DESIRE.
I want to be strong with the strength of men

Who are strong in the sense of right;
I want to lift song with the songs of men

Who sing of the truth, of the light,
I want to be rich with the wealth of men

Who are poor in each sense but this—
That they love their wives and they guard their homes

And they lean to a little one's kiss.

The slightest blade of grass proves God;
The human eye, the soul—
Bentzowa Bard.

Assisting the class will be Miss Louise Paulsen, Miss Ethel Fielding and Mr. J. P. Bradley.

HOBBLE SKIRTS WIN.

Connecticut Trolley Cars Will Be Equipped With Lower Steps.

Two steps, a double running board on open road cars, or some similar satisfactory solution of the high curb step problem, practically was promised by General Manager Punderford, of the Connecticut Company, which operates all the trolley cars in the state. This was the result of a lively hearing before the new public utilities commission.

It was a victory for the women who attended, headed by Mrs. John T. Stealing and a big delegation from Bridgeport, who were supported by expert testimony of noted physicians.

Dr. Ansel G. Cook, of Hartford, head of the American Orthopedic Society, said his patients always did better when they walked than when they put a tremendous strain on the ligaments of the knee by getting on a car. He had no approval for hobble skirts or high-heeled shoes.

The women, however, showed that they must wear what was in vogue.

Letters from women were read, complaining of the annoyance of having to lift tight skirts high to the knees and also of the hazard involved. Manager Punderford said that his company was anxious to co-operate

with the women and to solve the problem. He said the New Haven road would next season use new chilled steel wheels to save only one-half inch, and that cars would settle on springs after they had been loaded heavily a few times.

The women proved that the steps are now about nineteen to twenty-one inches high, and they demand steps not any higher than ordinary stair-steps.

The trolley managers regard the two-step car as hazardous to people getting off, but will take action at once.—Hartford Dispatch to New York American.

TO MUSTER OUT THE MULE.

Capt. Williams Says This Animal Is To Leave the Army.

Frederick, Md., Oct. 28.—Capt. A. E. Williams, of the Quartermaster's Department, of the United States Army in charge of experiments with automobile trucks, accompanying a battalion of Army engineers which camped near Frederick last night, is of the opinion that the mule truck will eventually drive the mule out of the army.

On the present experimental trip, Captain Williams has two large trucks. He said that the experiments to be made with trucks for Army service would probably last a year or longer, and trucks of different makes would be tested to find the best suited to the Army requirements.

"While Captain Williams believes the auto truck will solve the Army transport problems, it is a general test yesterday afternoon in which one of the trucks was put against a mule of mules, the mule going out ahead. The test was across a stretch of ground made up of recent rains, and the auto had hardly started when it stuck fast in the mud, while the mule plodded ahead with their loads, and the Army engineers beared at the discomfited driver of the auto.

SEARCH FOR TETANUS GERM.

Maryland State Health Department To Have Vaccine Virus Analyzed.
Baltimore, Md., Oct. 28.—To discover whether the maulous outbreak of tetanus in this city and the county is due to the same virus, Dr. Marshall Price of the State Department of Health has obtained some unused virus from one of the physicians who vaccinated the children who have taken the dead horse, and has having it tested in his laboratory.

"Such an outbreak is unusual to say the least," said Dr. Price today. "And while we don't know that it was caused by the vaccine, nevertheless to find so many cases so soon after the children were vaccinated with virus obtained from the same place makes us suspicious. I have given orders that the culture be examined, and will probably know within a week whether it contained the tetanus germ."

Dr. Price says the presence of the tetanus germ in the virus from which the serum is made is not unusual, but that it is usually entirely removed before the serum is supplied to physicians.

ARRESTED ON GIRLS' CHARGES.

Waitresses Claim They Were Lured From Home by Two Italians.

Clarksburg, W. Va., Oct. 28.—Declarating that they had been lured to West Virginia with promises of obtaining employment as waitresses at higher wages, only to be locked up and at the point of revolvers held prisoners, Anna Wilson and Sarah Schuhsch, pretty young girls of Canton, Ohio, today caused the arrest and imprisonment of James Elmlich and Omer Dominkick, Italians, of Meadowbrook.

Before United States Commissioner Moore, the prisoners are accused of violating the national white slavery act and they are to be examined by him tomorrow. W. P. Camp, a justice of the peace, this afternoon fined the men \$200 each and sentenced them to serve six months each in jail for carrying concealed weapons.

REPORT OF HAZING.

Board of Inquiry Completes Its Work at Annapolis.

Annapolis, Md., Oct. 28.—The board of investigation appointed to inquire into the hazing of one or more midshipmen in the presence of two young women last Sunday has completed its work and is preparing its report to the superintendent. It is understood unofficially, but from a reliable source, that the board has secured the facts in the case beyond question, including the names of the guilty midshipmen and of the young women who were the spectators.

The information of the board is that it was clearly a case of hazing, though not particularly severe in itself. The fact that it was committed in the presence of the young women, however, is conceded to make the case a very grave one.

COUGHED UP A BULLET.

Richmond, Va., Oct. 28.—During a violent coughing spell yesterday Jacob S. Hechler coughed up a bullet with which he was shot three years ago.
The man who fired the shot, Royal P. Ellison, is now serving a 4-year sentence on the public road for malicious shooting.

