CATARRH OF THE STOMACH. A Pleasant, Simple, But Safe and Effectual Cure For It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with

sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the month, coated tongue and if the inerior of the stomach could be seen it would show a slimy, inflamed condi-

The cure for this common and obtinate trouble is found in a treatnent which causes the food to be eadily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy ligestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will ave disappeared.

According to Dr. Harlanson, the afest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux,

Jolden Seal and fruit acids. These ablets can now be found at all drug stores under the name of Stuart's Dyspensia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals

The Rayo Lamp is constructed to give the maximum diffused white light. Every detail that increases its light-giving value has been included.

The Rayo is a low-priced lamp. You may pay \$5, \$10 or even \$20 for other lamps and get a more expensive container—but you cannot get a, better light than the Rayo gives.

This season's Rayo has a new and strength-ened burner. A strong, durable shade-holder keeps the shade on firm and true. Easy to keep polished, as it is made of solid brass, finished in nickel.
