Millinery Section.

Misses Badger and Denton's Trimmed Millinery

Elegance, Refinement, Style, Moderate Prices. All of the above enter with equal force into the exquisitely trimmed hats that go to make up their autumn showing.

The largely attended openings last week served to advertise more than any other advertisement the superb collection of creations from Paris and New York and their own adaptations.

Never has there been shown a more carefully selected or a greater variety of hats of superior style, and never such hats at such moderate prices.

MUCH OF WEED SOLD

Largest Tobacco Break of the Season

Prices For Tobacco Better Than Expected—Victor Bryant to Make Address—Sad Condition of Twelve-year-old Girl—First Voters Club to Meet Saturday.

(Special to The Times.)
Durham, N. C., Sept. 28.—The largest tobacco break of the season took place here yesterday, the three warehouses of the city selling over 50,000 pounds of the weed. The tobacco was of a uniformly inferior grade and brought an average price of twenty cents per pound. Considering the quality of the tobacco being brought to the city, the prices ruling the market at present are considered very fair by the farmers. At present the product consists for the most part of the last curings and common tobacco, and when these are cleared from the pack houses work will be begun on the finer grades of wrappers. The fine wrapper season is not expected to open up until the middle of October.

Victor Bryant to Make Address.
At 7:30 p. m. next Friday in West Durham, Victor S. Bryant, of the Durham bar, will address the voters of that town on the live questions of the campaign. Few speakers in the city, and in the state for that matter, have given so much time to the study of state and municipal politics as has the Durham attorney and an illuminating speech is confidently expected by the residents of West Durham.

Sad Condition of Twelve-year-old Girl.

At her home on east Main street, near the car barns, little Fannie Medlin twelve years old, is patiently and with a resignation of spirit remarkable in so young a child, awaiting the approach of death, who has marked her for his own. She is suffering from tuberculosis of the spine and thigh and the tissue from these members of her body is wasting away from day to day, and no earthly skill is capable of staying the onward march of the disease, which will terminate in death as soon as it reaches one of the vital parts of the body. She is the daughter of parents only moderately provided with the goods of this world, and who are unable to provide her with the delicate care so necessary in a case of this kind. She has for some time been in the Watts Hospital, but upon the declaration of the physicians there that no medical skill would be of any avail, her parents preferred that she come home and spend the short time that remains to her in the midst of her loved ones. A sadder and more heart-breaking case seldom comes to the notice of human experience—sadder still because many hands would willingly be stretched forth to help, if help of any kind would do any good. The little sufferer is conscious of the relentless nature of the disease and is awaiting her release with a fortitude and resignation that is hardly realizable in one whose philosophy of life must necessarily be so immature. A collection will be taken up in St. Phillips Episcopal church next Sunday for the purpose of lightening as far as possible the burden upon her parents and to make her sorrow-

ROSY AS YOUNG GIRL

J. W. Church, the Notary Public of Summit, N. C., Tells How Cardui, the Woman's Tonic, Helped His Wife.

Summit, N. C.—"My wife had been ailing for nearly 12 years," writes Mr. Church, "and at times was unable to leave the house. She suffered agony with her side and back. We tried our family physician for many years, without relief. After his treatments all failed, she began to take Cardui and gained in weight at once. Now she is red and rosy as a school girl.

Mrs. Church recommends Cardui to all suffering women." Cardui is more successful than other remedies, because it is "different." It is in a class by itself.

In over half a century, more than a million women have been helped to rosy health and happiness, by using this well known and scientific woman's remedy. Cardui acts specifically on the weakened womanly organs. It helps to refresh the worn-out nerves and is the ideal remedy for young and old. As a tonic, for women, it has brought remarkable results. As a remedy, for woman's ills, its friends say it has no equal. Try Cardui.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

The battleship Georgia, on which a twelve-inch gun exploded recently and which has set the naval engineering department to thinking anew as to what additional safeguards can be thrown around the men who stand behind these monster pieces of ordnance. By great good fortune no one was injured, although the gun tore itself to pieces through the force of the explosion. The muzzle was blown off as far back as the jacket. The mishap occurred in mimic battle. It is described to heat cracks.

ful remaining days as comfortable as possible.

First Voters Club to Meet Saturday.
"The First Voters Club," Durham's latest political club will meet in the court house next Saturday at 8:30 to effect a permanent organization. The club is the result of the hard work of Capt. Sydney Chambers, who has given much of his time and labor to the cause of local democracy. Seventy-five young men who have never before voted has already signified their intention to become members and the club bids fair to become a stronghold of democracy in the county.

Saved a Soldier's Life.
Facing death from shot and shell in the Civil War was more agreeable to J. A. Stone, of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 175 pounds." For Coughs, Colds, LaGrippe, Asthma, Hemorrhage, Hoarseness, Croup, Whooping Cough and Lung trouble, its supreme. 50c., \$1.00. Trial bottle free. Guaranteed by all druggists.

INTEREST SHOWN IN POWER CO.

Outcome of Rockingham Power Company Favorable—Work Done Has Cost Over Two Million Dollars—Anxious For Completion of Plant—Dr. Wyle May Buy Plant.

