## ALL FORCES WORKING FOR SETTLEMENT

But There Is No Change in  
the Deadlock Status of  
the Strike

## HOPE FOR ARBITRATION

Fifth Day of the Struggle Sees No  
Breaks in the Deadlock But There  
is an Increasing Demand From the  
Outside to End the Strike and Bel-  
ief That This Will Lead to Arbit-  
ration—Strikers Say if Peace is  
Not Reached the Strike Will  
Spread—Railroads Have Made  
Some Progress.

(By Cable to The Times)  
Montreal, July 23—With all the  
forces of government and trade in-  
terests working for peace in the  
Grand Trunk strike, the situation on  
this, the fifth day of the struggle, is  
a deadlock.

Nevertheless, out of the increasing  
demand for an end of the strike,  
there developed a belief that the con-  
test would soon be terminated, pend-  
ing arbitration of the employees de-  
mands.

The latter declared that if peace  
were not reached the struggle would  
spread, threatening to take out on  
sympathetic strike all members of the  
Brotherhood of Railroad Firemen and  
Engineers and of the Brotherhood  
of Locomotive Engineers. The rail-  
road officials have made a strong  
fight in the past two days, and al-  
though thousands of dollars worth of  
perishable goods have been lost and  
the interests of manufacturers along  
the lines have been severely crippled  
by the sudden suspension of freight  
traffic the company has been able to  
show an improved service with each  
day.

The strikers were confident that  
the inability of the company to move  
freight would bring them to terms,  
but the road seems to have developed  
unknown strength and freight is be-  
ing moved to such an extent that the  
strikers are discussing new moves.  
Important developments are expected  
within six hours.

Nothing would be so effective at  
this stage of the game as the sudden  
withdrawal from the company's ranks  
of the engineers, the firemen and the  
engineers, which latter body includ-  
ed the round house employees and  
handlers of locomotives. Should this  
move still prove ineffective the  
switchmen might be called out.

The Order of Railroad Conductors  
and the Brotherhood of Railroad  
Trainmen now on strike are closely  
affiliated with the other railroad  
brotherhoods, the four organizations  
being as well organized as any union  
labor body in the country.

It is openly said that such is the  
strength of these organizations that  
if their heads agree every railroad  
man in North America could be called  
from work at a moment's notice.

W. G. Lee, president of the Broth-  
erhood of Railroad Trainmen, has  
been called to Montreal for a confer-  
ence at the headquarters of the strik-  
ers. No reason for this hurried call  
can be given, except that another  
move is to be made by the strikers  
to show their strength in backing up  
the demands they have made.

Should this conference agree that  
the railroad should be checked in its  
fight to win, President Lee will prob-  
ably be asked to at once notify the  
heads of the other organizations with  
the view of calling out other men to  
join the strikers.

It is possible to use men as con-  
ductors and trainmen who have had  
little experience in railroading, but  
when the engineers and firemen are  
called out the company will be se-  
verely pressed to fill the vacant  
places.

Moving Freight Trains.  
Toronto, July 23—Armed men  
thronged the yards of the Grand  
Trunk Railway while the company  
worked slowly on its plans for moving  
freight. With this attempt the crisis  
of the strike was reached.

The plans for moving freight did  
not develop briskly. By 9 o'clock  
four engines had been sent from the  
(Continued On Page Five.)

## WILL INSIST ON THE SURRENDER OF MADRIZ

(By Leased Wire to The Times)

Washington, July 23—An absolute  
surrender of all of Madriz's preten-  
sions to the presidency of Nicaragua  
is the one condition which the state  
department will accept from the  
Madriz envoys, Modesto Darríos and  
Sebastián Salinas, when they present  
their cases after their arrival in  
Washington next week. No terms  
which provide for the continuation of  
the Madriz administration will re-  
ceive the slightest consideration.

The retirement of Madriz, the elim-  
ination of Zelaya, and the positive as-  
surance of a fair and open election  
of a constitutional president are ab-  
solutely essential to any understand-  
ing between the Madriz agents and  
the department. This is the firm at-  
titude of Secretary Knox. Barrios  
and Salinas who left Colon Monday,  
are expected to reach Washington  
next Tuesday. When they will have  
an opportunity to present their case  
to the diplomatic officers of the de-  
partment, Thomas C. Dawson, who  
has received all the representation of  
Luis Corea and Salvador Castriello,  
the diplomatic agents in Washington  
of the Madriz and Estrada factions.

