City Police.—Monday next is the day fixed by law for the annual election of the Intendant of Police and Commissioners of the City. We are of opinion that too little attention is generally paid to this election, when it is considered that these officers fix the amount, collect and expend the City Taxes, and have the sole charge of the municipal regulations of the City.

Mr. Long one of our Representatives in Congress who has been detained thus late from his post, by indisposition, has taken his seat.

The Supreme Court have granted licences for the practice of Law, to the following persons, since our last :

Thos. F. Davis, Wilmington.

County Court.

Adolph C. Ehringhaus, Pasquotank,
Bromfield L. Ridley, Oxford,

Wm. B. Street, Orange.

Cotton is selling in the Petersburg Market, from 13 to 13 1/2 cents.

The Bank of the U. S. has declared a Dividend of 2 1/2 per cent. for the last six months.

Nicholas Biddle has, unanimously been re-elected President of the Institution for the ensuing year.

The Jews.

The Legislature of Maryland have just decided that the Jews shall hereafter enjoy in that State, an equality of political rights with other denominations of persons. An act was passed by the Legislature of 1824 to this effect, but before it could become a part of the Constitution, it was necessary that a succeeding Legislature should ratify it. This has been done by the Legislature now in session, and the wonder is, that Maryland should so long have suffered this stain upon her character to exist, when even the bigoted Monarchs of Europe are removing those lines of religious distinction, which are inconsistent with a sincere devotion to the Almighty Father of all.

When such proceedings once begin, there is no calculating where they will stop—if a Legislature has the right to disfranchise any portion of freemen, because they believe in the God of Abraham, Isaac and Jacob, they may next decide which of the various sects are the true Christians and disfranchise the rest.

GEORGIA.—The Legislature of this State adjourned *sine die*, on the 22d ultimo. The bill to lay off the state into Districts, for the election of Representatives to Congress, did, contrary to information previously received receive the signature of the Governor, and became a law. So that the election of Members of the Twentieth Congress will be made, in this State, by Districts.

Previous to adjournment, a proposition was made, we learn from the Savannah papers, to nominate Andrew Jackson as a Candidate for the Presidency of the United States at the next election. A motion to adjourn *sine die*, which succeeded, put an end to that proposition.

The following acts show that the Legislature were not so much engrossed by party contentions as to lose sight of the character and interests of the State:

An act to lay out a Central Canal or Railway through the State.—(This act makes it the duty of the Board of Public Works, so soon as it shall be organized, to take into consideration the construction of a Canal between the Atlantic coast of the State, or the navigable waters which enter the Ocean within the limits of the same and the Western limits of the present inhabited part of the State, and to search for and investigate the best route by which such Canal may be conducted, with the ultimate object of connecting the same with the waters of Tennessee or the Mississippi rivers.)

An act to authorise Ebenezer Jencks to construct a Canal from Ogeechee to the Alabama.—(This act grants to Mr. Jencks a loan of fifty thousand dollars, to assist him in carrying on the work, upon his giving bond and sufficient security for its payment.)

An act to incorporate the Mexico Atlantic Company of Georgia.—(The Company is authorised to create a capital stock of two millions of dollars, to be raised by subscription in shares of two hundred dollars each. Five dollars on each share is required at the time of subscribing. The affairs of the Company are to be managed by five Directors, chosen annually by the Stockholders. The object of the Company is to connect by Canals and Railways, or either, the waters of the Atlantic in this State with the waters of the Gulf of Mexico. The Company is required to lay before the General Assembly at every session, a correct account of its actings and doings. The Company is bound to complete at least 20 miles of a Canal or Railway for use, on or before the first day of January, 1830, and 20 miles every year thereafter, until the work is done.)

An act to require persons who may hereafter commence the Practice of Physic in this State, to obtain a license from a Board of Physicians appointed by the same, for the purpose of examining such as purpose to practice.—(It is provided in this act, that if any person is known to practice for fee or reward hereafter, who is not now a practicing physician, without such license, he shall be subject to indictment, and on conviction, be fined not exceeding \$500; and for the second offence, imprisoned two months.—The same act provides that all persons who may hereafter commence the business of vending Drugs, shall previously undergo an examination and obtain a license, or be subject to the same pains and penalties as those who may practice physic without a license.)

