BIG STRIKE ON CANADIAN TRUNK LINE

Canadian Government Took a Hand Today In Effort to Secure Arbitration

ATTEMPT TO WRECK CAR

But Little Confidence in Arbitration Project at This Time—Attempt Made to Wreck Pay Car—Strike-Breaking Army Raised For Pennsylvania Railroad Being Sent to Montreal—Strike Was Declared Last Night—Lines All Tied Up Today—Company Only Attempting to Run Mail Trains.

(By Leased Wire to The Times)

Montreal, July 19—Scarcely a wheel is turning on the Grand Trunk system today as the result of the strike of 10,000 trainmen and conductors, called last night. Hundreds of thousands of dollars damage to perishable freight has already been done. The entire system of more than 5,000 miles, with all its shops and yards is under heavy guards by armed men. Strike-breakers are being rushed in.

Montreal is threatened with a milk famine unless suburban trains can be run. No freight is being taken from here and few passengers, even the mails are late.

A general call to pensioners has been sent out and every available man, armed, is being put on the road. Reports from elsewhere say that high officials are acting as conductors, firemen and engineers.

Several trains, including a number from Toronto, have been annulled. Nearly every shop has been closed down.

The company promises better service; the men say conditions will grow worse. The telegraphers have agreed to arbitrate their demands.

Government May Arbitrate.

Ottawa, Ont., July 19—The Canadian government today took a hand in the Grand Trunk strike, the minister of labor endeavoring to secure arbitration. The consent of both sides is necessary to such a step. Few expressed confidence in the success of the project. Co-operation by Canadian and United States authorities was broached this afternoon.

An attempt to wreck a pay car near here today was frustrated. The truck was piled high with timber.

Moving Strike Breakers.

Montreal, July 19—The strike-breaking army raised for the Pennsylvania Railroad in last few days is being rushed to Canada for service in the strike on the Grand Trunk. The first detachment, numbering more than 200, arrived today under the leadership of E. R. Carrington, Canadian superintendent of the line.

(Continued On Page Seven.)

"PENNSY" AND MEN ADJUST DIFFERENCES

(By Leased Wire to The Times)

Philadelphia, July 19—The peace pact established between the Pennsylvania Railroad and its men, precluding likelihood of a strike, caused much satisfaction in railroad and shipping circles today. The crisis is past and only the adjustment of details remains to end completely the dispute which for a time threatened a more serious labor war.

W. G. Lee, of the trainmen and the committee will remain here several days, at least, until the most important adjustments have been made. Members of the sub-committee of twelve, representing the conductors and trainmen of the Pennsylvania Railroad went into conference with W. H. Myers, general manager of the railroad and the division superintendents of the lines east this morning to arrange the details of settlement of their grievances. It was said the conference would last all day.

MRS. J. S. BROWN SHOT BY STEPSON

(Special to The Times)

Oxford, July 19—Mrs. J. S. Brown, a member of one of the wealthiest and most prominent families in Oxford, was shot yesterday afternoon by her stepson, Otis Brown. The young man then turned the weapon upon himself and a bullet through his brain ended his existence almost instantaneously. Mrs. Brown was shot in the side, the ball passing through the arm and entering the body just above the heart. While the wound is exceedingly dangerous there is a chance of recovery.

The town is in an intense state of excitement. This is by far the most deplorable event in its history. The trouble is one of long standing, growing out of the difficulty in settling the estate of the late J. S. Brown, husband and father of the victims. There are three surviving members of the family, Mrs. Jim Floyd and J. W. Brown, children by a former marriage, and Miss Susie Brown, the only child of the second marriage, daughter of the present Mrs. Brown. Unfriendly feeling had existed for several years between the older children and their step mother. The management of the estate was left entirely in her hands by the will of her husband and while she at various times had turned over sums of money to the children they were not satisfied without a complete division, which was refused. It is very probably that a controversy in regard to this brought on the tragedy.

DEATH AT LOUISBURG.

