STOCKS COTTON GRAIN PROVISIONS

New York Stock Letter. New York, Dec. 1.—The opening was lower and during the first two hours there was a dribbling, liquidation which has been going on for some time influenced by the approach of congress and the president's message dealing with trusts.

Northern Pacific was weak early and the liquidation in this stock was quite persistent. Among the active issues Reading was also weak. Steel on the other hand resisted pressure very well.

Chicago Grain. Chicago, Dec. 1.—Wheat cables came strong and notwithstanding northwest receipts the market has ruled strong and higher after an early period of heaviness. The buying has been led by commission houses and several large shorts reported covering. There is no special news.

Corn steady, very little pressure to sell. Buying largely by shorts in December on account of good weather not materially increasing country offerings.

Oats ruled firm all morning. Commission houses good buyers. Provisions opened heavy and remained weak and dull with offerings and few sales by brokers, thought to represent packers.

Robbers Take Safe From Store and Batter Door Down—Located in Alley. (Special to The Times.) Elizabeth City, Dec. 1.—Mr. Tom Williams, the Poindexter street merchant had a rather shocking surprise awaiting him yesterday morning, when he went down to his place of business to look around to see if everything was all right. The surprise was of such a nature that it caused him to pinch himself, rub his eyes and look again.

Wednesday afternoon at the close of business for the day Mr. Williams locked his iron safe. Yesterday morning when he went to his safe, or rather to the place where it had been, he discovered that it was gone altogether. After he recovered from his surprise, he began an investigation and soon discovered that the back door had been forced open. He began to follow the tracks and to search for his safe up an alley in the rear of the store and found it several hundred feet away with the hinges and combination battered up, done by the burglars in an attempt to get into it. The safe withstood the attacks of the burglars and its contents are safe. Mr. Williams himself cannot get into it until the door is cut out. The safe is a heavy one weighing twelve or fifteen hundred pounds, and the mystery is, how did they manage to get it out of the store.

Ultimatum Rejected.

Meanwhile large but silent crowds thronged around the precincts of the parliament house waiting for the verdict of the deputies.

St. Petersburg, Dec. 1.—In consequence of the rejection by the Persian National Council of the Russian demands, Russia has ordered her troops, now concentrated at Resht, capital of the Persian province of Ghelan, 16 miles from Enzeli on the Caspian Sea, to advance on Teheran.

Father Confers. Washington, Dec. 1.—Shuster's father conferred with the state department officials today regarding the position of his son. The officials declined to make any statement as to the nature of the conversation.

Persian Society Appeals to United States. Washington, Dec. 1.—President Taft was appealed to today by Persian's American Education Society to use the good offices of the United States to prevent war between Russia and Persia. The society also addressed letters of appeal to the senate and house and to Andrew Carnegie asking the latter's help as a friend of world peace.

Province of Hanover has some 7,000 miles of country highways bordered with fruit trees, the profit of which is appropriated toward the upkeep of the roads. These roads, which are commonplace to the native resident, are the delight of the American tourist, who often wonders why roadsides in the United States are not thus planted to fruit.

Walter Scott Knocked Down By Street Car

Was Laying Brick When Car Struck Him and Ran Over Him—J. L. Strickland Made Assistant Secretary of Y. M. C. A.—Negro Had Head Beat Up.

(Special to The Times.) Wilmington, Dec. 1.—Mr. Walter Scott, an expert bricklayer in the employment of the Southern Paving & Construction Company, which concerns holds a number of contracts for street paving here, had a narrow escape from being killed yesterday when he was knocked down by a street car at the intersection of Fifth and Princess streets. His head was badly cut and lacerated by the force of the blow. Those who witnessed the accident stated that his escape from a horrible death seemed almost miraculous. Mr. Scott was carried to his home on Surry street and it is hoped that he will be well enough to leave his residence within a day or two.

The incident occurred in the neighborhood mentioned about 8:15 a. m. Mr. Scott and a number of other men in the employ of the Construction Company had started to do some work as a preliminary to the laying of vitrified bricks on Princess from Fourth to Sixth streets. He is very deaf and evidently did not hear an approaching eastbound street car, which had left the junction at Front and Princess streets a few moments before.

The local Y. M. C. A. officers stated yesterday that Mr. J. L. Strickland, a native of North Carolina who lately has been connected with the Baltimore Association, has been made assistant secretary of the local organization. He is expected to arrive tomorrow to enter upon his new duties. He succeeds Mr. M. O. Alexander who has been made assistant pastor of the First Baptist church, and comes highly recommended for the position to which he has been elected. He will be given a cordial welcome to this city.

Joseph Pinckney, a negro man was carried to the police station yesterday morning shortly before 10 o'clock suffering with a badly battered head and he was locked up charged with the larceny of a gun. The man was arrested at the corner of Front and Harnett street by Officer J. H. Davis.

From the statement of facts as filed at police headquarters it seems that Mr. C. H. Turley, Sr., had borrowed a gun from a friend, Mr. Turley says Pinckney with the weapon and feeling sure that it was the one borrowed, he went up to inspect the gun. It is stated that Pinckney resisted the effort of Mr. Turley to examine the gun and also when the white gentleman attempted to wrest it from his grasp. Mr. Turley finally succeeded in getting the gun away from the negro. He was so incensed at the alleged attempt at theft that before he thought he had pounded the darky over the head with the weapon, the force of the blow bending the barrel. However, the negro was struck on the wrong part of the anatomy for serious harm to befall him and with the exception of a severe cut he seemed none the worse for his experience.
