### WAKE COURT ENDS TODAY

Last Jury Cases Being Tried This Afternoon and Adjournment Will Be Taken Later

### CASES TRIED THIS DAY

Wash Martin Given Four Years for Larceny—Turner Smith Not Yet Able to Raise Appeal Bond in Sum of \$1,500—Was Busy Session and Short.

Wake Superior Court will come to a close this afternoon, the last jury case being set for trial this afternoon. There are several little matters to come up today, but in only a few of these will the presence of a jury be required. Practically all the jury cases have either been tried or continued.

Turner Smith, the young man charged with assault and battery on the person of Miss Lillian Whitson, has given notice of appeal and his appeal bond was fixed at \$1,500. He was sentenced yesterday to two years on the roads, with the option of paying the young woman \$750 damages and paying the costs in the case. Smith is still in jail.

The grand jury finished its work late last evening and was excused. The longest sentence passed today was on Wash Martin, who pleaded guilty to larceny. He was given four years.

The bill against Arthur Williams, charged with false pretense, was squashed.

James Faison, charged with breaking into an engine house, plead guilty and got twelve months. Judgment was suspended during good behavior in a case for carrying concealed weapon.

Charlie Johnson, plead guilty to larceny and was given six months.

Tom Goss pleaded guilty to securing goods on a forged order and received twelve months. Judge Peebles said he would have given Tom two years, but the forgery was so plain that anybody should have detected it.

### Big Summer School Attendance.

Atlanta, July 18.—The second summer session of the Brenan College conservatory will begin July 25 and the fall term September 11. Indications are that at least 600 girls will matriculate this year, making it one of the largest girls' collegiate bodies not only in Georgia but the entire south.

During the last session the total enrollment was 485, and it was the most successful year in the history of that well known institution. The faculty of more than forty instructors has been further increased by the addition of three new members.

### Soldiers to Guard Canal.

Washington, D. C., July 18.—Senator Warren, chairman of the senate finance committee, former chairman of the military affairs committee, after a talk with President Taft at the white house, said artillerymen to man the fortifications of Panama Canal zone would be sent south within a year. Warren declared that regiments of infantry and cavalry also would be sent to the isthmus.

### FEAR OF CHOLERA INVASION ALLEGED

New York, July 18.—Fear of a cholera invasion has been considerably allayed by vigorous precautionary measure. The United States and Italian governments are co-operating with the New York health authorities. Italy has detailed navy surgeons to ships bound to America from the plague infected ports to prevent the spread of infection among the passengers and aid the quarantine officers when the ships arrive here. The federal authorities have sanctioned a ten day quarantine for such vessels. No ship is scheduled to arrive from the Mediterranean for two days. The port's health officers are devoting attention to the bacteriological examination of six hundred passengers of the steamers, Moltke and Perugia, still in quarantine. The sixth victim of cholera died yesterday.

Big Damage in Luzon by Typhoid. Manila, July 18.—A million and a half dollars damage has been done by typhoon floods in Luzon. The tobacco provinces are isolated.

### HEYBURN STILL BARKING

Again Attacks Confederacy In Speech In the Senate

John Sharp Williams Leaves the Chamber While the Idaho Specimen is Speaking—Williams Wanted Bill Making Appropriation for Confederate Naval Monument Brought Up.

Washington, D. C., July 18.—Bitterness between Senator Heyburn, of Idaho, and Williams, of Mississippi, on the subject of the Confederacy broke out anew in the senate today. Heyburn objected to taking up the bill appropriating one hundred thousand dollars for a Confederate naval monument in Vicksburg military park. But Williams won its consideration by a vote of twenty-nine to nineteen.

The Vicksburg park commission and the senate military affairs committee approved the measure. Williams said it was desired to have the monument complete for the semi-centennial "Blue and Gray" re-union at Vicksburg in 1913. Senator Cummins, of Iowa, and Works, of California, argued its passage as a proper recognition of the men who exerted great bravery in the cause they believed right.

Heyburn again attacked principle of federal recognition of Confederate acts. Williams abruptly left the chamber when Heyburn began to speak. Heyburn declared it was intolerable that the deeds of Confederate armies should be recited in laws that called upon the public treasury for contributions. He characterized the history of the war between the states as a "history of murder." He attacked the newspapers of the country, declaring that many of them were disloyal and "delighted to express disloyalty."

He had been characterized as "waving the bloody flag in the senate," he said and was so misrepresented. He was receiving scores of letters from "cowards," threatening him with personal violence because of his opposition to the use of government funds to recognize Confederate services.