It is said that the state depart-  
ment has the good wishes of Guate-  
mala, Salvador and Costa Rica in any  
action it may take to guarantee a fair  
election in Nicaragua of a president,  
in the event of the retirement of Mad-  
riz.

The state department is not ready  
to discuss the question of methods  
that might be used to provide for an  
honest election should Madriz refuse  
to resign.

### SPECIALTY OF ROBBING.

On Steamers While Crossing the At-  
lantic—Woman Lost \$50,000.

(By Cable to The Times)  
Berlin, July 23—The authorities  
are hot on the trail of a gang which  
has made a specialty of robbing rich  
Americans on ocean liners. It was  
learned today as the result of the dar-  
ing robbery of Mrs. George Stratford,  
of Jersey City, who lost \$50,000 in  
jewels on the Hamburg-American lin-  
er Amerika.

For the first time a full list of the  
stolen jewels was obtained today.  
They are a diamond pin, a pearl  
necklace, a pearl and diamond pin,  
and five diamond rings, besides ar-  
ticles of less value.

The theft, it has been ascertained,  
was committed between Cuxhaven  
and Cherbourg, the thieves evidently  
hoping to escape in the bustle of  
making port immediately after the  
robbery.

On the Deutschland, a few days  
previous, it was learned today, a  
wealthy American lost a pocketbook  
containing a large sum. It is be-  
lieved the same band of criminals  
was responsible for that theft.

### SHEPHERD WILL RECOVER.

Young Man Who Was Knocked Down  
and Robbed Near Spencer Not Ser-  
iously Injured.

(Special to The Times)  
Spencer, July 23—Mr. Columbia  
Shepherd, the young drug clerk of  
Washington City who was waylaid,  
clubbed into insensibility and robbed  
by two negro highwaymen near Spen-  
cer last night, is improving nicely to-  
day and will soon recover. He was  
able today to join with the officers in  
search of evidence against Abe Woody  
and John Fitzgerald, the two negroes  
arrested by Chief of Police Cruise and  
other officers last night charged with  
the crime.

The negroes were arrested at a late  
hour last night and locked in Rowan  
jail to await trial. None of the \$200  
stolen from Mr. Shepherd was recov-  
ered, though the officers feel confi-  
dent they have the guilty parties. Mr.  
Shepherd was set upon while walk-  
ing through a piece of woods and be-  
fore he could give the alarm was  
knocked down and robbed.

### MORE TROOPS FOR EGYPT.

Significant in View of Roosevelt's  
Guild Hall Speech.

(By Cable to The Times)  
London, July 23—Now it's the big  
stick for Egypt. The British mili-  
tary force there is to be doubled  
within a short time, making a total  
of 10,000 troops, according to a semi-  
official report current here today.  
This is regarded as significant in view  
of the Guild Hall speech of Theo-  
dore Roosevelt, in which he urged  
more stringent measures in Egypt,  
and the subsequent development that  
he spoke with the tact or expressed  
permission of the authorities.

The growing unrest in Egypt and  
the increase in the ranks of the na-  
tionalists are held responsible for the  
increased troops.

ROBERT WISKI.

Paderewski, the famous pianist,  
the slight injury to one of his fingers  
netted him \$5,000. The injury was  
very slight, a splitting of one of his  
finger nails, but as it prevented him  
from appearing in London recently,  
the insurance company was compelled  
to pay him the above named amount.  
Each of his fingers, thumbs, eyes and  
toes, it is said, are separately insured.

## NEGRO WOMAN KILLED BY A. C. L. TRAIN

(Special to The Times.)

Wilson, N. C., July 23—Peggy Fer-  
mer, colored, was run over and in-  
stantly killed by a southbound pas-  
senger train on the Atlantic Coast  
Line this morning about 6 o'clock on  
the outskirts of the city. The wo-  
man was walking from her home,  
north of Wilson, between the double  
tracks. When the engineer whistled  
she stepped on the wrong track and  
before the train, which was running  
at good speed, could be stopped, was  
run down, her head being severed  
from the body and she was otherwise  
mangled. The deceased was consid-  
ered a weak minded person. No in-  
quest was held.

