

P. S. I beg leave to suggest the propriety of recommending the formation of a society for the naturalization of tea in the United States, as the best possible means of attaining that object. Collective exertions have generally a better chance of success than individual zeal.

CURE FOR COUGHS AND COLDS.

HAMILTON'S ELIXIR.

A sovereign remedy for Colds, Coughs, and approaching Consumption. A single trial will prove, that it restores the determination of the fluids to the surface of the body; and brings on the common healthful perspiration; that it discharges and evacuates the tough viscid phlegm or mucus, strengthens the weakened vessels of the lungs, and sheathes the acrimonious humors which irritates them, and finally discharges it. Thus striking at the root of the disorder, the symptoms are of course effectually and permanently conquered; the reverse of common medicines, which weaken the constitution, and give strength to the disorder, for the sake of moderating for the present some of its painful effects.

To parents who have children afflicted with the Hooping Cough, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable. The Elixir is so perfectly agreeable, and the dose so small that no difficulty arises from taking it.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have within sixteen years past cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or fulness in the stomach or bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent; and is so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body; but will without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest & most certain remedy known, and has restored to health a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness—having a pleasing appearance, and an agreeable taste.

HAIN'S ANTIBILIOUS PILLS.

This medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the southern and middle states, particularly in New-York, Philadelphia, Baltimore, &c.

The operation of these Pills is perfectly mild, so as to be used by persons in every situation, and of every age. They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions; to restore and amend the appetite, to produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costive-ness, sickness at the stomach, and severe head ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and safely preserved for use by every seaman.

Hamilton's Genuine Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, lumbago, numbness, white swellings, chilblains, bruises, sprains, pain in the face and neck, &c.

This valuable remedy is prepared both in a fluid state and in pills, and thus excellently adapted for external and internal use.

Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of Nervous Disorders, Violent Cramps in Consumptions, the stomach and Lowness of Spirits, back, Loss of Appetite, Indigestion, Impurity of the Blood, Melancholy, Gout in the Stomach, Pain in the Limbs, Hysterical Affections, and Relaxations, &c.

ITCH CURED,

By once using Lee's Sovereign Ointment. The proprietor informs those persons and families who are suffering under this disease, (against the infection of which no person is safe,) that if this ointment is used at night on going to bed, it never fails to perform a cure by the following morning, as thousands who have used it can testify. The peculiar excellencies of this infallible remedy for the Itch, over every other, are the certainty of a cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant, and its being not only free from any offensive smell, but equally agreeable with the most pleasant pomatum.

The Genuine Persian Lotion,

For cleansing and clearing the face & skin.

The Damask Lip Salve,

Restorative Powder for the teeth and Gums.

Hahn's Genuine German Corn Plaster

A certain remedy for corns, speedily removing them, root and branch without giving pain.

Hahn's Genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Infallible Ague and Fever Drops.

For the cure of agues, remittent, and intermittent fevers. A multitude of attested cures performed by the above medicines, may be seen at the place of sale.

The above celebrated Medicines are prepared by H. LEE, 46, Maiden-Lane; New-York, and sold in Raleigh only by JOSEPH GALE.

RALEIGH: FRIDAY, MARCH 5, 1819.

Council of State.—We learn that the Councilors have been notified by the Governor to convene here to-day, for the purpose of advising with his Excellency on the appointment of a Judge of our Superior Courts, to fill the vacancy occasioned by the late resignation of Judge Seawell.

Congress.—The powers of the members of the 15th Congress expired on the 3d inst. Of course the Session then closed, and our members may be expected to return home in the course of a day or two.

Supreme Court.—The case of M' Culloh against the State of Maryland, involving the question of the right of the several states to tax the Bank of the United States, is now before the court. The argument has involved some of the most important principles of constitutional law, which have been discussed with an equal degree of learning and eloquence, and have constantly attracted the attention of a numerous and intelligent auditory, by whom the final decision of this most important question, from the supreme tribunal of the country, is anxiously expected. It is supposed the argument will be continued for several days longer.

Mr. Justice Story delivered the opinion of the Supreme Court, in the case of the brig Friendschaft and cargo. The sentence of the Circuit Court was affirmed, and the property condemned. This decision settles a point of law very important to the mercantile world, that where a house is established in the enemy's country, and one or more of the partners reside in the United States, or in a neutral country, his share is liable to condemnation as prize of war, notwithstanding his personal domicile in the neutral country, as well as the shares of his co-partners, who are actually resident in the enemy's country. Int.

