TROUBLE IN PORTUGAL

Military Conspiracy Against New Government

Troops Massed About the Government House and Soldiers Held in Readiness—Thirty-two Officers Arrested.

(By Cable to The Times.)
Lisbon, Portugal, Oct. 31—Troops were massed about the government house today and soldiers were held in readiness in the barracks as the result of the unearthing of a military conspiracy and the arrest of 32 officers charged with secretly plotting against the republic. President Braga, the provisional head of the republic, while admitting today that he did not know how far the infection had spread, declared that the revelation came about through an investigation by the judiciary and not of the cabinet.

Drastic measures were taken today to prevent further display of disloyalty. It was reported that a secret cabal existed to overthrow the republic and set Manuel back upon the Portuguese throne.

Seno Franco, who was premier when King Charles and Crown Prince Louis were assassinated nearly three years ago, has been arrested but today was at liberty under heavy bond, other members of his cabinet were arrested while the revolution against the crown was at its height.

He is charged with abuse of power although it is secretly hinted that the real accusation against him is that he is suspected of fomenting disaffection against the republic. Franco was an exile from Portugal for a good many years and it only recently that he came into the country from Spain where he had been hiding.

THE PRESIDENT'S MESSAGE.

Has About Decided on All the Recommendations He Will Make This Fall.

(By Leased Wire to The Times.)
Washington, Oct. 31—Although he has not yet made even a preliminary draft of his annual message, President Taft has virtually decided on all the recommendations he will make to congress at the opening of the next session in December. Not until he is on his way home from his visit of inspection to the Panama Canal will the president begin actual work on his message. One of the reasons for the delay is that certain proposals which he will make regarding the canal will depend on the result of his visit. Another is that he wishes to know, before beginning the message, whether the next congress that he will have on his hands will be republican or democratic.

But no matter whether the republicans or democrats rule the next house, the president will continue his constructive legislative work. It can be stated that he will recommend to a democratic house exactly what he would recommend to a republican house. If the democrats are in control and they refuse to accept meritorious suggestions from a republican president, Mr. Taft will be content to leave the issue to the people of the country. Nevertheless, if the returns from the election a week from tomorrow show that the next house will be democratic, President Taft will try to put through a more ambitious program at the short session than the one contemplated should the republicans continue in control.

Economy will be one of the keynotes of the message but it is not likely that the plans for two more battleships and six torpedo boat destroyers will be made to feel the pinch. Under the present plan of action, congress will be asked to appropriate for these at the short session. While little mention has been made of a pension retirement bill in any of the advance hints of the program that will be sent to congress

FEEL INTO RIVER.

Three Men Fighting Roll Off Docks—Two Drowned.

(By Leased Wire to The Times.)
Chicago, Oct. 31—Two men were drowned and a third narrowly escaped death today following a fight on the river docks near the Clark street bridge. The men, locked in each others arms, were fighting so fiercely that they failed to notice that their struggles had carried them to the edge of the docks. Suddenly watchers saw them plunge into the water and all three disappeared.

Members of the life saving crew rescued Charles Miller, a marine engineer. The men who were drowned were unidentified, but are believed to have been lake sailors.

None of the men had weapons and the fight was with fists and feet. When they fell into the water, each had his fingers clutched about the others throat.

Investigation showed that the ground was sprinkled with red pepper.

BOLD ATTEMPT AT BURGLARY.

Plate Glass Window Broken in Brightly Lighted Street.

(Special to The Times.)
Wadesboro, N. C., Oct. 31—The boldest burglary ever attempted in the town took place Saturday night about 10 o'clock. Some one smashed the plate glass window in the front of the store of Blalock Hardware Company. The window was broken with a large piece of cement. Three pistols were taken from the window. The strange part of the affair is that the street is brightly lighted and stores less than 100 feet away were open and doing business, but none heard the glass broken. Policeman Crouch discovered the

PASQUOTANK ALL RIGHT.

Will Pile Up Her Usual Democratic Majority—News Notes.

(Special to The Times.)
Elizabeth City, Oct. 31—It is an assured fact that Pasquotank county will pile up her usual wholesome democratic majority on November 8th, when her sturdy manhood will march to the polls and do its full duty in helping to bury negroism, Butlerism and the fraudulent bands for ever. The republican leaders in this county know that they have not got a bit more chance to cut any figure at the polls than "a one-legged' man in a kicking frock," and so far they have wasted no time in having their spellbinders to hallelujah here.

SENATOR CRUZ HAS BEEN HEARD.

Locke Cruz has been heard and what he did for the republican party was a plenty. If Butler gets one half of the flying elsewhere that he got here, his is the "most flayed" man alive. Craig mercilessly ridiculed the republican party's record in North Carolina in a way that the democrats stood against the evil that there is in their midst. Possibly Locke Cruz did not make any votes, for everybody here old enough to vote, are already democrats, except a few republican office holders and those who expect to hold office, if the republican party stays in power long enough for their turn to come.
