Is published every FRIDAY, by JOSEPH GALES & SON, At Three Dollars per annum, or One Dollar and a Half for half a year—to be paid in advance.

Raleigh Register.

TUESDAY, JUNE 19, 1827.

We are glad to find that so many of our County Courts have directed Surveys of their several Counties to be made, in aid of Mr. John M'Rae's publication of a new Map of the State.

The President of the U. States has issued his Proclamation, stating that having on the 30th ult. received satisfactory evidence from the Consul-General of his Holiness the Pope that all foreign and discriminating duties of tonnage and impost, within his dominions, so far as respects the vessels of this country, and the merchandise of its produce or manufacture imported into the same, were suspended and discontinued, that the foreign discriminating duties of tonnage and impost here are also suspended and discontinued; and will remain so, so long as the reciprocal exemption of vessels belonging to citizens of this country, and merchandise therein laden, shall be continued, and no longer.

It is probably known, to some of our readers at least, that the truth of the account which we inserted in the Register of the 11th May in relation to execution of Joseph Solia in Duplin county, has been denied by a writer in the Wilmington Herald, & the author of it rather harshly treated.

We had in the meantime, been applied to by the Sheriff of Duplin, for the author of the publication. We inclosed him the copy from which the account was taken, but the letter inclosing it had been mislaid.

For ourselves, we do not wish to occupy our paper with any thing further on this subject. The public have seen, or may see both statements, and they will come to their own conclusions as to the truth of the matter.

Firacy and Murder.—The brigantine Crawford, belonging to Troy, Massachusetts, was brought into the port of Norfolk, on the 13th inst. by four Spaniards. Captain Brightman, the master, and all the passengers and crew having been murdered, except the mate Edmund Dobson, (who was spared to navigate the vessel) a French gentleman passenger, and the cook, a colored man. The guilty wretches attempted an escape, except the principal, who, on finding the mate had made a discovery of their bloody deeds, cut his throat, and the others have been since taken and secured, and will no doubt answer with their lives! The vessel sailed from Matanzas, where these bloody villains were taken as passengers.

The Columbian Star, formerly issued from Washington City, (published under the auspices of the Baptist Society) will in future be edited by the Rev. W. T. Brantly, of Philadelphia, and printed in that city.

We understand that Dr. Todson has been appointed to take charge of the recaptured Africans, about to sail from Savannah for Monrovia (Liberia) vice Dr. Peaco, who died at Savannah.

Fatal Thunder Storm.—During a thunder storm in Chatham county, the week before last, the kitchen of Mark Bynum, Esq. was struck. Of four negroes who were in it, one was killed instantly, one so badly injured that his life is despaired of, and the other two seriously hurt.

Mr. Clay, Secretary of State, left Washington, a few days ago, on a visit to his domicile in Kentucky.

Massachusetts.—The message of the Governor of Massachusetts was delivered to the Legislature on the 6th inst. Among the objects recommended especially to their care, are the improve-

ment of internal communication; the advance of manufactures by substituting a home consumption of their fabrics for a dependence on foreign importation, and adherence to the national constitution, and the support of those who administer it with faithfulness, without reference to selfish, local or party considerations.

Mr. WEBSTER has been elected a Senator from Massachusetts to succeed Mr. Mills, by a large majority of both Houses of the Legislature. In noticing the translation of Mr. WEBSTER to the Senate, the Boston Courier (a paper not particularly friendly to the Administration) says: "This election has placed in the Senate of the United States a man who will faithfully guard the rights of his immediate constituents, and who will ably defend the measures of the National Administration, so far as they can be justified by a liberal construction of the Constitution, and tend to promote the prosperity of the whole country, and no farther."

Shocking Murder.—We learn from Wilkes county, that about the 10th ult. a man by the name of Parish Barlow, living 18 miles from the Court House, deliberately murdered his wife, by beating her on the head with rocks. He being intoxicated, she would have escaped from him had she been in health as she attempted to do so, having run about 100 yards before he effected his fiendlike purpose;—but she had not till then risen from child-bed, to which she had very recently been confined! Intemperance, we are told, was in this, as it is in most other similar cases, the cause which led to the commission of this monstrous crime. Barlow was committed to jail, to await the sentence of the law.

Trade of Fayetteville.—We have been politely favored, by the several owners of Boats on the Cape Fear, with a statement of the sales of Cotton carried from this place during the late season, and are glad to find that the aggregate is greater, by several thousand bales, than in any previous year.