### ANOTHER GUNBOAT WILL BE SENT SOUTH

Washington, July 18.—At the request of American Minister Furniss, at Port-Au-Prince, the United States will send another gunboat to Haitian waters to protect American and their interests, now seriously threatened by revolution against President Simon. The second warship will go to Port-Au-Prince the capital. The gunboat Petrel is ready at Port Lignite on the north coast.

### POSTAL BANKS FOR CITIES.

New York, Chicago, Boston and St. Louis to Receive Deposits.

Washington, D. C., July 18.—Postmaster General Hitchcock yesterday designated the main postoffices in the cities of New York, Chicago, Boston, and St. Louis as postal savings depositories. They will begin to receive deposits August 1.

Having installed successfully more than 1,000 postal savings banks in second class postoffices, Mr. Hitchcock decided to extend the system to some of the first class offices immediately. The four cities were named because of their great population and commercial prominence, and because in each one is a United States subtreasury, which will facilitate the heavy banking business that is likely to result from postal savings transactions.

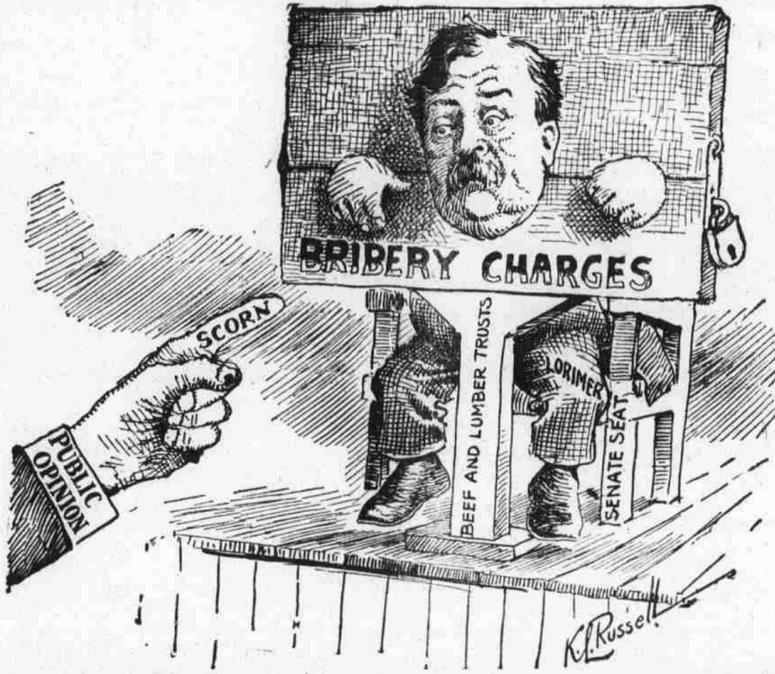

As in the smaller cities, the system probably will be particular with the foreign-born residents, many of whom send their surplus savings to their home countries. From New York alone, last year, the money orders sent abroad by foreign-born residents aggregated \$9,000,000.

The foreign-born population of New York is in excess of 1,500,000; in Chicago, 700,000; Boston, 200,000, and St. Louis, 150,000. Money orders were sent abroad last year to the amount of \$5,500,000 from Chicago, \$2,300,000 from Boston, and \$1,000,000 from St. Louis.

### France Wants Explanation.

Paris, July 18.—France has asked Spain to explain the arrest of M. Boissat, French consular agent at Alcazar, Morocco, by the Spanish patrol, report of which incident is confirmed in official advices.

### Still in the Stocks

### DR. VINES' ABLE SERMON

"Can Young Man Live Clean Life In Asheville"

Baptist Pastor Deals With Moral Situation—Optometrists in Session—Bald Sermon by Rev. W. A. Newell on Recent Court Decisions—Deals Boldly With Famous Cases.

(Special to The Times.)

Asheville, N. C., July 18.—On the subject, "Can a young man live a clean life in Asheville?" Dr. W. M. Vines, recently resigned pastor of the First Baptist church, delivered an interesting address at the Y. M. C. A. men's meeting Sunday afternoon. Dr. Vines answered the question, "A man can live a clean life in Asheville if he makes up his mind that it is worth while." Dr. Vines considered moral conditions in Asheville similar to that of other places; that equally good results could be obtained by a crusade against the "red light" houses as had been obtained by enforcement of the prohibition law. Dr. Vines declared that the "double standard" was responsible for the immoral lives of some men; that an atmosphere of impurity often prevents men from leading pure lives.

Tuesday and Wednesday Asheville will be the gathering place of the optometrists of the State in the convention, which they hold at the Battery Park Hotel. The session is to last two days and the examination of applicants for license to practice optometry will be given during the convention. Local members have arranged to give the visitors a trolley ride, Tuesday and a smoker with a banquet will be tendered there at the Battery Park Wednesday night. Immediately after this meeting the association of Opticians and Jewelers meet in annual session. This is a

### FLY CAMPAIGN IS NOW ON IN DEAD EARNEST

With \$100 in prizes for the boys and girls, the campaign against the pesky house-fly is on in earnest.