W. H. Waddell, Prominent Tobaccoist, Passes Away After Protracted Illness.

(Special to The Times)

Louisburg, July 19—Mr. W. H. Waddell died here Sunday night, after a protracted illness of typhoid fever, and other complications, at about 43 years of age. He was a prominent tobaccoist and one of our widely known and popular citizens. He was one of the proprietors of the Hart Tobacco Warehouse. The funeral will be held today. He was a Chapter Mason and will be buried with Masonic honors at the cemetery here. His wife died several years ago and leaves five children.

SOLDIERS KILL NEGRO.

Result of Race Feeling Brought About by Jeffries-Johnson Fight.

(By Leased Wire to The Times)

Washington, July 19—Further race feeling, brought about by the Jeffries-Johnson fight, ended in the shooting last night on the Aqueduct bridge of William L. Smith, a negro, during an altercation between two soldiers from Fort Myer, Va., and three negroes. The soldiers are still at large. Smith is expected to die. Just after the fight at Reno, Private Frank D. Scott, of Fort Myer, was stabbed by a negro. Soldiers then tried to lynch the negro. Since the fight race feeling at the post has been at high tension.

TROOPS GUARD MINES.

Several Clashes Follow Between Miners and Soldiers.

(By Cable to The Times)

Madrid, July 19—Troops, backed by rapid fire guns, today were ordered on guard at the coal mines quit by workers on general strike late yesterday in the Balboa region. Several clashes followed the demonstration of force. In a pitched battle between strikers and strike-breakers near Bilbao several were hurt, three fatally, according to dispatches received here today.

Failed to Break Record.

(By Leased Wire to The Times)

Anna, Ill., July 19—George Howard and Walter Collins, aeronauts, of Cincinnati, piloting the balloon Drifter, which left Hamilton, O., at 7:40 p. m., yesterday, landed at Mount Pleasant, Ill., 11 miles south of here today at 6:15 a. m. The aeronauts had planned to remain in the air more than two days in an endeavor to break the 44 hour record.

City Attorney Charged With Forgery.

(By Leased Wire to The Times)

Rockport, Ind., July 19—John W. Burns, city attorney, has been arrested, charged with forgery. It is alleged he obtained \$30,000 from the banks at Rockport, Elberfeld and Lake, Ind., through forgeries. He disappeared nearly a month ago. When he returned to Rockport he was arrested.

William Pittman, of Cambridge, Mass., who was captured by the Madrid government forces near Bluefields and confined in a filthy cell in Managua, Nicaragua. The American consul, Mr. Olivares, learning the conditions mistreated to President Madrid and the latter finally agreed to transfer Pittman to a larger and cleaner cell. Pittman has been in prison for several months, charged with aiding and abetting a revolution.

ROOSEVELT SAYS HE IS NOT A DICTATOR

(By Leased Wire to The Times)

New York, July 19—Theodore Roosevelt today repudiated the title of "dictator" with which some of his political opponents have designated him and declared he would make no attempt to interfere with nominations.

The ex-president motored from Oyster Bay and took up his work at the Outlook office.

Colonel Roosevelt denied a report that he had been in communication with Judge Kinkaid, of Toledo, who was seeking the ex-president's endorsement for the nomination for governor of Ohio.

Judge Kinkaid called on President Taft at Beverly last week and it is understood that having failed to get the president's promise to support him for the nomination, he wanted to get Roosevelt's backing.

"I have not heard from Kinkaid and don't know that he is coming to Sagamore Hill," said the Colonel.

The ex-president remarked in connection with the Kinkaid report that he wants it understood that he is not going to mix in fights for nominations.

"I am not a dictator," he exclaimed with a smile. "Some like to call me that, but they are wrong. I shall not attempt to interfere in any way with nominations. After candidates have been nominated it is different. I shall then endorse them or not, as I please, that is my privilege."

SEVERE STORM AT WASHINGTON.

Residences Struck by Lightning and Town Flooded.

(Special to The Times.)

Washington, N. C., July 19—This city and vicinity was visited on last night by one of the most severe rain, wind and electric storms that have ever occurred here. For nearly two hours the rain fell in torrents, with high winds and many electric flashes. In some places the water was a foot deep on the pavements. The lightning struck one or two residences, among which was that of Mayor Stern on Second street, igniting the electric wires and bursting the gas pipes. The ceiling of the residence caught fire but was extinguished before much damage was done.

