ELECTION RETURN. Rutherford .-- Martin Shuford, S. John Carson William Richardson, C. State of the Poll .-- For Senate, Shuford 559 James Erwin 476. For Commons, Carson 850,

Green 451, John Bradley 304. We received, a few days since, copies of the addresses of Professor Everett and Mr. Webster, in commemoration of the ser vices of the illustrious patriots, ADAMS and JEFFERSON. Of the former, we gave an extract in the last Register, and a portion of the latter will be found in this day's papaper. Our readers will concur in opinion with us, that both Orations are in the usual style of their authors. The subject was susceptible of the finest display of genius, and they improved it to the best advantage The oratory of Mr. Webster, however, is of a more energetic character than that of Mr. Everett, and a correct estimate may be formed of it, from a criticism of Homer, thus translated by Pope:

Judge P. P. Barbour has been solicited by about one hundred individuals of his district, to become a Candidate for Congress at the next election.

It has been stated in some of the News papers, that the Governor of Alabama had issued his proclamation, for a called meet ing of the Legislature of that State. This is not so, but a meeting of the citizens of er of South America has entered into a marriage Monroe county, was lately held, for the purpose of taking into consideration the policy of the proposed establishment of a Branch of the United States Bank in the city of Mobile. We understand, from the Preamble, which they adopted, that the Bank of the United States had been solicited to establish a Branch at Mobile; and that they had accordingly determined to establish one, early in the fall of the pre-Richardson 702, Jesse H. Benton 524, Joseph sent year. The meeting, regarding this scheme as 'extensively injurious to the

chartered banking institutions of the State and particularly the State Bank of Alabama,' by draining them of their specie capi tal, and curtailing their operations for the relief of the people-came to a resolution. that it was the duty of the Governor of A labama, to inform the Bank of the United States, that the people of the State had not authorised the request to be made, and would view the establishment with a great deal of regret. They moreover resolved, that it was the duty of the Legislature to pass laws for preventing any such establishment ; and that it was the duty of the Governor to lay this subject before the Legislature.

FROM THE NEW YORK STATESMAN, AUG. 23. Splendid Marriage Contract.-It was matter of

considerable surprise that President BOLIYAR re mained so long at Lima, after the object of his patriotic visit was accomplished ; but is now, if we may credit a report in one of the morning papers, happily explained. The illustrious Liberator was detained by the silken cords of love, and actually employed in exchanging vows of enduring affection, and forming a marriage covenant with one of our republican beauties from Connec. ticut. Letters from Lima state that the delivercontract with Miss AUGUSTA HART, of Savbrook, Conn. sister of the lady of Commodore Hutz, and sister of the lady of the Hon. HEMAN ALLEN, our Minister to Chili. Miss Hart is one of stven sisters, all beautiful and accomplished. If this be true, it is the greatest match (as they say in Connecticut) ever known in this or that coun try.- We hope his Excellency will come to the United States and consummate the contract b marriage at Saybrook, in the good old Republ

## FOR THE BALEAGH REGISTER.

can way,

Messrs. Editors : I have read the communication of your correspondent, Tom, and feel disposed to give him credit for the few sensible ideas which I have gleaned from his piece. I am well aware of the utility of examining dead bodies in order to discover their morbid appearances, &c. But I am apprehensive that Tom labors under that unpleasant disease which he denominates Dyspepsia of the mind. His intentions may be good ; and if he is a Physi cian or Quack, I hope he will read some learned authors on the science of mind as well as on that of Physic, in order to give us a better example of his skill than that which he has furnished. Should the present communication of Tom be regarded as a fair sample of his learning and analogical reasoning, his case must be pronounced hopeless. He no doubt thinks himself a hard-headed thinker, and has vanity enough to believe that others will do likewise; but from the general scope of his piece, I am warranted in believing him to be one of those Mountebanks, who would pronounce a Flea-bite to be Oppro brium Medicorum: Or perhaps the Fac-Simile of a celebrated Doctor who sung the Funeral Hymn of his Patient, after pronouncing his case hopeless, when in a short time after, this same patient was restored to health (as I understood) by an old wo-DICK. man.

