## Stocks, Cotton, Grain and Provisions.

Markets incomplete today on account of wires being down north of Washington.

### New York Stocks.

(By Charles W. Storm.)

New York, Nov. 4.—Gains were scored in almost every standard railroad and industrial stock during the early trading in Wall street today. During the first fifteen minutes of trading gains running from 1/4 to a point or more were scored in the trading. Stocks under leadership of Steel, which opened at 80%, soon crossed 81, the high record price for the present movement. Iowa was the leader in the group of specialties.

American Car was another strong factor in the trading. This stock quoted a gain of nearly a point on reports that a large order for new cars had been placed with the firm by the Pennsylvania Railroad. Western Union displayed early strength moving up to 74. Strength was displayed throughout the curb market, with fractional gains being scored in many stocks. Union Pacific and Reading were the leaders among the railroad group. The Hill shares were also strong. Considerable strength was demonstrated in Interborough-Metropolitan, both the common and preferred quoting substantial gains. The rise in these stocks was due to announcement of favorable progress in the plans to extend the system. Americans were active and higher in London.

### Chicago Grain.

Chicago, Nov. 4.—The comparatively steady tone in Liverpool coupled with light northwest arrivals and smaller Argentine shipments, caused a bulge of 1/2 to 3/4 cent in wheat at the opening, but the market lost its advance later on weakness in the northwestern markets. Liverpool was 1/2 cent lower. Corn started steady to 1/4 cent higher with scattered shorts buying and pit traders sellers. It lost much of the gain on increased offerings with the bulls.

Oats opened steady to a shade higher at yesterday's close. The trade was slight and was confined to professionalists. December was fairly stationary at 34 1/2. Provisions were a shade easier but were slow. Commission houses were on both sides and the offerings were light.

Opening—Wheat—Dec. 87 1/2; May 94; July 92 1/2; Corn—Dec. 46 1/2 to 47 1/2; May 48 1/2 to 49; July 50; Oats—Dec. 31 1/2 to 32; May 34 1/2; Pork—Jan. 17.10 to 17.05; Lard—Jan. 10.27; Ribs—Jan. 9.07 to 10.00; May 8.92 to 8.90. Chicago grain quotations ranged as follows:

## Butler Still Foaming

(Continued From Page One.)

The United States supreme court, there was great interest all over the country by holders of bonds, and I was constantly besieged in New York and Washington. The head of the reputable firm of Coter & Co., with whom I do my business Judge Cole said one day he had some bonds that he wanted investigated and had I friends who had bonds, and would I collect them. I told him I would. They then found the syndicate. He then told Coter that he would be willing to collect all honest bonds. They got up an advertisement worded as you have seen when I heard that they had collected millions of North Carolina bonds. I told them to take the advertisement out. I looked over the bonds, and found that not one of them was very good.

### WILL NOT ANNEX PANAMA.

President Taft Says He Has No Intention of Annexing the Republic.

Washington, Nov. 4.—Through Minister from Panama Arosemena, President Taft has issued an emphatic denial of rumors that he had under consideration a proposal for the annexation of the Panama republic.

The president pointed out to Mr. Arosemena that he recognized the fact that the treaty entered into by this government with Panama, after a republican form of government had been established there, precluded annexation to the United States. He said that his attitude was that of the previous administration and that he wanted to preserve the integrity and absolute independence of the Panama republic.

As an evidence of his good will toward the government at Panama, the president accepted an invitation to visit the republic during his stay in the canal zone. This, therefore, will be Mr. Taft's second departure from the presidential custom of remaining on the soil of the United States. His visit to President Diaz, of Mexico, was his first departure.

When Roosevelt was president, he violated the precedent set by his predecessors by a visit to the Panama republic in November, 1906. Mr. Taft had not intended following suit. The rumors of annexation, however, are reported to have caused such concern in Panama that he deems a visit to the republic to be the best method of re-establishing confidence there.

It is probable Mrs. Taft may not accompany the president, as had been expected. It is feared that the trip might prove too fatiguing for her, but no definite decision has yet been reached.