The wires of the local office of the Western Union Telegraph Company were burned out, also a number of the city electric wires, leaving a portion of the city in darkness.

Reports coming from the county state several bridges washed away and crops damaged considerably. Mr. Edward Jackson, a Beaufort county farmer, had his barn struck by lightning, killing his cow and burning the barn, together with all his feed. Mr. Henry Sprull, another farmer, had his kitchen blown down.

It takes a longer probe for a lie than the truth.

SPEAKER CANNON AGAIN A CANDIDATE

(By Leased Wire to The Times)

Washington, July 19—Speaker Joseph G. Cannon has mapped out the hardest political task he ever attempted in his life, in declaring that he would be a candidate for the speakership when the house again convenes, according to the political wisecracks now in Washington. His defiance of the insurgents and announcement of his future candidacy in his address at Emporia, Kas., has attracted widespread attention.

In view of the fact that even reactionary republicans were begging Cannon to relinquish his hold on the chair before the close of the last session, according to the most accepted opinion here there can be nothing but opposition to his attempting to hold the speakership. President Taft's friends will oppose him, to strengthen the position of the president before the people. Theodore Roosevelt will undoubtedly throw his influence against the speaker. The insurgents left Washington with the avowed intention of planning a harder fight against him than any since they first took up the cudgels to oust him.

Cannon has his back to the wall and is fighting now out of obstinacy, if the radical viewpoint is correct. Even his friends take the latest announcement with bad grace.

There is only one faction that rejoices and that is the democratic group here. Cannon's pronouncement they look upon as campaign material and plans are already under way to make the most of it in the hot campaign expected this fall.

MRS. HUBBARD TO SPEAK.

Will Take the Stump For Woman Candidate For Governor.

(By Leased Wire to The Times)

Concord, N. H., July 19—Mrs. Elbert Hubbard is to take the political stump in New Hampshire; it is announced here. Mrs. Hubbard lives at East Aurora, N. Y., but has volunteered her services in the fight of Mrs. Marilla Ricker, who is a candidate for governor.

Mrs. Hubbard's appearance in the campaign here is contingent upon the approval of the legal authorities.

Mrs. Hubbard is herself a contributor to her husband's publications and has gained considerable prominence as a public speaker.

Since her candidacy was announced Mrs. Ricker has received offers of marriage two of them contingent upon her election to the gubernatorial chair. One of the offers, it is said, came from a well known clergyman who holds an important pastorate in one of the larger cities of the country.

STRIKE IN ENGLAND.

Three Thousand Yardmen and Other Employees on Strike.

(By Cable to The Times)

London, July 19—Without warning 3,000 yardmen and other employees of the Northeastern Railroad struck today. The first walkout was in the Newcastle district and the spread of the strike was ordered by the leaders. The trouble is the outcome of an old dispute, partially settled a year ago. The situation is serious and a complete tie up of the line is threatened. Preparations for disorder have been made by the authorities all along the line.

BOMB HURLED AT DUKE OF AOSTA

(By Cable to The Times.)

Naples, July 19—A boy of thirteen declared to be a full-fledged and fanatical anarchist, hurled a bottle-bomb at the Duke of Aosta today while the prince was leisurely passing through the streets in his automobile. The bottle just missed the royal head, glancing along the side furnishings of the car which prevented its smashing when it touched the pavement.

The police seized the boy at once. His father was declared to be one of the most rabid anarchists of the city. If not of all Italy, and the lad is said to have imbibed anarchy from the time of his babyhood. The bottle was cautiously picked up and sent to the police department of explosives. A cursory examination is said to have revealed it to be one of the deadliest kind of glass missiles.

The boy's name was not given out by the police.

Professor Woodrow Wilson, president of the Princeton University who recently decided following a conference of a dozen or more of prominent New Jersey democrats to become the democratic candidate for governor of New Jersey at the election to be held in November. At first Professor Wilson did not look upon the proposition with favor, telling his friends who called on him that he was not a politician and that he was not ambitious to hold public office of any kind, but they finally persuaded him to see the question in a different light.