### FIGHTING IN NICARAGUA.

Revolutionists Carrying the War Into  
Madriz Territory.

(By Leased Wire to The Times)  
Washington, July 23—Revolution-  
ists under Estrada have taken an ag-  
gressive stand in a campaign against  
Madriz in Nicaragua, carrying the  
war into Madriz's territory, according  
to reports received at the state de-  
partment today. Consul Olivares, in  
a telegram today, states that Madriz  
has announced an engagement be-  
tween revolutionists and government  
troops at Comalapa, in which about  
400 revolutionists and as many gov-  
ernment troops were engaged. The  
casualties on both sides were heavy  
before the revolutionists were routed.  
General Valdez, a Madriz follower,  
was killed. A series of sharp fighting  
is reported between the two factions  
in Granada and Managua within fifty  
miles of Managua, the Madriz capi-  
tal. No accurate account, however,  
has been obtainable.

### Lost Bet and Shot Himself.

(By Leased Wire to The Times.)  
Chicago, July 23—Harry Michaels,  
secretary of the Michaels Furniture  
Company, killed himself because of  
the loss of a \$10,000 bet on Jim Jef-  
fries in the Jeffries-Johnson Reno  
fight of July 4. This developed today  
at a meeting of Michaels's creditors.  
He shot himself at his desk after re-  
ceiving a telegram telling of his loss,  
while his brother, from New York  
was waiting to see him. At the time  
of the suicide, ill health was given  
as the reason.

### Woman Shot and Killed.

(By Leased Wire to The Times)  
Springfield, Mass., July 23—Mrs.  
Eleanor Shepard, wife of W. H. Shep-  
ard, division superintendent of the  
Boston & Maine Railroad, was shot  
and killed today by George C. Creely,  
the aged father of Mr. Shepard's first  
wife. It is believed the assassin was  
insane.

## H. L. GODWIN NOMINATED

Regular Convention Ignored  
and Godwin is Nominated

Convention Harmonious — Business  
Transacted as if Former Con-  
vention Had Not Been Held—Clark to  
be Ignored—Godwin Makes Ring-  
ing Democratic Speech—Clifford  
Declares He Will Sweep the Field  
—State, Executive Committee  
May Settle Matter.

(Special to The Times.)

Wilmington, N. C., July 23—The  
insurgent branch of the sixth congres-  
sional convention met at noon yester-  
day and nominated for congress Hon.  
Hannibal L. Godwin, of Harnett coun-  
ty. He is the present incumbent and  
is completing his second term in  
the national house. At the conclu-  
sion of the majority convention the  
Godwin forces were organized and  
practically intact. They immediately  
arranged to hold another convention,  
after Clark had been nominated and  
so at 10 o'clock yesterday morning  
they met and the credentials and per-  
manent organization committees asked  
for two hours to complete their work.  
The convention re-convened at 11:20  
o'clock.

The report of the committee on  
permanent organization was adopted.  
Hon. Geo. H. Bellamy being retained  
as permanent chairman. Mr. L. S.  
Peffer, being named as secretary. Mr.  
Bellamy expressed his gratitude for  
the honor and declared that "this is  
the real congressional convention of  
the sixth district, and referred to the  
use of force by the organization of  
the opposition convention last night."

The credentials committee declared  
that all counties were properly rep-  
resented except Cumberland and New  
Hanover. Of the Cumberland vote  
6.63 were given to Godwin, 23.27 to  
Cook. Of the New Hanover vote  
11.50 were given to Godwin, and  
29.50 to McClammy. Congressman  
Godwin was placed in nomination by  
J. C. Clifford, of Harnett, who de-  
clared for the benefit of the onlook-  
ers, among whom were as many parti-  
cipants in the convention of last night  
as there were delegates on the floor,  
that "you may place a republican  
against him, or you can place a good  
democrat against him, but Hannibal  
L. Godwin will sweep the field in No-  
vember."

No other nomination was made and  
the voting proceeded, at once, only  
one ballot being required as a mat-  
ter of course. The strength of the  
other candidates, according to the  
credentials committee of the conven-  
tion, was voted by the delegates on  
the floor and the vote stood as fol-  
lows: Godwin, 134.54; Clark, 34.96;  
McClammy, 31.43; Cook, 34.58; Mc-  
Kinnon, 16.11.

