New York Stock Market.

(By Charles W. Storm.)

New York, Oct. 15-Prices continued street today. As in the trading of the past few days, Steel common continued the factor in the market quoting a gain of % of a point. During the first 15 minutes of trading today this stock touched a high record price of the present movement when it quoted 75%. Steel preferred was also prominent in the railroad stocks with a gain of ¼ over the close. Northern Pacific, Union Pacific, Canadian Pacific, Rock Island and Louisville & Nashville were strong among the railroad stocks. After the first half hour of trading a recession set in and many of the gains scored during the early trading were wiped out and fractional losses substituted. The market however, continued strong and in some instances these losses were wiped out.

Practically every industrial was strong, under leadership of General Electric which advanced one point to 155. Westinghouse, Harvester and Iowa Anaconda was the leader among the

coppers with a gain of %.

Trading on the curb was dull with prices irregular.

#### New York Cotton.

(By Leased Wire to The Times) New York, Oct. 15-Cotton was easier at the opening this morning, prices being 9 to 17 points lower. After such a sharp advance in values as had occurred during the week there was more or less of a reactionary sentiment of the stock, owing to expectations of week-end realizing selling for short account today. This and the absence of frost in the cotton belt.

#### New York Cotton Letter.

(By W. B. Hibbs & Co.)

New York, Oct. 15-Today's market our closing of yesterday closed 3 to 5 points lower and spots lots 6 points with sales of 8,000 bales at 8.19 for middling. This reaction abroad was attributed to profit-taking there and a rapidity of the recent advances. Here traders were very uncertain over the over Sunday. The continued absence the funded debt and for the proper of any indications of frost makes them maintainance of its equipment, feel against the market at such a high level but the fear that the Cuban hurricane now off the Florida coast may enter the belt over Sunday, restricted resulted in very light business and narrow fluctuations after the opening economically managed. There was a rally on bull support of 6 to 8 points from the lowest but this hour which closed the market irregular in the way of reduced rates. railroad has advanced rates.

Also Healthier Than Her Mother Some of Reasons...

(By Leased Wire to The Times) Chicago, Oct. 15-The American girl of today has learned how to lace herself scientifically and for this reason she is healthier than her mother. That is the belief expressed here by Chicago women, who agree with the New York physical culture professor who had said that the American girl of today is, as a rule, taller than her

mother. "Our American girls are taller than their mothers, and why?" said Miss Sojhranisba Breckenridge, dean of the woman's department in the University of Chicago,

"Because they have substituted golf and tennis and such sports for the old spinet and the embroidery frame and such ancient occupations. This is one of the reasons: The girl of today is an athletic girl. She is better cared for and knows how to take care of herself physically much better than her mother did. This is

the effect of modern teaching. "The American girl of today is bigger, better, healthier, and more vigorous than her mother. There is another reason for this growth and this better condition. The American girl has learned how to lace herself scientifically."

Miss Breckenridge would not go into a minute description of this accomplishment, but she made it plain where girls of yesterday pulled and tugged to reduce their walst lines the modern girl has abolished the waist line in other words, she laces herself not too tightly and not in one particular place.

#### UNIFORM EQUIPMENT.

Interstate Commerce Commission Establishes Uniform Equipment.

(By Leased Wire to The Times) Washington, Oct. 15-The interstate commerce commission today established uniform standards for the equipment of freight cars with safety appliances. All appliances covered by the order of the commission are now used on freight cars, with the exception of two additional ladders and two additional sill steps.

The adoption of this uniform standard will be applicable to all new equipment and will not cause any undue expense to the railroads.

#### Beveridge Breaks Down.

(By Leased Wire to The Times) Anderson, Ind., Oct. 15-The tremendous pace set by Colonel Roos evelt while touring Indiana Thursday in behalf of Senator Beverlage was too much for the senator, who broke down last night. Beverlage was to spend all of today in Madison county with rallies here and at Elwood. The state committeed intimated in a dispatch that there is much concern over Senator Beveridge's falling ill at the high tide of the campaign.

#### EXHIBITION FLIGHTS.

White and Harmon Give Exciting Race.

(By Leased Wire to The Times.) Washington, Oct. 15-Tae English eviator White and Clifford Harmon, he noted amateur aviator, gave exhibition flights this afternoon in aeroplanes at the old Bennings race track, on the outskirts of Washington. A large part of the exhibition was devoted to "bomb" throwing at an maginary warship. In this the two aviators demonstrated rare skill. A number of army and navy officers were on hand to witness the feat. An exciting race between Mr. White in a Farman biplane and an automobile followed. The race covered a distance of five miles.

#### STATUE MOVED.