All contestants will meet in the rooms of the chamber of commerce this afternoon, when there will be talks on the methods of killing flies. Among the speakers will be Rev. Geo. W. Lay, chairman of the health league; Prof. R. L. Smith and Dr. W. S. Rankin.

### Small Craft Crosses Safely.

Providence, N. Y., July 18.—The twenty-five feet yawl, Scabbid which sailed from here June 10 has arrived at Gibraltar. T. E. Day, F. B. Thurber and T. B. Goodwin, the yachtsmen aboard, called they were all well after a pleasant trip. The small craft has sailed 3,300 miles to Gibraltar and has yet to go 900 miles to Rome.

### IN FILTHY CONDITION

Grand Jury Finds One Camp Bedding Unsanitary

After Several Recommendations They Find Camp Number One's Bedding In Filthy and Unsanitary Condition—Good Reports From Other Camps.

The grand jury found in its work yesterday and handed in its report to Judge Peebles, which taken as a whole, finds conditions in good shape. Camp Number One however comes in for some public grating as the bedding was found to be in a filthy and unsanitary condition. No reasons are known to have been given the grand jury by the public, why the conditions are such in this camp. Those who are present at the camp, to work out, some more sanitary and clean bedding and the camp a large expense. The report in full is as follows:

To His Honor, R. B. Peebles, Judge Presiding, the Grand Jury Respectfully Report:

1. That we have passed on all bills presented to us and returned them to the court.

2. We have inspected the jail and find it well kept and in good condition except we would recommend that the inside wall of the building be whitewashed. We find the prisoners properly provided for. We have visited the county officers and found them in good condition, and as far as we could see the roads were well and neatly kept. We would recommend, however, that there be an electric fan in the grand jury room, and that three more electric fans be installed in the courtroom, which would add greatly to the comfort of those rooms; and moreover the courthouse for Wake county is not now large enough for the proper and adequate conduct of the business of the county; as there is pressing need for office room, in particular and one for the auditor and as the rooms on the third floor, now used

### CONSTRUCTING LINES TO TRANSMIT CURRENT

The transmission lines which the Carolina Power and Light Company is constructing, to take the light and power current from this city to various points in this section will be various. The substitution will be at Method. From there to Henderson is 41 miles, as against 44 by the railway and 48 by the highway. The wire goes from Henderson to Oxford, ten miles. From Method to Goldsboro by way of Selma is 47 miles. Many men are employed in clearing the right of way for the towers and the wires. The power comes into the station from Lewitt Falls, ten miles, and the towers are now being erected on this line.

### Disastrous End of Cruise.

Chicago, Ill., July 18.—After a cruise up the Mississippi River and through the drainage canal to Chicago, C. Lovens and wife of Jacksonville, Fla., narrowly escaped death last night. The superstructure of their steel launch took fire Awakened by the smoke they escaped with difficulty.

### WATER IN CHARLOTTE

Situation There Said to Be Alarming

Mecklenburg's Capital Again Up Against the Same Proposition That Confronted Raleigh—An Article on Subject.

The series of special articles by Colonel Olds in The Times last week on the water situation in Raleigh drew a great deal of light on a subject which is of the highest importance, and every phase of the matter was looked into. Colonel Olds has written State Geologist Joseph Hyde Pratt, and made particular inquiry as to a practicability of getting water here in deep bored wells, no matter what the depth, the question being whether a gang of steel wells could not be driven which will afford Raleigh a very best type of drinking water, which would not need filtration or sterilization, both of which are now necessary. The idea advanced by Colonel Olds that that very fine sand should be assumed to study the water situation here is received with good favor. Charlotte is having a hard time with its present water supply, which is taken from a small creek.

The following article from the Charlotte Observer of Monday, tells the story of the situation there in a very graphic way and will bring to the minds of Raleigh people the conditions which existed here only a few days ago, conditions which may arise again in any dry season.

The crisis in the waterworks situation appears to have been reached. Early Sunday morning, the water was about forty inches below the dam at the reservoir. At one o'clock it was forty-one and one-half inches and late in the afternoon it had reached the alarming distance of forty-two and three-quarter inches—a fall of over four inches in the course of six hours. The sower, that fell on the watershed Saturday evening augmented the flow of the stream and so long as it lasted, kept the reservoir up. This increased flow gave

### FAVORABLE WEATHER FOR THE PAST WEEK

Washington, D. C., July 18.—Weather generally favorable to the growing crops prevailed during the week just ended, according to the weather bureau's national weather bulletin.

