FROM FORT WAYNE.

Copy of a letter from the Commanding Officer at Fort Wayne, on the Miami of the Lakes, to a Member of Congress, dated

Fort Wayne, 8th Jan. 1816.

Permit me, sir, to acquaint you with a communication just made to me by a Miami Indian, a branch of the White Loon's family, who has always expressed the greatest friendship to me, and of whose fidelity to our government, (as far as a savage mind can possess that sentiment) I have not the least doubt.

He says the British have sent out runners among all the tribes to the north and west, inviting the war chiefs, with their young and most active warriors only, to come with as little delay as possible to Malden; that they have a large quantity of goods there, which they keep in reserve for that class only, whenever they shall arrive, and be seen to take a strong hold of the Tomahawk, as they have been known to do. My informant, who calls me his uncle, states that he himself has received the invitation three days since, with many other Miami chiefs, several of whom have resolved to go to Malden merely to see and hear the British father; but, for himself, he is satisfied to remain at home.

For several days past, great numbers of Putawatimies and others, have passed here on their way to Malden.

What their intentions are, is yet doubtful, but my informant assures, that it is his opinion a war will break out early in the Spring.

In haste, as the express is now waiting for this letter. I am, &c.

DANIEL CURTIS.

District Paymaster's Office, RALEIGH, N. C. FEB. 6, 1816.

THE following Rules and Regulations (in addition to those heretofore existing) have been received from the Paymaster General, and will be observed in all future Payments to Companies or Detachments of Volunteers or Militia, or any part thereof, on claims to compensation for services rendered in the Army of the United States, viz:

The officers who commanded are to make oath for themselves and their men—

1st. That they have not been previously paid.

2d. That they have not either jointly or severally executed any power of attorney authorizing any person whatsoever to receive the compensation claimed.

3d. That they have not at any time signed accounts (in duplicates or otherwise) or receipt rolls for the same and passed them away to another person, who might thereby be enabled to draw the amount from the proper officer or agent of the United States: that they have in no wise either directly or indirectly transferred or alienated their claims, by power of attorney, order, receipt Roll, accounts or any other paper.

4th. That the officers, non-commissioned officers, musicians and privates, who may be borne on the Muster Roll, were during the period therein expressed actually on military duty in the field, in camp, or in garrison.

The same mode must be observed in the claims presented by officers and soldiers to be settled with, individually, except in the settlement with a soldier where the oath of the officer cannot be extended to him, his own must be substituted, the claim being previously certified in duplicates by the commanding officer of the Regiment, that he is entitled to the pay claimed.

These precautionary measures have been considered necessary, as well on the account of the vast number of claims which are known to have been transferred by some means or other from the hands of original claimants into those of agents and speculators, as for the unmethodical manner in which many payments have been unavoidably made.

RALEIGH:

FRIDAY, FEBRUARY 16, 1816.

A National Bank.—A writer in the Delaware Watchman who disapproves of the plan of a National Bank which is before Congress, because, if established, its stock will be liable to get into the hands of foreigners and enemies of the government who, as they will have it in their power, will be more likely to embarrass than to aid the government in its fiscal concerns, proposes a very different establishment, which he says speculators cannot turn to their account. He proposes to fix it at Philadelphia, its capital for the present, at 100 millions, to consist first of its own bills, which are to be loaned on notes at 60 days at 5 per cent. or on loans for six months and upwards, secured by bond and mortgage, at 4 per cent. To have branches wherever the directors and the several state legislatures may agree. The Directors to be chosen partly by the President of the United States, partly by Congress, and partly by the legislature of Pennsylvania and the citizens of Philadelphia. The Directors of the Branches to be elected in a similar way. The Notes to be received in all payments to the United States in exclusion of all others, and in preference to specie, and cannot, therefore, depreciate. The Bank to give aid to the government in transferring its funds, &c. It is calculated that a Bank of this kind would clear to the government of the United States from six to eight millions a year, and, of course, not only enable it to repeal obnoxious taxes, but raise a fund for public works by which the country might be greatly benefited.

