Raleigh Register.

TUESDAY, JUNE 20, 1826.

It is stated in the New-York papers, that the surviving signers of the Declaration of Independence and the President and Ex-Presidents of the United States, have been solicited by the Committee of Arrangements to participate in the grand Jubilee celebration at that city, for which the most splendid preparations are now making. We fear, however, the growing infirmities of age will prevent the acceptance of the flattering invitation, and thus will be blighted the prospect of an assemblage, which would present the grandest spectacle of moral sublimity, ever witnessed. What a train of reflection is excited by the fact, that out of the fifty-six patriots who witnessed the birth of our national independence, the tomb has claimed all as its own, except three, *John Adams, Thomas Jefferson, and Charles Carroll*, of Carrolton—men who, in private worth and public virtue, may vie with the most renowned Senators of Ancient Rome, in the proudest days of her liberty. Yes!—only three of those who watched over the infant slumbers of the young Hercules, are living witnesses of the fact. Could the curtain of futurity have been withdrawn from the eyes of those patriots who signed the Declaration of Independence, with what confidence would they have adled the sanction of their names. But they were cheered by no such animating spectacle—all before them was cloud, and darkness, and storm. Though unable to leave their homes on a long, tedious and fatiguing journey, may they long live to behold the growing prosperity of this happy land, and to share in the gratitude which a generous nation cherishes for her founders.

Beauchamp, convicted of the murder of S. P. Sharpe, Esq. of Kentucky, and sentenced to be hung for the same, on the 7th July, has made a full confession of the crime, even designating the spot where he had buried the bloody knife.

The declaration of the Editor of the N. C. Journal, that the Editors of this print are determined, even without provocation, to embroil him in a controversy, is perfectly gratuitous, and we know not how he has persuaded himself into this belief. We have merely adopted a course, in relation to the paper under his editorial guidance, which we have invariably pursued towards other papers, viz. candidly and courteously to express our dissent from any sentiments advanced, at variance with our own. In noticing the articles which appeared in the Journal, relative to the Geology of the State and the River Cape Fear, we were influenced solely by a wish to correct error, and to vindicate the Board of Internal Improvements from unmerited censure, in not having immediately obtained the services of an Engineer in the place of Mr. Fulton. Our remarks were certainly not "invidious," and we think it would require optics sharp, indeed, to perceive in them any thing "malicious."

Lightning.—We understand from a correspondent in Stokes county, that on the 8th inst. the dwelling house of Mr. *William Covington* was struck by Lightning and totally consumed by fire, together with his Tobacco Steamery

and Smoke-house. The whole of their contents were destroyed except three beds and a desk containing his papers, but not even a change of clothing for any of the family was saved. Among other valuable articles lost, were 1600 wt. Tobacco, 500 Gallons Old Brandy, a quantity of Cotton, &c.—Loss estimated at 3000 dollars. A small daughter of Mr. Covington, through fear ran into the Steamery, before it had taken fire and concealed herself in a hog-head, where she was accidentally discovered, and extricated at so late a period, that the adventurer's clothes took fire as he brought her out. Providentially, there was not a member of the numerous family lost or materially injured—the eldest son having alone received a slight shock from the electric flash.

Greece.—The cloud which seemed to lower over the prospects of this heroic people, and threatened to deluge them in ruin, has been succeeded by a bright sky. The Greeks have met with great and uninterrupted successes, and the intelligence comes in such a manner as to be entitled, we think, to credit. It was brought to New-York, by the *Desdemona*, from Havre, and subsequent advices confirm the news. We trust that the Greeks are now rapidly advancing to the goal of triumph, and that they will go on to conquer as well by their humanity as by their courage. The Extracts which follow give the particulars.

Corrupt, April 5.

The obscurity which has hitherto reigned over the horizon of Greece has been dissipated. Ibrahim, having lost a large portion of his army in his reiterated attacks upon Missolonghi, lately recalled to his assistance the troops which he had left at Glanentza and Pyrgos, to the number of 4,000 men, and, on the 24th of March, made a general assault, in which he was mortally wounded. The enemy attacked the city upon the sea side, where the fortifications were known to be weakest. It is not known how many men have fallen on each side; but it is pretended that several thousand Turks have been killed, because 8,000 Greeks, who arrived during the heat of the action, fell upon the Turks, and thus accomplished the victory. These troops were commanded by Col. Fabvier. Ibrahim received his wound from the musket of a soldier, who saw him employed in giving orders to his troops and recalling them to discipline. After this defeat, Ibrahim took refuge in Lepanto, and passed over to Patras. This finished this famous siege, from which the enemies of liberty expected their triumph, and flattered themselves with the hope of seeing the Greeks fall and return to slavery.

