

Monday, Feb. 2.

A committee consisting of Messrs. Tazewell, Sanford and Webster, was appointed, to ascertain and report a mode for declaring who is elected President and Vice-President of the United States, and to notify the individuals elected of such election.

At a quarter before one, the Senate proceeded to the consideration of Executive business, in which they were occupied till three o'clock. This closed-door business begins to excite some interest in the public mind, which is not a little increased by the reports that are abroad concerning it. In good time, we suppose, the veil will be removed, and public curiosity gratified.

Mr. Branch submitted a resolution instructing the Committee on Commerce to inquire into the expediency of appropriating a sum sufficient to make a ship channel from the Albemarle Sound to the Atlantic Ocean, at or near Roanoke Inlet.

Tuesday, Feb. 3.

Mr. Benton gave notice that he would, to-morrow, introduce a bill for the gradual increase of the Engineer Corps, and for other purposes. At half past twelve, the Senate proceeded to the consideration of Executive business.

HOUSE OF REPRESENTATIVES.

Saturday, Jan. 31.

A great number of resolutions were offered. The House then resumed the consideration of the bill for the relief of Farrow and Harris, whose claim is for a balance due to them on the contract with the Government for the erection of the fortifications on Dauphin Island. After some further discussion, the bill for their relief was ordered to be engrossed and read a third time to-day. When this bill was disposed of, the House went into committee of the whole on four private bills, two of which were ordered to be engrossed and read a third time to day, and on the other two the Committee reported progress and obtained leave to sit again, at the desire of gentlemen who wished for further time to make examination. A bill was reported from the Committee on Naval Affairs, making an appropriation in aid of the Navy Hospital Fund.

Mr. Carson, from the Committee on Indian Affairs, to which the subject was referred on the 27th of January, reported a bill authorizing the President of the United States to extinguish the title to certain Indian reservations of Land within the State of North-Carolina, which was read twice and committed to a Committee of the Whole House on the state of the Union.

Mr. Bryan offered the following resolution, which lies one day on the table:—

Resolved, That the Secretary of war be directed to communicate to this House a copy of the survey and report of a canal route from Neuse River to Beaufort harbour, in North-Carolina, (made by a brigade of United States Engineers), in continuation of the great inland seaboard navigation, from the Dismal Swamp Canal Southwardly.

Monday, Feb. 2.

The presenting of petitions in the House of Representatives yesterday occupied nearly an hour. One or two bills were then reported from various Committees; one of which was a Bill for the relief of the heirs of Robert Fulton. The House then resumed, in Committee of the Whole on the state of the Union, the Bill for the preservation and repair of the Cumberland Road, when Mr. A. Stevenson (the Speaker) spoke at some length against the constitutional power of Congress to erect toll gates, or assume any jurisdiction over the road. Mr. Mercer then obtained the floor in reply, but as it was near the usual hour of adjournment, and Mr. Mercer was in a weak state from indisposition, the bill was passed over. The Committee then on motion of Mr. Sprague, took up the bill to repeal the duties on tonnage, which was also read and passed over. The Committee then took up the Bill to authorize the purchase and distribution of 500 copies of Gordon's Digest of the Laws. There was an amendment made, on motion of Mr. Marvin, to this Bill, giving a copy to each incorporated college in the Union. The Committee then rose and reported progress on the Cumberland Road bill. The Bill to repeal the duties on tonnage was postponed till to-morrow.—The House adjourned before the question was taken on a motion made to amend the Bill relative to the purchase and distribution of Gordon's Digest, which motion was to reduce the number from 500 to 250, and to prevent their distribution among the members of the two Houses of Congress.

Tuesday, Feb. 3.

Mr. McKean, from the Committee on the Post Office Roads, reported a Bill, amendatory of the Post Office Law, which repeals so much of the existing law as imposes upon Postmasters the obligation of distributing the mails on Sunday. Accompanying this bill, was a report on the subject of the transportation of the mails on Sunday, which in its tone and decision is adverse, to the prayer of those who desire to interrupt it on that day. There was some conversation, not amounting to a discussion, upon a motion of Mr. McKean to print 6000 extra copies of the report but the motion was finally laid on the table. The House then took up the bill from the Senate to authorize the purchase and distribution of 500 copies of Gordon's Digest of the Laws, which was opposed, on the question of its third reading, but was finally passed by a vote of 96 to 79. The House then resumed, in Committee of the Whole on the state of the Union, the discussion of the bill for the preservation and repair of the Cumberland Road.

