STATE OF NORTH-CAROLINA,

GRANVILLE COUNTY, Court of Pleas and Quarter Sessions, May Term, A. D. 1815.

Thomas Falconer, Robert Elliott, Alexander Elliott, John Elliott, Dole Elliott and Judy Elliott.

A COPY of this Petition being duly served on all the Defendants, except Alexander Elliott; it appearing to the satisfaction of this Court that he is not a resident of this State...

RALEIGH:

FRIDAY, JUNE 30, 1815.

The Supreme Court of this State will commence its Session in this city tomorrow.

An American edition of Neal's History of the Puritans by Dr. Joshua Toulmin, in 5 vols. 8vo. is proposed for publication in Boston.

On Saturday last (St. John's Day) the new Freemason's Hall in this city was consecrated by the M. W. Hon. John L. Taylor, assisted by the Grand Officers of the Crafts.

Another disbanded officer has addressed his brethren, calling upon them to desist from their proposed meetings and application to Congress, and rather than beg pensions, &c. of their country, to exert their ability & fortitude to obtain, in the usual way, that honest livelihood which may be so easily procured in a country like ours.

At a meeting of the disbanded Officers at New-York on the 20th inst. an organized Association was formed for the purpose of keeping up their military connection, of affording relief to the widows and orphans of Officers who fell in battle, &c.

We re-publish a piece from Relf's Philadelphia Gazette, entitled South America, to which the writer, Mr. W. D. Robinson, affixes his name. This gentleman, who some months ago published a pamphlet at Georgetown, D. C. on the state of Spanish America, and the relations existing, or which might exist, between her and the United States, has displayed a particular interest in the fate of these gallant but oppressed inhabitants of that devoted nation.

The Surveyors lately sent to lay out the Military Bounty lands in the Michigan territory, have returned without accomplishing that object; the Indians having refused their permission to survey the lands in question, under pretence that the Chiefs who signed the treaty by which those lands were ceded to the United States, had no right to make the cession, inasmuch as the country did not belong to them.

\$300,000, Specie, gone!—The brig Panther, Capt. Lewis, bound for Liverpool, with 12 passengers, & 300,000 Dollars, in specie, which is said to be very scarce in England, and will pay from 20 to 30 per cent. profit, sailed from Boston on the 11th instant.

Phenomenon.—The British packet Lady Louisa, on her passage from Brazil to England, and when a thousand miles from land, suddenly had her decks, spars, &c. covered to the thickness of half an inch with a yellow dust.

The "high allies," says a Vienna paper, have required that the French shall deliver up Bonaparte. The French people will say to them—"come and take him."

M. Dupont, the public spirited proprietor of the Powder Mills on the Brandywine, (Del.) at which several persons were killed by an explosion on the 8th inst. has settled a yearly pension of one hundred dollars on the family of each of the several persons who were killed on that occasion.—Pet. Int.

Since the re-establishment of peace, the frontiers of the United States bordering on Mexico will, we expect, attract the attention of many of the enterprising emigrants from the Atlantic States. A letter from a gentleman who has recently removed thither, to his friend in this city, speaks in flattering terms of Matchitoches, a place which many of us in this part of the world have been in the habit of regarding as almost beyond the bounds of civilization.

Mr. John Melish, of Philadelphia, has in the hands of the engraver, a View of Dartmoor Prison, rendered famous by the massacre of a number of the American prisoners confined there during the war. The painting exhibits both the plan and elevation in perspective of all the prison buildings, with the barracks, hospital, market square, &c.—and a descriptive account will accompany it, illustrating the particulars referred to in the account of the late most extraordinary butchery of so many defenceless and unoffending human beings.—Aurora.

Among the number who were inhumanly butchered at Dartmoor prison, we discover the name of Joseph Johnson, son of Mr. Shadrach Johnson, an honest and respectable citizen of this place. Who can speak the bitter anguish of a father thus called upon to mourn the loss of a son, cruelly murdered in a foreign country—a country which boasts of its humanity and religion, and to which we are told we are to look as the bulwark of our own.—Hartford Mercury.

Dr. George Magrath, the physician who attended our prisoners at Dartmoor prison, in England, has received great praise from the Americans for his humanity and kindness, which exhibited a striking contrast to the bloody massacre committed there by the soldiery.

Sheriff Adams.—In a late paper we related the shocking murder of the wife of Sheriff Adams, of Maine. This is the same Sheriff Adams who lately wrote to Gov. Strong, extolling the magnanimity of the enemy, and exhorting his excellency to raise the standard of Rebellion against the national government; and the same Sheriff Adams is now immured in a dungeon on a charge of having murdered his wife! Because a man perpetrates one crime, it does not of course follow that he will perpetrate any crime; but treason against one's country, and that country the United States, implies a total absence of all principle that respects the feelings, fortunes or lives of men.—Albany Argus.

