

POETRY.

Mr. Ingleton, a celebrated British theatrical performer, particularly distinguished by his vocal powers, has recently arrived in the United States, to perform an engagement at the New-York Theatre.

RECITATIVE.

Hail Columbia! patriot nation, Star of hope, to thy press'd; In battle darting desolation, But in peace sole ark of rest.

SONG.

When first infant Liberty dropp'd upon earth The mountains and forests then cradled her birth, Deck'd by nature, she dwelt among savages wild, Whilst numerous nations adopted the child;

FOR THE REGISTER.

Felix qui potuit rerum cognoscere causas.

Mr. Gales,

In a late number of the Register, I ventured some conjectures respecting the Tides, rather with the hope of exciting the public attention to an investigation, than of climbing myself into the archives of Nature.

The experiments of the Chemist and the researches of the Philosopher, require labor, care, industry and independence. Though the subject on which I have enquired, at this day will not admit, from our present improvement, mathematical demonstration, I am happy in finding the great inventor and builder up of mathematical learning, in his Principia, or first principles of philosophy, admitted comparison and experiment, as a just basis of theory.

But in reference to the Tides, on which we have formerly submitted some conjectures, I would observe, that I am not satisfied with the theory hitherto advanced as to ascent of water into the atmosphere—for there can be no disparity between the gravity of proportional circles of air and water, let the circles be great or small.

The attractive quality, or property for water, I believe, resides in the atmosphere. Thus we find, that fire is extinguished by water—and does not this take place by the attraction of water for the inflammable principle? The water attracts it, and the heat, by turning it into vapor, sends it again into the atmosphere, from whence, I presume, it had originated.

principle? We blow a body we wish to cool, as the heat is carried off by cold air, and air is perfectly cool if unaccompanied by heat—Now we presume, that the attractive principle which resides in the atmosphere, is of the inflammatory kind; that it is attracted in proportion to its coldness and density by the atmosphere.

That there is an attractive body which accompanies heat, we have reason to conjecture from the following observations:

1st. That Electricity, a highly attractive body, is a constant attendant on heat. It is produced on iron by rubbing it, and by heat or fire the hardness and impenetrability of bodies is increased. Thus iron becomes steel, clay becomes brick; and, in fact, every body, not a combustible, is indurated by the action of fire upon it.

That there is an attractive principle attendant on the inflammable, is evident. We find rain taking place at the full and conjunction of sun and moon; we find that all bodies are indurated by heat and fire which are not combustible. Thus iron becomes steel, clay becomes brick, &c.

And further, I presume the potency of light may be evinced by the dark streaks which appear on the looking glass (from a burning candle) to dissect the luminary, on the surface of the glass; this dissection is obvious, on the face of the moon, by a good telescope also—which I can account for on no other principle than the tendency of the matter of light, after losing its igneous qualities in some degree on the attractive surface of the mirror, assuming a polar direction.

If the needle of the compass is turned to the north by this attractive principle extinguished by heat, and communicated to the atmosphere, it is probable (I venture the conjecture) that its variation may be found yet to correspond with the variation of the seasons, produced by the revolution of the moon in every nineteen years to the same place of the ecliptic, for the different hours of the daily heat, produce some small difference in its variation.

As to the Earthquakes, which in all ages have passed over continents in right lines, the more I examine the history of these, their greater effect on large water courses, as lately on the Mississippi, I am more confirmed in the opinion, that they are produced by the electric aura.

In throwing together these observations, should I be of service to the world, it will gratify an AMERICAN CITIZEN.

POINTER DOG.

RAN AWAY from the owner in this City a few days past, an elegant POINTER Supposed to have made for Warrenton (where he had been kept for some time), and to have been taken up by a Stage Passenger near that place and carried Northwardly.

WARRENTON ACADEMY.

THE EXAMINATION of the Students of this Institution will take place on Wednesday and Thursday, the 19th and 20th of November.

The Examination of each day will be closed by the delivery of Select Speeches by the Students.

The Trustees living in the Country, are particularly requested to attend. October 23. 45 1EX

NEW BOOKS.

