Fayetteville Plays Rocky Mount to a Standstill.

(Special to The Times.)
Rocky Mount, Sept. 9—Wilson pitched Luyster today and should have won, errors causing him to be tied up instead of winning. Peartree scored in the first for the Railroaders, but Luyster and Schumaker crossed the plate in the second inning on errors. In the fifth inning Leary was shoved across for the run that tied up the game. For twelve innings the battle went on without either winning out. Wilson should never have been scored on, while Luyster was wild and erratic. Eight passes were issued by the Highland twirler, one batter hit and one wild pitch was made. The support behind him alone saved him from defeat. Leary again played a grand game at first.

A double-header will be played Saturday, the first beginning at three o'clock. Rocky Mount must win both, while Fayetteville need only one to win the pennant. Tracy is looked to win the first game of the double-header.

The Tabulated Score.

Umpires, Barre and Burke. Attendance, 550.

"Placing Hits Impossible," Says Wagner.

John H. ("Hans") Wagner, last year's premier swatsman of the National League, at the Aldine Hotel, Philadelphia, a few days ago while the Pirates were playing in the Quaker City, characterized his slump in batting in the beginning of the season and the subsequent improvement as simply "baseball luck."
"If you hit them where they aren't you're all right, and if you hit them where they are you're out," said Hans, "and it's a whole lot easier to hit them where they are. Only luck puts them any place else. Any baseball player will have a good year and then a bad year, and that's what has happened to me this season. For a long time I couldn't seem to hit them safe and that's the reason my percentage slumped."
"You'll find that it isn't only in batting that baseball luck holds sway. Many a fielder has an error checked up against him simply because that element of luck caused, maybe his spikes to slip, maybe the ball to take a tricky bounce, in fact 101 different ways of making the stop difficult. There are mighty few errors made now that are the player's fault. Very seldom when the ball is knocked to a man along the ground, does he miss it because he misjudged it. The infielder's eyes are all good, and it's a twenty to one shot that the ball was deflected in some manner just as the man was going after it."
Did Not Think of Quitting.
"No, I wasn't thinking of quitting baseball at the beginning of the season," answered Hans in response to a question to that effect. "That has been all false rumor. If I wanted to quit I'd quit and that would be all."

Daniel Murphy, of the Philadelphia, who slammed a triple in the second inning of a recent game with the New Yorks and another hot liner in the sixth that all but took the game away from the Highlanders. Murphy has been doing a great deal of slugging with the sphere lately and whenever he wallops something invariably goes up on the register for his nine.

to it. I won't know, though, when I get too poor to play with the Pittsburgh team unless the team tells me. I'm ready to play with them until they decide that I'm worthless. You know how it is. A young player has lots of vim and he's pushing right along, while we older ones sort of lose our dash.
"Baseball luck got in against our team in the beginning of the season with twenty straight days of nothing but rain, and that has been a disadvantage to us ever since. We have had more than a dozen double headers to play off, and we are going to try and win them. Whether we will or not, I can't say."

"Here's another incident of baseball luck. Every time we strike the Phillies they are playing at their very best, and generally take the majority of the games from us. It is a clear case of hoodoo. We simply can't defeat the Phillies, although we can trim other teams that put it all over them. If that isn't baseball luck, what is it?"
Hans was told about Bill Foxen's idea about a pitcher being a good one only if he didn't put the ball over the plate.
"Well, I would say that was a foolish opinion. There isn't a man in the National League today who can be fooled on four balls. Of course, you will find a few who will bite at a wide one now and then; in fact, we all do it, but to fool a batter after batter every trip to the plate—well, that's beyond me."

Forced to Put it Over.
"You can't even just cut corners in the league. A batter will every time wait the limit and if the pitcher insists upon putting them wide, will walk I have batted against Foxen, and he struck me as a good one. It may be that he has had three bad seasons and may yet break good. I have known incidents where such cases happened."
"Charles B., alias Babe Adams, said that Bill Foxen's tactics of never putting a ball over the plate but fooling the batsmen into striking at wide ones, was a hummer—if it worked."
"Sure, that's the aim of every pitcher

to make the batsmen swing at the kind that you know he can't reach," declared Babe, "but you can't keep them wide all the time. There are batters in every league that will always walk when you try that on them—the kind of batters that aren't to be fooled. You know you can fool part of the batsmen part of the time, but you can't fool all of them all of the time."
"I find that you simply have to put them over, even if only across the corners. There's no use trying to strike out every man that faces you, but depend on the eight men behind you to help along. Foxen's theory is a peach if he can work it out, but I don't see how he can."

