It's Here!

The Wonderful New Self-starting Chalmers "Thirty-six"--\$1800

UR "Thirty-six" demonstrating car arrived this afternoon. You can see the car you have heard so much about the past few weeks-the car that has set a new standard of automobile value.

The car with big, long stroke motor, Chalmers self-starter, four forward speed transmission, Continental demountable rims, 36-inch tires, and a dozen other features, for \$1800. We invite you to come and see the new car.

The Chalmers "Thirty-six" is a car at a medium price which leaves nothing to be desired. The splendid long stroke motor will develop all the power you can use. This 4 1/4 x5 1/4 motor is a great puller; a wonderful hill-climber; and gives you all the speed you want.

the four forward speed transmission-until now found only on the highest priced makes-gives a flexloility of control hitherto unknown on medium priced cars.

The new Chalmers compressed air self-starter and the Continental demountable rims do away with the last of the original inconveniences of automobiling.

No car since the Chaimers "30" first appeared has made such an impression on the automobile trade and on the public as the new "Thirty-six." Everyone who has seen it-dealers, purchasers, and even competitors-all admit that it is a wonderful value at the price.

We again invite you to come in and see this new model.

Sold Defendant Canned Goods, I. Spire, who conducts a store on the corner of Swain and Davie streets, said he was doing husiness August 12. He knew defendant Norris, who came in Norris left at 9:50. about robbers, but told Mrs. Gill. that she thought Norris killed Bissett. Norris did not say anything about having a pistol for a negro. The state rested at 10 o'clock,

The Defendant Testilies. L. J. Norris, the defendant, related Saturday evening his movements on the night of the murder After getting out of the carriage at the corner of Swain and Davie streets, Norris said he went into store on the corner, got a cold drink and some brunswick stew talked to Officer McGee about a pistol and spoke to Juanita Mitchell. He then came back to town in a buggy with a strange man and went to Hubert Edwards' place, where he saw several people whom he named. His movements after leaving this place were as related by other witnesses. Norris said he had never shot a pistol in his life. He admitted threatening in a joking way Haywood Penny with a pistol.