J. GALES has just received from Philadelphia the following New Books. Life of Gen. Jackson, Smith's Moral Sentiments, Lord Erskine's Armata, a Fragment, Hoffman on Legal Study, Emigrant's Dictionary to the Western Country, Miss Edgeworth's Harrington and Ormond, Comic Dramas, Moral Tales, Keep Cool, a Novel, Lord Byron's Manfred and Lament of Tasso, Hamilton's popular Essays, Stewart's Essays on the Progress of Metaphysical, Ethical and Political Philosophy, Playfair's do on Progress of Mathematical Science, Frey's Jew's Narrative of his embracing the Christian Religion, &c. Always Happy, a Tale by a Mother, Priscilla Wakefield's Conversations on the Beauties & Wonders of Nature and Art, A fresh supply of School Books, and some cheap Foolscap and Letter Paper. Raleigh, Oct. 24.

LINE OF MAIL STAGES, Between Raleigh and Fayetteville.

A distance of 60 miles.

THE Public are respectfully informed, that we have reduced our four horse team to three horses, and added one to our two horse team. We can therefore, convey from three to four passengers every day in future, if we can get them.

The condition of our Stages, Horses and Harness, and the merits of our Drivers we shall leave to the report of those who may travel our line, which leaves Raleigh every day at 1 P. M. and arrives at Fayetteville next morning at 3 A. M. Leaves Fayetteville every day at 9 P. M. and arrives at Raleigh the next day at 11 A. M. All possible care taken of baggage, but no liability for losses or accidents.

SCOTT & JORDAN. May 9. 1817. 20 tf P. S. Each passenger is allowed 25 lbs. baggage free. Every lb. over, will be charged at the rate of 2 cents each 30 miles.

MILITARY BOUNTY LAND.

General Land-Office, 25th Sept. 1817. NOTICE.—The Lands in the Illinois Territory, appropriated for Bounties for Military Services, having been surveyed, and the surveys received at this office, the distribution of the said lands, by lot, agreeably to law, will commence at this Office on the first Monday in October next.

The surveys of Military Bounty Lands in Missouri Territory, are expected in a few months, when a similar distribution will take place, of which timely notice will be given in the newspapers. Those who wish to locate their Warrants in Missouri Territory, may send them after the publication of that notice.

Printers who publish the laws of the United States will give the above so many insertions as will amount to ten dollars, send a copy of the papers to this office, and a bill, receipted: the money will be sent by mail. JOSIAH MEIGS, Commissioner of the General Land Office. Washington, Sept. 26. 41 10w

SPEEDILY WILL BE PUBLISHED, By John Gardiner, Ch of Clerk in the General Land Office,

A MAP OF THE BOUNTY LANDS IN THE ILLINOIS TERRITORY.

The above Map will exhibit to each Soldier of the late Army, the situation of the Farm which falls to his lot, its proximity to the Rivers Mississippi and Illinois, will describe the Soil, Timber, Waters &c (agreeably to the field notes of the Surveyors) of his farm, and enable the Soldiers to appreciate the value of their Country's reward for their services.

Printers of the Laws of the United States who give publicity to the above, shall be furnished with two maps. JOHN GARDINER. Washington, 25th Sept. 41—

ADVERTISEMENT.

RAN AWAY from the subscriber living in Guilford county, on the 5th inst, an Apprentice Boy named Samuel P. Hymer, bound to the Carpenter's trade, about eighteen years of age, 5 feet 9 or 10 inches high, stout made, dark hair and eyes. Clothing taken away with him—3 pair of homespun pantaloons, 1 linsley coat, 1 coat and 1 waistcoat of jeans.

I hereby forwarn all persons from harboring or employing the above described apprentice. I will give a reasonable reward and compensation for their trouble, to any one who will bring him to me, or commit him to jail, so that I get him. LEVI HUSTON. Guilford county, N. C. Oct. 22. 45 6w

JOSEPH GALES,

RESPECTFULLY informs the Public, that he has just received from LEE'S Medicine Store, No. 46, Maiden Lane, New-York—

A fresh supply of the following VALUABLE MEDICINES.

Hamilton's Worm Destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes, of every age, and in every situation of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach or bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent; and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

Description of Worms and the symptoms by which they are known. Worms which infest the human body are chiefly of four kinds, viz: The Terebra, or large round worm; the Ascariades, or small saw worm; the Cucurbitina, or short, flat white worm; and lastly, the Tania, or tape worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and difficult to remove.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those described. A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.

Children generally take this medicine with eagerness—having a pleasing appearance, and an agreeable taste.

For the prevention and cure of Bilious and Malignant Fevers, is recommended, Hahn's Anti-Bilious Pills.

This medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the United States, and the southern and middle states, particularly in New-York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

The operation of these Pills is perfectly mild, so as to be used by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance.

