SHOCCO
MALE & FEMALE ACADEMIES,
Within two hundred yards of each other and two miles of the Shooco Springs.

THE first session of the exercises of this Institution, will re-commence on the 1st day of next month, under the care of Mr. PHILIP WILIE, of Newbern, and Mrs. MARY LUCAS, of Raleigh, on the following terms:—For Tuition \$10 in either department, and \$40 for Board for young ladies, or for boys under ten years of age, if boarded with Mrs. Lucas (who will be well prepared in a large convenient warm house, to receive 15 or 20) and for \$30, Board may be obtained within one mile of the same, in as respectable houses as any in this part of the State.
The Institution will be under my immediate inspection, where every attention will be paid to the morals and deportment of the Students entrusted to it. As to the qualifications of the Teachers, I cannot say more than may be seen in the annexed certificates.
WILLIAM K. KEARNEY,
Warren co. Dec. 20, 1821.

This may certify all whom it may concern, that the bearer, Mr. PHILIP WILIE, son of the Rev. Rufus Wilie, of Newbern, has been, during several years, under my immediate care, as a pupil in the Newbern Academy. During the whole of this period, he has been distinguished by the undeviating propriety and correctness of his deportment, as well as by his rapid progress in the various branches of a Classical and English education. As a Latin and Greek scholar, he may deservedly rank among the first of his age—and is probably surpassed by few—he is also well acquainted with English Grammar, Arithmetic, Trigonometry, and the branches usually taught in Schools and Academies. Indeed, such has been the singular correctness of his deportment, and such his thorough and critical knowledge of the languages, that I should most cheerfully and confidently recommend him as a suitable person to take upon himself the office of an instructor in any School or Academy.
JON. O. FREEMAN, Principal
of Newbern Academy
Newbern, Feb. 24, 1821.

I have known Mr. PHILIP WILIE from a child, and cheerfully testify to his uniformly good conduct, and correct habits. As one of the Trustees of the Newbern Academy, I have had frequent opportunities of observing, and of learning from the observation of others, his attention to study and progress of learning. I believe him a good scholar and an excellent young man.
WM. GASTON, Pres't of Trustees
of the Newbern Academy.
March 23, 1821.

We have been for some years Trustees of the Newbern Academy, and so far as our observation has gone, or we have heard from others, we entertain no doubt that the character given of Mr. PHILIP WILIE by the Principal of the Academy, is deserved by him.

Raleigh, 13th December, 1821.
The undersigned, having understood that proposals have been made to Mrs. MARY LUCAS, by the Trustees of the Shooco Academy, to take charge of the female department of the institution, over which they preside, cheerfully bear testimony to the fitness and acknowledged qualifications of this Lady as an instructress in the various branches of education, usually taught in female seminaries of learning. She is a native of their Town—has been raised and educated amongst them, and, from infancy, has been personally known to many of them. They, therefore, feel justified in expressing their perfect conviction of her abilities as an instructress of youth.—Mrs. Lucas, acted, for some time, as an assistant in the Raleigh Academy; and, as such, afforded the most unqualified satisfaction. During the present year she has been engaged in instructing a large and respectable class of young Ladies in MUSIC; and the progress of the pupils, under her care, justify the undersigned in speaking in terms of high commendation of her competency, to teach, in this useful and ornamental branch of female education.

