

MARKETS BY WIRE

STOCKS COTTON GRAIN PROVISIONS

New York Stock Letter. (By Leased Wire to The Times.) New York, June 10—Erie reflected the persistent buying which has been so much in evidence during the last few days. Talk continues that the rise has something to do with the acquisition of the stock by the Canadian Pacific, while others look for a resumption of dividends on the first preferred. In the last half hour, under the lead of Steel, the leaders advanced on a rumor that monthly report of the Steel Company's unfilled orders would be more favorable than expected. A feature today has been that stocks could be sold much easier than they could be bought. The market closed active and at the best prices of the day.

Closing Stock Quotation.

Chicago Grain.

Table listing grain prices in Chicago, including Wheat, Corn, Oats, and Lard.

Hubbard's Cotton Letter.

(Special to The Times.) New York, June 10—There were rumors of showers and cooler weather in some sections of the southwest before the opening which led to some re-acting by the buyers yesterday. Under the advance of high barometer and predictions of unsettled weather in the southwest the market gradually eased to the close. Although the market declined today the bullish temper of the trade continues to be the feature one hears many statements that so large a crop will be required that prices cannot decline materially. We see no change in the condition and the market will be governed by the weather.

New York Cotton Letter.

(By Leased Wire to The Times.) New York, June 10—An opening advance on overnight buying orders was followed by more or less general realizing in the cotton market this morning and a sharp decline in prices, due to prospects for a change in weather conditions southwest. Map showed no rain in the belt but pointed to lower temperatures, and the western forecast was for unsettled weather and showers in the panhandle. Moreover private wires were received later in the morning indicating showers at Anarillo, Texas, an following the advances of the earlier week, the long later-

ests evidently thought it the part of wisdom to take profits for over the week end. Should showers in the southwest prove insufficient and be followed by renewed dry hot weather, it would not take long to send the new crop months into new high ground for the season. The southwest needs rain and until they have it, likely trade more or less nervous.

Table with columns: Open, High, Low, Close. Lists cotton prices for various months from June to May.

SCOUT PARTY AT HICKORY.

Greeted by Large Crowd and Interesting Meeting Held—Rev. A. D. Wilcox Conducts Revival. (Special to The Times.) Hickory, N. C., June 10—The scout party was greeted with open arms in Hickory Thursday evening. The party was met on the road from Morganton by four automobiles carrying a large delegation of prominent citizens from this city and were escorted to the Hotel Huffry, where they spent the night. The party, including those from other towns, consisted of thirty men and they expressed themselves as highly pleased with the reception given them here. They also expressed much pleasure at the interest and enthusiasm manifested all along the route. A rousing good roads meeting was held at the Academy of Music Thursday night, which was attended by a large crowd of Hickory citizens and many from the country and surrounding towns. The meeting was called to order by Dr. W. H. Nicholson, of the Hickory chamber of commerce, and Editor H. B. Varnett was made permanent chairman with Mr. A. K. Joy acting as secretary. A number of interesting speeches were made by the visitors and by local men. One of the most beautiful good roads speeches ever heard in this city was made by Col. Fred A. Olds, of Raleigh, who compared the roads of this section with those of Switzerland. He paid a high tribute to the roads of Switzerland and regretted that they are so far behind. Dr. Joseph Hyde Pratt, state geologist, made a practical, commonsense good roads speech, in which he urged the people of Catawba county to wake up to their own interests and build good roads so as to maintain their present reputation for progressiveness.

YALE STUDENTS DISMISSED.

Applied a Coat of Paint to Buildings and Pavement. New Haven, Ct., June 10—Punishment in the form of fines imposed by the city court upon four students in the Yale Sheffield Scientific School today for defacing private property was dismissed by Dean Chittenden, director of the school. Three of them—George Phillips Orady, of Huntington, Pa.; Herbert H. Dang, of this city; and John Francis McElhinny, of Port Washington, N. Y., all freshmen—were each fined \$25 and costs on two charges, while Robert E. Pretat, of Waterville, Ct., a junior, arrested last night, was fined \$15 and costs. All paid.

KILLS MOTHER OF SEVEN.

Husband Then Seeks Constable and Surrenders. Hammon, N. J., June 10—Following a quarrel Fidelio Perone, 50 years old, shot and killed his wife at their home here today and then walked blocks to the home of a constable and said: "Come up to my house; I have shot my wife." When the constable, accompanied by Perone, reached the dwelling, he found the woman dead and around the body the seven children of the pair were weeping and praying. The children range in age from two to 15 years. The police say that Perone was jealous of his wife and the he declared "she was better off dead than alive."

SIMMONS TALKS AGAIN.

Denies Another Rumor—Will Not Vote For Reciprocity Bill. (Special to The Times.) Washington, D. C., June 10—Senator Simmons has denied another rumor. He will not vote for the Underwood Canadian reciprocity bill unless it carries with it the farmers' free list bill. A New York dispatch said that he would vote for the bill. The Asheville Citizen asked me to run the story down. I called on Mr. Simmons and he gave me the following statement: "The New York dispatch is wrong. What I have said and what I still say is that I would vote for the reciprocity agreement if the farmers' free list bill is added to it as an amendment.

