FORFIGN.

LATEST FROM EUROPE.

New-Fork. June 30. The ship Atlantic, Taylor, arrived here on Saturday morning from Liverpool and Dublin. Capt. Taylor, has favored us with Dublin papers to the 22d, and the London Courier of the 18th of May, with a Shipping List of the same date.

Letters from Smerna to the 23d of April had reached London, which mention the arrival at Scio of the Captain Pacha, with the Turkish fleet, but it was not known what steps he would take with regard to the late revolution. Smyrna, which had lately exhibited a scene of harbarity, was quiet at the above date. One letter from that place mentions, that they were more and more confirmed by each day's arrival in the belief that war would take place between Russia and Turkey.

The distress in the west of Ireland becomes alarming. A letter from Sligo, of May 18, says, "We cannot accommodate the sick for want of bedding and food The type of the fever is at present more malignant than in May, 1817; it runs out without remission, frequently to 27 or even 30 days, and then leaves the survivor idiatic for weeks. Our situation is truly deplorable-our people unemployed-our manufactures extinguished, and our trade annihilated. The result is, incapability in the people to purchase provisions at any price. The fields are untilled, and even flaxseed, cheap as it has been, meets with few purchasers. The failure of the flax crop last year has been an additional cause of the poor man's calamities."

A bill authorizing the Lord Lieutenant of Ireland to advance 50.000l. for the employment of the poor in the public works of Ireland, passed the House of Commons on the 17th. The Corporation of London had subscribed 5001, to the fund for the Irish poor .-The Lord Lieutenant of Ireland had

also subscribed 5001. In the House of Commons, May 17, Mr. F. Robinson called for the second reading of the West India Trade Bill. Sir W. Curtis opposed the reading, and said he should oppose it in every shape, because the only advantage that would arise from its enactment would accrue to the U. States. Mr. Sergeant Onslow was in favor of its passage. The bill was then read a second time, and the House agreed

The ship Liverpool, has arrived at Portland, and the English brig Obaldiston, at Boston, bringing papers to the 22d of May inclusive, and London dates to the 20th. Our Boston correspondents have forwarded us extracts, which however possess but little interest.

A letter of the 20th says. " the ar rivals of cotton the last few days have been extensive, and but little doing in the market. Philadelphia fresh flour is offered at 50s. but there are no buyers at any price. There are two or three export orders for Pot Ashes from the Continent, limited at 42-6 per cwt. The sales of cotton during the week ending 18th of May, did not exceed 6600 bales. The public sales of the 17th, went heavily, at a reduction from former prices of 1-8 to 1-4d in Uplands, 1-4 to 1-2d in Orleans, and 1d in Stained Sea Islands.

LONDON, MAY 19.

Prohibition is the order of the day on the Continent. In the Chamber of Deputies of Baden a motion has been brought in, and received with accla mation: the object of it is contained in the following propositions, of which a Counsellor of State, as the medium of Government, expressed formal approbation:

I. That the entrance of all French production, without exception, should be absolutely prohibited, and the transit doties on these articles so augmented, that they should amount to a prohibition .- 2. Similar measures should be adopted towards the Prussian provinces on the Rhine, unless Prussia bolish its exorbitant duties on impoi tation .- 5. Similar measures should be proposed with respect to Holland and England.

UPPER NILE, &c.

Extract of a letter from an American gentleman to his father in Boston, dated Malta, April 16, 1822.

By my last, (June 20, 1820,) you know that I was open the point of accompanying Ismael Pacha to the conquest of the countries on the upper Nile. The expedition was crowned with the most complete success, and has laid open to the knowledge of the world a superb country, and will occasion no small acquisition to the Geography of Africa. I cannot, in the compass of a letter, which I am obliged to make a short one, inform you of my adventures in this romantic and

it has been sent to England for publication, and copies of it may possibly reach America in two months. I have had the honor of having contributed to the success of a most extraordinary expedition, which has been singularly successful, and of being the first civilized man that was ever on the banks of the Great Bahir el Abiad, which we have ascertained to be the main branch of the Nile. and probably the Niger. The singularity of this having fallen to the lot of a native of the new world, attaches, in the opinion of Europeans, no little honor to myself. and I hope will bring some to my country."-Palladium.

SPANISH PRIVATEERS OUT!

Baltimore, July 2.

To the politeness of the supercargo of the schooner King Solomon, arrived here yesterday, in 14 days from St. Johns. Porto Rico, we are indebted for the following information. The echr. Flizabeth, of Georgetown, Col with a valuable cargo from Laguayra, has been captured by a Spanish privateer, fitted out at St. Johns, and sent into Mavaguez, P. R.