FRIDAY, FEBRUARY 13, 1829.

NO. 1,555.

Mr. Mercer commenced his reply to the arguments against the bill, and after speaking about an hour and a half, gave way for a motion that the Committee rise. He will continue his reply to-morrow.

About half an hour had elapsed after the hour of meeting, before a quorum of the House was ascertained to be present.

A Resolution was laid on the table, by Mr. Barringer, appointing to-morrow for the election of a printer to the House for the next Congress: and another resolution was offered by Mr. Wilds; which also lies on the table one day providing that no person who has been engaged, or interested in, a public newspaper within the last 2 years, shall be eligible to the office of public printer.

Raleigh Register.

TUESDAY, FEB. 10, 1829.

Internal Improvements.—The newly elected Board for Internal Improvements met at Fayetteville on Thursday last, and closed their business on Saturday.

Measures were taken for recommending the works below Wilmington, and for repairing the Embankment and Jetties; and also for opening the River to Haywood. For which purpose three locks will be immediately erected at Buckhorn Falls.

A survey of the Road from Pettigrew's Canal to Cahoon Lake, in Tyrrell County, was directed, pursuant to an act of last session. Satisfactory evidence was also procured, as directed by the Legislature, of the sinking of certain Vessels during the Revolutionary War, in the ship channel below Wilmington, in order to prevent the Enemy from destroying the town, which, it is believed, was the principal cause of the present obstructions in the navigation of the River. This testimony will be immediately transmitted to our Senators in Congress, and will be the means, it is confidently expected, of obtaining an appropriation from that body in favor of these Works.

The new Lock at the head of Clubfoot Creek, and the necessary repairs in the Canal, it is expected, will be forthwith undertaken, an ample appropriation having been made by an act of last session for that purpose.

Mineralogical.—A correspondent of the Yadkin Journal announces the discovery of a large body of the Sulphate of Barytes, of the granular species, in the County of Cabarrus. The mineral is found at two different Gold Mines, in large slabs and compact masses, running parallel and generally contiguous to the vein or matrix of the precious metal, and, in some instances, contains on its surface, small quantities of Gold. It is susceptible of a very high polish, and is a beautiful snow-white color. It is said to constitute a good base for water colors—to be a good metallurgic flux, and intermixed with the carbonate of lead, to make an excellent substitute for the best white lead, giving to paint a durable body or coat, and being far preferable to the common adulterations of that article. Should it resist a long exposure to the action of the atmosphere, this mineral would be valuable for many domestic uses. It would be very suitable for tombstones, hearths, &c.

General Jackson.—The President elect has probably reached Washington by this time. The last National Intelligencer stated that he was expected daily. The last accounts left him at Pittsburg, in good health. He has received the most distinguished attentions during his whole journey.

Theological Seminary.—The Synod of Kentucky, at its late session at Danville, resolved upon the establishment of a Theological Seminary at that place. Three subscriptions of \$200 each were immediately made by persons present, as part of \$20,000 necessary to the foundation of the first Professorship. The Revd. James Burch was elected by ballot, as Professor of Theology.

President of Harvard College.—At a meeting of the Board of Overseers of Harvard College, on Thursday last, the nomination of JOSIAH QUINCY, as President of that Institution, was confirmed by a vote of 40 to 26.

We regret to learn, that Mr. Wirt Attorney-General of the United States, has had a severe attack of apoplexy.

Philanthropic.—The Professors of the Medical Department of the Columbian College, in the District of Columbia, anxious to extend the benefits of regular medical education to Students whose pecuniary means will not enable them to attend courses of public lectures, have resolved to admit gratuitously, one student from each State in the Union, to be designated by the Senators in Congress.

The bill now before the House of Representatives, to abolish the office of Major General, also provides, that brevet rank shall not be conferred by the President and Senate, on any officer of the Army, but for gallant actions and meritorious conduct on the field of battle.

THEODORE FREELINGHUYSEN has been elected a Senator of the United States from New-Jersey, for six years from the 3d day of March next, to succeed Mr. DICKERSON, whose term of service will then expire.

MAHLON DICKERSON was then chosen a Senator to fill the vacancy occasioned by the resignation of Dr. BATEMAN.