EVIDENCE TAKEN WITH PHONOGRAPH

(By Leased Wire to The Times)

Chicago, July 19—The evidence given before the federal grand jury in the beef trust inquiry is being taken down by a phonograph, so that no court stenographer is allowed in the room to make a record of the case. This is being done to preserve the secrecy which so far has been one of the features of the case.

Details of the absorption of a rival concern by the \$15,000,000 National Packing Company were expected when Moses H. Joseph, secretary of the New York Butcher Dressed Beef Company appeared. This concern was organized as an independent but has been absorbed in the combination. The government expected Joseph to reveal the terms of the consolidation.

Records of stock transfers as shown by the National Company's book, were studied by the jurors to determine the method of absorption of many smaller companies.

W. S. Kenyon, assistant to Attorney General Wickersham, went over the books with the jurors and explained points of material interest. District Attorney Sims assisted him.

PRESIDENT TAFT'S TRIP.

Guest of Eastport Today, Where Many People Greet Him.

(By Leased Wire to The Times)

Eastport, Me., July 19—President Taft arrived here today amid hurrahs, welcomes and bunting displays galore. The president's yacht, the Mayflower, with belagued bow, masts and stern, steamed slowly in and anchored and the chief executive of the United States for the first time in history was in waters washing the shores of the great sardine industry.

The town was spick and span, its streets having been specially flushed and cleaned of all rubbish. Hundreds of people from many miles around came in, using every vehicle from hay wagons to automobiles. The harvests were thronged with cheering "down casters". Mayor Garnett arranged early for the reception to take place when the president came ashore.

Deputy Marshal On Trial.

(By Leased Wire to The Times)

Bluefields, W. Va., July 19—United States Deputy Marshal John Waldron, charged with the murder of Ben Tate and Wade Gillespie at Keystone last winter, was placed on trial at Welch today for the second time. The first jury disagreed.

Coronation of King George.

(By Cable to The Times.)

London, July 19—King George today signed a proclamation fixing the coronation for an unspecified date in June, 1911. It has been announced semi-officially that the ceremony will occur on June 22 next.

SIX THOUSAND JEWS EXPELLED FROM KIEF

(By Cable to The Times)

Kief, July 19—Six thousand Jews have been expelled from Kief and its suburbs in the last 60 days, according to an official statement made today. Four hundred and ninety-seven were driven by force from Kief between July 4 and July 15, and in that same time 1,121 were warned to depart. The warning is known officially as the "first method", while physical force is termed the "second" method.

From Solomenka, in the same days, 165 were expelled and 151 from Demileffka, both of which are suburbs. Of those driven from Kief, 3,011 were expelled by force.

The actual number of expulsions is 6,652, but it is estimated that more than 600 are duplications, caused by the return of those sent away by "first method". The Jews are sent in groups to their destination, escorted by relays of troops.

Of the 17,217 applications for residence papers here made since the expulsion order was issued, 2,152 were found fraudulent, according to the government.

BLUEFIELDS BLOCKADE.

United States Will Protect Boats Carrying American Shipments.

(By Leased Wire to The Times)

Washington, July 19—Although the Norwegian government has recognized the blockade of Bluefields Bluff, now held by the Madrid faction, shipments from this country to Nicaragua, whether carried in foreign bottoms or not will be protected by the United States.

The action of Norway gives Madrid the formal right to seize any vessel of Norwegian registry that attempts to run the blockade, but the point made by the state department will prevent Madrid from seizing the boat as long as it carries American merchandise. The United States does not recognize the blockade of Bluefields.

It was intimated today that influence will be brought to bear on Norway through diplomatic channels to induce it to reconsider its action, as there seems to be no doubt but that Norway has caused the state department considerable annoyance.

At all events, it is said, the United States is prepared to offer protection to all ships carrying American merchandise into Bluefields and has instructed Captain Gilmer of the Paducah to this effect.

AFTER LONGWORTH'S RECORD.

Samuel Gompers and John Mitchell in Conference in Cincinnati.

(By Leased Wire to The Times)

Cincinnati, O., July 19—Samuel Gompers, president of the American Federation of Labor, and John Mitchell, former president of the United Mine-Workers, came to Cincinnati today for a conference with Cincinnati labor leaders. It was asserted on the highest authority that the labor record of Congressman Nicholas Longworth and H. P. Goebel from a union labor standpoint are being examined today.