A committee was appointed to  
bring Mr. Godwin in and the con-  
gressman made a short speech of ap-  
preciation in which he declared the  
convention of today the "regular"  
convention and that he would pile up  
the largest majority the democrats of  
the sixth district ever saw.

There were about two hundred of  
the five hundred delegates on the  
floor today and the action of the con-  
vention of yesterday and last night  
was scrupulously ignored.

There are two courses that may be  
pursued in the sixth district. The  
matter may be settled by the state  
executive committee of the two candi-  
dates, O. L. Clark and H. L. Godwin,  
may make the race. In the latter  
event there is little doubt but that  
the republicans will place their strongest  
man in the field with excellent  
chances of winning. It is more prob-  
able, however, that the state commit-  
tee will settle the matter and in that  
event the decision will hang upon the  
question as to the power of the chair-  
man to rule that a county's delega-  
tion shall not be settled before re-  
ferring the matter to the credentials  
committee, and as to the power of the  
district executive committee to de-  
pose its chairman and elect another  
as was done Thursday.

### Honduras Revolution.

(By Cable to The Times)  
Berlitz, British Honduras, July 23.  
Ex-president Bonilla, of Honduras,  
left here today with a large force of  
men to lead the revolution in Hon-  
duras against President Davila.  
British soldiers are in pursuit in  
an attempt to halt the expedition and  
thus preserve the rule of neutral-  
ity.  
Bonilla has two ships in which he  
expects to land upon an unprotected  
section of the coast an attack Teguc-  
gigalpa.

Rev. Lyman Abbott, Editor of the Outlook and prominent philanthropist, who with Jacob A. Riis, Jane Adams and others, have organized an association to buy large tracts of land near Greeley, Colo., and cut it up into small farms and garden plots. These will be sold to deserving families in the East who wish homes in the West, but are without means. The association will accept payments in easy installments in cash, or will take a share of the crops.

## GENERAL INSPECTION OF COAST ARTILLERY

(By Leased Wire to The Times)

Washington, July 23—As a result  
of the inspection of the big guns on  
the coast defense at Fort Monroe,  
conducted immediately after the ex-  
plosion there several days ago, in  
which eleven men were killed and  
several severely injured, a general in-  
spection of all coast artillery works  
in the United States, the Philippines  
and other insular possessions will be  
begun by the war department.

General Leonard Wood, chief of  
staff, stated today that while no gen-  
eral orders had been issued to this  
effect a general inspection will be or-  
dered in the near future. Some of  
the guns in remote fortifications have  
not, it is said, been fired under high  
pressure for several years, while oth-  
ers are not amply protected with safety  
devices. It is for the purpose of  
bringing all of the artillery defenses  
up to a modern condition and to pre-  
vent further fatalities that the inspec-  
tion will be ordered. In all likeli-  
hood General Crozier, chief ordnance  
officer, will be detailed to conduct  
the inspection.

### BOMB THROWN AT STORE.

Store Destroyed and Many Lives Im-  
periled.

(By Leased Wire to The Times)

New York, July 23—More than 1-  
000 men, women and children were  
imperiled today by a bomb, which de-  
stroyed the fruit store of Quindon Raf-  
fael at 614 Second avenue. Two  
years ago while working for another  
man, Rafael received a black hand  
letter but today said he had got none  
since. The police are working on the  
theory of revenge as Rafael recently  
discharged two employees, and fur-  
thermore, has taken much business  
from neighboring dealers.

Rafael, with his wife and two chil-  
dren escaped by a narrow margin.  
The family lived above the fruit  
store.

The explosion, which did several  
thousands of dollars damage, created  
a panic in the neighborhood, break-  
ing windows and shaking several ten-  
ements.

### ATTEMPTED ASSASSINATION.

Someone Shot at County Attorney,  
While Sitting in His Home.

(By Leased Wire to The Times)  
Longsight, Ind., July 23—Geo.  
W. Custer, prosecuting attorney for  
Cass county, narrowly escaped assas-  
sination last night when a rifle bullet  
crashed through a window in his  
home a few inches above his head.  
Custer had been conspicuous in pro-  
secutions of saloon men and claims to  
have secured evidence against some  
of the nine Cass county trustees ac-  
cused by the state board of exami-  
ners of \$14,554 shortage.

