THOMAS STOKES.

Raleigh,

MONDAY, SEPT. 19, 1803.

Capt. Valk, lately arrived at Charleston from Nassau, informs, that before he left that port, two Spanish ships were brought in by a British armed ship; and that he was informed by one of the officers, that war was declared against Spain, but the captain had not seen the declaration.

Captain Bourne, of the brig Lapwing, arrived at New-York, from the Cape, informs that two British 74's and two frigates were cruising off that port, who suffered no Americans to go in. The state of affairs were tranquil. But a rapid rise had taken place in the price of flour, and all kinds of vegetables. The former will command from 40 to 50 dollars per barrel; beans were 30 dolls. per barrel. Intelligence had been received at the Cape that the inhabitants of Port Republic had made overtures for surrendering to the British, and that event was shortly expected to take place.

Capt. Maxwell, arrived at New-York, from Guadaloupe, informs, that the British have closely blockaded Balletere, and refuse entrance to all American vessels.

In the Storm which took place off our coast on the last day of August, five vessels were cast away in Edenton Sound, and none of the crews saved—six dead bodies have been taken up and the hulls of the vessels were seen floating when this account was communicated. It was supposed other vessels had suffered at the bar. Several warehouses at Newbern were entirely swept away with their contents, and a number of vessels ran ashore. It is supposed the water rose nine feet perpendicular.

Later accounts say, that 25 or 30 vessels were at anchor in Wallace's channel during the storm. only four of them rode it out. Eleven were driven on more, the rest dispersed. Among the eleven were four from Newbern, Widow's Son, Eagle, Telemachus and Columbia; the two former were got off and since came up, much damaged, the two latter entirely lost. Most of the Columbia's cargo saved. We understand most of the vessels in Beaufort and Swansboro', were upset and much damaged. There were five vessels cast away to the northward of Cape Hatteras, one of which was the Wilmington Packet from New-York, homeward bound; another was a schooner belonging to Newport, (R. I.) the other three not known. There were three vessels cast away to the northward of Cape Lookout, a sloop, a schooner the other not known. The brig or schooner Coquette of Baltimore, in ballast from Cape Francois, bound to New-York, with 16 French passengers, was driven upon the beach of Portsmouth and much damaged, lost several passengers, among others the husband and three children of an unfortunate French lady who is left in the greatest distress to survive them. Three vessels were cast away near Beaufort. A brig belonging to Boston from Jamaica with rum, lasted the whole, 150 puncheons. A schooner, with mahogany and coffee the other not known.

In the country immense destruction every where took place. The crops of corn were every much injured. Mills and bridges carried away.

Colonel Matthew Lyon we are informed (says a Frankfort paper of August 23) is elected in the first district, a Representative to Congress.

Elias Perkins, has resigned his seat as a representative of the people of the State of Connecticut in the Congress of the United States.

The meeting of the Indians for the purpose of holding a treaty (says a Sparta G. paper) has broke up without obtaining the desired object.—The reason they give for not ceding the land between the Oconee and Oakmulgee rivers to his State, was, (in their language) "The land is our body, the water our blood, the trees our limbs, and the grass our hair, and we will not cut them asunder."

The following is an extract of a letter from Vincennes, dated August 26:

"I have it in my power to forward you intelligence of the first importance, as it relates to the western country, and certainly interesting to the community in general. Gov. Harrison has just concluded a treaty with the Kaskaskia Indians, by which they cede to the United States in fee right, the immense tract of country extending from the mouth of the Illinois River to the mouth of the Ohio; from thence to the mouth of the Saline creek below the Wabash; thence bounded by the high lands dividing the waters which run into the Wabash, from those which run into the said Saline creek; thence by the high lands dividing the waters which run into the Wabash, from those which run into the Mississippi, until it reaches to the River Kaskaskia, thence by the high lands which divide the Kaskaskia river from those which fall into the river Illinois, and from thence in a direct line to the mouth of the Illinois again, supposed to contain from ten to twelve millions of acres. The whole was ceded in consideration of the annual addition of 500 dollars to a like sum, which by the treaty of Greenville, the Kaskaskia tribe receives every year from the United States, together with the reservation of 1500 Acres near the village of Kaskaskia, for cultivation and a mission purposes."

