LATEST FROM ENGLAND.

New-York, Nov. 26.

London dates to the 22d, and Liverpool to the 24th of October, have been received at Boston, by the ship Triton. She sailed from Boston on the 9th of September last, arrived in Liverpool in 18 days, lay in port 25 days, and returned to Boston in 30 days, making only 73 days she was absent, and had a full freight both ways. Although the accounts brought by her are twelve days later than before received, yet we do not discover from the extracts which appear in the Boston papers, any news of importance. The Patriot, Daily Advertiser, and Palladium speak of their contents thus:

The intelligence in relation to Turkey and Russia, is still of an undecided character. It seems, however, to be pretty well understood, on all hands, that there is to be no war.

The Greeks continued successful in such warlike enterprises as they had attempted.

It was said a fleet of 60 sail of Turkish, Egyptian, and Algerine vessels, had collected, to go against the Greeks.

Accounts from Odessa, of Sept. 18, state that the Turkish fleet had gained an advantage over the Greek naval forces. They state also that the camps of both armies, which had been in sight of each other on the Pruth, were broken up, and the troops were marching to stations nearer home.

The Spanish Minister has, with his family, withdrawn from the Russian Capital.

The British Charge d'Affaires is said to have left Portugal in consequence of a difference respecting the tariff.

The number of vessels that sailed from Liverpool, Oct. 9, was estimated to be nearly 500.

It is stated that a fire broke out in the fortress in which Ali Pacha is shut up in Joannina, which consumed all his palaces, and many magazines filled with provisions. The report of Ali's death is renewed.

The topic of the King's continental tour and reception in his Hanoverian dominions, occupied less space in the English papers, and seems to have excited less interest, than was anticipated. His entrance into the capital of his Hanoverian dominions was the signal for great rejoicing there. He made his public entry on the 10th ult. passing on horseback through

The news from Barcelona, as late as the 18th September, is not quite so alarming as some would have made us believe. Instead of 80 or 100 deaths a day, during the 16th, 17th and 18th, they did not exceed 80, and on the 18th there were almost 400 sick. At Tortosa the sickness was much more distressing; for there was hardly a third part of the inhabitants left alive. Some disturbance had existed in Barcelona in consequence of parties of disorderly persons infesting the streets. Malaga, Seville, Cadiz, and all the neighboring ports, enjoyed a state of good health.—*Paris paper.*
