TO BRIDGE BUILDERS.
THE undersigned are fully authorized to receive proposals and contract for the erection of a Bridge across Dan River, opposite the Town of Milton. Those wishing to undertake would do well to view the place as early as possible, as the proprietors are desirous of commencing the work as soon as convenient. The Commissioners are sensible of the importance of the Job as relates to themselves, the public, and the undertaker, and feel a willingness to give sufficient time for Foreigners to lay in their proposals. Mechanics of skill in the business are particularly invited to come well recommended—such a generous price will be given.
The plan upon which it will be built is not yet agreed upon, as consultation with the undertaker is thought advisable. Its length will be from two hundred and fifty to three hundred yards.

RAN AWAY from the subscriber on the 29th of December last, my Negro Man JOHNSON. He is a noted runaway, this being the third time he has eloped.
Johnson is of a very bright yellow complexion, about 5 feet 9 inches high, stout and well made, 25 years of age, branded on the right cheek with the letter R, which scarcely can be discriminated owing to his exertions when first done to make it a settled sore; the under part of his ear bit off by fighting (a very small bit). There is no doubt but he will attempt to pass as a Free Man of color, as he procured the Pass of one JERRY MAYHO, granted by the General Assembly of Virginia (instead of North Carolina, as stated in a former Advertisement); the said Pass is on kidskin or parchment (as stated by said Mayho) with several other papers of recommendation—one from John H. Haikes, as a wagoner, & others from men of the same name, besides some from Dennis Kendrick of Warren county, and perhaps sundry other papers with the supposed names of the most respectable Gentlemen of this County, as he procured such when he ran away the time before this, which was the means of his detection, they being all signed by the same hand. This is to forewarn all masters of vessels and all other persons from harboring or employing said Negro at their peril, as I am determined to put the law in force against such, if I come to the knowledge of the same. I will give One Hundred Dollars Reward to any person who will deliver said Johnson to me safe at my house, or Fifty Dollars if detected and secured in any Jail so that I get him again.

STOP THE VILLAIN.
Twenty-five Dollars Reward, if a white man.
STOLEN on the night of the 17th instant, from my plantation, on Hycos, known by the name of Leesbridge, on the main Road from Pain's Tavern to Leesburg, a large SOREBEL HORSE, about ten years old; when rode trots high, and holds his head high and spirited, carries his tail to one side, has a white streak in his face which inclines to one side, one or more white feet, long tail, unshed. What gives a deeper die to the villainy, he was the only horse of a widow woman, who has sold her property for the purpose of removing to Tennessee in a few days, and relied on him to carry her on.
Two other Horses were stolen on the same night, which gives the appearance of company business. The above reward will be given for the apprehension of the villain, or a reasonable reward for the Horse.
DUNCAN POSE,
Scotland, April 11 70 4w

N. B. A young Man called at said place late in the evening, as he said, for the purpose of having his horse fed, and was directed on to Leesburg, but said he should not go that way, as he wished to go on toward the Red House some nearer way, and he has not been heard of since. Two more Horses were Stolen near the bridge, in the direction which he went—the man rode a small grey horse or mare, was tolerably well dressed, (coat and waistcoat snuff-colored,) large red whiskers, and freckled face if clean. If unjustly suspected, it is hoped he will immediately produce evidence of the same. It is not as yet ascertained from what place he came. He called at my house and purchased a saddle blanket.

RALEIGH:
FRIDAY, APRIL 24, 1818.
Neuse River Navigation.—The Subscribers to the scheme for opening and rendering navigable Neuse River, from the vicinity of this city to Newbern, will please to bear in mind that Monday next is appointed for the election of officers, &c. The shares are nearly all taken.

We learn that the Steam-Boat Norfolk has commenced running from Newbern to Elizabeth City, and also the Stage between Fayetteville and Newbern, connected with it.

Winter returned.—On Sunday last, we experienced a shower of hail and snow, and have since had several frosty mornings. This unseasonable weather has greatly injured our gardens, and we fear all the blossoms of the early fruit are destroyed.

