

WOULD HELP MAIN ROADS

Supervisor Wiggs Anxious to Have His Forces In Raleigh Township

Mr. W. L. Wiggs, road supervisor of Wake county, will move another road force to Raleigh township within the next few days. The convict camp near Commissioner Lin's place, in House Creek township, will be moved to the fair grounds and will then be with the camp that is at work on the Avenit's ferry road. With the moving of the second camp to Raleigh township, one-half of the convict force, or 40 men, will be at work on roads in this township. It is Mr. Wiggs' idea to have the convict forces do a great deal of work on the roads leading into Raleigh this winter, but he has a lot of trouble in finding a place to locate his camps. It was through the courtesy of Col. Jos. E. Pogue that he was enabled to house his men at the fair grounds.

Mr. Wiggs says that he needs a good place or two near Raleigh and he would like for somebody interested in good roads to pick out a suitable place.

During the winter months most of the work done on the dirt roads is simply wasted. Rains and sleet do not help them any and the elements are worse on fresh dirt.

The Avenit ferry road leads from the Catholic orphanage to Stephens store, a distance of five miles, and much of it is through fields and woods. The convicts can do good work here for the next few weeks.

SYSTEM FULL OF URIC ACID --THE GREAT KIDNEY REMEDY CURED

Two years ago I was very sick, and after being treated by several of the best physicians in Clinton I did not seem to get any better. I was confined to my bed. Seeing Dr. Kilmer's Swamp Root advertised I resolved to give it a trial. After using it for three weeks I found I was gaining nicely, so I continued until I had taken a number of bottles. I am now restored to health and have continued my labors. My system was full of uric acid, but Swamp Root cured me entirely. I am sixty years old.

Yours very truly,
W. C. COOK,
Clinton, Iowa.

1202 Eighth ave.
State of Iowa—Clinton County—
On this 13th day of July A. D. 1909, W. C. Cook, to me personally known, appeared before me and in my presence subscribed and swore to the above and foregoing statement.

DALE H. SHEPARD,
Notary Public in and for Clinton County.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Charities Has Meeting

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention The Raleigh Daily Times. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

(Continued From Page One.)

The result of the work on the part of the associated charities, the superintendent, the secretary, the city authorities and the Sunshiners was that Raleigh made a splendid record for prompt and generous relief of which every citizen ought to be proud. The work goes on every day, for the winter is an unusually severe one and February is generally the worst month of the year, so that it is earnestly hoped the public will see that contributions to this great work are not lacking.

NEGRO IS KILLED IN ST. MATTHEWS

Related news has reached the city of a homicide at Mr. Jesse Duke's store in St. Matthews township Saturday night when Weston Freeman, colored, was shot and instantly killed by Willie Brown, also colored. From all that can be learned Freeman was standing in front of the store with some other darkies when Brown came up, fired into the crowd and killed Freeman. Sheriff Sears has been notified and he has dispatched deputies to the section to capture, if possible, the murderer.

The Meetings Close Tonight

(Continued From Page One.)

The person who is at the gate of the city is the country with its freedom and purity. The city is the green center of civilization. In order to save the country, we must save the city. The application of science to agriculture and the invention of manufacturing tools to make the city's increase permanent, are the two things which are the main things in the program that leads to the development of the city. The city is the center of civilization. In order to save the country, we must save the city. The application of science to agriculture and the invention of manufacturing tools to make the city's increase permanent, are the two things which are the main things in the program that leads to the development of the city.

is a difference in their experiences. No two children are alike. There are no two of anything that are alike. Some say, "if I could only have an experience like Paul's." Because Jesus appeared to Paul it is not necessary for us to see Him. I would not exchange my experience for his because mine was satisfactory and I do not know that his would be.

When God would test the strength and devotion of a woman's heart He places a new born babe in her arms and on her bosom. The child is tested by babes new born in Christ. People who do so much for the new converts to get them into the church should not take anything for granted afterward. Just as Jesus' laughter and to his own nothing to eat when she was called from the dead so do the great converts have to be nourished. They should feel that the ministrations of heaven are their best teachers. If they do not then the devil will take them away from the church.

As the whole world has been back to life through so many ways with the soul of the Christian in mind he will give his heart to his theology. My theology is that a man who can say a word of God does not need any other words. A man who has seen through life and has seen the things that do not live and do not last.

Good Bill at The Grand

The bill at the Grand this week opened with Sylvester, the talkative musician, who does a very nice music act with a comedy line of patter talk all through it. He does two tricks that are well worthy of notice, one is the talking bell trick the other the temperance town squares that are filled with wine or water at Sylvester's will.

An Up-to-Date Requirement for Every Carefully Dressed Woman

--- IS ---

A Corset for Every Occasion

NECESSITATING THE

- 1--New Flexible Corset
for wearing with afternoon, dinner and evening gowns.
- 2--Hip Confining Corset
for wearing with afternoon, dinner of movement while engaged in athletics and out-door pursuits.

NEWS FROM DUNN

Mr. Cooper, Director of Waycross Bank--Death of Mrs. Tarnage.

(Special to The Times.)