VALUABLE POSSESSIONS
FOR SALE AND LEASE.
WILL be offered at Public Sale & Lease, at Leesburg, Caswell county, on the 10th instant (January) the subscriber's Store-House and Lot No. 40—and Lot No. 41, on which is a House 18 by 16 nearly new, occupied as a Tailor's shop—and Lot No. 59, on which is a new and large set of Stables laid off in stalls sufficient for a large number of horses. The above Lots having 4 acres of wood lands appertaining to the same, all lying attached together. And will also be offered for Lease for the term of three years from and after the 1st of March next, 250 acres, or thereabouts of valuable Lands, together with the large and spacious Dwelling or Tavern House in said town, with other requisite Houses and Lots thereunto attached—with some other detached Houses & Lots; there being on the premises valuable Orchards of both early and late fruit and an excellent Distillery Seat, where such has heretofore been carried on—and will also be sold with the house a parcel of valuable House Furniture of different descriptions, and some Stock of different kinds, including a Yoke of valuable young Oxen and a Cart, with some Plantation Tools, Corn, Fodder, &c. and a Ten-plate Fire-Grate. The Store-house having lately undergone new repairs and being immediately in the centre of the place and a corner house fronting to the street on two sides, gives it a decided preference as a Stand for Business, and as to the advantages as a place for a Tavern or House of Entertainment they are at once manifest from there being no other kept at the place and its being a place of uncommonly great public resort by both neighborhood and travelling custom, which makes the acquisition of such well worth the attention of those wishing to engage in business in either or both of the above lines, and which may not so easily be procured after the present stress of times subsides, which is now on the edge.
Terms for Houses and Lots (for sale) Notes made negotiable and dischargeable by usual bank instalments in the State or Newbern Banks—and for other property, terms at sale, and possession on or before the 10th of January next.
J. G. WILSON,
Leesburg, Jan. 2, 1822. 6f.
P. S. Part of the above Property having been conveyed to Nicholas Thompson, Esq. and Jeremiah Dixon, for certain purposes, the same is offered under their control and consent.

The Musical Prodigies.—It will be observed by the readers of the Register, that Mr. & Mrs. Lewis, and their interesting family, will perform here on Friday and Saturday. They have already arrived, and will this (Thursday) evening, exhibit the wonderful musical powers of these highly-gifted children, at the Long-Room in the Eagle Hotel. Those who have heard the inimitable performance of the Lewis family, can scarcely express the gratification they received—those who have not, have now an opportunity of partaking of the most harmonious feast which was ever offered to them.

His Excellency Governor Holmes left the City yesterday, for his Seat in Sampson County. He is expected to return to this place in about a month, with his family.

Our General Assembly brought its session to a close on Tuesday last, after a session of 45 days, (the longest we believe, that has been held for more than 20 years); in which were passed 49 laws of a public, and 91 of a local nature—a list of which appears in our first page.

Insolvent Debtors.—We mentioned, in our last, with regret, the repeal of the act for the relief of honest debtors. Since which has been passed an act, intended in some measure as a substitute for that act, which provides that creditors shall pay the prison expenses of his debtor for the first twenty days, provided the debtor be unable himself to pay them.

We are pleased at the rejection of a Bill introduced for the establishment of a Bank, similar to the State Banks of Tennessee and Kentucky, bottomed on the faith of the State, without funds; as the certain effect of all such institutions invariably produce a depreciated circulating medium.

Internal Improvements.—The newly-elected Board have held a meeting, and instructed the Civil Engineer to complete the Survey of the Cape-Fear River, and the Canal on that River, and that in the survey and examination, he particularly report to the Board his opinion of the most advantageous mode of improving the navigation of the River. That he will make a Survey of the Lumber River, and ascertain the practicability, utility and expense of opening a Navigation from the waters of the Brown and White Marsh, in the Counties of Bladen and Columbus, into the Waccamaw or Elizabeth Rivers. That he make plans and specifications for a Guard Lock on the Roanoke Canal; that he make an examination of the Roanoke from Danville to Plymouth; that he report to the Board his opinion as to the expediency or inexpediency of Locking down from the termination of the Canal at Weldon's, into the River. That he ascertain the true line by which a communication can be made between the waters of the Roanoke and Tar Rivers, beginning near Williamston, on the Roanoke, and entering near Washington, on the Tar; that he have a survey made of the same, and an estimate of the expense. That he report also on the practicability and utility of making a Road from Plymouth to the Lighthouse Landing, in Hyde county, through the Dismal Swamp. That he be instructed to fix the site of a Lock and Dam on Tar River. That he furnish to the Clubfoot and Harlow's Creek Navigation Company, Plans and Specifications of a regulating Lock for their Canal, and that he examine the work done on said Canal. That he visit the Broad River, and give instructions to the contractor as to the manner of executing the work on said River. That he inspect the Roads which have been made in the Western part of the State under the direction of the Legislature, or this Board, and report his opinion thereon; and that he make a survey of the Road from Raleigh to the Clarendon Bridge near Fayetteville, to be made as direct as is practicable and advisable, with an estimate of the expense of making said Road firm and durable.