They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head-ache, and ought to be taken by all persons on a change of climate. They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and safely preserved for use by every seaman.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for rheumatism, gout, palsy sprains and bruises, white swellings, old strains and relaxations, numbness, and weakness of the neck, pains of the side, headache, swelled faces, frozen limbs, and every similar complaint. It prevents chilblains, or chapped hands, and the ill effects of getting wet or damp in the feet.

Restorative Powder for the Teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which, suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative.

Is recommended as an invigorating medicine for the speedy relief and permanent cure of the various complaints resulting from colds in climates unfavorable to the constitution, the immoderate use of sea, frequent intoxication, or any other desolating intemperance, the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lings in the face.

Hahn's Genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of nature, weakness, or of accident.

Tooth-Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

ITCH CURED. Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury, or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Lee's Infallible Ague & Fever Drops.

For the cure of agues, remittent and intermittent fevers. Hahn's true and genuine German Corn Plaster.

The above Celebrated MEDICINES are sold wholesale and retail, at the Store of J. GALES, and no where else in Raleigh. Where may be had, gratis, Pamphlets describing cures performed by the above Medicines—the number, importance, and respectability of which, fully justify every article of the advertisement.

VALUABLE LANDS, MILLS, &c. For Sale.

AS I am desirous of removing, either to the State of Ohio or Indiana, I wish to sell, at a fair price—

640 acres of Juniper & Cypress Swamp Land, in the great Dismal in Gates county, adjoining the lands of Wm. Smith and others—This land appreciates in value, in consequence of the growing demand for Shingles, &c.

21 1/2 acres in Orange county, 8 miles north-west of Hillsborough, on which is a Saw Mill nearly new and in good repair, 2 or 3 common Houses, a sufficient quantity of cleared land to employ 3 or 4 hands, well adapted to the culture of Tobacco or any kind of Grain, well watered and timbered.

200 acres of Piney Land about 2 miles from the said mill, unimproved.

100 acres of Piney land 2 or 3 miles from said mill, with a small improvement.—Both of which tracts are of a tolerable quality.

550 acres where I now live, 10 miles north-west of Hillsborough, on the road leading from Hillsborough to Caswell Courthouse and Lenox's store; on which is a comfortable Dwelling House, other convenient houses, a young Apple and Peach Orchard of about 1000 trees just beginning to bear, a new Grist Mill with 2 pair of Stones, Bolting Cloths, &c. a valuable Distillery, the house of the distillery and mill each two stories high, 50 by 24, and the under story of both built of stone; 2 Stills, Stands &c.; a sufficient quantity of cleared land to employ 8 or 10 hands, and equal in quality to any land in this part of the country, well timbered, a number of excellent Springs, a good Stand for a country Store and Boarding House, as it is convenient to one of the best Schools in the State, under the care of the Rev. W. Bingham.

360 acres adjoining the above, of a good quality, well timbered, &c. with a small improvement.

Also the Crop of every description now growing, the stock of Horses, Cattle, Hogs, and Sheep (1-2, 3-4, 7-8 and full blooded Merinos), valuable Household and Kitchen Furniture, 2 or 3 new wagons well finished, farming utensils, &c.

All or any part of which I am willing to sell on moderate terms—one third to be paid when possession is given, in specie or notes on either of the Banks of this State, the remaining two thirds at convenient instalments. If not sold at private sale before the first Tuesday in December next, on that day, and from day to day until all is sold, will be exposed to sale at Public Auction, on the premises where I live, all the above Lands, Crops, Stock, &c. The terms will be more fully made known on the day of sale.

JNO. CAMPBELL. Harmony Hall, June 18. 26

P. S. Should I sell at private sale, I will give timely notice in the Raleigh Register and Star, to prevent disappointment.

NEW GOODS.

THE subscriber has just returned from New York, and Philadelphia, with an extensive Assortment of

Dry Goods, Hardware, &c.

Well suited to the present and approaching Seasons, and which he will dispose of on the most reasonable terms. JOEL H. LANE. Raleigh, Sept. 12. 58 tf

SHOCCO LAND FOR SALE.

A TRACT of Land containing about 580 Acres, lying in Warren County, within one mile of the Shocco Springs, and adjoining the lands of Gen. Williams, R. T. Clark and others. This Land is very fertile, and perhaps better adapted to the culture of Tobacco, Corn and Wheat than any other in the County. It is well watered and in an agreeable neighborhood. Persons wishing to purchase may know the terms, by applying to Mr. Augustin Alston, or Micalajah Hawkins.

WM. GREEN MACON. Greene county, Geo. Oct. 7. 45 9w
