New-York, Oct. 29.

By the ship Susan, Capt. O'Connor, in 37 days from Dublin, we have received Dublin papers to the 21st September, containing London dates to the 16th. From a cursory perusal of these papers, it appears, that

A courier arrived at Gottenburg from Petersburg, on the 26th August, with important dispatches from Sir John Borlase Warren for Lord Harrowby. When he left it great preparations were making for a grand review before the Emperor, of 60,000 choice troops.

The departure from England of Lord Gower for Russia, is suspended, Ministers, waiting till the final determination of Russia is declared.

The Spanish Minister was detained in England by contrary winds.

Gen. Fox was preparing to go to Gibraltar; and Monsieur (Louis 18th's brother), was immediately to quit England to join his brother on the continent.

The Emperor Bonaparte arrived at Brussels the 2d Sept. and immediately proceeded to Aix-la-Chapelle. According to report he will not return to Paris for six weeks. It is the general opinion, that a Congress or conference will take place at Aix-la-Chapelle, where many great men had arrived, and others had passed through Brussels for the same place, viz: the Governor of the Palace, Gen. Duroc; Marshal Lasnes, Minister to Portugal; the Portuguese envoy; Marquis De Gallo, envoy from Naples, and Talleyrand Perrigord Minister of foreign affairs. Count Cobentzel, and the Marquis de Lucchesini, ambassadors from Vienna and Berlin were likewise expected there.

Dutch papers state the fact as probably correct, that the new title of Emperor of Austria has already been recognized by the court of Berlin—that the Imperial mania had not been confined to Bonaparte but that the King of Spain was also to assume the title of Emperor! The Emperor of the French would also assume the title of King of Lombardy!

French troops were rapidly defiling towards the sea coast. The French were not perfectly satisfied with the conduct and disposition of his Sicilian Majesty. In the event of a war with Russia, French troops would occupy all the strong places in the Neapolitan states. An embargo on Russian and Swedish ships had been laid at Leghorn.

Night signals have been established on the Essex coast, and a cordon of repeating frigates are stationed at convenient distances between whom and the look out on shore a ready communication can at all times be kept up by rockets and variegated lamps.

Under the London head of the 15th of Sept. is the following respecting Gen. Moreau:

"Gen. Moreau arrived at Cadiz on the 10th August, and was soon expected to embark for America. Whenever he shall arrive in that country, we make no doubt that he will be received by the manly inhabitants of the United States, with all the honors and respect that are due to his talents, his virtues, and his misfortunes.—The subtle and treacherous tyrant, under whose machinations he has fallen, can never hope to be so considered and regarded."

The following remarks on the invasion, we find in the latest paper: LONDON, SEPT. 16.

The most intelligent professional men differ so much in opinion respecting the probability of invasion, that it is only by dispassionately combining the matter related by each, that any thing like judgment can be formed. Some of our first naval authorities on the coast, so late as last Thursday, expressed their decided belief that if Bonaparte ever was serious in his threats (which they conceived were merely intended to involve us in heavy expence, and by exciting apprehensions for internal safety, to prevent our detaching for foreign conquest) his last visit to Boulogne had occasioned him to relinquish it, by demonstrating that from the length of time his flotilla would require to get out of port, the greater part of it would risk almost certain destruction from the elements,

or from our fire, before a junction could be formed with them by the rest. We, on the other hand, yesterday received letters from three of our blockading squadrons, dated on Thursday, which state that the enemy's preparations appeared to correspond with the accounts, that they were complete; our correspondent's adding that they attributed the continuance of the flotilla in port to the want of water, in consequence of the neap tides. Little alteration had taken place at Flushing, or at Boulogne, except by the arrival of one pramm, and 50 other vessels from Ostend; at which latter place there remained seven pramm, ship rigged, each mounting from 2 to 24 guns. 18 and 24 pounders; and 150 sail of brigs, cutters, and galliots, similarly armed. Admiral Varbeul had gone with the last, as with the preceding squadron, to Boulogne, from whence he returned by land to Ostend.

In corroboration of this statement, it is positively alledged, that government yesterday received information which induced a belief, that the invasion would be attempted within a fortnight.

We feel it our duty to state, in the most decided manner, that persons in communication with, and possessing the confidence of government, treat the threat of invasion as a chimera. We profess our solicitude that the attempt may speedily be made, as the means to demonstrate our security, and to permanently establish our quiet: and our only apprehension on this subject is, that the Corsican will say we have purchased the support of the Northern Powers, and he must punish them preparatory to our destruction.

A letter from Jersey, of Sept. 12, says "A fleet of about 17 or 18 sail of the enemy were discovered yesterday in the East part of the island, supposed to have sailed from St. Malo. Several of the cruisers on this station weighed anchor, and obliged them to run on shore near Port-bail, about five leagues from this island; but we have not heard to-day, whether they are still there or not."

A letter from Russia, of the 10th ult. mentions, that a new treaty of Alliance between England and Russia was on the tapis, and that his Imperial Majesty had invited the Courts of Vienna and Berlin to become parties in it.

