

To Policyholders of Jefferson Standard Life Insurance Co.

Raleigh, N. C., May 13, 1912.
 At a meeting held in this city today a permanent organization was effected. Judge R. W. Winston was elected president and Mr. C. H. Anderson, secretary and treasurer; and a POLICYHOLDERS' PROTECTIVE COMMITTEE of five members was appointed. This committee is composed of C. B. Barbee, chairman, Raleigh, N. C.; J. F. Ferrall, Raleigh, N. C.; James H. Poir, Raleigh, N. C.; and W. T. Dortch, Goldsboro, N. C.

This protective committee was authorized to employ lawyers and institute such legal or other proceedings as in their opinion may be necessary to protect the interests of those policyholders who join with this association. The committee was requested to give notice that any policyholder of the Jefferson Standard who wished to join in the proceedings could do so by writing to the president, the secretary and treasurer or the chairman of this committee, giving his name, address and enclosing one dollar per thousand for each thousand dollars of insurance he carries for himself or any one else in the Jefferson Standard. This one dollar a thousand may be sufficient, or it may not. If not sufficient, other calls will be made; but the total of such deferred calls will not exceed three dollars, making the total liability on the policyholders who join four dollars

for each thousand dollars of insurance. Close accurate accounts and full reports will be made of all receipts and disbursements.

The committee, therefore, invites all policyholders of the Jefferson Standard, who desire to do so, to at once signify such desire and enclose one dollar for each thousand dollars of insurance to C. H. Anderson, Esq., secretary and treasurer, Raleigh, N. C.

Liberty is given to any policyholder to withdraw at any time from the proceedings, provided his dues up to the time of his withdrawal shall have been paid.

The committee agrees to make no settlement of their own policies which is not offered to every other policyholder who joins with us.

If you desire to join with us, do so at once, as it may be deemed advisable to institute proceedings this week.

In corresponding with the committee, or any of the officers of the association, please enclose postage, as the funds are only those contributed by the members.

Very respectfully,
 C. B. BARBEE, Chairman.
 J. REALE JOHNSON, JAMES H. POIR, W. T. DORTCH, J. F. FERRALL, Policyholders Protective committee, Jefferson Standard Life Insurance Company.

An Extreme Case.
 From the Chicago Record-Herald.
 An Englishman makes the suggestion that the Bacon-Shakespeare controversy may be settled by the opening of Shakespeare's grave. In order to escape the consequences of the bard's curse—"Cursed be he that moves my bones," etc.—The Englishman proposes to have the grave opened by women. It seems to us that this would be about as far as people could go in their efforts to take advantage of a technicality.

GOVERNMENT OWNERS.

Claim Private Owned Roads Will Save People Money.

Atlanta, May 15.—Comparative figures are being combined here which tend to show, according to leading railroad officials, that if the government assumed control of the railroads, and instituted the "government ownership" policy in this country, the cost of handling traffic would be vastly increased, instead of decreased, and that private operation of the roads gives the public the cheapest and best service.

Under government ownership, it is stated, not only would the cost of running the roads run up to a very high figure, but the tendency would be to higher rates so as to avoid the deficit which would otherwise have to be made up in taxes.

In this country the volume of traffic is very thin in comparison with the Panama railroad, and, of course, the larger the business, the less should be the proportionate cost of handling it. However, the Panama railroad, with its enormous business, has rates vastly higher than here, and yet their ratio of cost is much in excess of the roads in the states.

Tommy Knew Better.
 From Harper's Magazine.
 Mr. A—, who was planning to build an outdoor sleeping porch at the back of his house, had an expensive new saw sent home from

a hardware store. He left his office early the next afternoon, with the intention of getting the porch well under way before dinner, as he was very much interested in doing the work himself, he donned a pair of overhauls and went at it in good spirits. An hour or so later he came tramping into the house, his face dark with exasperation, and flung himself down in disgust.

"That new saw I bought isn't worth 5 cents," he stormed. "Why the thing won't cut butter!"

"Oh, yes, it would daddy," he said earnestly. "Why, Ted and I sawed a whole brick in two with it just this morning!"

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Alston, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at King-Crowell Drug Co.

LIGHTEN Your House Work

You who are looking for an easier method of house-keeping will be interested to know that a word from you brings this

Gas Range Into Your Home

What's the use of dumping dirty wood or coal into a stove only to take it out again in the form of ashes, soot and dust?
 What's the use of buying "light wood," "coal," "scuttles" and "new grates"—to say nothing of the labor and dissatisfaction—when you can get perfect results with no trouble for less money.

By Using Gas What's The Use?

Wouldn't it be better to just have the Gas connection made in your house? Then all you would have to do would be to turn a little handle and apply a match. You would have a hot fire INSTANTLY.