(By Leased Wire to The Times.)
Wadesboro, Sept. 28.—Considerable interest is felt in this section concerning the outcome of the sale of the Rockingham Power Co's properties at Blowitt Falls. The property is located on Fee Dee river 15 miles from Wadesboro and has been partially developed. Rockingham Power Co. several years ago undertook the work of establishing a hydro-electric plant at Blowitt Falls. It was proposed to develop 20,000 horse power to be distributed throughout this section. Work progressed very well for a while until the panic of 1907, when financial difficulties and disagreement between certain stockholders caused a receivership. Later the property was sold at receiver's sale and bought in by a committee representing the bondholders. During the past few months some work has been done, however, just about enough to keep from losing that which had been done before. Several days ago Dr. W. Gill Wyle of New York City, president of the Southern Power Company, visited the location and inspected the property. It is understood that the Southern Power Company contemplates bidding the plant in at the sale. The upset price on the property is one million dollars. The work which has been done has cost more than two millions of dollars and it is estimated that it will take about half of that amount to complete the plant. The Wilmington firm of Hugh McRae & Company hold bonds to the amount of \$310,000 and are the largest subscribers to the bonds of the company.

The interest in this section in the enterprise is strong. The completion of the plant means cheap power in abundance throughout Anson, Richmond and the surrounding counties and the establishment of more industries. Cotton mill men and others interested in manufacturing industries have watched anxiously for the completion of the plant and the sale of the power. Dr. Wyle expressed himself as being favorably impressed with the work and if it were left to him would undoubtedly bid in the property. Just what the Southern Power Company will do is not known. It is hoped that the result of the visit of Dr. Wyle to the plant will be its purchase and completion by the Southern Power Company in the near future.

"I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success," writes Mrs. M. I. Basford, Poolesville, Md. For sale by all dealers.

OCTOBER 1st TO 10th. (By Mail.)

The labor exchange recently established by the board of trade has proved so efficient in finding employment that it is now proposed to include in the lists of those registered children in attendance at day or evening schools who will shortly be leaving and seeking positions.

COMMISSIONED BY GOV.

Garland Thomasson Commissioned to Assist Col. Lusk

Appointed to Assist in Investigation Charges Against Wiley P. Black—Black Repeatedly Violated the Law.

(Special to The Times.)

Asheville, N. C., Sept. 28.—Garland Thomasson has been commissioned by the governor to assist Col. V. S. Lusk in the investigation of the charges against Wiley P. Black that he has violated the conditions under which he was pardoned. Frank Carter was originally appointed but asked to be relieved from the duty. It is not known on what grounds. It is said that the investigation will amount to a virtual prosecution. Black was given ten days in which to file his answer to the charge and the ten days are past but he has already forwarded an answer to the governor through his attorney, Judge H. B. Carter, denying the charges in toto.

It will be remembered that Black was sentenced to the county roads for nearly two years for violations of the whiskey laws and after he had served about eight months he was conditionally pardoned by the governor upon representations by people here, the main reason for asking that he be pardoned being bad health.

Public sentiment is divided but it is contended by the prohibition forces that Black has repeatedly violated the law and is responsible for much disorder by reason of his sale establishment here. There will be a strong fight to have his pardon revoked but Black has considerable resources and will make just as strong a fight to keep off the roads.

For bowel complaints in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil. It is certain to effect a cure and when reduced with water and sweetened is pleasant to take. No physician can prescribe a better remedy. For sale by all dealers.

OCTOBER 1st TO 10th. (By Mail.)

PRISONER COMMITTS SUICIDE.

Had Just Been Sentenced to Five Years for Theft.

(By Leased Wire to The Times.)
Lexington, Ky., Sept. 28.—Five minutes after receiving a five year sentence for stealing jewelry from his fiancée, Miss Carrie Warner, Winchester, Ky., C. L. Frazier of Indianapolis, committed suicide with carbolic acid in the Winchester jail last night. Frazier had three charges of bigamy and others of thefts from all over the south against him. He was twenty-nine years old.

One nice thing about being rich is that people will listen when you want to talk.

CHRONIC ULCERS INDICATE BAD BLOOD

Where the blood is pure any wound or laceration of the flesh heals "by first intention." This is true because nature has provided a constituent to the circulation known as Plasma, which joins and holds the place together until the fibres and tissues can permanently knit and interweave. Whenever the ulcer becomes chronic it is because this healing quality of the blood has been impaired by some impurity in the circulation, and the place remains open, infecting all surrounding flesh, until the character of the circulation is changed. No sore can heal where the blood is bad; because the morbid impurities on which it thrives are constantly deposited into it by the burdened circulation. Cleanse the blood and the sore will heal of its own accord, because then its very source and foundation will have been destroyed. S. S. S. cures Chronic Ulcers of every kind for the one great reason that it thoroughly purifies the blood. It goes into the circulation and removes every particle of infectious or morbid matter, enriches the corpuscles, and assists nature in the formation of the necessary plasmic qualities of this vital fluid. No matter from what source the impurities of the blood come, S. S. S. will remove them. Book on Sores and Ulcers and any medical advice free to all who write. THE SWIFT SPECIFIC CO., Atlanta, Ga.

SSS

How Good News Spreads. "I am 70 years old and travel most of the time," writes B. F. Tolson, of Elizabethtown, Ky. "Everywhere I go I recommend Electric Bitters because I owe my excellent health and vitality to them. They effect a cure every time." They never fail to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. They work wonders for weak, run-down men and women, restoring strength, vigor and health that's a daily joy. Try them. Only 50c. Satisfaction is positively guaranteed by all druggists.