There was decided moderation of temperature east of the Rockies and a corresponding rise in the West, with beneficial rains in the south and east. In the great corn-growing states east of the Mississippi the weather is mostly favorable. In the cotton growing states a like condition also prevailed. Beneficial showers occurred over much of Texas, and Oklahoma, greatly relieving the severe drought conditions. The drought over North Carolina and portions of Georgia and Tennessee also was relieved.

### CHILDREN HELD FOR CRIME.

Several Boys and Girls Charged With Drowning Wealthy Ranchman.

Grand Jurors, Colorado, July 18.—Charles Thompson, seventeen, William Osborne, fourteen, Ray Baker, thirteen, Virgil Wilson, seven, were charged by the coroner's jury yesterday for the alleged felonious drowning of Frank L. Winkler, a wealthy business ranchman in a creek near Clinton, Wednesday.

The evidence showed the girls and boys fishing in a stream near Winkler's ranch. On the morning of his death Winkler possessed twenty-five hundred dollars in a horse deal. Two of the girls visited him at the ranch. The money was disappeared. Winkler's body was discovered on the river bank.

### MORE TIME TO MEET JAPAN.

Australia Sees Chance for Preparation in Renewal of Treaty.

Melbourne, Australia, July 18.—The acting premier, William Morris Hughes, said, in an interview today, that Australians might congratulate themselves upon the renewal of the Anglo-Japanese treaty.

This would give Australia 10 years instead of four to prepare for the defense of the country against imminent danger.

When a man can support his family it is a sign he is no genius.

### DR. WILEY HAS FILED ANSWER

Document In the Hands of the President. For His Consideration

Contents Not Known

Dr. Harvey W. Wiley Handed His Reply to the Charges of the Personnel Board to Secretary Wilson This Morning—Secretary Wilson Turned the Paper Over to the President at the Cabinet Meeting—Attorney General Wickersham Out of Town and It is Not Known When the Reply Will Be Made Public.

Washington, D. C., July 18.—While Dr. Harvey W. Wiley's answer to the charges against him were discussed informally by President Taft and Secretary of Agriculture Wilson and later by the cabinet, no decision was reached as to the disposition of the case. Wilson took the papers back with him to his department after the cabinet session, promising to make his recommendation as soon as possible.

The following article from the Washington Post of Monday, tells the story of the situation there in a very graphic way and will bring to the minds of Raleigh people the conditions which existed here only a few days ago, conditions which may arise again in any dry season.

The crisis in the waterworks situation appears to have been reached. Early Sunday morning, the water was about forty inches below the dam at the reservoir. At one o'clock it was forty-one and one-half inches and late in the afternoon it had reached the alarming distance of forty-two and three-quarter inches—a fall of over four inches in the course of six hours. The sower, that fell on the watershed Saturday evening augmented the flow of the stream and so long as it lasted, kept the reservoir up. This increased flow gave

No announcement as to when the president will dispose of the case is forthcoming. It is probable he will not be able to dispose of it for several days.

Wickersham speaks tomorrow at Duluth, Minn., and while undoubtedly Taft has gone over the case with him, before he left the city, it is believed the president would wish Wickersham to read Wiley's answer. Wickersham returns before Friday. The president goes Friday afternoon to Monaca, Virginia, to attend the blue and gray reunion. Saturday he leaves for Beverly to spend the week-end with Mrs. Taft. Unless he can settle the case Friday morning or later Friday night, it is possible it will go over until next Tuesday when he expects to return to Washington from Beverly.

### PRESIDENT GOING TO BEVERLY.

Will Leave Saturday for Summer White House For Short Stay.

Washington, D. C., July 18.—The president becomes a commuter Saturday. With congress proceeding so he knows what to expect, the president's thoughts turn to Beverly and the Mount Airy hills. He leaves Saturday night for the week-end with Mrs. Taft and children at Paramatta, the new presidential cottage. The president will travel as usual on the Federal Express. Secretary Hilges and Major Hart probably will accompany the president.

### THIEVES CARRY OFF GOODS E. T. SMITH

A thief or thieves last night broke into the store of E. T. Smith, corner of Blount and Smithfield streets, and before they left the place, carried off goods to the value of several dollars. Mr. Smith not being able to give his exact loss today. Besides robbing the cold drink box, carrying off a kit of butter and a lot of beefsteak. The store-breakers prized open the cash drawer, removed its contents and, to complete their devilment, ruined some yeast that Mr. Smith had for sale. There was no clue today as to the rascals.

### Noted Rabbi Dead.

London, July 18.—Dr. Herman Adler, chief Rabbi of the United Hebrew congregations of the British empire, died today. He was ordained in 1862 and became chief rabbi in 1891.
