TUESDAY, MARCH 6, 1827.

A new Fire Company.—The law under which the late Fire Company acted, having been found inadequate to the forming of an efficient body of men for the purpose of extinguishing any Fire which might occur in the city...

We have just heard, that a most atrocious murder, was perpetrated on Friday evening last, on the body of John Clifton, in the southeastern part of this county.

The negro suspected has been brought to the Jail of this city. When arrested, he was ordered to surrender any knife or other weapon he had about him.

As might have been expected, the correspondence between Mr. M'Duffie, and Mr. Metcalfe, growing out of some statement made in the communication of the former gentleman to the Calhoun committee, resulted in a challenge from Mr. M'Duffie to Mr. Metcalfe.

The Virginia Conference, will hold its next annual meeting, to commence on the 27th February, 1828, in this City.

At an election held in Tallahassee, Florida, on the 21st January, David Ochiltree, late of Fayetteville, in this State, was elected Intendant of that City.

The Fayetteville Observer announces that John Gilchrist, Esq. the very respectable Senator from Robeson county in our last State Legislature, has yielded to the solicitations of his friends, and become a candidate to represent that district in the next Congress of the U. States.

Owing to the scarcity of Corn in this section of country, no doubt many expedients will be adopted to prevent its consumption. We yesterday heard of one, which we trust, for the credit of the State and for the sake of humanity, stands alone...

Congress adjourned of necessity on Saturday night last. At our last dates, there was a vast amount of unfinished business.

The House of Delegates of Virginia has decided a second time, by a vote of 162 to 5, that Mr. Billups is not constitutionally eligible to a seat in the Legislature.

A splendid Ball was given in New-York, on the 22d ult. at which, it was said, two thousand ladies and gentlemen attended, for the doubly patriotic purpose of honoring the birth-day of the father of his country...

Foreign.—After an interval of nearly sixty days, it will be seen by reference to the Foreign head, that we have advices from Liverpool to the 16th January.

The Duke of York, heir apparent to the Throne of Britain, is dead, aged 64. He was the most dissipated of England's Royal sons, and yet Sir Walter Scott in his eulogy upon him, talks of the purity of his religious feelings.

The "London Ledger" of the 12th Jan. states that a naval armament is to proceed to the West Indies, consisting of 5 sail of the line, one 50 gun ship and 2 frigates, under Sir Thomas Harding.

"The blockade of Cuba may, and no doubt will, create a good deal of bad feeling on the part of the Government of the United States of North America, for their trade with that Island is fully as necessary to their military Navy, as the Newcastle coal trade is to that of the United Kingdoms."

A dreadful explosion took place on the 2d January, at Port au Prince. It was occasioned by driving nails into some barrels, to secure the hoops, at the Arsenal, a building of immense size.

His R. H. the Duke of York, next brother to the King, and Commander of the Army, died on the 5th of January, after a long illness of the dropsy—the papers occupy several columns with the particulars of that event.

The loss is estimated at three millions of dollars. President Boyer had left the Arsenal a very short time before the explosion, in time, says the writer, "to save us from a terrible revolution."

The Press in France, seems placed under the most degrading surveillance, the tendency of which is to neutralize all the advantages to be derived from the most powerful of all engines, in the cause of rational liberty.

The French papers speak of it in the strongest terms as inimical to every principle of justice and liberty, and subversive of legislative and commercial interests.

The Constitutionalist, a French paper, states, on the authority of a correspondent at Toulouse, of Dec. 29, that Ferdinand had abdicated in consequence of a revolt headed by the Monks, in favor of his brother, Don Carlos!

New Mail Arrangements.—It affords us pleasure to learn, that the Proprietors of the Norfolk and Fayetteville Stages are making preparation for an additional trip per week on this route, so that they will, after the 1st of April proximo, leave this place on the mornings succeeding the arrival of the Augusta Stages, viz: on Sundays, Wednesdays, and Fridays.

We also learn with pleasure, that it is more than probable we shall shortly have a stage six times a week between this place and Augusta, instead of three times, as at present.

The excellent head of the Post Office Department lays us under new obligations for these changes, which are calculated to add so essentially to the convenience of correspondence and travelling in this part of the country.—Fay. Obs.

The citizens of Milton propose as a testimony of their regard for Gen. R. M. Saunders, their fellow townsman, and representative in Congress, to give him on Saturday the 10th March, a public dinner. It is expected that the Vice President of the U. States will be in town about that time, who will be invited.

The United States and Georgia.—We copy from the Georgia prints, some papers which seem to have rather a menacing aspect. We do not believe, however, that any thing serious will come of it.

"Since writing the above, I had a conversation with Col. Samuel A. Bailey, who has just returned, and completed his second mission to the Little Prince. He says I may state, that he, the L. P. and the nation, are perfectly reconciled and satisfied with the survey of the lands, and that their only object was to protest against the survey, for the purpose of having a legal claim (so far as that would effect it) on the U. States, for the payment of the value of the land west of the new treaty line, and if any difficulty ensues, it will be effected by the United States' Government."