The U. S. sloop of war Hornet, called off St. Johns about the 6th of June. and sent in a hoat. It was reported and believed that the Hornet subsequently re-captured an American brig and schooner which had been captured by the same privateer.

Two large brigs and two schooners had been fitted out and sailed from St. Johns within a month, with orders to capture every vessel coming from the Main, all the ports of which, in possession of the Patriots. were declared in a state of blockade.

This state of things imperiously calls upon the American government to take such measures as will effectually protect their vessels from the spoliations of the Spaniards in those seas.

BANK OF THE UNITED STATES.

The Board of Directors of the Bank of the U.S. did, on the 1st instant. declare a dividend on the Capital Stock of two and a quarter per cent. for the last six months.

The subjoined letter announces a fact much more interesting to the public generally than the amount of the dividend, viz. that Mr. Cheves has de termined to retire from the Presidency of the Bank, at the expiration of the present year. We presume he returns to his profession, which will afford him a more grateful and adequate recompense for his indefatigable attention to business, than the employment he now holds Mr. C. is one of the first men in this country, and we have always believed that none but high public considerations could have induced him to immure himself in the cells of a banking house. We trust for the sake of the country in general, and the stockholders in particular, that a successor to Mr. C. may be obtained of equal probity and talent with himself. It is already a matter of speculation who is to be his successor. Mr. Gallatin has been named, and would doubtless receive the appointment if he would accept it.

BANK UNITED STATES, JULY 1, 1822. To the Stockholders of the Bank of the United

I conceive it to be my duty to announce to you, at this time, that I intend, at the end of the present year, to retire from the station with which you have honored me. For rea-sons which it would be useless, if not impertinent, to mention here, it was my desire to have done so very soon after I entered upon the duties of the office. But I owed it to you and to the country, which was deeply concerned in the fate of the Bank, to hold the station until I could surrender it under circumstances which would enable you deliberately and with a full knowledge of the situation of the institution, to choose a successor; and until the Bank should be placed in a state in which a change could be made with safety, and without alarm. There is, in my opinion, no longer any thing in the situation of it which can make a change difficult, or njurious to the interests of the Bank, and therefore no duty on my part to forbear the eratification of a wish I have long anxiously indulged. My determination to retire is fixed and unchangeable, and I have therefore giv-en this early and public notice of it, that you may have full time for the selection of a fit person to succeed me.

You will, on the second of September next, have an opportunity of investigating the affairs, and becoming fully acquainted with the situation of the Bank. You will then, too, have an opportunity of conferring with each other on the selection of my successor; and to give the freer and fuller scope to your choice, I will resign my office a few days before the next election of directors, in order that, should you wish to select any member of the present board, who may have served three terms in succession, and therefore not re eligible unless he be President at the time, this neighborhood; calls his name SNEED, you may use your influence to have him previously elected to that office, and thus ren dered re-eligible.

FRIDAY, JULY 12, 1822.

Anniversary of National Independ ence. - The duties of this day, so dear to the freemen of America and so important to their posterity, were commenced with an appropriate Religious Service at sunrise in the Presbyterian Church, consisting of Praise & Prayer, sacrifices of the heart so peculiarly becoming a highly-blessed people on this occasion These services were performed by the Rev. Dr. McPheeters, our stated Pastor, the Rev. Shepard K. Kollock, of the University, and the Rev. Mr. Anderson, of the Methodist Church in this place.

Let the glorious 4th of July 1776. never be erased from the annals of our country, nor lase its value in the hearts of her citizens a day so replete with national blessings, & which set so shining an example to the nations of the earth. Well has our twin sister of the South followed the glorious example may she reap the same benefits, and confirm to the world this sacred truth, that man, enlightened by education, and instructed by example, needs only to will it, to be FREE!

The Raleigh Blues, commanded by Capt. John J. S. Ruffig. paraded at day break, went through their usual evolutions; and fired several feu-de joies which would have done credit to a veteran corps.

At 12 o'clock the citizens and military again assembled at the Church, Dr. M'Pheeter's again opening the meeting by Prayer. The Declaration of Independence was read, but no Oration was delivered, as the gentleman who had been appointed the Orator of the day was sick and unable to attend to that duty.

A suitable Ode (for which see our last page) was composed for the occasion, at the request of the Committee of Arrangement, by Maj. A. G. Glynn. and adapted to a popular tune. This Ode was sung by a select choir of male and female performers, accompanied with musical instruments. The whole ended as it began with an appropriate Prayer by the Rev. Mr. Kollock.

A Dinner was prepared on the aceasion at Mrs. Jeter's, at which Governor Holmes and Col. Wm. Polk presided. The Teasts, which follow these details, were prepared by a Committee appointed for that purpose, and were announced by the firing of cannon. Between the Toasts many patriotic and convivial Songs were sung by the company.