We congratulate the friends of Internal Improvements on the accession which has been made, by the act of the late session, which appropriates to this object the Dividends arising from the Shares held by the State in the Banks of Newbern and Cape-Fear, which, it is presumed, will be from 20 to \$25,000 a year.

The Board adjourned to meet on the third Monday in June next; except sooner called together by his Excellency the Governor, the President of the Board.

Education.—Our readers will have pleasure in reading a Report of considerable length in the preceding page, from a Committee appointed on the subject at the late session of our Legislature, on the propriety of the old States receiving a like proportion of Public Land for the purposes of Education with those since admitted into the Union. If this proposition should be finally acceded to by Congress (of which there is little doubt) it will greatly aid the several States in the establishment of free Schools in every section of the country.

The Rev. William Hooper, late Professor of Languages in the University of North-Carolina, has resigned his situation, and accepted that of Principal of the Fayetteville Academy.

Anthony Mailen is appointed Vice-Consul of his Britannic Majesty for this State, to reside at the Port of Wilmington.

An account is given, in the Charleston Courier of Dec. 20th, of a case of atrocious piracy on an American vessel, the schooner Emily, Capt. Robbins, committed on the 12th instant, the day of her sailing from Matanzas. They hoisted the captain twice up by neck, to extort from him information of specie supposed to be on board of his vessel; and the second time they allowed him to hang until life was nearly extinct. "We sincerely hope," says the Courier, and most cordially we participate in the hope, "that the United States' brig Enterprise, Lieut. Kearney, which left Charleston on the 6th instant for the scene of these atrocities, may overhaul the freebooters, and afford them an opportunity of partaking in the amusement of hanging, a sport to which they appear so very partial."

South America.—On the 14th November the General Congress of Columbia passed separate votes of thanks to several public characters in Europe and in the United States, distinguished for advocating the cause of South America Independence; amongst which we find the name, of Lord Holland, the Abbe de Pradt, Mr. Clay, late Speaker in Congress, and Colonel Duane of the Aurora; Sir Robert Wilson and James Marryatt, Esq. members of the British House of Commons.—*Nat. Adv.*

Mexico and Columbia.—We have received some interesting information, apparently of an authentic character, touching the condition of Mexico. There is every appearance, at present, of that country achieving its independence—or at least of its so far accomplishing it, as to acquire the right of electing its Monarch from the European stock, or from a stock of its own, so as to be ruled by its own consent. We do not see, in what has occurred in that country, the germ of a Republican government. It appears to be doubtful, to say the least of it, whether that part of the American continent is prepared for Republican government. Its territory is too extensive for a single state; and we apprehend the federative system cannot be put in operation among a people whom neither habit nor education have yet prepared for it. The existence of an independent nation on our borders, however, is a fact of no little moment, pregnant with consequences which we are willing that others shall anticipate with great pleasure—with the sincere hope that their loftiest anticipations may be realized. For our part, we shall rejoice in the Independence of Mexico, as we would do in the prosperity of a neighbor, without enquiring whether or not it would have the effect to depress ourselves in the scale of society.

With regard to the Republic of Columbia, we have, of late, such information as is consoling to the friends of freedom throughout the world, and particularly delightful to all genuine Republicans. The bodings of our fears are falsified, beyond our most sanguine hopes. The People of Columbia have established a form of government, the principal difference between which and that of the United States is, that the President is elected for seven years instead of four. And even this is a difference in theory only—for the practice of our government, unless in extreme cases, is certainly settled that the President may serve for eight years, and thereafter be ineligible.—*Nat. Int.*

A New York paper of Dec. 24 says "Accounts were received yesterday from Havana, stating that *Barbide*, leader of the late revolution, had declared himself Emperor of Mexico."