On the 30th ult. the Mayor of Savannah issued a Proclamation, stating, that, having received information, that the Small-Pox prevails in the State of South-Carolina, he enjoins, that all persons coming from that State, be inhibited from entering the City of Savannah; also, all ships, vessels, or boats of any description, until they are first examined by the Health-Officer, and a certificate obtained from him, according to law. The Marshal of the City, is required to apprehend all persons who shall attempt to violate the law; and cause them to be removed. The inhabitants of that place, who have not had the Small-Pox, are requested by the Council to get vaccinated immediately. We trust the citizens of this State will attend to this necessary precaution. Some of our Physicians have received a supply of fresh Kine matter.

It appears from a communication from Matthews county, Va. that a negro-trader of the name of Hammons, was murdered about the beginning of the present year, in King and Queen county. He was supposed to be from Rowan county, in this State.

A fire lately broke out in the large fire-proof store on Burgwin's Wharf, Wilmington, belonging to Mr. Hanson Kelly, which entirely consumed the interior of the building. The fire originated in a sail loft occupied by Mr. Read, which was carelessly left while the workmen were gone to dinner. There was a vast amount of property exposed when the conflagration began, but by great exertions it was principally saved.

The Virginia Legislature has passed a law giving to the town of Petersburg a representative.

The same body, we are glad to see, has negatived the bill proposing to establish fifteen new Banks.

They have also negatived the bill providing for the call of a Convention to amend the Constitution, 90 to 84.

A Republican Council of Appointment has been chosen by the Legislature of New York, by the casting vote of the Speaker, the votes being 61 to 61.

A Havana paper of the 22d ult. contains the arrival of two vessels from the coast of Africa—one with 390, and the other with 144 slaves. Gentlemen from Havana inform, that the Spanish merchants were buying up all the fast sailing vessels for the African trade.

Tribute to Merit.—Nathaniel Williams, Esq. in the Senate of Maryland, moved the following Resolution, which was read and unanimously assented to—

“By the Senate, Jan. 29, 1816.

“RESOLVED by the Senate of Maryland, That wisdom, valor & patriotism, so signally manifested, during the late War with Great Britain, by JAMES MADISON, President of the United States, and by those statesmen and heroes who acted with him in the council, in the field, and on the ocean, entitle them to the gratitude and admiration of their country; and will reflect lasting fame and renown on the annals of American history; and that the negotiation and acceptance of an equal and honorable peace with a haughty and powerful adversary, are the natural fruits of gallantry and courage, conducted by firmness and intelligence.”

Virginia.—The Legislature of Virginia has turned its attention in an efficient manner to the subject of Internal Improvement. A law has been passed, creating a fund “to be denominated ‘The Fund for Internal Improvement,’ and to be applied exclusively to the purpose of rendering navigable and uniting (by canals) the principal rivers, and of more intimately connecting, by public highways, the different parts of the Commonwealth.” The fund is to consist of all the stock held by the State in Bank and Turnpike and Navigation Companies, together with such dividends as may accrue thereon, and such bonus or premiums as may be hereafter received, for privileges granted to Banks. The care of this fund is vested in a corporate body, to be styled ‘The President and Directors of the Board of Control,’ to be composed of the Governor (President ex-officio)—twelve Directors, to consist of the Treasurer and Attorney General of the State, and ten Citizens, three of whom shall reside westward of the Alleghany mountain, two between the Alleghany and the Blue Ridge, three between the Blue Ridge and the head of tide water, and two between that line and the sea coast.—No application of the fund is to be made, except by special authority of law. What is the amount of this fund, or how productive, we are not apprized. The present amount is believed, however, to be not far from a million of dollars; and may be hoped to produce very valuable benefits not only to Virginia but to the Union.

LATEST CONGRESSIONAL PROCEEDINGS.

SUNDAY, FEB. 10.

Several petitions having been presented and referred, on motion of Mr. Root, the Committee on the copper coin was instructed to enquire into the expediency of increasing the alloy, or reducing the weight of the small silver coin of the United States.

The house resumed the consideration of the report of the committee of ways and means, and the amended resolution in relation to the duty on spirits, laying an additional duty of 50 per cent. to the present duty, and repealing the tax on stills, being under consideration, it was agreed to, 105 votes to 57.

The resolution repealing the tax on furniture and watches was next taken up; when Mr. Jackson of Va. moved to amend the resolution so as to retain these taxes and making provisions for their faithful collection.

After some debate, this amendment was negatived 90 to 64.

The house then postponed the order of the day to take up a resolution for the relief of Com. Rodgers, which was agreed to.
