

THE NEW WATERWAY

Pamlico Sound and Beaufort Inlet Connected

Dredges Opening Waterway Between Pamlico and Beaufort Expected to Meet Tomorrow—Successful Fair—Small Goes to Waterway.

(Special to The Times.)
Washington, Nov. 14.—Hon. J. H. Small has recently been informed by Capt. Earl L. Brown, officer of this district in the U. S. Corps of Engineers, located at Wilmington, N. C., that the two dredges which have been engaged for almost a year in making excavations on the inland waterway are expected to meet on next Tuesday, November 15. This will mark the completion of that section of the Norfolk-Beaufort division of the waterway extending from Pamlico Sound to Beaufort Inlet and will afford a minimum depth of ten feet. When this section of the waterway is open vessels can go from New Bern, Washington, or from any of the ports and streams in North Carolina, by protected route, southward through Beaufort Inlet. The completion of this work is also made notable because it is the first work undertaken by the United States government, in the construction of a continuous free waterway from Boston to Beaufort. It is understood that the completion of this waterway will be celebrated sometime in December. The citizens of Beaufort, Morehead City and Oriental expect to combine and carry out a program worthy of the occasion.

One of the largest and most successful agricultural fairs that have ever taken place in Beaufort county was held in the town of Aurora yesterday. Quite a number of excursions were run from this city and there were about three thousand visitors present. The visitors on arrival were met by a large delegation of citizens and the Aurora band and given a royal and enthusiastic welcome. A fine picnic dinner was served the visitors free and everything done by the citizens of Aurora in their power to give them a roasting good time. The agricultural exhibits, consisting of corn, cotton, oats, wheat, potatoes, live stock, hogs, poultry, tobacco and other staple crops were exceptionally fine and some of the prize winners could not be surpassed in the state. Among the hogs were five Duroc three months old and weighing on an average of 80 pounds each, belonging to Mr. Chas. Selby. These took first prize. Another prize winner was a

twelve months old Berkshire boar belonging to Capt. Lem Lawson and weighing 400 pounds.

The horticultural and culinary exhibits in the ladies department were also given special attention and greatly admired by the visitors. This fair was the second one of its kind given under the auspices of the Aurora Retail Merchants Association for the purpose of encouraging and promoting better farming industries and agricultural productions.

Hon. John H. Small, M. C., of this city, left Saturday evening to attend the annual meeting of the Mississippi-Atlantic Inland Waterway Association, which convenes at Pensacola, Fla., on the 14, 15, 16. This association was organized to promote the construction of the waterway across Florida and by an inside route to the Mississippi river. Mr. Small will attend the meeting of the association as its guest and will make an address on the unity of the Intra-Coastal Waterway along the Atlantic Seaboard with the waterway from the Atlantic to the gulf and the Mississippi.

Lion Ponders a Child.

In Pittsburgh a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through Colds, Croup, and Whooping Cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of Croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It's a wonderful medicine for babies." Best for Coughs, Colds, La Grippe, Asthma, Hemorrhages, Weak Lungs, Etc. \$1.00. Trial bottle free. Guaranteed by all druggists.

MR. COHOON HAS APPENDICITIS.

Prominent Traveling Man of Eastern Carolina Stricken—The Creedy Monument.
(Special to The Times.)
Elizabeth City, Nov. 14.—Mr. A. J. Cohoon, one of the most prominent traveling salesmen that travels in eastern North Carolina went to Norfolk yesterday afternoon to enter a hospital to undergo an operation for appendicitis. Mr. Cohoon, who travels for Flora & Co., of this city, was in East Lake last week when he was stricken with an attack of appendicitis and the physician advised him to go to a hospital. Mr. Cohoon went from East Lake to Gum Neck in a boat and then rode about 20 miles to Columbia to take a train for Norfolk. Mr. T. C. Woodhouse, of Currituck county, and Miss Sarah E. Ward, of this city, were united in marriage Saturday afternoon at one o'clock at the home of the bride, No. 5 Burgess street, in the presence of a number of friends of the families. Rev. J. H. Buffalo performed the ceremony. Mr. and Mrs. Woodhouse left on

Lee Owen Brown, acquitted of bribery in the Lorimer election scandal, who has been re-elected to the state legislature from Ottawa, Ill. Brown's election while not as large as the usual Republican plurality showed decisively that he stands vindicated in the eyes of the people.

The afternoon train for an extended wedding trip.
Mrs. Woodhouse is the cultured daughter of Captain and Mrs. J. E. Ward, of this city. She is very popular in a large circle of friends.
Mr. Woodhouse is engaged in the life-saving service, and is very popular. They will reside in South Carolina.

The representatives of several marble works and sculptors have been in the city this week, consulting with the officers of the R. B. Creedy Memorial Association in regard to the selection of a design for the Creedy monument. A number of designs have been submitted to the committee, but no selection has yet been made.

The Creedy Memorial Association was effected several weeks ago under the supervision of Hon. John H. Small, for the purpose of erecting a suitable monument to honor the memory of the late Colonel Creedy. The various officers were elected and the work was taken up at once. The officers will make the selection in the near future, when the work of securing the funds will be pushed.

LEPER IN NEW YORK.

