

TARIFF.

A general tariff proposed for the consideration of Congress.

The Secretary of the Treasury gives, at great length, a view of the tariff of the United States, and its incidents, upon the peace establishment...

1st. A schedule of the articles to be imported into the United States free of duty.

- All articles imported for the use of the United States. Philosophical apparatus, instruments or books, specially imported for the use of any incorporated society...

2d. A schedule of articles to be charged with duties ad valorem.

At seven and a half per centum. Dying drugs and materials for composing them, not subject to other rates of duty...

At fifteen per cent. All articles not free, and not subject to any other rate of duty.

At twenty per cent. Linens of all descriptions, linen cambrics, lawns.

At twenty two per cent. All articles manufactured from brass, copper, iron, steel, pewter, lead or tin, or of which these metals, or either of them is the material of chief value.

At twenty three and one-third per cent. Cotton manufactures of all descriptions, and of which wool is the material of chief value.

At thirty per cent. China ware, earthen ware, stone ware, porcelain and glass manufacture.

At thirty three and one-third per cent. Cotton manufactures of all descriptions, and of which wool is the material of chief value.

At thirty five per cent. Cabinet wares, and all manufactures of wood.

The facility of smuggling the articles here described, can only be counteracted by diminishing the temptation, through the medium of a low duty.

Table listing various goods and their specific duties in cents. Includes items like Carriages, Leather, Paper, Printing types, Ale, beer, and porter, etc.

Burgundy, Champaign, Rhenish, and Tokay. Sherry and St. Lucar. Claret and other wines not enumerated, when imported in bottles or cases.

ALIEN DUTY. There shall be charged an additional duty of twelve and a half per cent. upon all goods imported in vessels not of the United States...

TONNAGE DUTY AND LIGHT MONEY.

Ships or vessels of the United States, entered from any foreign port or place, or carrying goods from one district to another district, shall pay, per ton...

Warehouses Money. To constitute a fund for erecting & maintaining custom-houses warehouses and stores.

Drawbacks and Bounties. There shall be allowed a drawback of the duties on goods imported into the United States, if the goods be exported within twelve months after the time of importation...

There shall not be an allowance of drawback in the case of goods imported in foreign vessels from any of the dominions or colonies of any foreign power to which the vessels of the United States are not permitted to trade.

There shall not be an allowance of drawback for the additional duty of twelve and a half per cent. imposed on goods imported in vessels not of the United States.

There shall be retained upon the amount of the duties of goods exported for the benefit of drawback (except spirits,) 5 per cent.

There shall be retained in the case of spirits exported, for the benefit of drawback, two cents per gallon and also three per cent. on the amount of the duties.

The present bounties, allowances, and drawbacks, shall be continued in the case of exporting pickled fish, of the fisheries of the United States; in the case of American vessels employed in the fisheries; and in the case of exporting sugar refined within the United States.

These provisions respecting drawbacks must, however, be conformable to the privileges specially allowed to foreigners by treaty or by acts of Congress.

It only remains, in the performance of the task prescribed by the House of Representatives, to give a succinct statement of the probable product of the duties upon imports, according to the proposed tariff.

The annual product of the single duties has been estimated at 12,000,000; and of this sum, the specific duties produced about 87,200,000.

Table showing duties ad valorem produced about 4,800,000. But the amount proposed to be raised by the new tariff being 17,000,000. Each addition must be made to the old tariff as will produce 85,000,000.

Table of Principal Articles with Former Duty, Proposed Duty, and Estimated Product. Includes Coffee, Hemp, Pepper, Sugar, etc.

Table of Principal Articles with Former Duty, Proposed Duty, and Estimated Product. Includes Linens, Cottons, Woollens, etc.

It is not practicable to ascertain the amount of revenue heretofore produced, by each of the classes of goods specified in the last table; but it is sufficiently known, that some of them produced little, while the product of others was proportionably great.

Assuming, then, an advance of 80 per cent. upon 4,800,000 dollars, (the aggregate product of the duties ad valorem, as above stated) the sum will be 8,640,000.

And adding to this sum, the amount produced as above stated, by the increase of the specific duties 1,200,000.

There will be produced, to complete the amount of additional revenue required, a sum of 9,840,000.

All which is respectfully submitted, A. J. DALLAS, Secretary of the Treasury.