NO INDIGESTION OR SICK STOMACH.

Take your sour, out-of-order stomach—or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Tri-angle and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headaches, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

THOMASVILLE NEWS.

Citizens Insurance and Realty Company Moves Office—"Everybody's Day" to be Held—Red Men Institute Order—Graded Schools to Open Up.

(Special to The Times.)
Thomasville, N. C., Sept. 10—The Citizens Insurance and Realty Company, of which Mr. G. T. Cochran is manager, has moved its office from the Cates building to a suit of rooms in the J. W. Lambeth building upstairs, the business of the company has grown so rapidly that larger and more commodious quarters had to be secured.

Thursday night the citizens and business men of the town met in the armory to perfect arrangements for October first—"Everybody's Day." Committees were named and the program arranged consisting of a grand street parade, riding tournament, sack, potato, shoe and mule races, band concert, (three bands), address by one of the state's greatest orators, a sham battle, spectacular military maneuvers by the High Point, Lexington and Thomasville military companies. This will be the most interesting feature of the whole day—a mimic battle and all the manoeuvring of a real modern war will be carried out and will be watched with intense interest. This is the third celebration of this kind and each succeeding year they grow more popular and interesting. The one this year will surpass all former efforts in interest and attractiveness. It is hoped by the management and committees that it will surpass the greatest expectations of the people. Valuable prizes will be given for the best in all contests and numbers on the program. There will be a place in Thomasville for everybody on "Everybody's Day." Thousands of visitors

are expected and great preparations will be made to entertain one and all royally.

The Thomasville Chair Company is enlarging their mammoth plant and when completed will be the second largest plant in the city and will increase the output of this factory about fifty percent. This factory is putting in full time and is shipping chairs just as fast as they can make them.

Thursday night a tribe of Red Men from High Point came here and instituted an order of Red Men in Thomasville. Thirty-one faithful sons of Thomasville entered the secret recesses of this order and a strong wigwam will now spring up in Thomasville.

The Thomasville graded school will open for the fall term Monday morning. All the teachers have arrived and the family will hold their first meeting Saturday morning. It is composed of Supt. J. N. Hause and eight teachers. Every pupil will be required to bring a certificate from their physician, stating that they have been successfully vaccinated before they will be allowed to enter the school. Everything indicates that this will be the most successful opening of the history of the school. The school building has been renovated and a number of improvements made and everything is in readiness for the opening Monday morning.

Supt. J. N. Hause of the graded schools, has just completed the taking of the annual census of the town of Thomasville and the total number of inhabitants was found to be 3,827 white people and 876 colored people. The white school population is 742 and the colored is 275. The increase of population for the year just past is 19 percent. The increase of school population over last year is: White, 21 percent, and colored, about 12 percent. Keep your eye on Thomasville and watch her grow.

A number of Confederate veterans from this place who attended the reunion at Norfolk, Va., this week have returned and each and every one is highly elated over the very courteous treatment shown them while in that city.

When Merit Wins.
When the medicine you take cures your disease, tones up your system, and makes you feel better, stronger and more vigorous than before. That is what Foley's Kidney Pills do for you, in all cases of backache, headache, nervousness, loss of appetite, sleeplessness and general weakness that is caused by any disorder of the kidneys or bladder.—King-Crowell Drug Co.

RHEUMATISM PAINFUL & DANGEROUS

Rheumatism is due to a diseased condition of the blood cells and corpuscles, brought about by an excess of uric acid in the circulation. It is not only a very painful disease but an extremely dangerous trouble. The briny, acid state of the blood gradually forms a coating over the muscles, and by depositing a cement-like substance in the joints frequently terminates fatally, or leaves its victim a hopeless cripple. It is natural to "doctor" the spot that hurts, and it is quite right to use liniments, hot applications, etc., to get temporary relief from a painful joint or swollen tendon; but Rheumatism is not a skin disease, and such things, when depended on alone make one careless, and the disease gets a firmer hold on the blood. S. S. S. cures the disease because it is the greatest of all blood purifiers. It goes into the circulation, and removes every particle of the irritating uric acid, builds up the blood, makes it rich and oily, and in this way prepares it for the proper nourishment of all joints, muscles, nerves and bones. If you have Rheumatism, get the uric acid out of the blood by taking S. S. S., a purely vegetable medicine, and enjoy freedom from its misery. Book on Rheumatism and any medical advice free to all who write.