Decrease of the British Navy.—From the following statement accurately copied from "Steel's correct list of the Royal Navy" of Great Britain, for September, 1813, and March, 1815, it is evident that in that period, (nineteen months) there was a decrease in her naval force of TWO HUNDRED and SIXTEEN SAIL—fifty three of which were of the line.—This great decrease (says the Charleston City Gazette) is probably owing to the number of vessels which have been condemned as totally unfit for service, so far exceeding their means for building new ones to repair them.—Virg. Argus.

Table with 2 columns: Date (Sept. 1813, March 1815) and Amount (Total in commission, Ordinary & repairing, Building).

The Charleston Times states that Gen. Andrew Jackson will establish his Head-Quarters in that City.

We understand that Major Beal, late of the U. S. Artillery, is appointed to take charge of the United States' armory at Harper's Ferry, (Va.) and that Lt. Col. Boswell Lee, late of the U. S. Infantry, is to take charge of the armory at Springfield, (Mass.)—Press.

We understand that forty or fifty American Officers are about embarking for Europe to acquire military science and information. They go with the approbation of their government.—Ind.

Insolence of British Officers.—The National Intelligencer has published the depositions of several respectable young men of Detroit, which display in strong colors the arrogance and insolence with which the British officers in Upper Canada treat the citizens of our adjacent States and Territories, who may happen to cross the lines. These depositions furnish proof sufficient, that a deadly and insatiable spirit of revenge fills their minds; and they are not at all disposed to reciprocate those rites of hospitality and friendship, which a return of peace invariably produces among civilized nations.

A valuable interchange has been made at the eastern and western extremities of the globe. The Marrattah Cotton, cultivated so abundantly, in the Brazils, has been transplanted into the E. Indies, and the experiment has been attended with great success. Under the patronage of the prime minister Aranjio, a number of tea plants with Chinese gardeners have been imported into the Brazils, and the plantations under their management afford every prospect of a rich harvest from that important vegetable. The decoction prepared from this exotic is said to be equal to that produced from the commodity of its native soil.—Ib.

Letters from New-Orleans of the 20th ult. state that the Mississippi river was higher at that time than at any former period; that the levee had given way in sundry places above and below the city, and that a number of hands were employed in strengthening and repairing it; that the water had done considerable damage to the sugar plantations, and had likewise run over the levee into the city; and that great fears were entertained that the Missouri spring fresh, if it happened to come on while the Mississippi remained at its height, would inundate all the lower country.—Ohio Fred.

On the 6th inst. the Rev. Lawner Blackman, one of the Presiding Elders of the Methodist Church in the state of Tennessee, was unfortunately drowned in the Ohio River, opposite Cincinnati, on his return to the place appointed for his labors. Mr. B. was 34 years old, and had preached the gospel 17 years.—Ib.

On the 16th inst. a boat containing five persons, filled and sunk in Boston harbor, near Light-House-Island.—Two only of the persons could swim, these soon succeeded in getting on a rock in safety, when one of them, (Mr. Nichols, Confectioner of Court-street) impelled by a principle of humanity, highly honorable to himself, as a Man and a Christian, divesting himself of his clothing, immediately plunged in the water to save his Drowning Companions. The nearest, who was sinking for the last time, he rescued and conveyed in safety to the shore; but two others remained, and they had sunk to the bottom; he returned again, and, diving, found one fifteen feet from the surface, on a rock, totally insensible, with his head sunk between his knees; he seized him, and collecting his remaining strength forced him to the surface near the shore; when, borne down by the weight of his sinking burden, he was just able to raise one hand above the water, which being caught hold of by those on the rock, they were both drawn out together.—He would have returned for the other; but by this time the last spark of life had expired in the unfortunate Muzzy; and the spirited preserver of the others was so much overcome by his great exertions that he was obliged to be conveyed to bed, together with those he had rescued. The body of Mr. Muzzy was found soon after by those from the shore, and every exertion made for his restoration, but in vain. We honor and reward those who have been most successful in destroying our enemies.—Justice requires that we should not be less grateful to those who, at the risk of their lives have preserved our friends.

A Shark was lately caught in the Schuylkill that weighed 11 lbs. and a quarter; extreme length 30 1/2 inches round the belly 18 1/2.

The following Circular has been sent from the Treasury Department to the Collectors of our several Ports:

Treasury Department, June 5th. SIR—The information communicated to this Department induces me again to express a desire, that in the execution of the Collection Law, you will pay particular attention to these sections (the 66th, 67th, 68th, and 46th) that authorize a particular inspection & examination of goods imported, which the collector suspects are not truly invoiced; the opening of packages on suspicion of fraud; the searching of vessels and buildings in which goods, subject to duty, are suspected to be fraudulently concealed; and the examination of the baggage of persons arriving in the United States. It is deemed important that some of the bales boxes and packages of every importation should be inspected; and that in most cases, the baggage of foreigners or strangers should be directed to be examined by the Surveyor of the port, or an inspector of the Customs. But you will exercise the powers of office on such occasions, with as little inconvenience, & as much delicacy as possible towards individuals. The course pursued being a general one, cannot give offence, and it will serve to prevent, as well as to detect, illicit practices.

