New York Cotton.

New York, Jan. 29 .- The market has been comparatively quiet today and we imagine has been a disappointment to smaller operators on both sides of the market. In the first place, and in view of

the bullish atmosphere noted here Saturday, the response to much firmer cables than due was not an enthusiastic one. On the other hand, when it was seen that news was not stimulating any fresh business of consequence, and the market began to sag off. No aggressive measure developed and there was no southern selling of consequence, and after reacting to about the closing figures of Saturday the market steadied again on covering. Liverpool reported the strength there due to calling by spinners' continental buying and the absence of any important offerings. Our market opened steady at 6 to 9 points advance but soon eased off on scattered realizing. Advices from Lawrence report renewed violence among the strikers and the probability of martial law, Rains were reported in the south chiefly in the eastern belt. The market is evidently awaiting fresh developments and more than half inclined to believe that these must

come	from the new crop.

CAUSE FOR DIVORCE.

Plain 'Cassedness' and Unfaithfulness the Cause in Most Cases.

Atlanta, Ga., Jan. 29 .- The statement by Professor Peabody, of Harvard, that most divorces in this country are caused from "Americanitis," meaning nervous restlessness, does not hold good in Atlanta, as divorce court statistics quickly show. It is possible that divorces in socalled high society are more often due to social restless than to any other cause, but among everyday people, the records for Atlanta show that plain "cussedness," cruelty on the part of the husband, unfaithful-

the separations. The court docket for the past ten tenths of the women who brought suit for divorce against their husband, had beaten or whipped or or treated with other violence before they brought the suit. The divorce suit brought by a woman against a man, in which physical cruelty isn't one of the grounds, is the exception in Fulton county.

Taking the divorce proceedings brought by men against women, nine out of ten suits filed here show marital infidelity as the principal cause. Incompatibility, restlessness, nervousness and kindred ailments which Professor Peabody classified under the term of "Americanitis," play a Savannah, Ga., Jan. 29.-Turpen- small direct part in bringing about tine 46 3-4; rosin, form, type F, separations in this locality, though of course they may sometimes constitute the real cause behind the more crude manifestations first men-

TO REQUIRE PUBLICATION

Bill Introduced to Have All Endorse-

ments for Judges Published. Washington, Jan. 29.-The house tion by the president of every written or verbal endorsement of candidates for all federal judgeships, from the supreme court down, prior to the appointment of the judges, by the house late after a lively struggle. The stringent requirement, was added by Representative Cullop, of Indiana, as an amendment to the Evans bill, which would abolish the federal circuit judgeship at Chicago. made vacnt by the resignation of Judge Peter S. Crosscup and supplant it with an additional district judgeship.

Republican Leader Mann demanded a separate roll call upon the Cullop amendment, which was adopted 148 to 82. Mr. Mann then led a fight against the entire bill and lost 93 to 147. The Cullop amendment reads:

"Hereafter before the president shall appoint any district, circuit or superior court judge, he shall make public all endorsements made in behalf of any applicant."

An attempt by Mr. Mann to atdistrict pudges' salaries from \$6.00 to \$7,000 was defeated.

Chairman Clayton of the house judiciary committee, in opposing this amendment, declared federal judges had been generously dealt with in it. being given the opportunity to retire on full salary at the age of 70, if they had served for ten years.

"I believe judges should retire at that age," he said, "and I shall prepare and introduce a bill compelling hand Gospel's never effective. The all judges to retire at 70, or forfeit stons of Sceva were exposed and their rights to the retirement pension provided by law."

CHURCH FULLY EQUIPPED

Dr. McDaniel's Sunday Services at First Church

Elements of the Church's Strength -Churches That Strain at Ghats and Swallow Camels-Dancing Versus Covetousness.

On Sunday Dr. McDaniels held three services in the First Baptist church, one in the Sunday school of great interest, there being many professions and one at the usual hour in the church and one in the evening. The service in the church was of unusual interest both on account of the excellent sermon and on account of the fact that when, after the sermon the doors of the church were opened, there were twenty-nine candidates for baptism reeceived.

The subject of the sermon at the 11 o'clock service was "The New Testament Church," and the texxt was from the seventeenth verse of the nineteenth chapter of Acts.

The church at Ephesus occupied a prominent place in the Revelation by John, the Epistles of Paul, and the Acts by Luke. In the Acts of the Apostles it presents a church fully equipped and readyy for its world wide work. The elements of strength were first, John The Baptist's cry of repentance had been heard and heeded. Repentance was a staple of preaching for the Old Testtament prophets and the New Testament Apostles. It is a cardinal principle and fundamental in the Christian Ife. The stony heart must be crushed by the law nto the dust of repentance. The plough of repentance opens the furrow in which the seed ot fhe Gospel are sown.

The second element of strength was that it was a church in which faith in Christ had been expressed in the public and approved way, namely, baptism. Baptism is the only command given us to be carried out in the name of the Trinity. The only place in the Bible where the Triune God was visibly and audibly present was at the bapism of Jesus. The welve men at Ephesus were so ness on the part of the wife, are anxious to be right that they submitted to the ordinance of baptism responsible for nine out of ten of twice. Baptism is in no sense saving,

but it is a test of obedence. A third element of strength was that it was indwelt by the Holy Spirit. The six spirito bapttsms n the Acts are typical. They show that the Holy Spirit was intended for Jtws, half-heathen, converted persecutors, Gentiles and uninstructed disciples who had come to know the whole truth

The fourth element of strength was that it was a church that had the right kind of preacher. The was "The things concerning the kingdom of God." The method was bold, logical, persuasive and faithful. Do not ask your minister to preach to please you, but to declare the truth, though it condemns your own sins and those of your nearest loved ones.

The fifth element of the church's strength was that it was a separate church, The church has so little influence over the world because the world has so much influence over it. The church that can't discipline, can't live, but often we have strained at gnats and swallowed camels in church discipline. Churches have excluded the young for dancing and retained the immoral and covetous. Such is contrary to the Scriptures and a mockery of justice. I do not advocate dancing, but I would never votet to exclude a young person for dancing per se. It is with some young people like measles with a child, they will get over it. Patience and a Christian spirit on the part of the church wll hold these young people during young and impulsive years and in later years they will become the very ornaments of the Gospel. I submit that the hand of fellowship be withdrawn from stingy and covetus ones, The Bible says a hundredfold more against covetousness than dancing. It is one of the most detestable sins and it is likened to idolatry. I never want the Baptist people to sit in a corner clothing themselves in rags, wearing long faces and announcing all pleasure as of the Evil One. The best is none too good for us and the wise church disciplines but does not expel its young members.

Then it was a missionary church and they sounded forth the word of tach an amendment, increasing all life throughout Asia Minor to the Jews and to the Greeks. The selfcentered individual or church is drying up at the fountain. To give is to live, to deny is to die. Whosoever would lose he life shall find

Also it was a church that exposed and overthrew counterfeit Christianity. There has alays been a temptation to imitate a success. Witness ministerial mmcs. The second disgraced. Devils are the test of God. The theology of the study must be corrected by the conditions on New Orleans Cotton Exchange the street. Aaron's rod ate up the New York Produce Market Newark, N. It was a church in which backsliders were reached and reclaimed. The young man who tells a girl came and confessed and burned disciplue has failed.. The church Correspondence invited.

(Special to The Times.) Wake Forest, Jan. 29,-Wake Forest outclassed the five from Randolph-Macon Saturday night, defeating them with ease by the score of 26 to 13.