South American Legation Attache Thought to Have Leprosy.
(City Lensed Wire to The Times.)
Washington, Nov. 14.—It was learned today that the suspected leper formerly employed as a valet at a South American legation here, has been sent to New York and is now being treated at the Skin and Cancer Hospital, according to men prominently connected with the case. He was taken to the hospital by an attache of his legation. A great deal of mystery surrounds the case because of the unwillingness of physicians who attended the man to make any comments. Attaches of the legation refuse to talk, except to confirm the report that the suspect is in a hospital in New York.

A Regular Tom Boy

was Susie—climbing trees and fences, jumping ditches, whittling, always getting scratches, cuts, sprains, bruises, bumps, burns, or scalds. But laws! Her mother just applied Bucklen's Arnica Salve and cured her quick. Heals everything healable—Boils, Ulcers, Eczema, Old Sores, Corns or Piles. Try it. 25c. at all druggists.

"Everybody makes mistakes," said Uncle Eben, "but you'd got to look out for a man which some special mistake gets to be a habit."—Wilmington Star.

BARACA ENTERTAINMENT.

Baracas and Philathes of Scotland Neck Give Enjoyable Social Affair.

(Special to The Times.)
Scotland Neck, Nov. 14.—On Friday evening at the Baptist church the young men of the Baraca, Bible class, assisted by the young ladies of the Philathes class, gave a most enjoyable social, consisting of music, instrumental and vocal recitations, and an address by the Baraca teacher, Mr. Claude Jackson, the president of the class, presided over the meeting.

The exercises were opened by a beautiful selection upon the pipe organ by Mrs. James Allen Pittman, followed by a song by the choir. Miss Lydia Josey delighted the audience with a well-rendered recitation, and then Miss Sallie Spruill Baker, of Palmira, sang a most beautiful solo. Then followed three features: A duet by Miss Emily Sawyer Biggs and Owen J. Moore, a recitation (a story of Parsifal), and the address by Mr. E. E. Hilliard, teacher of the Baraca class.

Mr. Hilliard spoke but a short time, but in the few minutes of the time he occupied he said many good things, and gave the young people present suggestions, that if followed, will make them more useful and better men and women. He appealed to those present that whatever else they undertook, and whatever studies they pursued, to remember to give a part of each day to the study of the Bible, and in preparing themselves for a future and better land.

Mr. Hilliard, though advanced somewhat in years and afflicted with a partial loss of vision, has lost none of his old-time power as a public speaker, and those present were more than compensated for their attendance by the short address by this good man, and the other good things enjoyed.

The idea of this entertainment was conceived by two or three of the young men of the Baraca class, and, as the speaker said, it was a most happy conception.

Mr. Edwin B. Josey was the moving spirit in the affair, and to him is due the praise for the most happy event. Some weeks ago he suggested that the class give such an entertainment, and assisted by others, carried the suggestion to a most happy finale.

At the close of the address the president announced that as a close to the exercises he wanted everybody in the house to shake hands with everybody else, and requested that not a person leave without first giving those others present a most cordial handshake and a happy welcome. This one of the most pleasant occasions in a long time came to a close.

An Ideal Husband

is patient, even with a nagging wife, for he knows she needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters—the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only 50c. Satisfaction guaranteed by all druggists.

SEINE ON RAMPAGE.

Troops Ordered Out to Fight the Advance of the Waters.
(By Cable to The Times.)
Paris, Nov. 14.—A terrific rain storm that struck Paris and its environs early today upset all the calculations of the weather experts and caused fear of a recurrence of the flood of last January. Troops were immediately ordered out to fight the ravages of the water and within a short time 5,000 were at work under the direction of M. Faure, minister of public works. Cavities in the quays are being blocked with cement. Ten thousand more men are ready to aid in the work if needed.

The overflow of the Seine was so sudden as to take many residents in the low-lying districts of the city by surprise. At the Pont Royal the Seine today was approximately 10 feet above normal.

All of the tributaries are falling, although the Seine continued rising rapidly today.

The subways leading into the Austerlitz station are flooded and all that region near the Jardine des Plantes is under water. The basement of the Palais de Justice, the headquarters of the quarters of the police department are inundated.

The worst suffering is in the suburbs where many of the residents were taken unawares and had to flee from their homes, leaving practically everything behind.

The police have taken steps to provide temporary quarters for the refugees. Food will also be provided for the sufferers.

The danger zone broadened gradually today.

FATHER OF THE AIRSHIP.

Mr. Chanute, First Aviator, Dying at His Home in Chicago.

(By Lensed Wire to The Times.)
Chicago, Nov. 4.—"The father of the airship," Octave Chanute, is dying at his home.

"It is only a question of time," said Mr. Chanute's son, Charles Chanute, early today. "According to the physicians he may not survive the day and he may live for a week."
To Mr. Chanute is probably due more credit than any other individual for the success of the airship. Mr. Chanute, who was born in Paris in 1832, made more than 2,000 flights before the present aviators began their experiments. He came to this country in 1858.

For pains in the side of chest dampen a piece of flannel with Chamberlain's Liniment and bind it on over the seat of pain. There is nothing better. For sale by all dealers.

GOWANS King of Externals

Accepted by the Mothers of America as the one and only external preparation that positively and quickly CURES all forms of Inflammation or Congestion such as Pneumonia, Croup, Coughs, Colds, Pleurisy.