At Broad Creek in this County, on Wednesday last, during a quarrel between Jesse McCotter and Nathaniel Clark, a negro man belonging to the former, in consequence of his rude interposition in behalf of his master, received a stab from Clark, of which he died the day following. Clark was immediately arrested and committed to prison.—Newbern Centinel.

Murder.—A murder was committed in Lenoir County, on the 28th ult. the particulars of which, as related to us are as follows: On the evening of the 27th, a daughter of Ezekiel Creech, was carried off and married to one Bender, contrary to the will of her father. Simon Rouse, a neighbour, was supposed by Creech to have been an accomplice in the elopement, and on their meeting the next day, a dispute ensued, which ended in the death of Rouse. The murder was perpetrated by Creech's discharging the contents of a loaded gun through the left breast of the deceased.—The Jury of Inquest gave a verdict of "Wilful Murder." Creech is yet at large.

Murders.—The last few days (says a Frankfort, Ky. paper of the 16th ult.) have brought us news of three shocking murders within less than 100 miles of this place. On Saturday night last, the house of Richard Cole, a well known tavern keeper ten miles from this place, in Woodford county, was attacked by R. Taylor and a Mr. Gillespie of the same neighbourhood, with stones. A negro woman was struck in the face and severely wounded by one of the stones, when an affray ensued between Taylor and Gillespie on one side, and Mr. Cole and his two sons on the other, which ended in the death of Amos Cole, who received 13 or 14 stabs from Gillespie. Gillespie and Taylor were taken into custody, and an examining court was held yesterday. There is said to have been an old quarrel between Taylor and the Coles.

A short time since, an important Will case was tried in the Court of Appeals, between different members of the Payne family in the county of Washington. One brother being unsuccessful, charged his successful brother with improper conduct in the suit, and since their return home, deliberately shot him with a rifle.

The third case is that of a negro man in Owen county, who was murdered in a most cruel manner by his master and another man, without any material provocation.

American Colonization Society.—A correspondent furnishes us with the following epitome of the progress of the Colony of LIBERIA, IN AFRICA. Schools in operation there:

- 1. Boys' school in Monroe. W. W. Steward, Teacher—Scholars 27.
2. Girls' School of Monroe. Elizabeth Jackson, Teacher—Scholars 28—Branches taught, Reading, Writing, Spelling, the principles of Religion, and Needlework.
3. School for liberated African boys—Scholars 41.
4. School for liberated African girls. Scholars 21—Branches taught, Spelling and Reading. These girls have better aptitude for learning than boys.
5. Missionary School for native children.

Messrs. Carey and Lewis, Teachers—Scholars about 50—most of the boys in this school are sons of the principal native individuals in the country. More than half can read the New Testament intelligibly, and understand the English language as well as the children of the settlers of the same age! Christian Philanthropists, pause and reflect on this school!

6. Caldwell School, for both sexes. R. H. Sampson, Teacher—Scholars 35. This is a private School.

Six Schools—Scholars 202. The above is a statement to which the friends of the Colonization Society respectfully invite the attention of the American People.

It is directed particularly to the Ministers of the Gospel throughout the country. By all that is dear to America and Africa, these ministers are implored to make a zealous animated appeal to their congregations, on the Sabbath nearest the 4th of July. May Heaven impress the Ministers of the Gospel with a deep sense of their responsibility to this Colony, and bless their exertions to its permanent benefit!

It is hoped by the Managers of the Society that a large expedition of Colonists be sent out this season, and at an early period after the fourth of July.—Nat. Int.

The internal and external commerce of Albany has increased to such a degree that the merchants are making arrangements for the establishment of a regular Exchange. The Albanians are also making arrangements for an application to Congress to have that city made a regular port of entry.

Great Despatch.—The Steamboat Cotton Plant reached this place at 8 o'clock on Saturday morning last, bringing goods which were shipped in the brig Superior at Philadelphia on the 2d inst. The Superior left the Delaware on the 4th and reached Wilmington on the 7th—thus performing the passage in little more than 48 hours.

The Cotton Plant also brought a Box of Goods which was shipped at New Haven on the 2d inst. A letter advising a gentleman here of the shipment, was put into the mail the same day on which the box was shipped, and was received here at the same time with the box. This despatch is remarkable, when it is considered, that the box was shipped at New Haven for New-York, from New-York to Wilmington, and from Wilmington to this place.

