If we did not know how to make the latest creations in our line we would not be patronized by so many stylish people. For instance, take most of the wedding invitations that you see these days from people of recognized taste, and the flap of the envelope bears the imprint of J. P. Stevens Engraving Co. Atlanta, Ga.

It is our business to know what is stylish, and our patrons get only the proper thing.

RESOLVE.

To keep my health!
To do my work!
To live!
To see to it I grow and gain and give!
Never to look behind me for an hour!
To wait in weakness, and to walk in power;
But always fronting onward toward the light,
Always and always facing toward the right.
Robbed, starved, defeated, fallen, wide astray—
On with what strength I have!
Back to the way!
—Charlotte Perkins Stetson.

Good Cheer.

The little cares that fretted me,
I lost them yesterday.
Among the fields above the sea,
Among the winds at play;
Among the lowing of the herds,
The rustling of the trees,
Among the singing of the birds,
The humming of the bees,
The foolish fears of what may happen,
I cast them all away.
Among the clover-scented grass,
Among the new-mown hay,
Among the husking of the corn
Where drowsy poppies nod,
Where ill-thoughts die and good are born,
Out in the fields with God.
—E. R. Browning.

COLLEGE WOMEN'S CLUB.
Addressed by Mrs. W. N. Hutt at Meredith College on "Preventable Diseases."

The Raleigh Chapter of the Southern Association of College Women, which met at Meredith College yesterday afternoon, was fortunate in having an address from Mrs. W. N. Hutt, on "Preventable Diseases." The faculty and students of Peace Institute and St. Mary's as well as the members of the Women's Club had been invited and a large number were present.

Mrs. Hutt is president of the Wake County Anti-Tuberculosis Society, and was well fitted to speak on the subject of the afternoon. Miss Colton, of Meredith College, spoke a few words of introduction, but so much of the

work of the Southern Association of College Women.

The lecture was illustrated by lantern slides that made it more convincing. Mrs. Hutt gave some interesting facts about tuberculosis, especially of the lungs, showing that it is not hereditary, as is commonly believed, though weak lungs may be inherited. It is a germ disease and it has been found that germ diseases cannot be inherited. It is said by those interested in the subject that the disease could be wiped out in twenty years if people would take the proper precautions.

Germs cannot live in the air and sunshine, therefore the need of more air and sun.

The hook worm disease came in for a share in the lecture which was found highly entertaining and instructive.

Invitations have been sent to members of the Alumnae as far as it was possible to get the addresses. Any that have been overlooked will understand that the invitation is extended to all. The public also will be welcomed to the exercises.

This will be a great occasion in the history of St. Mary's and will be of the deepest interest to all former students of the school as well as to those at present connected with it.

AMUSEMENTS
GRAND

Today's matinee and tonight's two full performances of the Chicago Comedy Company closes their engagement at the Grand to a most satisfactory engagement. The Chicago Comedy Company, mostly girls, present a most pleasing performance. Mr. Joseph Smith proved himself a capable character comedian and kept the audience laughing with his funny jokes and witty sayings. The minstrel performance which is being presented the last of this week with 10 people in the circle, has made quite a hit and is a bill that is well worth many more times the admission charge.

For next week the Grand will offer a clean vaudeville bill, one of the acts, "Bonner and Meredith", will be in a western comedy drama and carry all special scenery for the piece. It's a good bill for next week and will no doubt meet with big success at this popular place of amusement, the Grand, the home of polite vaudeville. adv-17

ACADEMY

As the Organ Grinder in the Mummy and the Humming Bird at the Academy Monday Night.

Mr. Paul Gilmore in the Play That Made Him Famous.

"The Mummy and the Humming Bird," one of the best attractions booked for the Academy Monday night, April 15th, is a society comedy drama in four acts.

The play tells a very good story of a young man who becomes deeply absorbed in his work, and, while he loves his newly married bride, does not give her the devotion called for. She becomes acquainted with an Italian nobleman who takes a fancy to her and she appreciates his affection. He entreats her to run away with him and she partially consents, but finally regains her senses and refuses to go. Her husband, with the assistance of a poor organ-grinder, who, it develops, has "cat the love of his wife as a result of the interference of the count, gets revenge.

Mr. Gilmore, one of the most popular actors on the American stage, will head the company which has been selected with great care and includes Miss Adelaide French. This attraction will be the society event of the season.

NEAR DEATH SAYS MRS. ELLIS

An Arkansas Lady Suffered For Seven Years and Every Month Was Near Death, But Now is Stout and Well.

Foster, Ark.—"I was sick for 7 years," writes Mrs. Fannie Ellis, "and half the time could not stand on my feet. Every month I was very near death. I took Cardui, and in two months I was cured and am now stout and healthy. I was sick so long, that I won the sympathy of my friends, and they all ask me what cured me, for my looks are a testimonial to Cardui. I never fail to praise Cardui, for I can't recommend it too highly. It is a God-send to suffering women."

No matter how serious or long-standing the trouble, Cardui will help you, for it is a tonic remedy, especially adapted to bring relief from womanly ailments.

There is a reason why Cardui is so exceptionally successful, after other medicines fail, and that is because it contains ingredients imported specially from Europe, on "recognition" of their specific action on the womanly organs. As a result of the experience of over 50 years, Cardui is now recognized as a medicine for women, and is the only one that can always be depended on.

Cardui has stood the great test of time. Don't worry. Take Cardui.