## MOB AFTER THREE YOUNG FARMERS

(By Leased Wire to The Times)

Louisville, Miss., July 23—While a  
mob was gathering to lynch them,  
three young farmers were spirited from  
the county jail here by the authori-  
ties early today and taken from town  
on a special train, to save their lives.  
Though protesting their innocence,  
they were accused of assaulting and  
murdering Miss Jennie Sharp near  
Dural Hill. Her throat was cut. The  
prisoners are Sebastian Fermenter,  
Cummings, and Burkfield.  
The girl's disappearance created a  
sensation, which was heightened by  
the discovery of her mutilated body in  
a gully. Within a short time pos-  
sessed had set out in every direction to  
scour the country.

The three young men were arrested  
in the vicinity of the crime. They  
gave conflicting stories and circum-  
stances pointed to their guilt. They  
were hurried to the jail yesterday.  
When the crowds that had taken up  
the hunt for suspects returned to  
town, a mass meeting was held and a  
demand for retribution made. The  
sheriff's force being inadequate to  
stand off a concerted effort by the  
townspeople, the flight was decided on.

### NEGRO SLASHES ANOTHER.

Lillington Has Negro Fight—Trouble  
With Near-beer Saloon—Woman in  
the Case.

(Special to The Times)

Lillington, July 23—Late last  
night on the way home from a negro  
break-down in the northern part of  
town, near one of the near-beer sal-  
oons, in a free-for-all fight, Bertis  
Wickler slashed Jim Fuller with a  
razor several times on the head and  
face, and he came very near bleed-  
ing to death before he could find a  
physician.

It seems that the bone of conten-  
tion between Bertis and Jim was  
one negro woman from Raleigh,  
named Patty, whom Jim was escort-  
ing home from the dance, much to  
the chagrin of Bertis and several  
other aspiring coons.

Chief of Police Ray and his deputy,  
Jones, who had been expecting trou-  
ble as many of the colored brethren  
were tanked up on near-beer, were  
near the scene of the conflict, and  
arrested Bertis and two other neg-  
roes, Bill Baily and Eddie Hodges,  
who were too full to take care of  
themselves. While Jim Fuller is  
badly cut the doctor thinks he will  
recover.

### VOTING ON PROHIBITION.

Texas Democrats Voting on State-  
wide Policy in Primary.

(By Leased Wire to The Times)

Austin, Tex., July 23—Prohibition  
as a state-wide policy for Texas is  
being decided today by the voters at  
the democratic primaries. The pro-  
posal to have the legislature in-  
structed to submit a state prohibition  
constitutional amendment to the  
whole people is being balloted upon.  
The "dry" leaders claim that if the  
legislature is so instructed there is  
no doubt of the amendment's being  
carried by popular vote.

The democratic gubernatorial can-  
didates today are Cone Johnson and  
William Poindexter, prohibitionists;  
O. R. Colquitt, anti-dry; R. V. David-  
son, who refuses to make liquor the  
main issue, and J. M. Jones. Col-  
quitt is favorite in the betting.

### Many Horses Burned to Death.

(By Leased Wire to The Times)

Newark, N. J., July 23—Fire in  
the stables of the L. J. Buckley Con-  
tracting Company early today result-  
ed in the death of 110 horses. Near-  
ly all were burned to death, though  
some were so injured that they had  
to be shot. The stable employees dis-  
played great heroism in attempting  
to save the animals, rushing into the  
stable when it was flaming in every  
part. They succeeded in getting out  
only about forty horses safely.

### Stevens Released.

(By Leased Wire to The Times)

Chicago, July 23—The murder the-  
ory in the death of Ira G. Rawn, pres-  
ident of the Monon Railroad, re-  
ceived a sharp set-back today when  
the police released Ernest Stevens,  
the negro chauffeur arrested on sus-  
picion of having committed the crime.  
The alibi which Stevens offered  
could not be broken down and he was  
cleared of all suspicion.

