East Orange several weeks ago. Despite efforts of her counsel, Mrs. Martin was extradited from New York and the three sisters had an affecting reunion in the Newark, N. J. prison pending further proceedings against them.

CONGRESS MEETS AGAIN TOMORROW

(By Leased Wire to The Times)

Washington, Jan. 3—Tomorrow the second session of the 61st congress will resume business in the house and senate at 12 o'clock noon, and there is enough work already mapped out to keep the legislative wheels running at full speed until May.

The house, which controls the purse strings of Uncle Sam, probably will be busy every day this month with the supply bill. Unless there is a change in the program, the house will take up tomorrow the army appropriation bill which carries about \$85,000,000. This is a few million under the amount contained in the army of last year. Chairman Hull expects to have a bill passed by the end of the week. Wednesday Chairman Mann of the interstate and foreign commerce committee, has the right of way under the rules, and he may insist on resuming consideration of the bill reorganizing the government of the Panama Canal zone. He hopes to dispose of the bill Wednesday, but as there is some opposition to it, it may have to go over another week. The fortification appropriation bill has been completed and will be reported to the house this week. This will be followed by the urgent deficiency bill. Other supply bills will under way are the agriculture, naval and military academy. These bills will be in keeping with the president's recommendation that they will not carry as much as last year.

The resolution to investigate Secretary Ballinger, of the interior department, it is said, will be introduced in the house on Wednesday, being presented in the senate at the same time. It is possible that the committee to make the investigation will be appointed the latter part of the week. Indications are that the investigation will last two months or more.

HOMES FOR THE HOMELESS.

General Booth Has Succeeded House and Will Try to Cope With the Great Problem in London.

(By Cable to The Times) London, Jan. 3—General Booth is making a determined effort to cope with the vexed question of homeless men in London. Recently he gained possession of a large five-story building situated in Great Peter street, Westminster, which will be used forthwith for housing homeless men from twelve midnight to 6 o'clock in the morning. It is proposed to give them soup and bread upon entering, to provide washing facilities, and to feed them with porridge and syrup when they leave at 6.

As the building has a superficial area of about 20,000 square feet,

some 1,200 men can be accommodated at one time, and when alterations have been made, it will become a permanent night shelter with sleeping accommodations for half that number.

DR. CASTRILLO UNEASY.

Has Not Heard From His Relatives in Two Weeks.

(By Leased Wire to The Times) Washington, D. C., Jan. 3—Dr. Salvador Castriello, diplomatic representative of General Estrada, in Washington today expressed grave fears for the safety of his relatives in Nicaragua. Dr. Castriello has been most active in the interests of the revolutionists, and he said that followers of Zelaya may have retaliated by harming his father, who was imprisoned by the former president, or injured his brother's wife and children in some way.

He said he had not received a message from his relatives for more than two weeks and was unable to understand their silence unless something had happened to them.

Louis Paulhan in New York.

(By Leased Wire to The Times) New York, Jan. 3—Louis Paulhan, the French aviator, arrived today on the French liner La Bretagne. Paulhan comes here from his European triumphs to take part in the coming Los Angeles aviation exhibition, and his participation in other meets has been considered.

CORBETT BELIEVES JEFFRIES A WINNER

Chicago, Jan. 3—James J. Corbett, former champion of the world, who twice fought James J. Jeffries and will be one of the chief advisers during the last thirty days of his training for the coming big battle with Jack Johnson, believes that Jeffries still is unbeatable and that he will be returned the winner on July 4 in the far western struggle of the races.

Tommy Ryan, unbeaten middleweight champion, a veteran of the ring and one of the greatest generalists ever has known, takes the opposite view. He seconded Jeffries in some of his greatest battles and was behind Corbett when Jeffries beat him the second time.

The views of these two men, strangely enough, follow one common course. Ryan believes Jeffries' stomach will go back on him at the critical stage. Corbett believes Johnson's stomach will never stand the punching Jeffries will give it.

These impressions of the old masters are given out after watching Jeff go through his stunts at the Coliseum Saturday night.

AUTHORITIES ON TRAIL OF PAPER TRUST

Federal Investigation of the Big Paper Combination is Under Way

MAY BE INDICTMENTS

American Newspaper Publishers Association Has Put Into the Hands of District Attorney Wiseman a Mass of Evidence, Which, it is Alleged, Shows That the Paper Manufacturers Made An Open Market An Impossibility—Price Advances Were Made by Agreement—Disclosures of a Sensational Nature and Indictments Are Expected.

(By Leased Wire to The Times.)

