FRIDAY, JANUARY 24, 1823.

The Officers of Police for the C were elected on Monday last, Gales was re-elected Intendent of P lice; Charles Manly, John Dunn an John V. Savage, Commissioners of Me Middle Ward; Willie Jones & Wm H Haywood, jun. Commissioners of the Eastern Ward; and James M'Ke and John Marshall Commissioners the Western Ward.

At a meeting of the newly elected Beard on Tuesday, John Dunn was re elec'ed City Treasurer ; a Committee was appointed to take into considera tion the propriety of so arranging the various duties of the City Constable as to employ two persons to perform them, instead of one as heretofore and a Committee was appointed to make another effort to prevail on Capt Hunter to remove his Millponds, for what may be deemed by disinterested persons, a reasonable consideration.

We are pleased to find that by late arrangement of the General Post-Office, the Mail will, in future, be carried twice a week between this city and Newbern. It will arrive here on Tuesdays and Saturdays, and depar for Newbern on the same days.

Since the new mail contracts went into operation, the Northern & Southern Stages arrive at, and depart from this place, earlier than heretofore .-The Southern Stage arrives every day about 5 o'clock in the morning, and the Northern at 11 in the forencon and depart in half an hour from the time of their arrival.

The conveyance will, for the present, we believe, be in a gig or on horseback, but we hope the time is not far distant, when we shall see a Mail Stage running between Raleigh and Newbern. It is almost the only direction from this place in which such an establishment does not exist.

A Bank Note of the following description was found some days ago in the stable yard at Shaw's about 30 miles south of this place, where the Mail Stage changes horses. The mail on this route having been lately robbed, it is suspected the robbery was committed at this place, and that this note was dropped by the persons concerned in the villainy. If the person shall see this paragraph, it would be well for him to communicate with the Postmaster at Favetteville, who has had two of the Stage drivers appre-

hended and examined on the occasion. The Note is of the Bank of Southton, for \$20, dated 17th April, 1818."

Convention Proceedings .- A meet ing of the delegates from the several Captain's companies of Rowan and Davidson counties, was held at Salis bury on the 9th inst in conformity with a previous appointment. The delegation was informed by Charles Fisher. Esq. of the meeting which had been held in this city by the members of the Legislature, favorable to calling a convention, and the proceedings of said meeting were also read. Several re.o. lutions were then proposed and unanimously adopted by the delegation. highly approving said proceedings, and recommending to the people of Rowan and Davidson the election of delegates to meet in the city of Raleigh, on the 2d Monday in November next, to concert measures with the delegates from other counties for the accomplishment of their object. \* 1

We refer such of our readers as are interested in the decision of the question respecting restitution for private property, which the British forces carried away during the late war, to the "Treaty of Indemnity" on our first

weeks of conjecture and uncertainty as to the probable result of the deliberations of the Congress at Verona, the late advices from Europe in our preceding columns afford more definite details. Our London dates, as will be seen, are to the 6th December, and are replete with importance. The "Imperial Congress" terminated its sittings about the 21st of November. but previous to its dissolution, permission was given France to invade Spain, and thereby enforce obedience to a requisition which had been maile of that nation, viz. the relin quishment of their present form of goveroment. This requisition the Envoy of Spain had assured the Congress would not be granted. France having previously demanded of the Allied Sovereigns a recognition of her right of interference, stands pledged for the execution of their decrees, se that the Cortes must ignomipions's abandon their Constitution, or bravel defend it against encroachments .-Such being the state of things, it requires no prophetic spirit to foretell that War between France and Spain is inevitable. For who can believe that the Patriots of Jain, after gallantly bursting asunder the chains of despotism which enthralled them, will ac cede to proposals so degrading When we call to mind the successful resistance made by Spain against the legions of France, and at a time too, when Napoleon was in the " full tide of successful" career-When we also reflect on the unbending obstinney of the Spanish character, their tried valor, and the peculiar advantages which their country affords for defensive warfare-When we take into consideration the unsettled state of France -that her subjects are disaffected, and that revolt only awaits an opportunity to rear its frightful head, we cannot but think it presumptuous in the infatuated Louis to venture upon measures which must endanger his throne, and may set all Europe in commotion.

The spirit which pervades all Spain cannot be subdued. It is a spirit which will render them capable of enduring every calamity, of rising superior to every misfortune, of extracting glory from every defeat, and of ultimately beating back every invader.

Hugh Nelson, of Virginia, has been appointed by the President of the United States, with the advice and consent of the Senate, to be Envoy Extraordinary and Minister Plenipotentiary from the United States to Spain, in the place of Mr. Forsyth, who is about to return home.

James Lloyd is elected Senator in who put this note into the Post-Office | Congress, from the State of Massachusetts, for six years from the 3d day of March next, when his present prisoner. The Jurors aforesaid are term of service will have expired.

New York .- The first Legislature of New York under the new Constitution assembled at Albany on Tuesday week. Gen. Erastus Root, as Lieutenant Governor, presides in the Senate, and Peter R. Livingston, Esq. was of the House of Representatives. Govenor Yates sent a message to the assembly the same day, in which he congratulates his fellow citizens, "upon the prosperous condition of our country," and declares that the " high reputation of our national government is still the theme of every patriot, and as have suffered corporal punishment. the admiration of the world."