A Public Dinner was given in Augusta on the 21st ult. to our distinguished fellow-citizen, William H. Crawford; and on the evening of the 23d, a splendid Ball. The Mayor presided at the Dinner, assisted by Maj. Freeman Walker. A very large number of persons are said to have partaken of it.

Melancthy accident.—Mr. John S. Fox, of Mecklenburg county North Carolina, aged about 25 years, a member

of the Medical Institution of this city, walked off the bridge at the Ferry, foot of Barclay street this morning and was drowned. Mr. Fox had been attending the lectures during the winter, but on account of ill health was obliged to leave the city, and arose before six o'clock this morning and in company with a fellow student was proceeding to the steam boat to cross the river and take the stage for the southward, intending to return home. It being dark and Mr. F. walking in haste some little distance before his companion, the latter called out to him to be careful, but the advice was too late, for the next moment, Mrs. F. then being on the bridge, and hearing the steam whirling from the boiler, and probably supposing the boat lay close to the bridge, stepped off and thus met a watery grave. The boat was lying about twelve feet from the bridge. The body of the deceased was found about four hours after the accident occurred. [N. York E. Post, Jan. 5.]

The Late Fire.

We have scarcely any thing to add to the particulars which we gave in our last paper. The number of buildings consumed, as we then stated, was about forty of every kind and description. They were, for the most part, insured. The loss, to individuals, consists chiefly in produce, and heavy articles in the Grocery line, stored in the Lumber-Houses, a portion of which, we regret to understand will fall to the lot of our country friends to bear. It is supposed that between two and three hundred Bales of Cotton were destroyed. There were no lives lost, although some wounds and bruises were received in the attempts made to subdue the angry element. Doubtless many of our enterprising citizens have suffered considerably in having their goods burnt and damaged by hasty removal, yet it is true that we hear of but few cases of severe distress in the whole range of the conflagration—such was the goodness of Providence in tempering this visitation to the various circumstances of the number involved in so extensive a calamity. Still there may be instances of peculiar hardship—should such in fact exist, we feel a strong confidence arising from our knowledge of the community in which we live, that the eye of benevolence will not be slow to seek them out, nor the hand of charity prove tardy in applying the proper remedy.

It is agreed on all hands that the fire was the work of an incendiary; but as yet the perpetrator remains undiscovered. Would it be unwise in our Corporation to offer a Reward for information—might it not stimulate enquiry, and by possibility lead to detection and conviction? Is there any objection to this course?

Petersburg Int.

On the 20th of August, the Federal Congress of GUATEMALA solemnly ratified the Constitution framed the preceding year by the Constituent Assembly or Convention. On the 1st of September, a deputation from the Congress placed the decree or law of confirmation in the hands of the President, and public rejoicings took place on the occasion.

The MEXICAN papers mention the brilliancy and fullness of the *tertulias* or evening parties of Mr. POINSETT, the American Minister; which they consider as highly useful to the society of the Capital. The *Aguila Mexicana*, when relating the manifestations of the universal joy produced by the surrender of the Castle of San Juan, adverts to the particular delight which that event afforded Mr. Poinsett, who had fought in Chile and always exerted and espoused himself for South American Independence. When a foreign Minister has such a hold on the memory and affections of the people with whom he resides, in addition to the best general qualifications, he is truly at his proper post.

On the 26th November, a committee reported to the Mexican House of Representatives a comprehensive plan for the payment of the interest on the national debt and the support of the national credit. A department is to be organized for the purpose, with order, good faith, and punctuality, as its governing principles. Ample resources are said to exist for the discharge of all past obligations. The trial by jury has been established in the Federal District. The State Governments were in regular action, and tranquility reigned in every one of the nineteen members of the Union. We, North Americans, even, may feel surprise at the promptitude and comparative facility with which the apparatus of the Federal system has been adjusted and set in motion among our Southern neighbors.—*Nat. Gas.*

MARRIED.
On Tuesday evening last, by the Rev. W. Hammit, in this county, Rev. Zion Smith to Miss Sarah Page.

DIED.
In Granville county, on the 29th ultimo, in the 98th year of his age, Mr. William Floyd. Until a few days before his death, he enjoyed good health. He was a man respected and beloved by all who knew him, and what can probably be said of few, he never was engaged in a law suit of any kind. He descended from one of our best families, and eight of whom are still living—seven grand children, and sixty great grand children.