The state of things in the Peloponnesus improves every day, and every thing is becoming more regular, and returning to order. The National Assembly, which has been convoked, not at Megara, but at Methros, (between Corinth and Argos) carries on its business with zeal. The Government has commanded Colethi to set out and assemble and re-ignite the forces of the Chiefs of Romei, and fly with them to the relief of Missolonghi. Colocotroni is to remain blockading Tripolizza, until that place, pressed by famine, is forced to surrender. Colispolio is to go to Patras, and Nicetas is to observe those of the enemy who are at Vavrenno, and the President, Conduittas, at the head of the Spartates, is to besiege Modon and Coron.

Under the date of Ancona, April 15, is confirmed the above defeat, adding the death of Ibrahim.

Another Arrival.—By the Ship *Brighton*, arrived at New-York, London dates to the 6th May were received, which confirm the successes of the Greeks. Cotton had advanced $\frac{1}{2}$ to $\frac{3}{4}$ per pound.

United States' Bank Stock has risen in value, from \$112 to \$118.

A man by the name of McCartney, confined in the house of correction, in Boston, for intemperance, committed suicide on Friday last, by cramming his stocking down his throat!

Conspiracy.—At New-York, Robert G. Smith and Joseph Cutler, have been indicted for a conspiracy to extort money from a respectable physician, Dr. Samuel Macaulay. He was called on to attend upon Smith's wife, who was represented as in ill health. On his second visit, he requested her to change her position, when she screamed out, and some person sprang upon the Doctor's back, when he perceived Smith & Cutler, one of whom observed, "he

was caught," and they threatened to expose and ruin him if he did not pay \$1000. They visited him at his office and offered to take 300 dollars, which was refused, and the Doctor had them indicted, and the jury found them guilty. Similar attempts to a considerable extent, had been made in that city.

Valuable Land for Sale.

The subscriber will sell the place on which he at present resides, situated on the waters of Grassy Creek, in Granville county, eighteen miles north of Oxford and ten southwest of Clarksville, Va. It contains 400 acres, about 200 acres of which have been cleared; 18 or 20 acres of it in highly improved lots, and upwards of 40 of good creek low grounds, well set with Clover and Green Sward. The plantation also abounds with the same Grass, being originally the first quality of land in the county.

One third which has been cleared, being in the possession of those some years previous, who could not attend to it, has grown up in natural growth, which is no disadvantage.

The balance is in tolerable condition; one half of that which is in clearing good tobacco land; the other is better calculated for cotton than tobacco. The tract is very nearly divided, as to its soil, in two kinds, viz. red, or mulatto, and gray soil.

There are within the plantation 10 or 12 Springs, the water of which is excellent and was never known to fail. The plantation may be divided into 3 or 4 parcels so as to have a bold branch to pass through each division. The small experiment made with the cotton crops, have sufficiently proven, that it is admirably adapted to the growth of that article; and as for tobacco, wheat, and corn, its adaptation is unquestionable. The improvements consist of a good Dwelling-house, and other necessary Out-houses, good Apple and Peach Orchards of choice fruit; also fruit-trees of almost every description which this country affords. There are also elegant trees for shade around the house and yard.

This place is noted for its pleasant, healthy, and eligible situation. A more agreeable, respectable neighborhood cannot be found. The society is good, and surrounded with Christian societies of different denominations.

Any person wishing to enjoy health and the above advantages, would do well to see it: It has been frequently and justly observed that few places would bear a higher state of improvement. There is also a good Mill-seat on it.

Being determined to sell, a bargain may be had by those disposed to purchase.

Possession will be given on or before the 10th of October next.

Terms of sale.—A credit of one, and two years, one half each year; the payments to be secured by a deed in trust on the land.

HENRY YANCEY, 67 2m

June 7. P. S. Should there be not enough in the above, there are two other tracts adjoining: one containing 250 acres, and the other 200 acres, unimproved land, for sale. H. Y.

A bargain may be had.
I am authorized to sell the valuable tract of land in Wake county, 5 or 6 miles south of Raleigh, which lately belonged to William Scott, containing 400 acres more or less, conveyed by said Scott to Hinton & Brame, and by said Hinton & Brame to Edward Watkins of Virginia. The terms of the sale will be very reasonable and made to suit the purchaser.

Unless they are disposed of at private sale before the 3rd Monday in August, I will then offer said land at vendue before the Court House door in Raleigh, on a credit of 6, 12, and 18 months, the purchaser giving bond, with security for the purchase money bearing interest from date—while I reserve the privilege of one bid at said sale.
