SHARON FOR SALE.
 THE place on which I reside, may be had on reasonable terms, for negotiable paper with Bank accommodation. It contains about 49 acres of Land, of good quality, bordering on the City of Raleigh, and on a public road leading from the City. Sixteen or eighteen acres are cleared and under cultivation, the rest is covered with a heavy forest growth, abounding with fire-wood and timber. The land contains an excellent rock quarry; is well watered by branches, and has two rock springs near the house, equal probably to any in the county. My dwelling is about 300 yards from the town line. The situation, therefore, has the advantages of town and country united, and is, in my estimation, the most desirable spot for a residence that I know in the State.—Apply soon.

Raleigh Register.
 FRIDAY, MAY 10, 1822.

Congress, it is presumed, brought its session to a close on Wednesday last. The Daily Intelligencer of the 4th inst. is nearly filled with the proceedings of the Senate (the injunction of secrecy being removed) on the disagreement between the President of the United States and that body, in relation to the construction of the act of Congress of last session for reducing the army, and the appointment of Col. Towson and Col. Gadsden. The Senate persisted in their disagreement to the President's nomination, 25 votes to 17. This being a matter of more than ordinary interest, we shall hereafter give the particulars.

We have arrived at the last day of the present session of Congress, as to any measures which have not yet passed the House in which they originated; the three last days of the session being, by the new rule, devoted, in each House, to bills which have passed in the other House. A large proportion of the business which has originated in the House of Representatives is yet undecided, and must lie over to the next session. The compensation bill, which occupied three days of the time of the House, (sitting eight hours each day,) and which is yet in suspense, has defeated many bills. The bill was yesterday laid on the table, and may be considered as one of those laid over to the next session. The subject of fortifications, and the contracts under them, have also occupied much time, and been the means of preventing the consideration of many important propositions. The appropriations for those objects, however, were yesterday passed by an overwhelming majority in the House of Representatives—and much other business was afterwards transacted.
Nat. Int. May 4.

The Spring Term of the Superior Court for Cumberland County, (says the Fayetteville Gazette, of May 1,) commenced its session on Monday last, his honor Judge Badger, presiding.—This day the criminal docket being taken up, John Sampson, a mulatto man, was arraigned for the murder of Burwell Rouse, in August last. An unsuccessful attempt being made by his counsel for a continuance of his cause until next term, the Court then proceeded with the trial, which has consumed nearly the whole of this day, and we stop the press to announce that the Jury returned (about half past 8 o'clock) this evening, with a verdict of *guilty* of the matter charged in the indictment.

Fire.—We regret to learn that the spacious and elegant mansion-house of Mrs. Elizabeth Boyd, of Mecklenburg county, in Virginia, was consumed by fire on the night of the 23d ultimo.—The house (supposed to be worth about \$10,000) was not insured. Much valuable furniture, such as book-cases, presses, bedsteads, &c. was also consumed.

Fire at Norfolk.—On the night of the 30th ult. another destructive fire took place at Norfolk. The flames were first discovered issuing from an old frame house on Fayette street, near the fire-proof warehouses of Mr. M'Intosh. Upwards of thirty houses were destroyed, many of which were inhabited by small families in indigent circumstances, who were deprived of their all, and obliged to flee for their lives in the dead of night, almost naked. Mr. John M'Phail is said to be the most considerable sufferer.

Fredericksburgh, April 20.
Another Fire!—The ruins occasioned by the disaster of Friday night had scarcely ceased smoking, before the flames had been re-kindled in another part of the town. About day-break on Thursday morning, the stables attached to the Indian Queen Tavern, occupied by Mr. John Gray, were discovered to be on fire, and in a very little time reduced to ashes. The tavern was with much difficulty and labour preserved from sharing a similar fate. We are sorry to say that eight horses perished in the flames.

Fire.—The most extensive fire which has occurred in Baltimore for some years past originated between twelve and one o'clock on Friday morning, in the stable of Mr. E. F. Bailey, in Eutaw Street. The houses in the immediate vicinity of the stable were closely built, and mostly of wood—and owing to the small supplies of water which could be commanded, the fire spread with much rapidity. A young man, named Montgarret, was killed, and several others had their limbs broken and were otherwise severely injured, by the falling in of one of the houses. The houses destroyed were generally small, and about thirteen in number.

Governor Wolcott & Lt. Governor Ingersoll, have been re-elected to their respective offices, in Connecticut, with but little opposition. The Republican cause is every year taking deeper and firmer root in Connecticut. Several towns have this year, for the first time, elected Republican representatives to their Legislature.

The Government of the city of Boston is, at length, organized. John Phillips has been elected Mayor, almost without opposition.

The United States' squadron, viz: The Constitution, Capt. Jones; Ontario, Capt. Chauncey; and Nonsuch, Capt. Turner, arrived at Gibraltar on the 17th of March, from Mahon, and were to sail for Cadiz in a few days. The Buenos Ayrean Corvette Heroine, was ready for sea.

New York, April 26.
West India Trade.—The following is an extract of a letter from a house of the first respectability in Liverpool dated March 18.
 "Our government have now finally determined to permit the direct intercourse between the U. States and our West Indies to be resumed, and orders have been sent out accordingly. America will be allowed to take back, in return for her flour, &c. any kind of West India produce; but we understand American flour will be subject to a duty of 10s. per barrel."

A letter, of a recent date, from a gentleman in London, who has access to good sources of information, to his friend in Boston, states, upon the authority of a distinguished individual in Paris, and a relation of one of the new ministry, that "new instructions have gone to America to the French Minister," which authorise the hope of a removal of all difficulties between France and the United States, as to commercial affairs.—*Boston Ev. Gazz.*
