VIEW FROM THE WEST ROCK.

West Rock's about two miles distant from the city of New-Haven, Connecticut; it is the termination of the western range of mountains in New-England, called the Green Mountain Range.

Majestic front! with height sublime, In bulk of rock and time, What scene a delightful road are spread, View'd from the cloud encircled head.

Still nearer meet the wandering eye, The steepest under waving light, Read' the forest's breast head— Far round the hills of crimson spread.

Now moving on the gentle gale, Is heard the deep sounding wail, The mountain echoes with the sound And all is lit and joy around.

ON THE VARIATION OF THE NEEDLE.

The phenomena which attends this instrument, is solvable on the frangibility and cohesion of the attractive matter; there is a daily and hourly variation, as every piece moves under the denser medium of the aerial meridian.

There is also a periodical variation, which takes place in 19 or 20 years. The period of this revolving variation is probably the same with that of the Chaldean eclipse, the only kind of which we are acquainted with; for the earth, sun and moon, in that period, arrive at nearly the same relative positions; and the relation of the several revolving lunations in that period of nineteen years, have an accurate relation to the distant lunations and years of the Chaldean cycle of the Chaldean eclipse.

impregnated as well as the air, with its attractive matter—the northern pole, will be more or less attracted by the poles of the earth, in the proportion as it is more or less endued by the seasons, &c.

The rays of the candle which surround the flame thereof with a kind of dark colored lamina (seen by a curiously observing the flame, made in the top of either by the frugidity of the surrounding atmosphere extinguishing the heat thereof, or being the nature, color of some kind of the particles of light) incline to suggest to the mind the idea of a luminous matter with which they are surrounded; but it is a fact that this lamina of dark colored incandescence which surrounds the candle, will give polarity to a small needle, by exposing it to its operations at such a distance from the flame as it will not acquire more than a blood warm heat; the needle should be held in the fingers, that by your feelings you may moderate the heat, for should it become hot, the attractive matter will be destroyed. This fact sheds considerable light on our reasoning respecting animal and vegetable matter, respecting the principle of attraction, and gives a new energy to our speculations with respect to the satellites and planets.

N. E. I have not suspended the needle impregnated with this magnetic aura, but by trying its power on a card wire nearly balanced, its effect is clearly observable.

THE EDITOR of the Petersburg Republican is requested to insert the above advertisement for two months, and I award his account to the Postmaster Barwell's Store, No. 14.

JOSEPH GALES, Raleigh. I RESPECTFULLY inform the Public that I have just received from LEIPZIG'S Medicines Store, No. 46, Maiden Lane, New York—

A fresh supply of the following VALUABLE MEDICINES. Hamilton's Worm Destroying Lozenges.

Which have with sixteen years past cured an immense number of persons of both sexes, of every age, and in every situation of various dangerous complaints arising from WORMS, and from obstructions of foulness in the stomach or bowels.

This medicine bears no analogy whatever to other similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent; and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a weak old should so worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, and whatever is foul or offensive and thereby prevent the production of worms and many fatal disorders.

The Lozenges are particularly efficacious in carrying off all gross humors and eruptions, fevers and bilious complaints, and are the safest and mildest purgative that can be used in any occasion. Description of Worms and the symptoms by which they are known. Worms which infest the human body are chiefly of four kinds, viz:

1. The Ascarides, or large round worm; the Ascarides is small, round worm; the Cucubitus, or short, flat white worm; and lastly, the Tenia, or tape worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most unaccountably difficult to remove.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those described.

FACTS of this conclusive nature speak more in favor of a medicine than columns of pompous eulogy, founded on mere assertion. It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a case of these Pills taken once in every two weeks during the prevalence of our Bilious Disorders, will prove an infallible preventative and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these Pills is perfectly mild, and to be used by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile, and prevent its morbid operations; to restore and amend the appetite; to produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance.

They are celebrated for removing habitual costiveness, sickness at the stomach, and severe head aches, and ought to be taken by all persons on a change of climate. They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and safely preserved for use by every seaman.

Hamilton's Essence and Extract of Mustard. A safe and effectual remedy for rheumatism, gout, palsy, sprains and bruises, white swellings, old strains and relaxations, numbness, and weakness of the neck, pain of the side, headache, swollen face, frozen limbs, and every similar complaint. It prevents chilblains, or chapped hands, and the effects of getting wet or damp in the feet.

Restorative Powder for the Teeth and Gums. This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by abating of the acrimony, sensibility and looseness, which, suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative. Is recommended as a valuable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juvenile indiscretions, residence in climates inhospitable to the constitution, the immoderate use of tea, frequent intoxication, or any other destructive impertinence, the use of or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad habits, &c.

Hamilton's Elixir. Celebrated for the cure of colds, obstinate coughs, and hoarseness, approaching consumptions, and a certain remedy for the whooping cough.

Hahn's Genuine Eye Water. A sovereign remedy for all kinds of eye affections, whether the effect of natural weakness or of accident.

Tooth-Ache Drops. The only remedy yet discovered which gives immediate and lasting relief in the most severe instances. IT IS CURED. Lee's Ointment for the Itch. Warranted an infallible remedy at one application, may be used with perfect safety on infants a week old, not containing a particle of mercury, or any dangerous ingredient whatsoever, and not accompanied with that tormenting smart which attends the application of other ointments.

Lee's Infallible Ague & Fever Drops. For the cure of agues, remittent, and intermitting fevers. Hahn's true and genuine German Corn Plaster. The above Celebrated MEDICINES are sold wholesale and retail at the Store of J. GALES, and no where else in Raleigh. Where may be had, gratis, Family doctoring cure performed by the above Medicines—the number, importance, and respectability of which, fully justify every article of the advertisement. Raleigh, Jan. 20.