The Collection Law authorizes the Collector to include in the bond for duties, one or more sureties. The great amount of the existing duties upon importation, suggests the necessity of bestowing particular attention upon this part of your duty. Whenever the duties amount to the sum of ten thousand dollars, the bond should include at least two sureties; and with the increase of the amount, the number of the sureties should be increased, having a just regard to the known fortune and competency of the obligors, as well the principals as the sureties. It will also be proper to keep in view the extent of the actual engagements of the obligors at the Custom House; so that the whole of the credit given to an individual should not exceed his own fair claims nor endanger the public security.

I am, very respectfully, sir, your obedient servant, A. J. DALLAS, Secretary of the Treasury.

TO THE COLLECTORS. MARRIED, At Beatie's Ford, Lincoln county, on the 15th inst. Mr. John Graham, of Lincoln County, to the Widow M'Lauchlan, of Mecklenburg County.

DIED, The Rev. Dr. Henry Muhlenburg, the Linnaeus of America.

To a Correspondent.—The Editor of the Register must decline inserting "a Reader's" reply to a piece signed "a Voter," which appeared in the Star of last week. He is sorry that any one should have thought so weak and incoherent a trifler worth notice. It cannot be supposed that such a production can have any effect on the election referred to; and it is certain that Mr. Macon will only laugh at it. As to his puny remarks in relation to the Editor of the Register, they excite only his contempt.

This writer, as others have done before him, endeavors to impose this falsehood upon the public, that the Editors of Republican Papers call all Federalists, Tories. What they assert is this, that there is not an old Tory in the country who does not place himself under the Federal Banner; and they believe that it is principally from these men, or such as are equally Tories in their hearts, that most of the abuse of this government and country issues. That there are as good men as any in the community among the Federalists is never denied; but it must be allowed, they keep bad company.

BY YESTERDAY'S MAIL.

CAPTURE OF FORT ROYAL, MARTINIQUE.

New-York, June 23. By the schr. Bulwark, in 13 days from Martinique, we learn that Admiral Durham, with a 74, 3 frigates and a fleet of transports, took possession of Fort Royal, Mart. on the 4th of June, and that all the French troops had embarked for France, most of whom had sailed. The Bourbon flag was flying. It was the opinion, that Guadaloupe would also be taken.

Elegant Launch.—Yesterday morning about 11 o'clock, the superb ship General Brown, burthen about 1000 tons (size of the late Essex) & pierced for 52 or 36 guns, was launched by Messrs. A. & N. Brown, from their shiphouse, in a most capital style, amidst the plaudits of a vast concourse of admiring spectators.—Columbian.

The British frigate Statura was lost on the 27th of January last, by striking on a rock, near the Island of Little Inagua.—No lives were lost.

The Ship Tea-Plant, belonging to New York, sailed from Charleston, laden with 1200 bales of Cotton, on the 20th inst.; but got becalmed on the bar, at night, and, in wearing, missed stays, and ran ashore of Stone's Breakers. In the morning she got off with nine feet water in her hold and the loss of her rudder. She is returned to port to unload.

A TEACHER WANTED.

The Trustees of the Greene Academy wish to employ some Gentleman to take charge of said Academy as Principal Teacher, who is experienced in the Instruction of Youth, of liberal Education, and can furnish satisfactory testimonials of character from his former employers...

ABSCONDED.

NOTICE.

Treasury Department, June 22d, 1815. TREASURY NOTES, having been assigned for the payment of such TREASURY NOTES, and the interest thereon, as will become due at Philadelphia on the 1st day of August next, and on all subsequent days prior to the 1st day of January, 1816:

NOTICE is therefore hereby given, That the said Treasury Notes will be paid, on the application of the holders thereof, respectively, at the Loan Office in Philadelphia, on the day or days when they shall respectively become due, and interest on the said Notes will cease to be payable thereafter.

The Commissioners of Loans in the several States are requested to make this Notice generally known, by all the means in their power; and the Printers authorized to publish the Laws of the United States, will be pleased to insert it in their respective newspapers.

A. J. DALLAS, Secretary of the Treasury.

\$20 REWARD.

STOLEN from the subscriber, on the night of the 17th instant, A BAY HORSE, about 4 feet 7 or 8 inches high, 8 years old, shod all round, two hind feet white, also his off side fore one, his near pastern joint larger than the other from an old hurt, his mane hangs on both sides of his neck, if not cut off, a few white hairs about the middle of his neck, just under the mane, that a nippence will cover, & a swab tail. The Horse I believe to be stolen by JOSEPH STEP, a Soldier of the U. S. Infantry, who Deserted from the Barracks near this place on the night the Horse was missed. Step is supposed to have been born in Rowan county, is 35 years of age, 5 feet 7 or 8 inches high, of fair complexion, grey eyes. The above Reward, and reasonable charges, will be paid for the Horse and Thief, delivered to me in Raleigh, or Ten Dollars for property securing either, so that they can be got.

JORDAN WORSHAM. June 23, 1815. 13 4w
