FRIDAY, DECEMBER

On Monday last, the Stockholders of the State Bank held their annual meeting in this city, for the purpose of electing Directors of the Principal Bank, and for attending to the general interests of the Institution. The same Directors who served last year were elected, except in one instance, Joseph H. Bryan declined serving, Thomas Henderson, jun. was elected in his place.

The same evening the Directors met at the Bank, and unanimously re-elected Col. Wm. Polk their President. The Directors of the several Branch Banks were continued in office, except that at Tarborough, Randolph Cotten, John Hyman and Wiley Stanton were appointed in the places of Robert Stuart, D. Redmond and J. B. Woodman.

At the meeting of the Stockholders, it was resolved, that, in consequence of an application of the Newbern and Cape-Fear Banks to the Legislature for a renewal of their charters, and an extension of their capitals, a Representation from the Stockholders of the State Bank should be presented to the General Assembly on this subject.

It will doubtless be matter of surprise to our readers to hear of this application, knowing, as they no doubt do, that in the charter granted to the State Bank, the Legislature gave a pledge to the Stockholders, "not to establish any other Bank during the term of the charter of the State Bank;" and the reasons assigned for the application are as strange as the application itself—the present unprofitableness of their Institutions and the necessity for an increase of Banking Capital in the State; though it is acknowledged they have not at any time divided less than 10 per cent, and the Cape-Fear Bank has never yet had all her original Stock subscribed; so that, if she wanted more Capital, she had only to open a Subscription Book. It is also notorious that a considerable amount of the Stock of the State Bank is not taken up; and that there is not a sufficient demand for their present Capital. The petitioners also lament the withdrawal of the paper currency from their vaults, and doubt whether any Bank can be carried on to advantage in this State without it.

Some difference of opinion existing as to the amount of the consideration given to the State by the Stockholders of the State Bank for their Charter, we will state what we believe it to have been. The State was permitted to hold 2,500 shares in the Stock of the Bank though she was able to pay for 860 only, allowing 4 per cent only for the deferred payment; and the Bank was to redeem for the State the whole of the Paper Currency in circulation within five years, amounting, as it is supposed to \$ 300,000. It is true that this sum is eventually to be repaid to the Bank, and the Paper Currency destroyed, out of the interest accruing to the State, from her Stock in the Bank; but from the slowness of this operation, and the consequent absence of so much of their Capital during that time, the whole amount may be considered as a sacrifice on the part of the Bank. And when this debt to the Citizens of the State shall be fully extinguished, and the Currency destroyed, the State (presuming the Bank will by that time divide 10 per cent per annum to its Stockholders) will receive a clear annual income from the State Bank of 25,000 dollars. The State, has, besides a control in the election of Directors, having nearly a majority of the whole votes, and the Public Treasurer has a seat in the Directory.

We presume that it will be a difficult matter to persuade the citizens of this State, who before the State Bank went into operation, were in the habit of losing from 5 to 10 per cent on the Newbern and Cape-Fear Notes, to return to a similar state of things, by again putting afloat our ragged currency.

We learn, that John Vanhook, jun. of Person County, is appointed by the President of the U. States, Collector of the Taxes laid by Congress at the last Session, for this district; and that Solomon Greene, of Warren County is appointed Collector for that district.