Franklin Fund.—The 1000l bequeathed by Dr. Franklin to Philadelphia, to be lent out to young mechanics, now amounts to \$15,774 28.

It being understood that Russia has relinquished to the United States all her right to the countries on the Pacific Ocean south of the 56th degree of north latitude, and that Great Britain relinquishes all hers to the same countries (after the ten years, stipulated in the late treaty with respect to a certain portion of them,) the United States will possess a territory embracing fifteen degrees of latitude on the Pacific Ocean. Ges. Mes.

General Jackson has, since his departure from Washington on a visit to meet a nephew at the Military Academy, received the most marked attentions. In Baltimore he was much waited upon, and a Public Dinner is to be given to him there on his return. In Philadelphia, a splendid dinner was given to him, at which Pierce Butler presided, assisted by C. Biddle and Chandler Price, as Vice-Presidents. The following toasts were among those which were drank;

The eighth of January, 1815—A proud day of victory! transcendent in the annals of war.

National Gratitude.—May the heart of every American cease to beat, when gratitude towards the Heroes of his country forsakes his bosom.

Our Illustrious Guest, Major General Andrew Jackson—May he long enjoy the affections of his fellow citizens, for his gallant services on various occasions, particularly in the single repulse of an invading army near New-Orleans.

At New-York, where General Jackson arrived on Saturday last, at 12 o'clock, a salute was fired from the Corps of Artillery stationed there. Immediately after landing, the Gen. accompanied by his suite, was escorted by the Governor's Guards, up Broadway to the City Hall, where the freedom of the City was to be presented to him in a gold box, having been voted to him on the preceding evening. A Public Dinner is to be given to him. The Corporation have requested that he permit a full length likeness of himself to be taken for their use, and have offered him the use of a Steamboat to convey him and suite to West Point.

A splendid Dinner was given to Gen. Jackson on Tuesday last at New-York, at which the Mayor of the City presided. The following were among the toasts:

Andrew Jackson—The Saviour of the South; while the Mississippi bears her tribute to the ocean, his name and his deeds want no other remembrance.

The Spartan band of modern story.—The volunteers of Kentucky and Tennessee on the ramparts of New-Orleans.

The toast given by General Jackson was in the following words:

Dewitt Clinton, the Governor of the great and patriotic State of New-York.

It is announced, in the account of Saturday's Proceedings in the House of Representatives, that the President has officially communicated to Congress the Treaty with Spain, which has been solemnly ratified on our part, & will no doubt be promptly ratified by the government of Spain. With a view to this event, a bill has been introduced, and will probably become a law, for authorizing the Executive, in that contingency, to receive the Territory from the hands of the Spanish authorities, and establish a provisional government therein.

The Treaty was read in the House of Representatives with open doors, but is not to be published in extenso, the usage in such cases requiring it should not be promulgated until formally ratified. We have little doubt, however, that a Copy of it will shortly find its way to the Press. Meanwhile, it is sufficient to state, that the summary we gave of its contents appears to have been pretty correct, with the following additions:

All grants made by Spain, in the ceded territory, anterior to the first January, 1818, are to be respected.

The islands adjacent to Florida are ceded, with the territory.

It is stipulated that the territory shall, having the necessary requisites, be admitted into the Union on an equal footing with the original States.

In the Senate, after serious debate, that clause in the Missouri Bill, which proscribes slavery in that State, has been stricken out. If the bill in this shape pass the Senate, the question will recur in the House of Representatives, and the former decision of that body be revised. The fate of the whole bill is yet uncertain, from this circumstance.—Nat. Int.

London Institutions.—The following is an estimate made of the means of intellectual improvement in London. There are 407 places of public worship; 4050 seminaries for education, including 237 parish charity schools; eight societies for the express purpose of promoting good morals; 12 societies for promoting the learned, the useful, and the polite arts; 122 asylums and almshouses for the helpless and indigent, including the Philanthropic Society for reclaiming criminal children; 30 hospitals and dispensaries for sick and lame, and for delivering poor pregnant women; 700 friendly or benefit societies; about 50 institutions for charitable and humane purposes; about 30 institutions for teaching some thousands of poor children the arts of reading, writing, and arithmetic, on the plans of Mr. Lancaster and Dr. Bell; and these several establishments, including the poor's-rate, are supported at the almost incredible cost of one million per annum.

