DISTANCES.

Oh, the blue distances, Beckoning, lurking, In the blue twilight Of whisper and dream— Calling me, calling, So that I follow Into the silence, Into the dusk, Here, while the winter Falters and lingers, Corneth the promise The impulse, the vision, Drawing my footsteps Down the old roadway To the dear haunts Where the violets are waiting, All the bewitchments Of past and of future Blend in the bluesness That draws and consoles me; So that I pass In a dream from the city, Down the old roadway Into the nightfall, Forth to the mystical Hope that allures me, To the blue distances Beckoning, calling. —Paul Mall Gazette.

HER TRIP ALL IN VAIN

Ontario Lady Journeys to Richmond, in Search of Relief, But Without Success.

Ontario, Va.—I went to Richmond, says Mrs. M. L. Anderson, "and consulted a specialist; I tried almost everything in the medicine line, but nothing proved a cure until I tried Cardui. I had indigestion very bad, and a complication of diseases.

Although I had no faith in it, I bought a bottle of Cardui, but soon there was such a change. I was certainly benefited. I felt so different. Then, I began to take the medicine in earnest. Now I can do my work, and I eat and sleep like a young person. Cardui also cured my daughter of womanly troubles. I keep Cardui in the house all the time. It is a great blessing to all women who need it.

If you suffer from any form of womanly weakness, try Cardui, the woman's tonic. Cardui helps nature to perform a cure, in a natural, easy way.

It is made from mild herbs, having a gentle tonic effect on the womanly constitution.

It improves the appetite, tones up the weak, nervous system, and helps to make pale cheeks look fresh and rosy.

Cardui is successful. Try it. N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 61-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Portrait of Brigham Young.

(By Leased Wire to The Times.) Washington, March 16—The navy department will not take any steps to prevent the state of Utah from presenting a silver service to the battleship, which bears the name of that state, on the ground that the service bears a portrait of Brigham Young. This statement was officially made by the department today, which draws attention to the fact that the same question arose some time ago when the state of Mississippi bestowed a silver service bearing the portrait of Jefferson Davis upon the battleship Mississippi. The department holds that it cannot control the actions of a state in such matters.

The fire is entirely beyond the control of the department. The fire later was controlled. The loss is about \$1,250,000.

How to Have the Best Cough Syrup and Save \$2. by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add a pint of warm water and stir about ten minutes you have as good syrup as money could buy. If you will then put 1/2 ounces of pimento in a pint bottle, add the sugar and fill it up with the sugar syrup, you will have as much cough syrup as you could buy ready made for \$2.50. It keeps perfectly. And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just laxative enough, has a tonic effect and taste is pleasant. Take a teaspoonful every one, two or three hours.

It is a splendid remedy, too, for hoarseness, asthma, chest pains, etc. Pimento is the most valuable concentrated compound of Norway white pine extract, rich in guaiacol and all the healing pine elements. No other preparation will work in this formula. This recipe for making cough remedy with Pimento and Sugar Syrup is now used and prized in thousands of homes in the United States and Canada. The plan has often been imitated but never successfully. A guarantee of absolute satisfaction, or money promptly refunded goes with this. Your druggist has Pimento or will get it for you. The Railroads Object.

(Continued From Page One.)

of business at Pittsboro and Sanford. This new train, in his opinion, would be patronized very well and would increase the travel along the road from Sanford to Raleigh. When asked about the county roads from Merry Oaks to Pittsboro, he said they are very bad. The people would like to have the new train that they may come to Raleigh.

N. M. Bryan.

Mr. N. M. Bryan, of Pine Bluff, said he lived between Sanford and Hamlet and there is a great deal of anxiety to have the new train go on to Hamlet. They now have only one local train each way from Hamlet to Raleigh in the day. About 15 or 20 years ago there was just the same service, today the population along the road is doubled and the service certainly should be doubled. Every year about 5,000 northern visitors come to Southern Pines and other points. Now they cannot travel up and down the road, only on one local train each way. Should they want to see the country with a view of buying and locating they are given no convenience of travel. It is short-sightedness in the road officials to oppose this train. Certainly the road gets the lion's share of the money invested along the road. He traced the building of the several small towns along the road and declared that the railroad holds the key to the situation in that investors cannot get free access along the line at present. Mr. Hix asked Mr. Bryan if he knew what built Southern Pines, and he replied that he understood that the railroads built it, but he might also add that the town was built in spite of the Seaboard schedule. Mr. Bryan then explained the development of the sandy lands of Moore and Chatham counties.

Mr. Hix.

Mr. Hix, who is vice-president and general manager of the Seaboard Air Line, said it may be plausible to run this train to Sanford, but the question revolves itself to one fact, that of how bad the Sanford people want the new train. Figuring on the basis of other train earnings, this train would be at a loss. When asked how he based his figures he gave the following cost per mile: Cost of superintendent, .001736; telegraph and signal, .003765; station service, .003815; yard service, .001850; train service, .014745; engine house expense, .001497; fuel for locomotives, .015057; water for locomotives, .001155; lubricity for cars, .0003701; supplies, .004921; miscellaneous, .006605; maintenance way, .045449; maintenance equipment, .027832; general expenses, .006247; rental equipment, .047950. Grand total of cost per mile, .093444. He declared that the additional service charges

would depend upon the hours of the schedule.

The commissioners announced that they would take the matter under consideration.

Norlina to Weldon.

Before the hearing as to the Raleigh to Hamlet train there was a conference between the commissioners and Mr. Hix, for the Seaboard, at which it was agreed to extend the Raleigh-Norlina train to Weldon. This agreement takes effect April 21.

shots and a woman rushed in yelling, "My God, a man is shot." He said he ran out into the waiting room but too late to save anyone, as Powell had shot himself and at the other men, and was lying upon the floor. He said he heard none of the conversation and did not know any of the cause.

THE DEMOCRATIC COMMITTEES.

Report That Fitzgerald Will Get Ways and Means Chairmanship Denied.

(By Leased Wire to The Times.)

Washington, March 15—Representations that the position of chairman of the house committee on appropriations is as good as won by Representative Fitzgerald and that the opponents of the Tammany member have been worsted, are vigorously denied here. It is asserted that the question of who will be chairman of the committee is unsettled.

As the situation stands, the ways and means democrats have for the time being passed over the matter of shaping up the committees and are working on the tariff program. The ways and means democrats are about evenly divided on the question of giving Fitzgerald the honor he covets.

THE HOFFSTOT CASE.

Pittsburg Grafter Denied a Change of Venue.

(By Leased Wire to The Times.)

Philadelphia, Pa., March 16—Frank H. Hoffstot, millionaire president of the Pressed Steel Car Company, who is under indictment in connection with the Pittsburg graft cases, was today denied a change of venue of his trial by the supreme court.

Mr. Hoffstot set forth in his petition that he is a resident and citizen of the city of New York and president of several large industrial plants. He stated that because of his connection with labor troubles at his plants in Allegheny county and because of newspaper publications concerning the graft exposure he feared he would be unable to get a fair and impartial trial in the county of Allegheny.

The petition also made an unsuccessful attempt to have the indictments against him squashed. As a result of the supreme court's action, the defendant will now have to stand trial in Pittsburg.