Banks, &c.—It appears by the report of the Comptroller, made to the Legislature, that there are in the state of New-York thirty-eight banks, forty-seven insurance companies, thirty-five manufacturing companies, and one Lombard association.

VERY LATE FROM ENGLAND.

Norfolk, Feb. 26. To the very polite attention of Captain Crabtree, of the fast sailing regular packet ship Richmond, which arrived in Hampton Roads on Saturday evening last, in 37 days from Liverpool, we are indebted for papers of that city from the 11th to the 16th January—from which we make some interesting extracts.

His R. H. the Duke of York, next brother to the King, and Commander of the Army, died on the 5th of January, after a long illness of the dropsy—the papers occupy several columns with the particulars of that event.

Cotton, as will be seen by the statement of the Liverpool market of the 15th, which we publish, had remained very languid during the week preceding—sales small and generally at a decline of 1-8 of a penny per pound. On the 16th there was some improvement, and the demand was more animated.

At Oxford, on the 14th ultimo, Mrs. Elizabeth Yancey, wife of Mr. Jackson Yancey, in the 25th year of her age.

In Halifax, on the 25th ult. Mrs. Susan, the amiable consort of Capt. James Shimmons, of that place. Mrs. S. was esteemed by all who knew her. She has left an affectionate husband, and two small sons, together with a number of friends and relations to mourn her loss.

On the 24th ult. at Wilmington, in the 47th year of his age, lamented by his family and regretted by his friends, Archibald Allen, Esq. a native of Manchester, England; but for many years a resident of Wilmington. He was an officer of the Bank of C. Fear, from the time of its establishment, until within a few months of his death; and in this situation, was remarkable for the exactness, fidelity and peculiar ability with which he fulfilled his duties.

"Nothing definitive is yet known as to the state of the negotiations with Spain.—The rumours in general are of a warlike nature, and there is really reason to fear that Ferdinand will risk a War rather than accede to the just claims of this country & of Portugal. The Quotidienne, a French ultra paper, and the organ of the Apostolicals, states positively, that Ferdinand has rejected the demands of the British government with more firmness than civility; and the London Courier, a paper likely to be well acquainted with the matter, speaks of the state of the negotiations as most unsatisfactory. It is stated that the church, the only body possessed of wealth in Spain, has offered to support Ferdinand with all its treasures and its influence, & an army estimated at from 8 to 10,000 men is assembling on the frontiers of Portugal. This looks more like war than peace."

Various are the accounts from Greece. Nothing however, appears to warrant the belief that their affairs are in a worse state than when our former accounts left there. One account states that instructions had been sent to the Internal Internuncio at Constantinople, to take an active part in the negotiations set on foot with the Divan, by the Ambassadors of England and France, relative to the affairs of Greece.—The most important preliminary was the cessation of hostilities between the Turks and Greeks and it was believed that point had been agreed to.

Greece—Important.—The following is extracted from the London Times: "There is at length good cause for congratulating Europe on the adoption of a final and decisive measure in behalf of Greece by the three great Powers of Great Britain, France, and Russia. The Cabinets of London and St. Petersburg had some time ago, transmitted their ultimatum to Turkey on this subject. The Court of the Tuilleries has acceded to the policy within the last fortnight, and resistance by Turkey to their joint demands is wholly out of the question. The point insisted on amounts to nothing less than a full recognition by the Porte the absolute and entire independence of the Greek nation, which recognition is to be officially communicated to the parties requiring it by a given day: failing which, the ambassadors of the allied Christian Courts are, on that same day, simultaneously to quit Constantinople.—Consuls were, at the expiration of the ultimatum, to be sent to Greece from England, France, and Russia."

MEXICO.

Accounts from Vera Cruz to the 1st inst. are received at Philadelphia. Mr. Sargeant and his suite reached the city of Mexico, on the 9th ult. The Congress of Tacubaya stands adjourned to the 5th March.

An conspiracy to overthrow the government and restore the state of things that existed in 1808, was discovered in Mexico on the 19th. The persons and papers of the conspirators were immediately seized, and investigations entered upon, the whole result of which has not been published, some of those concerned have, however, already been punished, and a proposition has been made in the Senate to expel from the republic all Spanish friars, except those who can give proof that they co-operated in effecting the independence of the country.—Nat. DIED.

At the house of her son, Albert G. Ruffin, in Hanover County, Va. Mrs. Margaret Ruffin, widow of the late William Ruffin, Esq. formerly of this City. In the fall of 1825, Mrs. R. lost in the short space of four days, her husband and a son; during the last fall she lost another son, a resident of the State of Mississippi, who breathed his last at Philadelphia. The affectionate wife and the venerable parent now follows them to the tomb; leaving behind her other children, many relations and a numerous circle of friends, to bewail her loss.

At Oxford, on the 14th ultimo, Mrs. Elizabeth Yancey, wife of Mr. Jackson Yancey, in the 25th year of her age.

In Halifax, on the 25th ult. Mrs. Susan, the amiable consort of Capt. James Shimmons, of that place. Mrs. S. was esteemed by all who knew her. She has left an affectionate husband, and two small sons, together with a number of friends and relations to mourn her loss.
