**Watermelon for Taft.**

Webster City, Ia., Sept. 27.—The biggest and ripest watermelon ever seen in this section, will be cut for President Taft when he stops off here tomorrow for the annual observance of Watermelon Day. The President's stay necessarily will be a very brief one, but Webster City expects his visit to be one of the most memorable events in the history of the town. The watermelon feast will be held in the city park, and it is expected the President will deliver a short address.

**Dry Farmers in Convention.**

Albino, Texas, Sept. 27.—The second annual meeting of the Central West Texas Dry Farming Congress opened here today with several hundred men interested in raising grain and vegetables with little rainfall present. The session will last two days, during which time a number of agricultural experts and practical farmers will explain to the convention what dry farming methods can accomplish under seemingly adverse conditions.

**WORKING FOR BIG FAIR.**

Officers and Directors of Catawba Fair Association at Work—Marshall Cline Up for Violating Prohibition Law.

(Special to the Times.)

Hickory, Sept. 27.—The officers and directors of the Catawba Fair Association, held a meeting last evening to outline the work of preparation for what bids fair to be the best street fair Hickory has ever had. The money subscribed has been so liberally used in premiums that it was necessary for each department to go over their estimated expenses and cut down wherever possible, counting on voluntary work to make up the deficiency. All of the departments were represented and each and all determined to work with the greatest enthusiasm for this event. One of the chief difficulties was securing the necessary building for the display. However, this difficulty was finally met, to a great extent, and no doubt, the necessary rooms will all be secured this week. Plans were laid subject to amendment for placing all displays.

A new feature of the fair this year will be an auction sale of live stock and poultry raised on the farms of Catawba. This stock will be thoroughbred, and will go far to showing to the outside world just what Catawba county is doing. It is estimated that the money value of this stock will exceed \$2,000.00, and no doubt many farmers of surrounding counties will attend the fair to take advantage of this feature alone.

It has only been a short time since the farmers of this county were sending away for their thoroughbred stock, but that day is past and they are raising their own stock on their farms.

Marshall Cline was up before the recorder in this city a few days ago for violation of the prohibition laws, and was fined \$100.00 and the costs of the action. Recorder Russell has set his foot down on blind tigers and is determined to blot it out.

Revenue Officers T. F. Rowland, D. A. Kanipe with possemen H. W. Jones and A. B. Winkler, returned to this city this afternoon with Noah Brittan, whom they had arrested in Burke county for blockading. The officers made a raid in the South Mountain section of Burke last evening and destroyed a still, twenty-three fermentors and five thousand gallons of beer. Three men were seen to run away from the still, and Brittan was recognized. He succeeded in evading the officers yesterday afternoon, but was arrested today and brought before United States Commissioner L. D. Whitener, who held him on a bond of \$200.00 for his appearance at federal court.

**SCHOOL OPENING POSTPONED.**

School at Scotland Neck Not Quite Ready for Occupancy—Town Commissioners Having Wells Bored.

(Special to The Times.)

Scotland Neck, Sept. 27.—Prof. J. B. Aiken, superintendent of the public schools, announces that owing to the fact that the walls of the new school building not being thoroughly dry and the incompleteness of the house, it has been deemed wise to postpone the opening of school another week, and the term will begin on Monday, October 9th, instead of next Monday, as had been previously announced. It was considered unwise because of the fact that there would be more or less danger for the children contracting colds, because of the dampness of the walls. Prof. Aiken states that the rooms to be occupied by the different grades will be completed several days before the opening, and the danger arising from the dampness will be eliminated.

The music department under the superintendency of Mrs. W. R. Bond, has already been opened, and we learn with a splendid beginning. Miss Alberta Aiken will assist Mrs. Bond in this department.

Since the town commissioners have had the two deep wells bored here, there seems to be a growing sentiment among the people for more wells of this class. We frequently hear it said that the town ought to have at least a half-dozen more wells placed at convenient points in different sections of the town. We also hear it suggested that those in authority should have the old deep well in front of the Scotland Neck bank dynamited in the hope of securing more palatable water. This well was bored several years ago, and is several hundred feet deep, being about three hundred feet in a rock. The water, while it is said is splendid, is too salty to be palatable, and it is said by the use of dynamite there is a very great possibility of obtaining equally as good water and much more palatable.