KILLED IN JOY RIDE.

Speeding Car Dashed Into Pedestrians Killing One and Injuring Another.

(By Leased Wire to The Times)

Pawtucket, R. I., July 19—One man was killed and one badly hurt as the result of a joy ride today from Londsate to Woonsocket. A powerful car speeding nearly sixty miles an hour struck James O'Rourke and killed him instantly, at the same time dashing into unconsciousness James Mallarkey. Authorities are searching for the owner and driver of the car, which did not pause an instant after striking the men.

The Outlook Shut Out.

(By Leased Wire to The Times)

Topeka, Kas., July 19—Theodore Roosevelt's article on prize fighting in the last issue of the Outlook, has barred the sale of the publication in Hutchinson, Kas., according to dispatches received today.

A recent ordinance forbids even a newspaper comment upon prize fighting, and even though such comment were derogatory, the mention of fighting at all puts the publication under the ban.

Married Her Chauffeur.

(By Leased Wire to The Times)

Cincinnati, O., July 19—According to private advices received here today by the friends of the late William J. Odell, millionaire broker of this city, his widow was married in London, England, to her chauffeur, a man named Adams, two days ago. Adams has been in the employ of Mrs. Odell for several years.

GAS WORKS OF THE ZEPPELIN PLANT BURNED

Explosion, Followed by Fire Destroys the Zeppelin Airship Plant

SEVEN BADLY HURT

Shock Was Terrific, Blowing Out the Walls of the Building and Razing Nearby Cottages—Seven Seriously Hurt and a Score Less Seriously Injured—Explosion Heard for Miles Around and Great Crowd Flocked to the Scene—Field Hospital Constructed on the Ground.

(By Cable to The Times.)

Friedrichshafen, Germany, July 19—The ill-fate that is following Count Zeppelin was exhibited again today when the gas works of his airship plant here blew up, injuring seven persons. The shock was terrific, blowing out the walls of the building, razing nearby cottages, and, it is feared, seriously damaging dirigibles in the hanger.

The explosion occurred about noon, the gasometer blowing up. A flame shot to a height of more than a hundred feet, setting fire to the debris. For a time the hanger on the lake appeared doomed.

The report aroused the country for miles about, crowds flocking to the scene. Physicians were summoned and a field hospital was constructed with the aid of the officers of the plant whose emergency hospital equipment was taxed to the limit.

Besides the seven seriously hurt, fully a score of the employes were cut or sustained other unimportant injuries.

Coming on top of the recent wreck of the biggest dirigible constructed by the count, after it had made a epoch-making flight, today's disaster appeared to unnerve him greatly. The plant was needed for the reconstruction of the wrecked ship. The loss is probably \$250,000.

Insane Woman Kills Her Child.

(By Leased Wire to The Times)

Miles City, Mont., July 19—Mrs. Helen Philbrick, author of several books, among them "The Idiot and the Insane", and known as the "Mad Woman of the Rockies", murdered her 11-year-old daughter by chloroforming her on her ranch near here and then committed suicide by taking prussic acid.

Mrs. Philbrick was well known in Boston and California.

Negro For Collector of Customs.

(By Leased Wire to The Times)

Washington, July 19—Whitfield McKinlay, a prominent colored citizen, formerly of Charleston, S. C., will be appointed collector of customs here by President Taft, according to authentic information received here today. McKinlay has the backing of Colonel Roosevelt. The office is worth \$5,000 a year and has never been held by a negro.

FRENCH RAILWAY EMPLOYES AT WORK

(By Cable to The Times)

Paris, July 19—The employes of the French railways will remain at work in spite of the authorization of a general strike, until new plans for conciliation, now under way, have passed the crucial point. The meeting called by the engineers and firemen for late in July is regarded as the important point in the threatened struggle.

The railroads, however, continue their preparations to run their lines with non-union men in the event of a walkout. The employes who went out yesterday returned to work today.

Shirt Factory Burned.

(By Leased Wire to The Times)

Joliet, Ill., July 19—The shirt factory of the state penitentiary has been destroyed by fire, with \$25,000 loss.