New York, Jan. 3—Backed by Attorney General Wickersham, a federal investigation of the alleged trade-restraining combination of the newspaper publishers is under way here today. Wholesale disclosures of a sensational nature and indictments are expected as a result. The American Newspaper Publishers' Association has put into the hands of United States District Attorney Wise a mass of evidence, which, it is alleged, shows that the manufacturers made an open market impossible, refusing to sell paper for spot cash, f. o. b. mill and collected daily mill reports of production and sales from all over the country.

According to the evidence before the authorities a series of price advances (Continued on Page Two.)

JOHN D. JR., FOREMAN OF GRAND JURY

Wanted to Be Excused But Judge Told Him He Was Needed

A PATRIOTIC DUTY

Over His Own Protest John D. Rockefeller, Jr. Was Today Made Foreman of the Grand Jury in the Court of General Sessions—Special Instructions to Prosecute a Vigorous Investigation of the White Slave Traffic—District Attorney and Judge Both Call Attention to Traffic in Women.

(By Leased Wire to The Times.)

New York, Jan. 3—Over his own protest John D. Rockefeller, Jr. was today made foreman of the January grand jury in the court of general sessions with special instructions to prosecute a vigorous investigation of the "white slave traffic."

Judge O'Sullivan delivered the charge to the jury, laying special stress on the white slave scandal and impressing upon the members the necessity for a thorough airing of the matter and the indictment of all guilty persons.

He was followed by District Attorney Whitman, who also laid stress on the white slave matter and requested Mr. Rockefeller to act as foreman of the jurors.

"Your honor, I would rather not take this important place in the work of the jury," said Mr. Rockefeller quietly. "I have large business interests and I fear that my work and my uncertain health may prevent me from doing my full duty."

"Your work as a patriotic duty to your city," responded Judge O'Sullivan, "is to take charge of this most important matter and give it a thorough investigation."

Mr. Rockefeller bowed to the wishes of the court and said he would do his best.

After going over in a general way the matters that usually come to the attention of a grand jury, Judge O'Sullivan took up the white slave scandal.

"Stories of independent investigators have been spread broadcast in the public prints and you must make a thorough investigation," he said. "Some of these stories need not be regarded. Some of them are born of peculiar motive; some of mere sensationalism. But some are the results of official investigations."

"So serious are the charges that they have been enough to waken the federal authorities and there has been intimation that federal legislation is needed to stamp the evil out."

Wife of Zelaya in Managua.

Washington, Jan. 3—That the wife of former President Zelaya remained at Managua and did not accompany her husband to Mexico is the information received by the state department today in a cablegram from United States Vice Consul Caldera, at the Nicaraguan capital.

LEFT MONEY TO POPE FAMILY ENTER SUIT

(By Cable to The Times)

Rome, Jan. 3—Demanding that Pope Pius X himself be summoned to court as a witness, the relatives of the late Mgr. Adami today brought suit to break his will which left \$1,000,000 to the pope.

The relatives charge that undue influence was used to secure the bequest for the vatican.

Mrs. Adami was one of the wealthiest prelates in the world. He died on December 18, 1906, leaving the major part of his fortune to the vatican.

JOSE MADRIZ.

Jose Madriz, the new head of the Nicaraguan government, who is seeking to have the United States acknowledge his right to succeed Zelaya in the presidency. Zelaya has not renounced his title as yet and from his asylum in Mexico is declared by many to be only waiting a favorable opportunity to return to power. In the meantime Madriz is watching to see that he doesn't.

Judge Lurton Sworn In.

(By Leased Wire to The Times.)

Washington, Jan. 3—Judge Horace H. Lurton, of Nashville, Tenn., was today sworn in as an associate justice of the supreme court of the United States.

WILL MAKE THE BLACK MAN WHITE

(By Leased Wire to The Times)

Boston, Mass., Jan. 3—Q. T. Simpson, a stock breeder of Chicago in attendance at the recent meeting of the American Association for the Advancement of Science declared that it was only a matter of time when the negro of the darkest hue could be made as pink-skinned as the Caucasian.

"By experiments with plants and animals scientists have discovered much of the so-called laws of heredity and in doing so have unearthed a great deal of nature of chromosomes, the unit of life which gives color," read Mr. Simpson. "I think we are on the verge of gaining complete control over these chromosomes and that means the control of color. By a set process of treatment with baths or injections this new side in the affairs of the black man will be brought about and these color units in the cells of the creature will be attenuated or destroyed."

"Today we can do it by breeding; tomorrow we can change the color of the blacks' offspring by treating these color-controlling cells with a stimulant to war against the chromosomes. My theory can find some stable basis on the fact that the pigments of the negro's cells is sometimes destroyed in places by natural action as in the spotted mulatto. I am at work on a process which I think will ultimately give the results I desire."