(Special to The Times.)

Greensboro, Oct. 28.—A committee representing the Association of Weekly and Semi-Weekly Newspapers of North Carolina met here yesterday afternoon and adopted rates for foreign advertising. Heretofore the rates of various papers of the State have not been uniform and has led to much difficulty. It is believed that the uniform schedule adopted will put an end to this trouble. Another meeting of the committee will be held here next month. The committee is composed of W. I. Underwood, of the Greensboro Patriot, chairman; Lester Butler, of the Raleigh Citizen; E. J. Oliver, of the Raleigh News and Observer; Sanford Express, and H. B. Doherty, of the Shelby Highlander.

Tomorrow afternoon at 2 o'clock the Lutherans will celebrate at Lutheran Immanuel college, here the centennial of the birth of Dr. C. F. W. Walther, pastor of the Lutheran church in the United States. Rev. Frederick Herz, president of the college, and himself a pupil of Dr. Walther, will make the address. An interesting program has been arranged for the occasion.

The Greensboro Ladies' Club was at home last night to several hundred invited guests, some of whom came from other towns for the event. Invitations had been issued to more than 400 people in addition to the families of the large membership of Elks here, and a large portion of the guests responded. The attractively decorated rooms were thronged with visitors from early in the evening until the midnight hour. Punch was served on both floors and an orchestra was stationed in the reception hall and another in the dance hall. The program was a well appointed one and dancing was participated in by a large number. Refreshments were served by the club.

In Guilford Superior Court yesterday afternoon Mrs. Mary Ridge-way Bradshaw was granted an absolute divorce from the bonds of matrimony existing between her and Jacob A. Ridge-way, better known as "Jake" Ridge-way, for several seasons a baseball pitcher in the Carolina Association. Miss Bradshaw, who is the attractive daughter of Attorney and Mrs. G. S. Bradshaw, married Ridge-way when he was on the Greensboro team, and while she was still in her teens. They lived together three or four weeks, after which he left the city. Last summer he was on the Greensville team of this league. This was the eighth divorce to be granted by Superior Court here this week.

In the district court of the United States yesterday afternoon, Judge Boyd signed an order adjudging Chalmers V. Parr, of Charlotte, bankrupt upon his own petition. The bankrupt is a dealer in terra cotta piping and plumbers' specialties. His liabilities are listed at \$3,500, and his assets at \$1,500. He makes no application for exemptions other than his wearing apparel. Maxwell and Keenan, of Charlotte, are attorneys for the petitioner.

Charles Sans and Elias Smith, two boys under the care of the North Carolina Children's Home Society, grew tired of the lack of excitement at their quarters on Cherry street and last night tried to escape from the home. They carried blankets with them and spent the night in the woods. This morning they were hungry and went to the home of Mr. J. T. Wade, where they asked and were given a good breakfast. Mr. Wade detained them until officers came and took them in charge. They were returned to the care of Mrs. Delancy, who has charge of the home. The boys are only 12 years of age, and are in Greensboro pending the time when they will be placed in the home of some good family in the State.

MARINE BAND WILL VISIT RALEIGH

Raleigh has had some notably good attractions this year, but negotiations are in progress looking to the appearance at the auditorium on evening next week of the world-famous United States Marine Band.

This announcement will doubly gratify every lover of good music, not only in Raleigh, but in all nearby points. Only once has this band appeared here and those who heard it wonderfully fine music have never forgotten it. It may truly be said that a visit of the band to a city thus far from Washington is the event of a life-time.

The plan is to have the concert in Raleigh's splendid auditorium, which is given such high praise by every one who has been within its walls, and the acoustics of which are so favorable that the place is a delight to performers and to listeners alike. The Marine Band is concluding a six weeks' tour of the south, which was made very largely at the request of southern senators and representatives in congress. President Taft having also greatly interested himself and having advocated this concert tour, which covers the capitals and towns and which has been a success to be remembered.

Much that passes for real wisdom is nothing but nonsense.

SWEET SLUMBER BROUGHT BACK

Mrs. White, Unable to Sleep, Tells How She Brought Back Natural Sleep.

Gastonia, N. C.—Mrs. Ellen White, of this city, says: "I suffered for several years, with womanly troubles.

I could not rest at night. I began taking Cardui, the womanly tonic, and before I had finished one bottle, I could sleep well. It just acted like a charm. Since taking Cardui, I have been in better health than for 10 years. It is the best medicine I ever used. It did me more good than the doctors.

I can certainly recommend Cardui to all suffering women, for I have been greatly benefited by its use. It will build them up. Cardui has been worth its weight in gold to me, for now I am well and hearty."

No matter how long-standing the trouble, Cardui will help. It is a tonic remedy. It is prepared for women, to bring relief from womanly ailments.

It helps sleeplessness, one of the most common symptoms of nervous breakdown. It helps build nerves and system.

Made from strictly vegetable ingredients, it has no ill-effects on any organ of the body, but acts naturally, gently, and safely. You can rely on Cardui. It will do for you what it has done for thousands of others. It will help you. Try it. N.