A Russian messenger arrived at Berlin on the 25th ult. with dispatches of importance, which were immediately answered by a letter in the King's own hand writing.

The firing off Boulogne was renewed on Friday.—Several of the enemy's gun-boats (some accounts say 100, others 26 or 30) were on Thursday outside the harbour.

Bonaparte is stated to have sent a Messenger from Boulogne, with his answer to the Emperor of Russia's Ultimatum.—In this project, his Majesty has demanded indemnity to the King of Sardinia, the evacuation of Neapolitan Territories, and the deliverance of Hanover.

VALUABLE ESTATE. For Sale, One undivided third of that most valuable Estate, held in common by Messrs. Collins, Nathaniel Allen, and the Heirs of Samuel Dickinson, deceased, commonly called the Lake Company. The said estate consists of 53,000 acres of Land in Washington County, N. C. lying between the Canal and Long Acre, bounding on Lake Phelps, Pungo Lake and the Head of Pungo River. Also 5000 Acres of Land in Gum Neck, near Little Alligator River in Tyrrel County. The above Lands are equal, if not superior for fertility of soil, to any Land in the State; no part of them are subject to freshes or overflows from said Lakes or Rivers; but a very considerable part may be laid under water, or kept perfectly dry at pleasure, by means of said Canal. This Canal formerly cut by said Company to join the waters of Lake Phelps to Scuppernon River, is 20 feet wide, 6 feet deep, and affords an excellent Navigation the distance of six miles, on one side of the first tract. On it and on the Lake is the Plantation containing about 250 Acres of cleared Land in a high state of cultivation. The produce in general is for one Acre, in Wheat about 30 bushels, in Rice from 50 to 60 do. and in Indian Corn, in good seasons, about 63 1-2 do. taking the whole Crop together. In dry seasons Hemp has been very productive.

On the Plantation is a Rice Machine in complete order, in a Builo ng 72 feet long, 42 feet wide, and four stories high. Also a Grist Mill, with a pair of Stones for Corn, and a pair of Stones for Wheat, with two Bolting Cloths, &c. &c. Also a Threshing Machine in excellent order. There is a Saw-Mill which is repairing to carry one Saw, and is intended to be in the same Frame with a Merchant Mill to carry three or four pair of Stones for manufacturing Flour, &c.

There is a good Dwelling-house, two stories high, and all sorts of out-houses, besides two Barns and Stables. There are 63 negroes above 12 years of age; amongst them are Tradesmen of different Kinds—Also, 33 Negroes under 12 years of age. There are Carpenters' Coopers' & Blacksmiths' Tools, besides every Kind of Plantation Utensils in good order. Horses, Hogs, Sheep, and about 100 Head of Cattle: three large Flats for the use of the Canal, &c.

The medium Crops, when making Rice and Corn, are from 220 to 280 casks of Rice, 600 wt. gross each; and from 3000 barrels of Corn. Do. when making Wheat, from 160 to 190 casks of Rice, from 3 to 400 barrels of Corn, 1300 bushels of Wheat. Lumber from the Saw-mill, when employed with two saws, has sold from 2,500 to 3,000 dollars yearly, employing 12 Hands. Hay, Cotton and Hemp are not included. The Rice has sold for from 5 to 6 dollars per hundred these several years past.

Were there 40 Hands more on the Plantation, the Profits might be reckoned almost one-third, if not one Half more, for each Hand, and for as many more as could be put on it. Certified by THOMAS TROTTER, Superintendent.

Mr. Nathaniel Allen, of the town of Edenton, and one of the Company, being desirous to sell his Interest in said property, has authorised the Subscriber to dispose of the same in his Behalf, and has put in his possession all the necessary documents for the information of the persons disposed or inclined to purchase. The Terms of payment are, one-fourth down on the execution of the Deed or Deeds of Conveyance; the Remainder at two annual and equal Payments, to be secured in the most unexceptionable way.

The manner in which said Property has been managed, since the year 1787, when the company was formed, makes it most desirable acquisition to gentlemen of capital, and by far outweighs the inconvenience attending property held in common; as a Superintendent, having the management and direction of the whole, with one or two Overseers under him, renders it unnecessary for the purchasers to be at any further Trouble concerning said Estate, than an annual Settlement. It will further appear by the above statement furnished from the Company's Books by Mr. Trotter, the present Superintendent, that the yearly produce of 250 acres of land under tillage, amounts to between 6 and 10,000 dollars annually; and that within 30 more working Hands put on the Estate, the profits would be greatly increased with hardly any additional Expence, and much larger quantity of Land might be under Cultivation, with nearly the charge of the present Farm. Any Application Post to the Subscriber, who resides at Plymouth, Washington County, N. C. or to Mr. Allen himself, or Mr. Stephen Barras, of Edenton, will be duly attended to, and any further Information, if required, will be cheerfully imparted. JOHN ROULHAC, Attorney at Law.