He also speaks in the following terms of their Canal System: " It gives me pleasure to state, that the canal system, so wisely adopted & successfully pursued in the state, promises to realize the expectations of the community. The convenience already afforded to the inhabitants, by the facility with which the products of the country may be brought to market, has exceeded the most sanguine hopes of its warmest supporters."

Mr. Morse has offered to the House of Representatives a joint resolution. declaring that the practice of addressing the Governor by the title of his Excellency, the Senate and Assembly by the title of Honorable, and the members and officers and several other officers of government by the title of thon: orable,' shall be discontinued & abolished as incompatible with the repubfican principles of the constitution.

By the British brig General Brown, arrived at Charleston, the London Globe of Nov 23d. was received, containing the following highly afflicting intelligence.

" Death-On the 27th ult. on board the European, Affairs .-- After some ship Moss, on his passage from Philadelphia to this country, the Hon, WILLIAM LOWNDES. Member of Congress from South-Carolina."

Mr. Lowniles, accompanied by his lady and daughter, sailed from News Castle, in a very feeble state of health, on the 21st of Oct. he must therefore, linve expired a few days after leaving his native shores. The ship arrived at Deal in 26 days passage.

We learn, (says the New York Gazerte) from a friend who arrived in the James Monroe, that His Excellency M. Zea, the Colombian Minister, died at Chettenham about the 1st of December, whither he had gone for the benefit of his health, which had been very bad for a considerable time.

Mysterious Circumstance.- A few days since, a boy who lives with a farmer in the neighborhood of Harrisburg. was searching under the barn for some young pigs which had escaped from the stye and taken refuge there, among some old straw. The boy discovered some small pieces of paper as he was turning over the straw and dirt, and brought them out to his master; the papers were found to be bank notes, and were suspected to be counterfeits, but an examination they proved to be genuine. The boy was again sent under the barn, and after searching, he found good bank notes to the amount of \$1000, and several notes which were torn to pieces by the rooting of the pigs. The money is chiefly in Post Notes, and has been deposited in the Harrisburg Bank. There is sumething mysterious in this affair, and this publication may lead to a developement of the circumstances attending so strange a concealment of property .- Phil. Aurora.

Death from Cold .- On Wednesday dead body, and discover no marks of violence upon it-They have examined several witnesses in the jail, and are unanimously of opion and declare, that whilst they believe the diet furnished the prisoners in said jail is sufficient to support nature yet they consider the allowance of food per day, too small in quantity, and objectionable in kind, when they have reference to the sum allowed the jailor by law for the support and subsistence of each of opinion, that this boy Robert came to his death yesterday between 11 and 12 o'clock, from extreme suffering with cold, it appearing in proof, that

> The N. York Daily Advertiser of Saturday, says-" The U. S. steam gilley, Enterprize, having undergone the necessary afterations, Com. Porter vesterday hoisted his broad pendant on board of her, and made a trial of her speed in the harbor. The wind blew a gale at N. W. and alt ough she displayed a great deal of canvass, she proved to be stiff, and capable of carrying a great press of sail, An experiment was also made of the effect which the artillery might have upon the engine. The result was perfectly satisfactory—the machinery was not the least affected by the shock. The Enterprize then passed the city, moved by both sails and steam. The wharves were crowded with citizens. who viewed with much satisfaction the performance of the vessel, and the alterations made in the galley in so short a space of time. The appearance of the Enterprize is very war like."

Newspapers .- In the state of New-York there are at present 99 weekly newspapers, one published thrice a week, and 9 daily ones-in all 110. It is estimated that 164,000 papers are circulated weekly, and eight millions and a half a year-in value about \$270,000.

all things are governed by a Superior Intelliagence, rather than by a blind fatality. The same question being repeated, and a more direct answer required, the Juror replied -

2. I do believe in the existence of a God. Q. 3. Do you believe in a future state of rewards and punishments? A. I am ignorant of them. The subject is

beyond my comprehension. The Court, on hearing the answers of the Jurar to the questions proposed, decided that he was incompetent to serve as one of the Jury He was consequently rejected, although it was the prisoner's wish that he should pass between him and his country.

A sailor, at the battle of Trafalgar, who was actively employed at one of the guns on the quarter deck of the Britannia, had his leg shot off a little below the knee, and observing an officer, who was ordering him to be conveyed to the cock-pit, said, " That's but a shilling touch, your honour, an inch higher, and I should have had eighteen pence for it!" alluding to the scale of pensions allowed for wounds, which, of course, increase according to their severity The same resolute fellow, a they were lifting him on a brother tar's shoulders, said to one of his friends, "I say Bob take a look for my leg, and give me the silver buckle out of my shoe; I'll do as much for you another

The Dev of Algiers, (says a French paper,) has resorted to a very srigular mode of conquering the love of celibacy, by ordaining that every bachefor of more than 20 years of age shall receive at least once a day in public a sound flogging. The expedi at is said to be highly effectual, but it is apprehended that it may not on the whole promote the narmony of matrimony, as the husbands may be, inclined to deal out to their ribs some of the sufferings by which their common felicity was gained.

Origin of the term "Spinster."-Among our industrious and frugal forefathers, it was a maxim that a young woman should never be married until she had spun herself a set of body, bed and table linen. From this custom all unmarried women were termed spinsters, an appellation they still retain in all law proceedings.
