The tedious process of selecting jurors proceeded. Aside from the veniremen already waiting, there are fifteen hundred remaining from January's drafting. BULLETIN ON THE SCHOOLS

Prof. Brogden Reviews Publication of Wide Interest to People in State

SCHOOL CONSOLIDATION

Practical and Helpful Suggestions Digest by Educator for People of State—Comparative Cost of One-Teacher Schools and Consolidated Schools and Transportation—What the Bulletin Contains May Inspire Rural Communities To Follow Examples Set by Other Communities.

Mr. J. C. Brogden, of the department of education, has prepared the following review of a bulletin on the "Consolidation of Schools and Public Transportation of Pupils." This bulletin is written with the hope that it may afford practical and helpful suggestions to school committees, county boards of education and county superintendents who are progressively endeavoring to increase the efficiency of their rural schools, and to enable them more effectively to meet the urgent needs and demands of country life. The purpose of this investigation has been (1) to find, through indisputable facts, the most and efficient of the representative one-teacher rural school in North Carolina; (2) to find the comparative cost and efficiency of the representative one-teacher rural school, and the cost and efficiency of the elementary instruction in the representative city schools of the state; (3) to find the extent and the results of the best American experience in the consolidation of the one and two-teacher rural schools and the public transportation of pupils; (4) to find the comparative cost of efficiency of the representative typical consolidated school in the United States; (5) to form an intelligent and accurate notion as to the possibilities of the representative one-teacher school to meet the educational demands of country life, and to reach a valid conclusion as to whether its possibilities and limitations are such that its continued establishment as the prevailing type of rural school can be justified by efficiency or economy, or whether efficiency or economy demand its displacement by the typical consolidated school as the prevailing type of school most essential for country life.

WAR MEANS NEW TURKEY

Missionary Looks for Good to Come From Dispute Over Tripoli. Newcastle, N. H., Oct. 24.—"Italy's dispute with Turkey over Tripoli," says Miss Laura Farnham, who has recently returned to her home here, after spending nearly 40 years as a missionary. "My reason for this belief," continued Miss Farnham, "is because Turkey was just beginning to awaken to the fact that it had got to modernize its ideas and the recent strife will bring this fact home more plainly than ever. They will begin to realize as never before that they must adopt modern ideas if they would treat with other world powers, and I believe this will mean the beginning of a new Turkey."

LAST FOUR DAYS

Twelve Hundred to Two Thousand Teachers Are Expected to Attend Assembly

CHAMP CLARK WILL DELIVER ADDRESS

North Carolina Teachers' Assembly Will Meet Here November 29th, For Four Days' Session—Meeting Here Makes Departure in Time of Meeting and Giving Teachers Leave to Come With Pay—Champ Clark Will Speak at the Auditorium on the Evening of the 29th and President Purse of the National Educational Association Will Also Speak.

On the 29th of November the North Carolina Teachers' Assembly will meet in annual session here and the meeting will mark a new departure, for the teachers will come here under official auspices. The meeting will last through four days and it means a great deal for Raleigh. State Superintendent Joyner, has asked the school boards of every county to give to teachers who come leave with pay, so that there will be no salary deduction. This is proper, as the meeting will be in the highest sense educational and instructive. South Carolina has adopted this system and changed its meeting-time for its teachers assembly from the summer. There the new plan is found to work admirably and more than three times as many teachers attended the meeting at Columbia as were present at the ordinary summer sessions. This makes it certain, the officials have said, that there will not be less than twelve hundred at the meeting here from November 29th to December 2nd (both dates inclusive), and there may be two thousand. Application has been made for the use of the auditorium for the night nurse-meeting and for one morning meeting. The various sections, including county superintendents, city and town superintendents, grammar schools, teachers, etc., will meet in the capital, college auditorium, etc., at other times. Hon. Champ Clark, member of the national house of representatives has accepted an invitation to deliver an address on the evening of the 29th, and President Purse, the head of the great National Educational Association, will be present and speak at one of the mass meetings. As will readily be seen, the occasion is a most important one in the history of the teachers assembly and also for Raleigh. Heretofore sessions have been held in the summer time, at the sea coast or in the mountains and last year six hundred teachers were present at Asheville. The meeting this year will be on a much larger scale.

MANY VACANCIES PROBLEM FOR TAFT

Glencoe, Minn., Oct. 24.—When President Taft returns to Washington next month, one of the biggest problems facing him will be filling the judicial vacancies created since Congress' adjournment in August. The president probably will devote much attention to the appointments. There is practically no chance now that the president will select the successor of the late Justice Harlan until he reaches Washington. It was stated the president has given no consideration to Harlan's successor. He has received many suggestions about filling the vacancy and many names, including Attorney General Wickersham, Solicitor General Loomis and others have been mentioned. Glencoe is the first stop on the presidential schedule today. Between Glencoe and Minneapolis where the president spends the night, he will make several stops.