**To Adjust Baptist Differences.**

Old Point Comfort, Va., Sept. 27.—To adjust certain differences that have arisen between the two great divisions of the Baptist church in America, a joint conference was begun here today by representatives of the Northern Baptist Convention and representatives of the Southern Baptist Convention. Difficulties growing out of recent New Mexico organizations form the principal matter in dispute. Some New Mexico congregations withdrew from the Northern

**POSTAL SAVINGS BANK**

**Greensboro Post Office Begins Operations Tomorrow**

Business of Receiving Deposits at Postoffice in Force Tomorrow—Chamber of Commerce Trade Excursion Left Today for Two Days' Trip—Grocery Store Robbed.

Greensboro, Sept. 27.—The Greensboro postoffice will open a postal savings bank tomorrow morning and begin the business of receiving deposits as a part of the general system of postal savings banks in the United States. Mr. Chester, who is connected with the postal savings banks system, is here to assist the local authorities in preparing for the opening.

The chamber of commerce trade excursion left this morning for its two-days itinerary. The train went first to Rameur, making all intermediate stops, then returned to Climax and went toward Sanford. Stops of from five to thirty minutes are being made at all towns along the route. Dinner will be taken in Sanford. When the train arrives at Pinehurst this afternoon the party will be carried in automobiles to Jackson Springs, where the night will be spent and tomorrow the train will go to Asheboro and High Point, thence to Lexington, for dinner, and in the afternoon the train will go over the Southbound railroad to Winston-Salem and return over the Southern by way of Rural Hall. About 70 business houses and merchants were represented on the excursion.

The grocery store of John E. Sockwell on West Market street was broken into Monday night and robbed of \$150 in cash. A number of checks were not bothered. Entrance was gained by means of a window and the safe was not locked but slightly fastened was pried open with a crow bar. There is no clue as to the guilty parties. This is only one of a number of recent store robberies in the city.

Mr. Bird S. Coler, of New York, president of the North Carolina Public Service Company, is in the city for a few days looking over the company's properties. He will also visit Charlotte and High Point and will probably be in the state for two or three weeks. He said, when approached, that the company had no announcement at present to make concerning future improvements but that there would probably be something of the kind early in the year.

**Taft Lays Corner Stone.**

Topeka, Kan., Sept. 27.—When President Taft arrived this morning in Topeka, the first important stop on his day's schedule, he found the city profusely dressed in patriotic attire and an enormous crowd on hand to do him honor. A party of distinguished representatives of the State of Kansas accompanied the President from Hutchinson, while another party of State and city officials and leading citizens of Topeka was in waiting at the station to greet him when he stepped from his special train.

After the welcome formalities had been concluded, the President was taken in charge by the reception committee, and escorted by a parade through the gayly decorated streets of the downtown district. At the conclusion of the parade the President delivered a brief address at the laying of the corner stone for the State Soldiers' Memorial Hall to be erected in this city. At the conclusion of the program the presidential train left for Atchison and Leavenworth.

**Another Pure Food Crusade.**

New York, Sept. 27.—Another pure food crusade, to be conducted on broader plans than any of the similar movements of the past, is soon to be launched by the National Civic Federation. At a meeting held today at the New York board of trade and transportation the new pure food and drug department of the federation was formally organized and preliminary plans discussed for the proposed campaign against alleged food and drug adulterators, misbranders and short weighters. Seth Low, president of the Federation, presided at the meeting.

**Cotton Manufacturers Meet.**

Manchester, Vt., Sept. 27.—Opening this evening with an address of welcome by Governor Mead and the presidential address by Franklin W. Hobbs, of Boston, the ninety-first semi-annual meeting of the National Association of Cotton Manufacturers will continue its sessions over tomorrow and Friday.