It is with more than common pleasure, we record instances of benevolence which July, being on his way to Panama. The arise from the pure sources of Philanthro-To relieve distress from the impulse pv. of the moment, when the feelings are interested and strong emotions awakened by humane; but to seek out objects of distress, The last Warrenton Reporter mentions an instance of rare benevolence in a gentleman of Charleston, S. C. who, hearing of the distress which seemed likely to ensue in that county from the failure of crops, enclosed to a friend a bank bill of \$100, to be applied for the relief of such as might need assistance by that county. A small donation has been made in a person of this city, to the same fund-but no names are mentioned in the Reporter. We are very glad to see it stated in the Reporter, that the public alarm has much subsided on this subject.

There is certainly no vice the influence of which is so degrading and debasing, both in a moral and intellectual point of view, as that of intemperance-none which eshibits in so humiliating a light to human pride, the weakness, the frailty, the littleness of human nature. It is a vice which not only destroys the character, the fortune and the happiness of the individual himself, but infects those of the community, and saps the foundation of public virtue by lowering the standard of public morality. Whatever therefore may have a tendency to check this growing evil, deserves to be generally circulated. The following from the Greensbomugh Patriot, , rinted in Guilford county, in this State, is admirably calculated to

We regret to learn from the National Intelligencer, that our Minister to Colombia and one of our Representatives elect to the Panama Congress, the Hon. Richard Anderson, died at Carthagena on the 24th Intelligencer speaks of him thus :

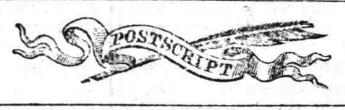

The United States in general, and his native State of Kentucky in particular, have sustained great loss in the death of this distinguished gentleman. On his former visit to Colombia, he recital or view, of misery is generous and lost his excellent wife-which heavy bereavement to himself and family he has not long survived. Mr. A. was one of the most amiable of to sooth misfortune by administering relief. men, and most discreet of politicans. A career to " do good by stealth. and blush to find of a few years in Congress disclosed his valuable qualities. He possessed, in an emident degree, at fame," is charity in her brightest form. a clear discriminating mind, combined with the most conciliatory and persuasive address ; the effect of which has often been seen on the floor of the House of Representatives, and afterwards on that of the popular branch of the legislature of Kentucky, in the midst of the greatest conten tion, like oil stilling the agitated waves of the Ocean. In this point of his character, it is sufficient praise to say he nearly r-sembled the lamented WM. Low NDES. In brief, without offence be it said, the country could not boast a better man than RICHARD ANDERSON.

> Map of North-Carolina .- We have pleasure in stating, that in addition to the counties heretofore mentioned, the Courts of Anson & Montgamery have ordered surveys of their respective counties, for the use of John Mac Rae, Esq. in the publication of his new Map of the State. Mr. Mac Rae is confident, from the state of the materials, that he will be able to publish the Map in Fuyette Obs. next Spring.

### LATE ARRIVAL.

The fast-sailing picket ship Cambria arrived at Philadelphia, brought London papers to the 24th July. They contain the official Report made to the Emperor of Russia, on the secret societies and alleged conspiracies said to have produced the explosion which signalized his accession to the throne. The conspiracy is stated to have extended throughout the empire, and to have had in view the establishment of a Representative Government.

The news from the manufacturing districts of England, possess a mournful interest. The distress of the Spitalfield weavers are as great as those of Lancashire and other parts of the borth. The king has given £1000 for the relief of thy distressed in London. In Scotland and Ireland, the misery of the poor is very great, and the most serious fears are entertained for the issue of these accumulated misfor-

Amidst other distresses, it is stated that there are 1200 printers out of employment in London alone ! We sincerely feel for our poor brethren of the type.