On Monday last, a detachment of the 4th Regiment of Infantry, marched from this city, (where they had been partly raised,) under the command of Lieut. Dulany, on their way to Georgia, to join the Army employed against the Indians. They were a set of fine looking men, were preceded by a band of music, and had quite a martial appearance.

Wm. R. Johnson, Esq. (late of Warren County in this State) is elected a Representative in the Virginia Legislature, from the town of Petersburg.

Congress adjourned.—It is expected that both Houses of Congress adjourned on Monday last, agreeably to their previous resolution. The remainder of the laws shall appear in the Register as early as possible.

The Norfolk Herald states that the President of the United States, will visit Norfolk on or about the 10th of May, but other papers say, that owing to the protracted session of Congress, he will not make his contemplated Tour through the Southern States this summer.

Bank Robbery.—On the night of the 6th instant, two persons by the aid of keys of their own manufacture, entered the Mechanics Bank of Pittsburg, and carried off a large amount of specie and notes, none of which had been recovered on the tenth.—The bank directors have offered a reward of one thousand dollars for the apprehension of the robbers and the recovery of the money, or five hundred dollars for the robbers alone.

George Washington Campbell, a Senator in Congress from Tennessee, has been appointed by the President, with the approbation of the Senate, to be Envoy Extraordinary and Minister Plenipotentiary to the Court of Russia, in the room of Mr. Pinkney, who is about to return to the U. States.

General James Wilkinson has been appointed by the Governor of Louisiana, Quarantine Master for the port of New-Orleans.

The election which has recently taken place in MASSACHUSETTS for Governor, has terminated in the re-election of Gen. JOHN BROOKS, by a Majority, it is supposed, of ten thousand votes over Mr. CROWNSHIELD, the Republican candidate. The election was thin, not having been contested with the warmth, and of course not with the acrimony, heretofore usual in that state.

On the 4th inst. the new flag of the United States was hoisted on the flag-staff of the House of Representatives. This is the first flag that has been made since the passage of the act for altering the banner of the nation. It was made in N. York, under the direction of the gallant captain Keel, late commander of the privateer General Armstrong. The stars are twenty in number, and so disposed as to form one great star in the centre of a blue field. The stripes are thirteen. The law on this subject goes into operation the 4th day of July next.

The bill for the admission of Illinois into the Union, having passed, makes the twenty-first State in the Confederation. The number of acres of land in the state is estimated at thirty millions, being about one-fifth larger than the state of Ohio—its present population at forty thousand, but increasing with unexampled rapidity. The unanimity of the vote with which this state is admitted into the association of the states, must be highly acceptable to the people of that territory, and we should think, cannot fail of producing those feelings of cordiality to the sister states, which it is well calculated to excite.

The agitation of the doctrine of Legislative Contempts, seems to travel northwardly, as Winter is chased by Spring, and will probably finally disappear with it, for the present season at least; but we sincerely hope the parallel will hold no farther, and that we shall be exempt from annual returns of it with the rotation of the seasons. The last we heard of the doctrine, it had reached New-Brunswick, and seemed to have acquired rigor in its progress northward. St. Johns' papers of the 7th ult. gives us the following account of it:

"The Legislature of New Brunswick have recently had before them, what they considered a case of a breach of privilege. They arraigned Mr. Durant, a printer, for an objectionable publication. He declared no offence was intended by him, & gave up the name of Stephen Humbert, Esq. a member of the house, as the author. Mr. H. said he considered the printer as inserting it on his own responsibility. The house immediately declared Mr. Humbert's seat vacant."

The bill "concerning navigation," which passed the Senate with but two dissenting voices, has passed the House of Representatives with an almost equal unanimity; sixteen votes only appearing in the negative. If the bill receive the sanction of the President, therefore, of which there is little doubt, it will become a law, and by a stronger vote, probably, than any act of a like character has ever received in Congress. This is the most important act, so far, of the present session;—particularly with reference to the commercial convention of Great Britain, which expires in the course of next year by its own limitation. The necessity for the act has been so apparent, as to overcome the reluctance to pass it, which, at the last session, caused its postponement; and the vote it has received may be regarded as a pledge of rigid adherence by Congress to the policy it discloses.—*Int.*

By the late Treaty with the Creek Indians, Georgia will acquire upwards of two millions of acres of land, which, together with the tracts of country obtained last summer from the Cherokees, will give to the state a country as extensive as the state of Connecticut. It is now the settled policy of the General Government to remove as soon as possible all the tribes of Indians who reside on the east, to the west of the Mississippi. It is believed the Cherokees will soon yield to the wishes of the U. States, and that in a few years, the whole of the Cherokee country will form another great accession to the jurisdictional limits of Georgia.