We understand that there are at present 3,000 hogsheads of tobacco in all the warehouses in the town of Petersburg—a much less number than has been known at this season of the year for several years.

We are informed from good authority (says the Fredericksburg paper of the 12th inst.) that the yellow fever rages with great violence in Alexandria. There were eight deaths on Wednesday; in consequence of which the committee of health had a meeting on Thursday, and report that ten new cases had occurred that day. We also are informed, that near fifty families had left town. This information has created such an alarm here, that we understand, the corporate body intend to take into consideration the expediency of cutting off the communication between this place and Alexandria.

The Dysentery has proved very mortal of late in Cornish, a small village in New-Hampshire. Within 4 weeks 40 deaths have taken place, some adults have died, but most of those who have fallen victims to it are children.

Upwards of 500 Scotch emigrants have lately arrived in Nova Scotia from Scotland, and more are expected; among whom is Lord Selkirk and family. They are principally farmers, of industrious habits, and good morals.

We understand that the Manhattan Company of New-York have offered a deficiency in their cash instalment of one and a half dollars. That deficiency appears to have taken place during the last week, and it is attributed to a person in the employ of the establishment at present absent from the city. Messengers have been dispatched in search of the person supposed to be a defaulter.

At the district court of the United States for the New-York district, William H. Burridge was indicted for felony in stealing a letter which was committed to his care, as a clerk in the post office in New-York; in which letter were three bank notes (one of 500 dollars, one of 250, and one of 50) the property of Mr. John D. Martin, of that city, merchant, and which notes he was charged with destroying. To the indictment the prisoner pleaded *Guilty*; and the court, in consideration of his youth, (with a leniency which perhaps could not have been expected from the enormity of the offence) ordered him to receive thirty lashes upon his bare back, and to be imprisoned for the space of *six months!*

The legislature of Connecticut have offered a bounty of ten dollars on every ton of hemp which shall be raised in that state for the term of 3 years, from the first day of May, 1804; and for the same period have exempted from taxation all lands on which hemp shall be cultivated.

By gentlemen from Natchez, we are informed, that about the 25th or 26th of July, a man by the name of James May, came to Huntsville, near Natchez, and made oath before a magistrate, that sundry articles of property and money, which he then delivered up, he had taken from the notorious Samuel Mason, after shooting him in the head just above the eye.—Mason had been obliged and taken by Mason in his passage down the river and had joined the party—A few days afterwhich, the company hearing a firing of guns, Mason ordered his party, May excepted, to hide the horses—May was directed to hide a skiff. He took his gun with him, and on his return, whilst Mason was counting his money to divide with the party, he shot him, put the money and property on board the skiff, and conveyed it to Huntstown.

Married,

At Warrenton, on the 10th instant, James Turner, Esq Governor of this State, to Mrs. Cochran.

At Fayetteville, on the 4th inst. William Gaston, Esq. of Newbern, attorney at law, to Miss Susan Hay, daughter of John Hay, Esq

At the same place, Jesse Potts, Esq. Inspector of Tobacco, to Miss Nancy Starling.

At Elizabeth-Town, New-Jersey, Frederic Nash, Esq of Newbern, to Miss Mary Kollock, of the former place.

Died,

In this city, on Sunday last, after a long illness, James Mitchell, tavern-keeper.

At the Cross Roads, in this county, on Friday, Mrs. Wiley Rogers, planter.

☞ The Northern mail arrived just as we were ready for press, but there having been no late foreign arrival, there is no news worth a postscript. One of the matters mentions the recruit in the Western country of twenty thousand stand of arms, and fifty pieces of artillery, all of American manufacture, ordered, there in consequence of the murder of the Indian Chiefs. [illegible]