Mr. SOUTHARD, the present Secretary of the Navy, would have been chosen, but for the artful introduction of a resolution declaring him ineligible, in consequence of having lost his residence in New-Jersey, by the acceptance of an office at Washington. This is an extraordinary decision. It might as well be said, that our young men, who have a temporary residence at New-York or Litchfield, for the purpose of attending a course of Lectures on Medicine or Law, disfranchise themselves, as that the holding of an Office at Washington deprives a man of his political and personal privileges.

The George Clinton, Capt. Rawson, arrived at New-York, left Liverpool on the 27th of December. The papers that she brings furnish no news from the continent in addition to that previously received.

The most interesting is a letter from the Duke of Wellington to the Catholic Primate of Ireland, published in the Dublin Evening Post of December 23. It is in these terms—

London, Dec. 11, 1828. "My Dear Sir:—I have received your letter of the 4th inst. and I assure you that you do me justice in believing that I am sincerely anxious to witness the settlement of the Roman Catholic Question, which, by benefiting the state, would confer a benefit on every individual belonging to it. But I confess I see no prospect of such a settlement. Party has been mixed up with the consideration of the Question to such a degree, and such violence pervades every discussion of it, that it is impossible to prevail upon men to consider it dispassionately. "If we could bury it in oblivion for a short time, and employ that time diligently in the consideration of its difficulties on all sides, (for they are very great,) I should not despair of seeing a satisfactory remedy. "Believe me, my dear Sir, ever your most faithful humble servant, WELLINGTON."

Internal Improvement.—We copied from the Raleigh Register, a few weeks since, a notice of the proceedings of a meeting of Members of the Legislature and others friendly to Internal Improvements, at the Capitol in Raleigh, by whom a Society was formed to collect and disseminate among the people information on this all-important subject.

From such a Society, energetically and perseveringly conducted, we anticipate the happiest results. It may in a few years, (for it is not to be done in a moment,) acquire such information, and consequently influence, as to give a direction, and irresistible force to the energies of the State; and thus, wielding that powerful engine, public opinion, compel the Legislature to do something for the improvement of the internal condition of the State.—Fay. Obs.

Roman Catholic Convention in Fayetteville.—Bishop England, of Charleston, has given notice, that a Convention of the Roman Catholics of North-Carolina will be held in this town on Sunday the 15th day of March next. Lay Delegates from the Congregations of Fayetteville, New-

bern, Washington, Wilmington, Salisbury, and Charlotte, will be entitled to seats—from the three first mentioned Congregations, each two Delegates; the others, each one. We have not heard what number of the Clergy will be present, but no doubt the Rt. Revd. Bishop himself will be.

The Bishop also gives notice, that on Tuesday the 17th of March, (being the Festival of St. Patrick,) the dedication of the Church erected in this town, will take place. The Catholics are indebted for this Church, and the lot on which it stands, entirely to our townsman, John Kelly, Esq. It is now completed, and only awaits the dedication, to be used for the purpose for which it is designed. It is a convenient building, finished in such a style of neatness and taste as to do credit to all engaged about it.—Fay. Obs.

THE SLEEPERS.

BY MISS M. A. BROWNE.

They are sleeping! Who are sleeping? Children wearied with their play, For the stars of night are peep'ng, And the sun hath sunk away. As the dew upon the blossoms, Bows them on their slender stem, So, as light as their own bosoms, Balmy sleep hath conquered them.

They are sleeping! Who are sleeping? Morals, compassed round with woe, Eyelids, wearied out with weeping, Close for very weakness now; And that short relief from sorrow, Harassed nature shall sustain, 'Till they wake again to-morrow Strengthened to contend with pain!

They are sleeping! Who are sleeping? Captives in their gloomy cells; Yet sweet dreams are o'er them creeping, With their many colored spells, All they love—again they clasp them; Feel again their long lost joys; But the haste with which they grasp them Every fairy form destroys.

They are sleeping! Who are sleeping? Misers, by their hoarded gold; And in fancy now are heaping Gems and pearls of price untold. Golden chains their limbs encumber, Diamonds seem before them strwn, But they waken from their slumber, And their splendid dream is flown.

They are sleeping! Who are sleeping? Pause a moment—softly tread; Anxious friends are fondly keeping Vigils by the sleeper's bed! Other hopes have all forsaken— One remains—that slumber deep; Spoken not, lest the slumberer waken. From that sweet that saying sleep.

They are sleeping! Who are sleeping? Thousands who have passed away From a world of woe and weeping, To the regions of decay! Safe they rest, the green turf under; Sighing breeze or music's breath, Winter's wind, or Summer's thunder, Cannot break the sleep of death!