Commodore Aury.—The death of Commodore Aury, by a fall from his horse, is confirmed by accounts brought from the Spanish Maine, in 23 days.

Boston, Dec. 25.
Arrived Portuguese ship *Marianne Falora*, Capt. Ventura Anacleto de Britto. She was from Bahia de Lisbon, and captured by the U. States' schooner *Alligator*, Lieut. Stockton, and ordered for this port, under the command of Lieut. Abbot. She came into port with the same pendant flying, and displayed in the same manner, as when she attacked the *Alligator*.

Extract of a letter from Lieut. Abbot, of the *Navy*, to Commodore John Shaw, commanding Naval Officer in Boston, dated Boston Harbor, Dec. 4, 1821.

"I have the honor to report to you my arrival at this place, with the armed ship *Marianne Falora*, having on board of her crew as prisoners—29 in number.

"This vessel attacked the *Alligator* on the 5th Nov. (lat. about 20 deg. 38 min. N. long. 30 deg. W.) in a most outrageous and piratical manner; but was foiled in her attempts to capture her, and, after an action of about an hour and a half, surrendered to the *Alligator*.

She is a ship of between 300 and 400 tons, mounting four long 12-pounders, two long 6-pounders, and four 24-pound carronades; 4 of which I was under the necessity of throwing overboard in a very heavy gale of wind, in the Gulf Stream, on the 6th inst.; in which gale we lost some of our spars, and had our stern boat washed away.

"The prize crew consists of 16, including myself and two officers, Midshipman George S. Blake, and Mr. J. Dixon, Master's Mate; and it gives me pleasure to acknowledge their uniform, vigilant, and correct conduct, and that they rendered me every possible aid. "I will take the liberty to add, that the reason of the great length of the action was, in consequence of the long guns of the prize, and Capt. Stockton's desire to get alongside before he commenced, (the wind being light,) gave her the fight to herself for more than one hour."

It is information which may be useful to many, as saving them needless trouble, that the Bank of the United States does not hold itself responsible upon any of its notes which shall be voluntarily cut into parts, except on the production of all the parts: Halves of notes, therefore, are of no value, unless the corresponding halves be produced. This determination seems necessary to guard against frauds, however harsh its operation may be in some particular cases.—*Nat. Int.*

Charlottesville, Va. Dec. 21.
The fortunate owner of the number which drew the great capital prize of forty thousand dollars, in the Grand State Lottery of Maryland, is Henry Gantt, Esq. of North-Garden, in that county, and was purchased about the 5th ult. This splendid gift of fortune was sold at the truly lucky Office of the Messrs. Cohens, Baltimore.

"Royal" Fracas.—It is reported that an altercation took place on Monday evening last, at the President's table, between the minister of "his most christian majesty" Louis XVIII. and of "his most gracious majesty" George IV.—which, on retiring from the table, so nearly came to blows, that they were only prevented by the interference of the representative from another foreign nation.

A subsequent account says that some expressions made use of by the British minister were misunderstood by the Minister of France, as reflecting on the French nation and government; and that the British minister afterwards declared that he had no intention to offend by any expressions that he had used—so there is a hope that peace is re-established between them.—*Niles' Register.*

Iron Water Wheel.—Mr. Burden, an ingenious mechanic of this city, is now building a cast iron water-wheel, at the Furnace of Messrs. I. & J. Townsend, which is designed for the Cotton Factory, belonging to these gentlemen, in Orange County. This wheel is 14 feet in diameter, and 15 feet bucket, as it is termed. The shaft is a hollow cylinder, 18 inches in diameter and one inch thick. The whole wheel, except the buckets, are of cast iron, and the several parts are so framed together with bolts, as to be easily taken apart, and transported to any distance. This kind of water wheel is now in use in Scotland and has been proved by fair experiment, to be far superior in all respects to the wooden wheels. The first cost is but little more than the ordinary kind, and no repairs are needed, so that there is on the whole a great saving in expense. We understand that several gentlemen, extensively engaged in manufactures, have examined this ingenious piece of machinery, and have given it the preference of any thing of the kind they have ever seen.—*Atlan.