We notice other quick passages to other ports. The schooner James Monroe of Philadelphia, arrived at Norfolk on Saturday the 2d inst. in 28 hours from wharf to wharf. The schooner Petersburg arrived at Petersburg on Wednesday the 6th inst. from New-York, having a passage of fifty hours from wharf to wharf.

It is stated in a letter from Buenos Ayres, published in the New-York Daily Advertiser, that Mr. Forbes, our Charge des Affaires in that country, will shortly be compelled to return home, by reason of ill health. The event will be regretted by the Americans there, as his attentive discharge of the duties of his station, and his agreeable deportment, have placed him high in their esteem and regard.—Nat. Int.

Greece.—The Editor of the Boston Palladium has received a letter from Smyrna of the 27th of March, confirming the account of the arrival of Lord Cochran, and the writer adds—"The Greeks are getting on as usual, and the campaign looks as if it would be more decisive than the former ones; and from all appearances Russia does not care much for the Greeks—she will never interfere to make them an independent State—at least this is the view I have always taken of the subject. The Turks are exerting themselves in getting ready a strong fleet, and sending off the new troops to the Morea. It is pretty well understood that the Porte will allow of the interference of no European powers. England alone has interfered in their behalf.

"Athens has been relieved by the Greeks, and some advantages gained. Gen. Ka-

raiskaki has gained a decisive victory over Omar Vrione Pacha, who is in a very bad situation. The Sultan has received a Tartar with this news. The frigate Hellas is at sea, with 600 men, in company with a steam-boat, and some smaller vessels."

A Pittsburg paper of May 25, says—a great quantity of Ohio tobacco has been forwarded by this port for the Baltimore market, where it commands a higher price for exportation than any other offered. On Wednesday last, at the Monongahela wharf, we saw a keel boat from Zanesville, unloading 50 hhd. of it, averaging nearly 400 lbs. each.

MARRIED, In Lincolnport, by Daniel Hoke, Esq. on the 31st day of May, ult. Mr. Thomas Shuford to Miss Elizabeth Butts. In Mecklenburg county, on the 26th ult. by the Rev. Mr. Hill, Mr. James Coffee to Miss Eliza Alexander, daughter of Col. Augustus Alexander.

At Edenton, on the 31st ult. by the Rev. Mr. Avery, Thomas Harvey Blount, Esq. Collector of the Port of Washington, to Miss Elizabeth Mutter, daughter of the late John B. Blount, Esq. In Portland, Maine, on the 24th ultimo, the Rev. Randolph Gurley, Secretary of the American Colonization Society, Washington D. C. to Miss Eliza M. Gurley, of the former place.

Morse, of Randolph county, in the 23d year of his age, and in the third year of his ministry in the Methodist itinerant connection. On the 21st of May, at Paris, Tennessee, after being confined to his bed for eight days, the Hon. Wm. Blount, formerly Secretary of State, under Governor Blount and a Representative of the Knoxville District in Congress.

In Newport, R. I. Captain John Coggeshall, President of the Newport Bank, aged 71. Captain G. was a Revolutionary patriot, and in the war for independence, commanded a private armed vessel of war. In Ohio, on the 24th ult. the Hon. William Wilson, a Representative in Congress from that State. He was ill before he left Washington, on his return home, in March last; and his illness, a bilious complaint, gradually increased until it terminated in his death.

NEWMAN'S CELEBRATED PATENT GRIST MILL. The Runner at the Bottom.

A PATENT having been issued by the President of the United States, to Edward Newman, for his valuable improvement on the Grist Mill, the subscriber is fully authorized and empowered to make sale of Rights for using a single Mill, or the Rights for using said Mills in any County, or in any State in the Union, except Louisiana.

Persons wishing to purchase Rights, can direct their letters to Samuel Morehead, Postmaster, Martineville, Guilford, N. C. and they will be immediately attended to.

The superior advantages of this Mill, consist in the grinding being done so near the centre, where the power is applied—the small size of the stones—and the application of pressure to supply the absence of weight. The running stone is placed on the spindle, and facing upwards to the bed stone, which is permanently fixed. The pressure is applied to the centre of the runner, and the grain introduced into the mill through the eye of the bed or top stone.

The simple construction of this Mill, its great durability and cheapness, and its convenience and usefulness to all persons having large families and stock, and the facility with which animal or water power can be applied, have given it the decided preference over all the inventions of this kind, with persons who can judge such things correctly.

SAMUEL MOREHEAD, Agent for Edward Newman, Patentee. March 30. 22 w64 t66n

The Editors of the Register are authorized to act as Agents for the sale of Rights, in Wake county.