Georgia Journal.—The surviving editor of this valuable paper, being in a low state of health, has transferred it to Mr. John B. Hines, the editor of the Reflector, printed also at Milledgeville.

We understand, that, at a late period, it was determined to launch the ship of the line, building at the Navy Yard here, before the adjournment of Congress, in consequence of a desire expressed on the part of the Members. Great efforts have, in consequence, been made to get her ready; and, to give an idea of the extraordinary exertions of the mechanics to accomplish the object, we can state, that on Friday last, at 1 o'clock, they commenced coppering the ship's bottom, and finished it at the same hour the next day. This is an instance of expedition which was perhaps never equalled in any nation.

It has been suggested to us, that the vote in the House of Representatives, on yesterday, for laying on the table the amendment to the Constitution (as proposed by the Senate) for establishing a uniform mode of election, by districts, of Electors of President and Vice President and of Representatives to Congress, is no criterion of strength of the advocates of that measure in the House; since many voted for that course, on the ground that enough did not remain of the present session for a proper consideration of the subject, and not from unfriendliness to the principle of the amendment. Nat. Intel.

Execution of the Pirates.—The sentence of the law was on the 10th inst. executed upon John Williams, Francis Frederick, Niles Peterson, and John P. Rog, convicted of piracy and murder on board the schr. Plattsburg, while on a voyage from Baltimore to Smyrna. On signifying to the Marshal that they were prepared, they ascended the scaffold, and after embracing each other and their clergyman, they were launched into eternity. Owing to the fastenings of one of the ropes not having been properly secured, one of the unhappy men fell to the ground after being a few moments suspended. He was totally insensible, and was instantly run up again; the Marshal having made every arrangement to guard against, or to repair any accident. Boston Paper.

United States Bank.—Orders have been received by the Branch Bank in Richmond, we understand, from the United States Bank at Philadelphia, directing that a further curtailment of its accommodation paper should immediately take place. As a measure of necessity, the state banks have been compelled to follow the example; and orders were consequently received here on Tuesday morning giving instructions to that effect. This measure, added to the general mercantile depression which previously existed, will be most sensibly felt by all classes of the community, and in every section of the union. Fed. Rep.

United State's Bank Stock, is quoted, by the New-York Price Current of the 23d, at 112. At Baltimore, it is said to be still higher.

New Fish Bank.—We are informed that an immense bank covered with Cod has been discovered, extending from Papa Westra, in Orkney, along the west coast of the Shetland Islands. Already the fishing has been great. Next season it is expected that this hitherto hidden treasure will afford lucrative employment to several hundred sail of fishing vessels. The fishermen report, that from 150 to 200 sail of vessels can fish on it, and not out of sight of each other. We expect in a future paper, to communicate a full account of this important discovery. Ed. Mag.

MARRIED. In this city, last evening, General Boon Felton, of Hertford County, to Miss Betsey White, daughter of the late Secretary of State.

At the residence of Capt. Mark Harden, in Rockingham county, on the 9th ultimo, Mr. John Hill, of Stokes County, to Miss Julia Crawford.

DIED. On the 15th inst. Thomas Taylor, Esq. Clerk of the County Court of Bertie.

At Murfreesborough, on the 21st ult. aged 36 years, Dr. Isaac Forster of a disease, which from its symptoms and progress, bore a strong resemblance to the fatal Epidemic which prevailed there in the winter of 1814 and 1815.

In memory of Mrs. Jane Brand (late consort of Matthew Brand, of Rowan) who drew her last breath at 10 o'clock on the morning of the 3d inst. (February) aged 63 years, 3 months and 3 days; and had lived in conjugal affection with her husband, 42 years, 2 months and 16 days. She has left numerous friends and neighbors to lament her loss; especially, a lonesome, inconsolable husband, and her two youngest children, who are yet single with their father. To the honor of this deceased female be it said, that she was early brought up in habits of industry, care and economy;—to these virtues she added that of being a chaste keeper at home. To these specific duties, she strictly adhered to near her latter end; all of which is believed to be essential to a good housewife.