### CHOLERA REACHES LONDON.

Rats There Infested With the Plague.

London, Nov. 4.—A wave of alarm swept London today when medical authorities announced that cholera germs had been brought to this city by rats.

The bodies of three dead rats found in the London docks, showed upon examination to have died from cholera infection. They are believed to have been brought here on an Italian ship from the plague-infected regions of Naples.

Immediately following the publication of this announcement the medical authorities caused the announcement to be made that all necessary precautions had been taken to prevent the spread of the disease to human beings. Despite this reassurance there was a widespread feeling of fear, especially among those living near the docks.

### Butchers Want Reparation.

(By Leased Wire to The Times.) Washington, Nov. 4.—The National Refrigerator & Butcher Supply Company, of Memphis, Tenn., through their attorney, G. M. Stephen, of Chicago, presented arguments to the interstate commerce commission today in substantiation of their claim, for reparation growing out of an alleged overcharge of shipments of butchers' supplies from various points in the east, to Memphis. Five railroads operating in official and southern territory are named as parties to the case.

### Laughed Himself to Death.

(By Leased Wire to The Times.) Eagle, Wis., Nov. 4.—A newspaper article quoting Dr. Ross of the state university as declaring the hobble skirt would be followed by the nose ring and slit cheeks for women caused Edward Bossingham, aged 70, a tailor, to laugh himself to death. Tired from his day's labor, Bossingham sat before the kitchen stove and listened while his wife read the news. At the hobble story he burst into laughter and the next moment he was dead.

### British Land Another Force.

(By Cable to The Times.) Bombay, India, Nov. 4.—The Gazette says that the British cruiser Proserpine has landed another force of marines at Lingan, Persia, and that the British commander and several sailors have been wounded in a skirmish.

### Steamer in Distress.

(By Leased Wire to The Times.) New York, Nov. 4.—A steamer flying the American flag has broken down off Sandy Hook and is lying in distress signals, asking to be towed into port. She was caught in the storm early today.

lies in Hoboken. No interference was encountered.

After the deliveries in Hoboken had been made, four policemen, on foot, escorted the wagon to the city line, where it was turned over to another police guard from West Hoboken. Twelve deliveries were made there. Then the wagon was escorted to the North Hudson line, where a police escort was furnished by the North Hudson police station.

### HUNTSVILLE HOTEL BURNED.

Total Loss From Fire \$120,000—Business Concerns Burned.

Huntsville, Ala., Nov. 4.—The Huntsville Hotel was destroyed by fire early this morning in a blaze that started in the kitchen. The total loss of hotel property and stores in the building reaches about \$120,000, with insurance of \$82,000. Several leading business concerns were burned.

The Huntsville Bank and Trust Company, the Western Union Telegraph office, Huntsville Cotton Exchange and other smaller concerns were the losers. Guests of the hotel lost their personal belongings, but it is believed that all of the guests escaped.

### Storm In France.

(By Cable to The Times.) Paris, Nov. 4.—Very severe storms are raging over almost the whole of France.

The Seine has risen rapidly and a repetition of the floods of a few months ago is feared. The signalling system on the Eiffel Tower has been destroyed. The Mozele is 230 meters above its normal level.

In Le Mans the heavy rain and strong wind have caused much damage. The Rhone has flooded the country near Nimes. In Limoges, Valenciennes, and Yvetot it is still raining furiously. At save the storm has caused much damage to shipping.

### Aged Priest Dies.

(By Cable to The Times.) Gibraltar, Nov. 4.—The Rev. Father Macharo, one of the most famous Jesuits in Europe, died here today from a broken heart because he had been exiled from Portugal by the republicans. He was 70 years old.

So beloved was the priest by his followers in Portugal and elsewhere that he was called "Father Macharo, the apostle." Although he protested against leaving his monastery he was driven out by republican soldiers and placed in prison. The aged priest mourned continually and his last words today were: "God help Portugal!"