SOUTHERN RAILWAY.

Very Low Round Trip Rates to Kansas City, Mo., and Return, Account World's Baraca-Philistia Convention, June 10-15, 1911. For the above occasion the Southern Railway announces the sale of very low round-trip tickets as follows: From— Raleigh \$49.70 Goldsboro 51.80 Durham 49.46 Burlington 48.10 Oxford 49.45 Tickets on sale June 8th and 9th, 1911, with final return limit to reach original starting point not later than midnight of June 18th, 1911. Tickets will also be on sale from all other stations on same basis as rates quoted above. For Pullman reservations and any information that may be desired with reference to rates, etc., call on your nearest agent or address J. O. Jones, Traveling Passenger Agent, Raleigh, N. C.

"Notwithstanding the stammerous statements to the contrary I am against reciprocity because of its manifest injustice and wrong to the farmer. If that wrong is measurably remedied by putting the things he buys, as well as the things he sells, upon the free list as provided for in the free list bill which has passed the house, I will vote for it. Otherwise I cannot. This is what I have said all the time."

There is nothing uncertain about that. Mr. Simmons is not going to support the bill unless it is amended. It actually looks as if the reciprocity bill might be defeated in the senate.

Col. Paul Jones, of Tarboro, is in the city. He is interested in Representative Pepper's national guard bill, which provides for extra compensation for commissioned officers. Roswell Flack, who has been studying medicine at John Hopkins, is here on his way to Rutherford, his native home. He was a guest of Herbert O. Sisk yesterday. Mr. and Mrs. G. M. Gullik, of Belmont, are in the city. Mr. Cameron Morrison, of Charlotte, is in the city. Representative Daughton, of the eighth district, will take Mrs. Dr. Horton, of Wilkesboro, to the white house to see the president today.

CARRIES BIG INSURANCE.

Owner of Record-breaking Policies Adds Half Million to His Holdings. Philadelphia, June 10—Although he already possessed the unique distinction of being the most heavily-insured person in the world, Rodman Wanamaker, son of John Wanamaker, and vice president of the Wanamaker establishment, has added another half million dollars to his list of life policies. When death removes the merchant there will accrue to his family from life insurance alone, the sum of \$4,500,000.

NEW FOUNDATION BILL.

Authority of Congress Over Incorporation Increased and Other Restrictions Placed. Washington, D. C., June 10—The effort will be renewed at this session of congress to incorporate the Rockefeller Foundation. A bill for that purpose was introduced this afternoon by Senator Gallinger. It is modified to meet any of the objections raised against the former measure. The race between Andrew Carnegie and John D. Rockefeller each to have his name perpetuated through congressional action will be resumed. It was an even fight in the last congress, with neither winning. Senator Root long ago offered the bill establishing the Carnegie Endowment for International Peace. The object of the Rockefeller Foundation is "to promote the well-being and to advance the civilization of the people of the United States and of foreign lands in the acquisition and dissemination of knowledge in the prevention and relief of suffering and in the promotion of any and all of the elements of human progress."

SAYS ROCKEFELLER IS A TRUSTEE FOR THE PEOPLE.

Judge Henry C. Hammond, of the supreme court of Georgia, addressing the convention of the Interstate Cottonseed Crushers' Association in the Hotel Astor yesterday, told of the liking for John D. Rockefeller by the citizens of Augusta. "Only a few days ago," he said, "I escorted Mr. Rockefeller to a barbecue, where he appeared to enjoy himself in the most delightful way, sitting down at the improvised board with the rugged and honest farmers around him, and where he was treated with respect, but with no more consideration than they showed to each other. "And as I remarked to several there, 'here we get capital and raising interests cheek by jowl, Mr. Rockefeller sits there, the richest man in the world, and yet, like all of the wealthy men of right purpose, he is only the trustee for the people in the distribution of wealth.'"

MAY INDICT SPINNERS

Mr. Beall Wants Department of Justice to Act. Chairman of the House Committee on Expenditures Wants Government to Indict Cotton Spinners Who Were in Patten, Hogue, Brown Bill Agreement.

(Special to The Times.) Washington, D. C., June 10—Chairman Beall of the house committee on expenditures, in the department of justice, is urging the government to indict the cotton spinners who were in the Patten, Hogue and Brown bill agreement two years ago. He asked Attorney-General Wickersham why he did not indict the spinners with the bulls. He went so far as to intimate that Mr. Wise had not done his duty. He referred to resolutions passed by the Southern cotton mill meeting to curtail production and raise prices as against the Sherman law. Mr. Wise said that the meeting was not held in his jurisdiction. He added that for the full spinner agreements indictments he had plenty of time to act before the statute of limitation runs out. As a result of Mr. Beall's investigation the southern cotton mill men who took part in the Patten, Hogue, Hayne affair may be indicted. District Attorney Holtan may be asked to look into the meetings held in Charlotte from time to time.
