CAMPBELL'S MAGAZINE.

LARGE editions of the Edinburgh & Quarterly Reviews have long been regularly circulated in the United States, and several other British periodical works of less note have been successfully reprinted in this country, but it is believed that there has never been offered to the American public a work possessing claims to such general patronage, as the NEW MONTHLY MAGAZINE.

The advertiser has good authority for saying that it has long been beyond dispute at the very head of all publications of the kind. If this opinion should accord with that of the public, it would seem not unreasonable to hope that from its more lively nature and popular character, this Magazine will be more generally read than either of the celebrated quarterly journals which sway the sceptre over the literature and politics of Great-Britain.

ORIGINAL PAPERS.

ARTICLE I. Lectures on Poetry, the substance of which was delivered at the Royal Institution, by T. Campbell. Lecture I, Part I. II. To the Rainbow, by T. Campbell. III. Each number will contain about 180 pages, just double the number in the Analectic Magazine, making three volumes per year of near 550 pages each. The price will be nine dollars per annum, payable on delivery of the June number; but to those who pay in advance a deduction of one dollar will be made. Subscribers at a distance from any agent of the publishers, can have them sent by mail not exceeding the postage of a letter. It is particularly requested that orders for it may not be sent, unless accompanied by a remittance. A compliance with this is so easy to every person who may want the Magazine, and it is so difficult and expensive to collect moneys from a wide extent of country, that it is presumed no offence can be given by the rule to disregard all applications in which this condition is not attended to. The numbers will be packed so strongly as to go safely to any part of the United States, or of British America, and will be regularly forwarded as soon as published.

The republication will date from the January number, and arrangements have been made, that after April, will enable the advertiser to issue them from their press in less than two months after their appearance in London. It will be necessary to delay the appearance of the first numbers for a while, in order to ascertain the probable extent of patronage that will be given. An early application from all who intend to receive the Work, is respectfully requested by the publishers.