MANY TRAINS STALLED.

Hundreds of Passengers Tied Up Because Trains Are Unable to Move.

(By Leased Wire to The Times) Los Angeles, Cal., Jan. 3—Both the Santa Fe and the Salt Lake Railroad lines are completely tied up because of the damage done by the heavy rain storms of Friday and Saturday, and not a train has arrived or been moved from Los Angeles on either road in two days. Hundreds are imprisoned in stalled trains. Passenger and freight trains, caught between points at which there were landslides, washouts or damaged bridges, were compelled to wait upon side tracks at way stations until the two lines are again put into condition for the resumption of traffic.

Record of Standard Oil Case.

(By Leased Wire to The Times.)

Washington, Jan. 3—The record in the Standard Oil case, which suit was recently decided adversely to that corporation in the United States circuit court at St. Louis, arrived here yesterday. The appeal of the company from this decision was filed today in the United States supreme court. Attorney General Wickersham presented a motion to advance the case on the docket.

WHITE MAN AND NEGRO ARE IN JAIL

Charged With Attacking and Killing Young Girl in Cincinnati

PEOPLE STIRRED UP

Race War Imminent as a Result of the Murder of Young White Girl and Police Reserves Are Kept On Duty at Half a Dozen Places in the City—The Situation Critical—White Man and Negro Arrested Today—Murdered Woman Worked for Lumber Company and the Suspected Men Also Worked for the Same Company.

(By Leased Wire to The Times)

Cincinnati, O., Jan. 3—With a race war imminent as a result of the murder of Miss Anna Lloyd after she had been attacked on Friday night, a white man and a negro were placed under arrest early today. Police reserves were kept on duty at half a dozen points of the city where feeling was running unusually high and the authorities at Cumminsville, where the girl was murdered, were reinforced. In spite of these precautions the situation was critical.

The prisoners arrested today are Henry Cook, 34, white, of 3113 south Grove avenue, and James Fields, 21, negro, of Cummins and Dempsey streets. They are held on suspicion. Miss Lloyd was secretary of the Wiborg-Hanna Lumber Company.

The police today declared that she was evidently attacked by a negro employed by the concern, who killed her when she recognized him.

They base this theory on the finding of black, curly hair in her dead hands, and the discovery of a bloody glove, such as planing mill employees use, near the scene of the crime. This resulted in a close watch being established on all the employes by twenty officers and today each suspect was closely examined. The arrest of Cook and Fields followed and they were taken before Physicians and put through a rigorous cross-examination.

The residents of Cumminsville insist that only some one who knew the habits of the victim could have committed the crime. Since the body was discovered, indignation has been running high and there have been many threats of violence against the negroes of the town.

The body of Miss Lloyd today lay at her home, 571 Delta avenue, and was viewed by hundreds. Those who visited the home contributed to inflame the situation.

Miss Lloyd's mother collapsed after the tragedy and today her condition was so critical that little hope was expressed for her recovery.

MEAT IS UNSPECTED.

Half of the Meat Eaten in This Country Forms a Real Danger.

(By Leased Wire to The Times) Washington, D. C., Jan. 3—That half the meat eaten in the United States can be called unsuspected, and that a real and serious danger to the public exists as a result, is one of the conclusions reached by Dr. A. D. Melvin, chief of the United States bureau of animal industry, in his annual report to the secretary of agriculture.

Inefficiency of the government inspection, because of its lack of authority to report business done entirely within a single state, is given as one of the causes and Dr. Melvin points out the great need of supplementing the government inspection of meats with state and municipal inspections.

Virginia Town Swept by Flames

(By Leased Wire to The Times)

Suffolk, Va., Jan. 3—With half of its 2,200 inhabitants homeless, the majestic theatre, postoffice and all but one of its twenty-six business places in ruin, the hamlet of Holland, on the Southern Railway, was practically destroyed by fire which began at 10 o'clock Saturday night and continued until there was no fuel to feed upon.

The blaze began in the store of Joseph Hazlett, who had just closed. There was no water supply in Holland. Only twenty-one houses are left.

ARGUMENT IN THE TOBACCO CASES

(By Leased Wire to The Times.)

Washington, Jan. 3—Attorney General Wickersham and Assistant United States Attorney Reynolds today began argument for the government before the United States supreme court in the tobacco trust case. The case is on appeal from the decision of the United States circuit court on the southern district of New York in which the trust was declared to be a party to an unlawful conspiracy.