### Ate Opium Pills.

(By Leased Wire to The Times)

Webster, Mass., July 23—Eight  
children, the oldest 13 years of age,  
are lying ill in their home here to-  
day and two are dying as a result of  
eating opium pills which were mis-  
taken for candy. The children be-  
long to Polish families.

## WIRELESS CALL SAVES MANY LIVES

Coast Liner Momus on Fire  
and S. O. S. Call Brings  
Aid to Passengers

## NEWS OF THE DISASTER

Wireless Today Resulted in the Sav-  
ing of Scores of Lives After Flames  
Broke Out on the Momus—Ship  
Carried 60 Passengers and Crew of  
125—Fire Was Discovered Yester-  
day Afternoon and Sister Ship Was  
Picked Up Some Hours Later—Did  
Not Reach Imperilled Ship Until  
This Morning However—All Pas-  
sengers Transferred.

(By Leased Wire to The Times)

Charleston, S. C., July 23—The snap  
and flash of the wireless sending out  
the "S. O. S." call—the high sea cry  
for help—today resulted in the saving  
of scores of lives after flames broke  
out on the 5,000-ton coast liner Momus,  
owned by the Southern Pacific Com-  
pany, off the Florida coast. News of  
the disaster was brought by wireless  
dispatches received here.

The Comus, a sister ship belonging  
to the same line, answered the call,  
standing by while the passengers were  
transferred.

The advances sent out while the ves-  
sel was ablaze in 12 fathoms of water  
said that there was a minimum of  
confusion among the passengers and  
that nearly all, especially the women,  
acted with heroism from the time the  
flames were discovered till they were  
safe aboard the relief ship.

There were 60 passengers on board  
and a crew of 125 men.  
The Momus plies, like the Comus be-  
tween New York and New Orleans.  
She made her first trip in November,  
1906. Of Steel, 410 feet long, she was  
built in Philadelphia by William Cramp  
& Sons. Her beam is 52.2 feet and  
her depth 25.6 feet.

She left New York last Wednesday  
with a large passenger list and a good  
cargo of freight. She was due in New  
Orleans late tomorrow or early Mon-  
day.

The fire was well advanced when dis-  
covered yesterday afternoon. For a  
time efforts were made to keep the  
situation from the knowledge of the  
passengers, but eventually this became  
impossible, as the blaze gained head-  
way.

In the meantime the wireless had  
been spitting out flashes incessantly.  
When it was seen that the passengers  
would inevitably have to know the sit-  
uation, the answer of the Comus was  
picked up. She was bound up the  
coast from New Orleans.

The blaze was discovered at 2 p.  
m. yesterday in the after hold of the  
Momus, when she was off Cape Can-  
averal, Fla. Efforts were made to  
signal the lighthouse on the cape.  
Captain John F. Boyd, of the Momus,  
ordered all hands to fight the fire. It  
was impossible to penetrate into the  
blazing hold, so the hatchets were  
battered down and the pumps kept  
going incessantly flooding the com-  
partment.

The vessel was compelled to slacken  
speed and then to lay to, and the life-  
boats were got in readiness to take  
the passengers ashore, landing them  
on the sandy but treacherous beach,  
if necessary.

Captain Boyd and First Officer  
Woods calmed the frightened passen-  
gers when they learned of the fire and  
kept them in good order.  
A few of the passengers went to  
the aid of the officers, cooperating in  
maintaining cheerfulness. All through  
the night anxious groups of passen-  
gers huddled on deck, but some were  
induced to go to bed. The saloon was  
turned over to those who preferred  
to stay awake, and two score passen-  
gers sang all night while one of their  
number played the piano.

When the Comus came up at last,  
and her master, Captain Maxson, sig-  
nalled that he was ready to take all  
passengers, the condition of those on  
the Momus was as good as could be  
expected. Some of the more nervous,  
however, were in a state bordering  
on collapse.  
The small boats of both ships were  
put to task of transferring the men,  
women and children from the Momus.  
At the request of Captain Boyd the  
Comus stood by while both crew and  
officers gave their attention undivided  
to checking the fire in the hold.

Their efforts were rewarded today,  
when the blaze was got under con-  
trol. Fear of its flaring up should all  
be allowed to enter the compartment  
prevented the opening of the matches  
for the time being, however.

Until the hold could be searched,  
after the process of smothering should  
be abandoned, no definite estimate of