Dunn, Jan. 31.—Mr. P. S. Cooper, president of the First National Bank of Dunn, was elected a director in the First National Bank of Waycross, Ga., a few days ago. Mr. Cooper seems to belong to a family of bankers, as he has five brothers who are bank presidents. His brother, W. B. Cooper, is president of the American National Bank of Wilmington; L. J. Cooper is president of the First National Bank of Waycross, Ga.; M. H. Cooper is president of the United States Bank of Washington, N. C., and Foss, E. Cooper is president of the Bank of Southport, the Citizens' Bank of Mt. Olive and the Bank of Lenoir, N. C. And he has one other brother who is a lawyer and a preacher.

What Does Electric Light Cost?

TALK NUMBER 5

(Continued From Monday's Paper.)

Take the subject of rates.

A man who owns a factory and buys electricity to run the motors which operate his machines, pays, let us say, an average of 8 cents a kilowatt for current. This same man has electric lights in his home and pays 15 cents a kilowatt for his residence lighting. It looks unjust, doesn't it? Well, it would be unjust in any other business except the electrical business.

And here's the reason:

Electricity must be made at the very instant it is used. If you turn on a 40-watt Mazda Lamp in your home, the very instant you snap the switch, the machines at the power house must make 40 watts more electricity. Now, suppose you have 25 lamps in your home—that amounts to 1,000 watts, if they are all 40-watt Mazdas—the electric light company must have the machinery always ready to handle this load at any instant, day or night. They must make the investment in machinery and keep it always ready; they must have the necessary switchboard capacity, lines, transformers—all the thousand and one details of generating and distributing equipment—and it must be always ready. But you use only a part of your lamps and then only two or three hours an evening—the rest of the twenty-four hours all this machinery is standing idle. Isn't it fair to charge for that extra equipment and idle time?

Now the man with the factory, on the other hand, starts his motors, turning at seven in the morning and keeps them pretty steadily at work, with an hour's intermission at noon, until five or six at night. His use of power has been constant. Instead of working only a couple of hours, he has used his current eight or nine hours. All the "fixed expenses" are the same for every 1,000 watts capacity for this factory as for the 1,000 watts capacity of the residence; that is, the investment in central station generating and distributing machinery, the interest on investment, the cost of bookkeeping and billing and meter reading and all those items which sound trifling but which mount into big figures with the lighting company in the course of the year. Isn't it right and proper that this factory owner should get his electricity cheaper?

As a matter of fact, probably fifteen per cent of all electric light users do not "pay their way" but get service for less than it actually costs the lighting company. The law of averages takes care of such customers; and, of course, the lighting company has to serve them in accordance with the terms of the franchise, but they are a dead loss, nevertheless.

Now, then, how does the cost of electric light in Raleigh compare with the same light in other cities?

(To be Continued Friday).

Carolina Power and Light Comp'y

A Charlotte Company.

A charter was issued today to the Piedmont Machinery Company of Charlotte, to manufacture cotton, to dye and act as commission merchants. The authorized capital is \$100,000, subscribed for by J. H. Weddington, F. D. Alexander, W. H. Bell and others.

The Choice of a Husband

is too important a matter for a woman to be handicapped by weakness, bad blood or foul breath. Avoid these ill-hopes by taking Dr. King's Life Pills. New strength, fine complexion, pure breath, cheerful spirits—things that will men-follow their use. Easy, safe, sure. 25c at King-Crowell Drug Co.

ANOTHER PULP MILL.

Will Probably Be Established Either at Bryson City or Andrews.

(Special to The Times.)

Ashville, Jan. 31.—Developments are under way on the Murphy division of the Southern Railway which strongly indicate that another pulp mill will be established on that line to the west of the present mammoth plant of the Champion Fibre Company at Canton. The movement is inaugurated by local business men and it has progressed to the extent of enlisting the interest and cooperation of the large number of concerns of that section. As it is not to be a strictly local concern, in that the lumbermen and timber land owners all along that line are pushing the scheme, it has not yet been decided where it will be located, but the indications are that it will be built either at Andrews or at Bryson City, both the centers of hundreds of square miles of almost virgin forests.

Fighting Mexico.

Cuernavaca, Mex., Jan. 31.—Thirty Zapatistas were killed and nine federal soldiers wounded in a fight yesterday. The Zapatistas were routed. Since Thursday the federalists have lost 22 killed. The Zapatistas lost over 200.

Died as Result of Pistol Duel.

Athens, Ga., Jan. 31.—C. L. McKee died as the result of a pistol duel yesterday with Dr. Fullilove.

CERTIFICATE OF DISSOLUTION.

State of North Carolina—Department of State.

To All to Whom These Presents May Come—Greeting:

Whereas, it appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Gaiety Amusement Company, a corporation of this state, whose principal office is situated at No. 215 Fayetteville street, in the city of Raleigh, county of Wake, state of North Carolina (E. S. Aronson being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of chapter 21, Revised of 1905, entitled "Corporations," preliminary to the issuing of this certificate of dissolution;

Now, therefore, I, J. Bryan Grimes, secretary of the state of North Carolina, do hereby certify that the said corporation did, on the 5th day of January, 1911, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In testimony whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 5th day of January, A. D. 1911.

J. BRYAN GRIMES,
Secretary of State.