In the evening, the State-House Grove was tastefully illuminated; the night was still, and the lamps shone mildly amidst the foliage of the majestic naks. The seats, were arranged in form of an amphitheatre, and the spectators were comfortably accommodated. In front to the right hand, was the Orchestra, on the left several elegant Transparencies (prepared by Mr. Marling) were exhibited; in the centre of which was a full length of the Hero of his country, Washing-TON, the 'point of that pyramid' which raised the American name to glory. On his right hand the Goddess of Liberty-on his left the North-Carolina seventy four. The whole was surmounted by that happy emblem of our rising States, the American Eagle .-Several hundred persons were at this Concert al fresco, and all appeared to enjoy it.

We take the liberty to compliment Gen. Beverly Daniel, and those Gentlemen who liberally lent their aid in the Orchestra to forward the plan, for their exertions in favor of this very agreeable finale to the festivities of the This part of the entertainment evinced a due respect for the "fairest and the best" part of the community. by furnishing them with a pleasant and rational occasion to participate in the Anniversary Celebration. To the widows & wives-to the sons and daughters of Revolutionary Patriots, such opportunities must be peculiarly grate-

The place where this Concert was held was particularly appropriate. In the Legislative Halls of the Capital which stands in the grove, many of the Heroes of " the times which tried mens souls," having served their coun. try in the field, and "beaten their faulchions into proning hooks," entered into her councils, as legislators and statesmen-thus imitating their great leader, the Cincinnatus of modern ance it was so"? The Toasts of the day being gone through, a number of Volunteers were given; and the company retired in good time.

The Colombian Republic declared Independence on the 5th July-the 4th was the day fixed upon by the Congress-but the promulgation was una. voidably delayed by circumstances.-However, both days it is said, are commemorated in that country.

Mr. Russell's Rejoinder - A Rejoin. der to Mr. Adams's Reply to Mr. Rus. sell's Letter on the subject of the Treaty entered into at Ghent, appears at great length in the Northern papers. Mr. R. says his Duplicate Letter was written at the request of the De. partment of State; that it was not meant to be an exact copy of his formc letter, and examines the alleged variations, and vindicates the course he took at Ghent. Mr. R. declares that he had no knowledge of Mr. Floyd's intention of calling for the Ghent correspondence to be laid before Congress. And speaking of the circumstance of furnishing the Duplicate when applied to for it by a gentleman employed in the Department of State, he states,

"I considered it an act of frankness to place the paper, when thus applied for, whatever might be its merits or defects, in the power of the person who might consider himself the most liable to be affected by its publication. In this act there was certainly neither secrecy nor concealment to offend him. He had the sole power to publish it or not, as he might judge proper, and to consult his own feelings and interests, in forming his decision. When a private letter, written solely for the vindication of my own conduct, to those to whom I was immediately responsible, was asked of me, by a person known to be under the orders of the Secretary of State, for the purpose of presenting it to the public, a tribunal for which it had never been intended, and to which it ought not to have been presented without my consent, I certainly did believe, that I was permitted to make those corrections of the copy in possession, which appeared to me to be proper to exhibit my case most advantageously be-fore that tribunal. I the more confidently entertained this opinion, as the paper was not to be there exhibited without the previ ous examination and consent of the adverse party. Such were the views with which it was unreservedly confided to Mr. Adams .-But he communicated my private letter as the paper called for, and with it, he disingenuously communicated the paper, entrusted to him, not as the paper called for, but as a convenient vehicle for passionate invective and intemperate abuse against me. If justice, or even decency towards me, presented no obstacle, still, I should have believed, that 2 respect for the Representatives of the people of the United States, would have at least been sufficient to have deterred him from so rude and irregular a course of proceeding.

This explanation (says the Editor of the Enquirer) will satisfy Mr. R. much sooner than the public. The apology is not sufficient. Why did Mr. R. consent to mark his letter a duplicate, if he knew it was not such? Was this fair dealing ? Did Mr. R. ever inform the gentleman from the State Department, that he could not furnish a correct duplicate? Did he ever put him, or any one else on his guard a gainst the variations? Could any man suspect it was any thing else but a du-plicate; not withstanding Mr. R. was silent about it, and gave "no assuring ?-Was it fair dealing again to offor a letter under such circumstances (as must satisfy every one that it was a duplicate); and yet all the time, he had varied the original, so as to soften every thing that might bear against himself; in order to exhibit his own case to the best advantage?-The thing will not hold water! Mr R. in fact gives in a letter, stamped with the word " duplicate," and without 3. The Heroes and Patriots of the Revolutionary mark to lead the relder to suspect it was not a perfectly correct copy-and yet he had actually changed the paper to snit himself!