An elegant service of Plate has been presented to Com. Stephen Decatur, by his townsmen, in testimony of his brilliant service to his country, & the glory which his deeds have reflected on his name. This service of plate was executed, the Philadelphia Gazette says, by the first workmen in that city, and the principal pieces bore the following inscription: "By the citizens of Philadelphia, to their townsmen, Commodore Decatur, esteemed for his virtue, honored for his valor."

A convoy of seventy eight African Slaves was recently arrested at the Creek Agency. Probably a part of some of the cargoes that arrived at Amelia.

To prove the necessity of a radical change in the system of supplying rations to our soldiers, it will be only necessary to read the Report made to Congress by the Secretary of War, relative to the army contracts for Georgia: the documents communicated by the War Department, shows that neglect the most flagrant on the part of the contractor, has protracted the present Indian War, producing the sacrifice of many lives, and an enormous waste of public money. Notwithstanding the defalcation of this man, and the serious evils arising from it, the new contract has been given to him, with an advance of 370,000! the reasons assigned for this strange procedure were, as we understand, that he underbid all others, in the hopes of recovering some of the advances previously made. The Secretary of War is unquestionably an upright and able officer; but in this instance we fear he has fallen into an egregious error.

Huntsville, A. T. March 17.
The sales of the Public Lands on the north side of the Tennessee river, closed at this place on Saturday last. It is not yet ascertained, from actual calculation, what is the amount for which this section of country has been sold; but it is confidently believed that it has exceeded Four Millions of Dollars. There were about 42 townships offered; and the quantity which would not bring the government price was very inconsiderable. On the other hand, many, very many, places have been purchased by the practical farmer, for agricultural purposes, at rates which, although the fact may astonish our transmontane brethren, and perhaps stagger their credulity, yet affording the most convincing evidence of the unexampled prosperity of this important section of the Union. From 40 to 70 dollars per acre were repeatedly paid for choice places, estimated for their intrinsic worth, calculated only for cultivation, and bought by practical farmers. These facts speak volumes on the growing importance of this part of the Alabama territory—no artificial value has been put upon the land by the competition of visionary speculators. Purchases have been, for the most part, made with a view to actual settlement. More than \$1000,000, the first instalment, must be immediately realized by the government, for an inconsiderable portion of the forests of Alabama.

Boston, April 4.
Many old Revolutionary warriors, amounting to about 220 men, have appeared before the hon. Judge Davis, during the past week, to present their claims for pensions under the act of Congress, passed on the 18th ultimo. These Old Veterans seemed to be chiefly common soldiers or inferior officers. A few of them were upon crutches; others bent down by age and disease; but some of them showed the remains of their former ardour, and their martial spirit still "fired the gazing eye." Their general aspect, however, was squalid, mean and needy. The interest of the scene chiefly arose from the associations which the contrast, between the present prosperity of the country they had contributed to defend, and their own decay of vigor, awakened in the mind. The nation at length has come to the determination, to pay those men in their old age, who, during the period of their active services, they allowed to suffer for want. It was delightful to consider the comfort they were now destined to receive, which would relieve them from all apprehensions for the future, and shed the mellow light of content upon the threshold of the tomb.

Mr. Editor—The Reader has noticed the Farmer's answer to his question. Now correct he may be; the Reader does not venture to say, but is by no means prepared to contradict him; for he has no doubt gone the right way to work.—as it is certainly a Geographical question, and not to be answered Mathematically, as attempted by the Sailor and Sidrophel.—But the Sailor having cut cable and gone, the Reader here begs his pardon, for he had promised not to follow him.
